FAMOUS 'CELLIST IN MINIATURE BOWL

Axel Simonsen

Axel Simonsen, one of the most admired violoncellists of this city, will give a recital at the Eagle Rock Miniature Bowl on Wednesday night of this week. He has been especially interested in the development of chamber music out of doors as conceived by the gifted Levanga Trio in the Argus Gardens this season, and his program will undoubtedly draw a large audience from Los Angeles and Pasadena as well as from the immediate surroundings in Eagle Rock.

RUM PATENT DEAL NIPPED BY ARRESTS

Asserted Bunko Game Lands Hollywood Quartet in Trouble After Raid

Four recent arrivals in Hollywood found trouble last night when police raided their offices in the Security Building at Hollywood Boulevard and Ivar Street and arrested them just as they were declared to be about to sell for $10,000 certain patents to a process which was purported to assure the manufacture of alcohol, perfumes and many other things from oil shale and decomposed granite.

At the Hollywood Division police station the men gave their names as Bayard Wetherbee, 30 years of age, a miner by trade, 1236 North La Brea street, George A. Wilson, 63, salesman, 111 South Beaudry; Charles H. Rickman, 50, promoter, 1162 Hazen, Detroit, and M. J. Colton, 35, 111 South Beaudry street. They were held on a charge of suspicion of grand theft by trick and device.

Through Frank C. Lang, 1207 Lodi street, the police learned of the latest in promotion schemes. Lang told officers the men approached him and intimated they held exclusive patents which would permit the release of many valuable products from oil shale or even just plain rock in some instances.

When closeted with the men in their offices, Lang said, they showed him specimens of shale and said to have been obtained by the method.

Lang stated that after a little meditation he decided it would be against the law to manufacture alcohol and notified Capt. Rourke of the Hollywood police division, who with Detective Lieutenants Prosper and Taylor made the arrests.

NEW IODINE RULING BLOW TO BOOTLEGGER

WASHINGTON, Aug. 30. (AP)—Steps were taken by the Treasury to prevent bootleggers from extracting alcohol from half-strength tincture of iodine when orders were issued today which, officials said, will stop manufacture of the product. Prohibition Commissioner Doran announced the success of chemists employed by bootleggers in extracting the alcohol made it necessary to discontinue the formulas under which half-strength iodine is manufactured. The order does not interfere with the making of full-strength iodine. The cost of removing alcohol from it is so high, Doran said, that no bootlegger gains no profit from operations.

EXODUS SETS MARK

Americans in Homeward Rush From France Today

PARIS, Aug. 29. (AP)—The largest embarkation of any one ship at Cherbourg since the war is set for tomorrow, when 1750 Americans board the Leviathan for home. Another 1200 are booked to go aboard at Southampton.

Some of the French papers rate this record embarkation as a sign that Americans abroad fear a repetition of the recent manifestations over the Sacco-Vanzetti case and do not desire to be subjected longer to attacks such as they have been through with by L'Humanite, La Liberte and other papers of the extreme left.

SACCO AND VANZETTI OPPONENT SUCCUMBS

LINCOLN (Mass.) Aug. 30. (AP)—Charles Sumner Smith, 70 years of age, senior member of the Governor's executive council, is dead here from a hemorrhage of the brain, suffered on the eve of the last scheduled meeting of the council before the Sacco-Vanzetti executions. Smith led opposition to reprieves for the men on the 10th inst., and later was congratulating Gov. Fuller on the final refusal to intervene.

He was long identified with coal mining companies and the banking business in Boston.

GRAPES MOVING

DINUBA, Aug. 29.—Grape shipments from Dinuba district have been moving right along, averaging not less than twenty cars per day. Twenty-two cars moved out on Saturday, twenty-six on Friday and the week's shipments are expected to be good. No difficulty has been reported in securing cars for shipments thus far.

SHOWS WILL STAY DARK

Chicago Owners Defy Unions

...ainment Lacked by ...,000 Fans Because of Theater Fight

...t of Trouble Spreading ... Other Cities Hinted by Worker Group

CHICAGO, Aug. 30. (AP)—Half a million film fans in Chicago went without their favorite amusement today as ... theater owners kept their doors closed as a protest against demands of labor unions.

Vaudeville also is missing from the long list of entertainments as all theaters with the variety bills are closed by the closing.

Picketing as an objection by the Orpheum Circuit management to the refusal of the Motion Picture Operators' union to reduce the staff of operators of a recently acquired theater, the controversy quickly involved all theaters showing pictures. The lockout order was sent out yesterday.

JOIN IN FIGHT

Today the film exchanges joined in the strike, deciding to discontinue sending pictures to houses that refuse to close their doors.

Many of the City Exhibitors' Association today agreed to continue the fight as long as necessary to win their point, Jack Miller, manager of the association, announced.

Several theaters, some outside the association, open last night, have declared they will remain open, Miller said.

"The exhibitors are tired of being dictated to by the unions and their leaders," the manager asserted. "Their contract demands of the theaters, whose agreement with the stage hands expires September 5, ... the 'rebellion.' These demands ... outlined, ask a six-day week ... days' pay and the employment of four-piece orchestras in theaters with 1000 or fewer seats, ... on a fifty-two week contract.

INCREASE ASKED

Negotiations with stage hands end today with a wage increase and new ones ask a wage increase, Miller said. Negotiations with the ... and stage hands started today.

Theatrical Association estimates that 500,000 persons attend the motion picture and vaudeville houses in Chicago daily. Each day they are closed represents a loss of revue of more than $500,000.

Officials of the operators' union declined to urge walkouts in other cities where there are houses belonging to the chains operating in Chicago.

Heads of local unions of stage hands, musicians and operators, the strike was effected by the lockout, ordering a total working force of 6000, advised their members to report to their theaters each day until further notice expires.

MORE THEATERS

NOT WORRY, ANYWAY

CHICAGO, Aug. 30. (Exclusive)—The abrupt closing of most of Chicago's cinema palaces, automatically throwing hundreds of thousands of movie-seeking film fans out of steady ...

BROCK'S TWO "WIVES" MEET

One Now Married to Flyer and Other Ignorant of Divorce; Good Will Shown

DAYTON (O.) Aug. 30. (AP)—Dolly Spiker Brock of Detroit, second wife of William S. Brock, 'round-the-world flyer, and Mrs. Corinne Brock, who declares she married Brock at Martinsville, Ill., on October 1, 1926, and who insists she still is his wife in so far as any knowledge she has of a divorce, met here today.

The Detroit Mrs. Brock, according to Mrs. Corinne Brock, is the Dolly Spaker mentioned in news dispatches as being the present legal wife of the flyer.

The conference was attended by the utmost good feeling and each declared after the talk that she has no antagonism for the other.

RAIN HALTS DETROIT

World Flyers at Belgrade

Brock and Schlee Will Jump to Turkey Today After Jugo-Slavia Fete

Plane Gets Perfect Start from Munich and Wings Way Along Danube

BELGRADE (Jugo-Slavia) Aug. 30. (AP)—Five hundred miles were added to the record of the Pride of Detroit today when the American aviators William S. Brock and Edward F. Schlee landed at the airdrome near Belgrade at 12:03 o'clock. They went into the air at 6:25 in the morning at Munich, intending, if conditions were favorable, to fly to Constantinople, 1600 miles away, but they encountered rain and fog, which delayed progress, and they decided to come down at Belgrade.

A warm welcome awaited them, and the airmen remarked smilingly that they did not regret the stopover, even at the expense of a little time. They navigated by earth-inductor compass, and also followed the Danube River when visible.

One of the needs of the airmen is good maps, and these will be provided by Capt. Sondermayer, Jugo-Slav ace, who made a Belgrade-to-Bombay flight this year. He also gave the Americans valuable information concerning air currents and atmospheric conditions.

Altogether, Brock and Schlee feel they have made good time. From America to Belgrade in four days is a world's record, and they hope to continue their record-making voyage. Their speed at times today was well over 100 miles an hour, but on

PAROLE WON BY M'CRAY

Sargent Signs Release

Ex-Governor of Indiana in Prison for Mail Fraud to be Free Tonight

Fine of $10,000 Unsatisfied; Former Wealthy Cattle Man Bankrupt

WASHINGTON, Aug. 30. (AP)—Parole of Warren T. McCray, former Governor of Indiana, from the Atlanta penitentiary, has been approved by Atty.-Gen. Sargent.

WARREN T. McCRAY

McCray, who is serving a ten-year sentence for using the mails to defraud, becomes eligible for parole tomorrow. The parole will be dated tomorrow and belief was expressed at the Department of Justice that McCray will be released from prison by tomorrow night.

Announcement of approval of the parole was made late today by Atty.-Gen. Sargent on his return from his home in Ludlow, Vt. Extension of such clemency had been recommended by the parole board.

STILL OWES FINE

The action of the Attorney-General in approving the parole board's recommendation does not restore the civil rights of the former Governor, who began serving his sentence May 1, 1924.

A $10,000 fine, which Federal Judge Anderson imposed on McCray, will stand against him and will remain in the nature of a judgment, which the government may collect should he have any money. He has been adjudicated a bankrupt, however, and an investigation by the Department of Justice showed that he is unable to pay the fine.

"I am coming back," former Gov. McCray said when he entered the Federal prison at Atlanta.

He was known as a millionaire and an astute business man when he became Governor of Indiana in 1921. He asserted he was caught in the deflation of farm land values which engulfed out his fortune. On the witness stand in his trial he admitted signing names of other persons to notes, but disclaimed any intent of wrongdoing.

WAS GROCERY CLERK

From grocery clerk to wealth and recognition as one of the Middle West's greatest Hereford-cattle breeders, McCray came shortly after the end of the war to look yearningly at the Indiana executive chair. Beaten by James P. Goodrich for the Republican nomination in 1916, he won in 1920.

Hardly was he acquainted with his duties when rumors of his financial condition gained circulation, but his real status was not learned until August, 1923, when he quit the presidency of the Kentland (Ind.) Discount and Deposit Bank.

Political and personal friends formed a "pool" to pay back $150,000 he owed the Kentland bank and a similar amount due from him to the State Board of Agriculture.

Meeting with creditors here he insisted that he had assets of $3,225,000 and listed liabilities of $2,650,000. A Marion county (Indianapolis) grand jury indicted him on charges of fraudulent embezzlement and larceny. A jury disagreed and after he was convicted in Federal Court the State charge was dismissed.

CREDITORS GET PROPERTY

McCray refused to resign as Governor until the day he was found guilty in Federal Court on April 24, 1924. He was sentenced to ten years in prison and fined $10,000.

His thousands of acres of farm land over the country are gone to satisfy his creditors. Scattered also is the herd of more than 600 Hereford cattle, once called the finest in the country. His family home at Kentland, and—it is understood—a summer home in Michigan, are left to him.

McCray is 62 years of age. His physical condition was reported poor soon after his confinement. He edited the prison newspaper and taught a Sunday class.

Fifty Injured in Stand Fall

BUENOS AIRES, Aug. 30. (AP)—Fifty persons were injured, several of them seriously, when a stand collapsed during a football game today between the Uruguayans and Argentines.

The Uruguayans won the contest, which was for the Lipton cup.

HOW TO CUT DOWN OFFICE BILLS:

If another desk is wanted, a safe or typewriter, filing equipment or stationery, there's no better place to look for low prices than Times Want Ads. Its "Miscellaneous For Sale" columns are saving business men thousands of dollars.

"Quit Your Kidding!"

AVIATORS' FATE STILL UNSOLVED

Two Army Men Who Had to Land in Mexico Can't be Located Anywhere

SAN ANTONIO (Tex.) Aug. 30. (AP)—No information of any kind regarding the whereabouts of Capt. C. H. Reynolds and Staff Sergeant Otis Rowland, army flyers, forced down in Mexico Saturday, was received here today.

Although dispatches from Mexico City said that orders have been issued to release the men and that word was received at Eighth Corps Area headquarters today from the men.

A telegram from the military commandant at Ojinaga, Chih., Mex., to Consul-General Alejandro P. Carrillo here, said that up until 7 o'clock Monday evening his men had been unable to locate the flyers and plane.

Word received from Marfa yesterday said that the plane is at Vado de Piedras, southwest of Ojinaga. The telegram came from Col. Babcock, commanding the First Cavalry at Camp Marfa, but did not disclose the source of his information.

Brinton to Wed California Girl

PHILADELPHIA, Aug. 30. (AP)—With the arrival here today of Judge Jasper Yeates Brinton, American representative on the Court of Appeals of the International Courts of Egypt, his engagement to Miss Geneva Arnold Febiger of Palo Alto, Cal., is announced.

Judge Brinton, who has been serving on the appellate bench of the International Courts for six years, is a Philadelphian, and returned for his marriage. Miss Febiger is the daughter of Mrs. Lea Febiger. Her father was a colonel in the United States Army and her grandfather was the late Henry Charles Lea, an historian.

The wedding will be at the home of Mrs. William Beebe, an aunt of the bride-to-be, at New Haven, Ct., September 10, next. Ten days later the couple will sail for Egypt.

The international jurist has two children by his first marriage to Alice D. McFadden, daughter of the late John B. McFadden.

RED FLYER REACHES KOREA

TOKIO, Aug. 30. (AP)—Dispatches reaching here this afternoon report the arrival of the soviet aviator, Sheskoff, from Moscow at Pingyang (Korea,) where the Czecho-Slovakian aviator, Col. Skala, also has arrived from Prague. As both airmen plan to leave for Tokio tomorrow, it is expected that an interesting unofficial race will ensue.

FRENCH LAUGH AT LEVINE

Cool Daring of Solo Stunt Regarded Amusing; New Pilot Declared Storm Wizard

PARIS, Aug. 30. (AP)—Mrs. Charles A. Levine, acting for her husband, who flew his trans-Atlantic monoplane Columbia to London yesterday, went to Le Bourget Field today and paid Maurice Drouhin the 100,000 francs due Levine across the Atlantic. The French aviator took the money, saying: "I accept it because I have not the courage to argue any more."

Mrs. Levine told the pilot she regretted very much that her husband had decided not to fly to America with him, but, she added, nobody could tell what Mr. Levine was going to do until he had done it.

His contract with Levine ended, Drouhin immediately began negotiating with another American who likes to fly—this time Miss Mabel Boll. (Miss Boll has been reported as offering large sums of money to various aviators for an opportunity to make a trans-Atlantic flight.)

PLANS ROUND TRIP

When Drouhin told her he would like to make the transoceanic trip but had no machine to fly with, she is said to have replied: "We'll get a plane and make a trip from Paris to New York and back."

As for other French aviators who have planes and are ready to make the venture, none of them is likely to hop off for the next forty-eight hours, as weather conditions still are said to be unfavorable for a westward crossing.

While opinions differ respecting the manner in which Levine quit France in defiance of air navigation regulations, most commentators are amused at the cool daring of his exploit, and some surprise is expressed that it did not end in tragedy.

Paris reports say his take-off was splendid, but his landing at Croydon, according to the airdrome staff, was near disaster as it could be. These officials had a bad shock when they learned that Levine was on the way and feared trouble, knowing his flying experience was limited. When he came over the field and they saw his hesitating circles before landing, they rushed an ambulance and fire engine on the field, fearing a crash would end the maneuvers.

BOUNCED FIFTY FEET

Capt. Muir, director of the flying service survey, who watched the arrival, said he was frightened when he saw how the plane was acting. After circling four times at a height of 100 to 500 feet, Levine tried to land, but the wheels hit the earth at such a pace that the machine bounded fifty feet. Levine, however, was able to accelerate the engine and rose 100 feet. Eventually he made a clumsy, but safe landing. Later he declared he was unable to see what the Croydon airmen were worried about, saying it was "an ordinary, everyday bread and butter show."

NEW COLUMBIA PILOT CALLED STORM WIZARD

CROYDON (Eng.) Aug. 30. (AP)—Capt. W. G. Hinchcliffe, the British aviator who today came to an agreement with Charles A. Levine to pilot the trans-Atlantic airplane Columbia to America, is one of the most picturesque airmen in Great Britain.

Hinchcliffe is known as a "storm wizard," flying much by natural instinct. The saying is at Croydon Airdrome that he could just about fly to Paris, Amsterdam or Cologne with his one eye shut, if it were necessary for him to perform such a feat. It should be explained that "Hinch," as his brother aviators call him, lost an eye during the war. He has seven enemy planes logged to his credit in the War Department files.

FATHER AN ARTIST

Levine, Hichcliffe and "Doc" Kinkade, the Wright motor expert, lunched together at the airdrome restaurant and lost no time in getting down to brass tacks, as Levine expressed it.

Hinchcliffe was born in Liverpool. His father, Richard Hinchcliffe, was an artist and never cared much about aviation. Capt. Hinchcliffe is tall,

Will Rogers Remarks:

WASHINGTON, Aug. 30. [To The Editor of The Times:] Bobby Jones, Atlanta, Ga.: Bobby, you can be the means of saving a lot of human lives. The big problem of aviation is having emergency places to land, now you insist on every golf course having one fairway long enough and level enough to land a plane on, all marked with crosses to show it, every golf club should be patriotic and humane enough to do this. Think what it would mean to an aviator with a missing engine to know that every golf course was a life preserver. If they don't do this voluntarily the government will make 'em do it some day. Now all you got to do, Bobby, is to say you won't play on a course that won't go to that much expense for their country and their fellow men. If you do this you will do as much for aviation as Lindbergh.

Yours,
WILL ROGERS.

ENGLISH PRINCESS HOPS ON FLIGHT TO CANADA

Backer of Hamilton-Minchin Trip Boards Plane at Last Moment on Take-off from Upavon

UPAVON (Eng.) Aug. 31. (AP)—Capt. Leslie Hamilton and Col. F. F. Minchin started at 7:31 o'clock this morning on a trans-Atlantic flight to London, Ont., Canada. Princess Lowenstein Wertheim, who is financing the flight, was aboard the plane, the St. Raphael.

Princess Lowenstein Wedtheim, who is financing the flight, drove on the field while the aviators were preparing to leave. She became so interested in the preparations and prospects that she suddenly said she had altered her mind and would go with them.

Princess Lowenstein was accompanied by Most Rev. Francis Mostyn, Roman Catholic Archbishop of Cardiff, who blessed the plane and bade the airmen Godspeed. The prelate said he wished he might go with them.

It was while the Princess was adding her felicitations that she suddenly announced she would make the journey.

She was undeterred by the fact that British military flight officers under Wing Commander Vernon Brown were suspicious of the weather and had warned Hamilton that they doubted he would be able to take off in such a wind with a heavy load of four and one-half tons of fuel.

The officers had also received a report that the flyers would have to face a head wind about ten miles an hour over the Atlantic. Hamilton and Minchin, however, continued their preparations and supplies for the trip were put aboard the plane. These consisted of emergency army rations for two days, strong coffee in a vacuum bottle and "sleep-averting" tablets.

When Hamilton and Minchin came on the flying field in readiness to start their flight to Ottawa, Can., they found a wind blowing from the east at about thirty-five miles an hour. They took their plane, the St. Raphael, from the field to another in order to gain the best position for the take-off.

PASSENGER PLANE

The Hamilton and Minchin plane is a Fokker-Leviathan gray monoplane, originally built in Holland for passenger service, and before its passenger cabins were converted into reservoirs for petrol and oil it was capable of carrying twenty-two persons. It has a wing spread of sixty feet, measures fifty feet from propeller to rudder, and will carry four and three-quarter tons of fuel, sufficient for forty-four hours' flying. It bears the marking "Gebtq." It has no wireless and is drawn by one engine, a Bristol-Jupiter.

Capt. Hamilton, who is in charge of the flight, has had experience in both military and civilian aviation. He is 33 years of age, was educated on H.M.S. Conway, and is known in England as the "Aerial Gypsy." During the war he was a member of the air corps. He is the owner of two airplanes with which he has done commercial flying since the war.

TO RETURN AT ONCE

Lieut.-Col. Minchin is an Imperial Airways pilot, navigating planes between London and Paris. He was in the air service before and throughout the war, and continued with the Royal Air Force until 1920.

Hamilton said recently he expected to do most of the piloting on the long flight across the Atlantic, but the plane is equipped with double controls.

Minchin and Hamilton, who are old friends, announced recently that they intend to remain in Canada only eight hours, and then set out for Vienna, in the hope of breaking the world's long-distance nonstop flight record of 3506 miles now held by Clarence Chamberlin and Charles A. Levine.

CLEW GIVEN TO REDFERN

Delta of Orinoco May Hold Fate

Report Confirmed of Plane Sighted Making Way Over Venezuela Village

Government Sends Searchers to Follow Trail Into Dense River Jungle

CARACAS (Venezuela) Aug. 30. (AP) Some confirmation that an airplane was sighted over the delta of the Orinoco River Saturday afternoon has been given the government by the telegraph operator at Ciudad Bolivar. He reports that the inhabitants of Macaratito, a village in the delta, declare they saw an airplane flying to the southeast about 3 o'clock that day.

A heavy storm broke over the delta region about one hour before the sighting of the plane. The government, however, is making every effort to follow up this trail in the hope of finding the airplane and aiding the aviator.

A report reached Caracas on Monday that an airplane was sighted over the delta of the Orinoco River at 3 p.m. Saturday, flying in a southerly direction, leading to the belief that it might be the machine in which Paul Redfern set out from Brunswick, Ga., last Thursday with Brazil as his destination.

WIFE OF REDFERN ALONE KEEPS UP HOPE

BRUNSWICK (Ga.) Aug. 30. (AP)—Three days and nights have passed without definite news since the time for Paul R. Redfern's scheduled arrival at Rio de Janeiro, Brazil, brought no plane down from the skies, but the aviator's safety continued tonight to be fed on the belief of his wife that "Paul somehow landed safely somewhere."

With hope for an extended search along the 4600-mile route to Brazil apparently abandoned, Paul J. Varner, chairman of the flight committee, announced that "now we can only wait and hope."

NO VESSELS NEAR

The Navy Department has informed Varner that it has no vessels close enough to the plotted route to make a systematic search in time and the Coast Guard, limited in its operations, is giving such assistance as it can along the coast of Florida among the Bahamas. Meanwhile, most expectations were turned toward Venezuela and the Guianas where the State Department had requested investigation of a report that a mail man saw an airplane, heading south, over the delta of the Orinoco River last Saturday. If the plane was the Fort of Brunswick, in which Redfern hopped off Glynn Isle Beach here last Thursday, Mrs. Redfern is confident that the aviator landed it safely somewhere despite that at the hour the plane was reported seen, it would have been near fuel exhaustion while over untracked jungles.

HER OTHER HOPES

Should the Venezuela report prove groundless, Mrs. Redfern said she believed her husband landed on some island of the West Indies.

Before leaving Redfern smilingly told relatives not to be alarmed should they not hear from him in six months. He pointed out that he was prepared for an indefinite stay in the jungles or at sea if forced down en route to Brazil.

AMERICAN CONSULS WILL HELP HUNT REDFERN

WASHINGTON, Aug. 30. (AP)—State Department efforts to co-operate in the search for Paul Redfern, missing pilot of the Brunswick-Brazil plane, were supplemented today by urgent instructions to American consuls at points in British and Dutch Guiana and in Brazil to follow up every clew that might identify the plane reported to have been seen on the Venezuelan coast.

The Legation in Venezuela had previously been instructed similarly, but the department sent an additional message to consuls who might hear something that would help to determine the aviator's fate.

BRAZIL BENDS EFFORTS TO HEAR OF GEORGIAN

RIO JANEIRO, Aug. 30. (AP)—Every effort is being made by the Brazilian government to locate Paul Redfern, the American aviator, who started from Brunswick, Ga., last Thursday on a nonstop flight to Brazil, and of whom no definite word has been heard since. Regular traffic over the national telegraph is being delayed to permit of half-hourly long-distance communications over hundreds of miles of government wires, but all attempts to solve the latest aviation mystery have been unavailing.

The efforts have been doubled since the rumor was received that he had been seen at 3 o'clock Saturday afternoon, ploughing through the sky above the northern rim of the South American continent at the mouth of the Orinoco River. It is pointed out here, however, that he should have passed over that region Friday evening instead of Saturday afternoon; that if he actually passed Saturday afternoon he must have used nearly all his gasoline.

Cosgrave Soon Opens Campaign

DUBLIN, Aug. 30. (Exclusive)—President Cosgrave will start his election tour tomorrow, beginning in his own constituency of Carlow, Kilkenny. This week he will cover every constituency south and west.

The Farmers' party today declined to merge with the government party and will fight as an independent group, but it is expected that in certain constituencies the farmers will co-operate with the government. Jim Larkin, Communist, announces that Communist candidates will run in a half-dozen constituencies.

TAX CUT FOE HAS SWAY

Field Left Clear for Activities

Representatives of Business Interests Desert Capital at Critical Time

Politicians Laying Plans for Treasury Surplus Grab and Spending Spree

BY WILLIAM P. HELM, Jr.

[Copyright, 1927, William P. Helm, Jr.]

WASHINGTON, Aug. 30. (Exclusive)—While the politicians are planning to sidetrack the Federal tax cut organized business is off on vacation. Washington, with its 500 or more national trade organizations, is deserted by its large business representatives. There isn't a man in the lot here now, apparently, with lungs to sound the alarm.

So the feelers go out for farm relief, more cruisers, bigger and better irrigation projects, inland waterways and other things to learn if the tax cut next winter can be ditched entirely, thus leaving the Treasury surplus open to a general spending spree. These advocates have the field virtually to themselves. What they have said about the difficulties lying in the way of early tax reduction hasn't even been denied in the name of American business.

Indeed, big business is so thoroughly sold on the idea that Congress is going to cut taxes again next winter that it has not bothered to think about the possibility of taxes not being cut. In fact, business interests have been engaging in a little sideshow of their own for the better part of a year as to just how the cut shall be parceled out among them. They have had their fights and wrangles and have divided themselves into various camps. It never has occurred to them, apparently, that they are fighting for spoils that may not materialize.

GROUPS AT ODDS

In one camp may be found a powerful group strong for cutting the corporation tax rate. That rate is now 13½ per cent, which means that out of every dollar of corporate profits—barring a small exemption—the tax collector lifts 13½ cents before there is any division whatever among the stockholders.

A fight has developed even in that group. One finds the Chamber of Commerce of the United States, the supreme organization, supposedly, of American business, wedded by referendum to a new rate of 10 per cent. One finds also the National Association of Manufacturers, with more than forty powerful State organizations enrolling 75 per cent of all the manufacturing interests of the nation, willing to take even a 2½-cent cut, possibly less.

Some is in danger of being carried off

It is common sense, therefore, to put it down that there will be no appreciable cut in the corporation tax at the next session.

Coming back to the quarrels of big business over tax reduction, one finds in another camp whole-hearted advocates for cutting off the last of the excise taxes. The biggest excise tax left is the 3 per cent tax on automobiles and that is paid not by the manufacturers but by the motor-buying public. Cutting off that tax would not affect manufacturers' profits, except that possibly it might stimulate the market and cause more persons to buy cars.

That, apparently, is just the effect that sort of tax reduction would have, in the view of the motor manufacturers. So, naturally, they are strong for it.

And, of course, those who see only wickedness in the inheritance tax are planning for a strong drive to have their pet aversion done to death.

So, all in all, business interests, in the main, are engaged in their own private fight over a bone that lies perilously near the jaws of the interloper.

They are reckoning without the farmer and his allies and unless they throw tooth and claw into the fight without delay, the prize bone will be gone.

Princess Aboard Plane on Flight Over Ocean

[P. & A. photo]

They're on Their Way

Princess Lowenstein-Wertheim, one of the earliest English airwomen, who has been flying since 1914, is a passenger in Capt. Leslie Hamilton's Fokker monoplane attempting to fly to Ottawa, from the airdrome at Upavon, Wiltshire. The Princess is about 50 years of age, a sister of the Earl of Mexborough, and widow of a German Prince who was killed in the Philippines fighting for Spain in the Spanish-American War. This photo shows Capt. Leslie Hamilton and Princess Lowenstein-Wertheim.

RIVER PLAN AMENDED

New Offer Made on Water Use

California and Arizona Still Refuse Terms Offered by Upper Basin

Gov. Young Admits Politics Forces Him to Stand by Reservations

BY C. A. JONES

"Times" Staff Correspondent

DENVER, Aug. 30. (Exclusive)—Another suggested plan for the division of Colorado River water was submitted today to California and Arizona by the upper basin States, and discussion ranged about it all day, but at night no agreement was in sight.

The plan was not very different from the former one, submitted last week, and allocates 4,200,000 acre feet to California, 3,000,000 acre feet to Arizona, and 300,000 acre feet to Nevada. In addition, Arizona is allocated an extra 1,000,000 acre feet, and the two lower States are permitted to utilize surplus waters. Arizona is believed to be on the verge of acceptance, now that she is assured of support from the other States, except California, on the States rights-power angle. The California delegation still maintains an adamant attitude, insisting that she cannot take less than 4,600,000 acre feet.

The political situation, as admitted privately to upper basin representatives by Gov. Young before he deserted the conference, is such in California that he cannot afford to back down on the nullifying Finney reservations to the compact or the power features of the Swing-Johnson bill.

PACT THREATENED

Should the California delegation continue its present attitude, according to observers, the conference will fall of its purpose and the entire compact go to pieces. The entire river legislation is threatened, they say, because California will not assume a give-and-take attitude. Los Angeles is accused of wanting to obtain all the benefits from the development of the river, regardless of the asserted rights of the States.

United States Senator Pittman of Nevada flung a bombshell into the conference yesterday when he served notice that Nevada will not submit to the present power features of the Swing-Johnson bill.

"If the authors of the bill insist on putting it in this year in the form it was last year, it will be defeated," said Senator Pittman today. "The States will not agree to this continued usurpation of their rights by the Federal government. Nevada and Arizona should receive the benefits from power development on their lands and from their waters; otherwise, Southern California will seize it all."

NEW MEXICO MESS

A peculiar situation in New Mexico, where politics are taken seriously, has arisen whereby that State may be without representation here by Gov. Dillon. Lieut.-Gov. Sergent went to Utah last Saturday when Gov. Dillon returned to Santa Fe. Both are Republicans. The next in line is Miss Jenny Fortune Ferman, a Democrat. An airplane was dispatched from Denver today, flown by Capt. Shoemaker of the Colorado National Guard, to Rush Gov. Dillon back to the conference tomorrow, but Gov. Dillon does not dare leave his State until the Lieutenant-Governor returns, as it is feared that the Secretary of State will take advantage of the situation and appoint a deserving Democrat to the post o district judge in the southwestern section of the State. Therefore, frantic efforts were being made yesterday to get Lieut.-Gov. Sergent back home. Gov. Dillon's presence is required as Francis Wilson, New Mexico Commissioner, left here today to attend his daughter's wedding in New York. Former Gov. Mecham meanwhile is representing New Mexico.

The upper basin Governors had California and Arizona before them one at a time today, and subjected them to a scolding. Statements issued from the executive sessions were to the effect that the meaning of various phrases in the offers and the historical set-up of the situation were discussed, toward the end that a common basis of agreement may be reached.

UTAH CANDIDATE FORESEES AGREEMENT

Belief that the Colorado River question will be settled amicably by the States affected was expressed here yesterday by William Spry, Commissioner of the General United States Land Office, former Governor of Utah and at present a candidate for nomination on the Republican ticket as Senator for Utah.

"I don't believe that the people of California want any more than what is coming to them and will be able to reach a common ground with the citizens of other States," declared the prospective Senator, who arrived here on an inspection trip of Federal land offices. He will remain until Saturday and then return to Washington. While in Los Angeles he is a guest of Attorney Roland Rich Woolley, his son-in-law.

Inspection of land offices leads former Gov. Spry to believe that the back-to-the-land movement is still very active in the West. He finds the western offices busy answering inquiries by eastern tourists anxious to make their homes in the West.

If successful in gaining the Utah nomination for Senator, the Federal Land Commissioner will unseat present Senator King of Utah. Spry believes that his two terms as Governor of Utah, his fifty-two years' residence in that State, his knowledge of reclamation matters and past record as a public servant will aid him in getting the nomination.

CHICAGO SHOWS REMAIN CLOSED

Theater Owners Decline to Give in to Unions

About 350 Houses Shut Due to Bitter Fight

Other Cities Possibly Will be Affected Later

(Continued from First Page)

employment, may result in the opening of 2000 or more amateur theaters, with the pater familias in the role of the nonunion operator and mother and the kids as the nonpaying audience.

Purveyors of rented films, reduced to a size to suit the household projecting machine, said today that one never can tell what may happen if the strike goes on long enough. It depends on whether the populace has the willpower to abstain indefinitely from its favorite celluloid.

In the library of a Wabash-avenue company which rents films are some 2900 miniature reels, ranging in nature all the way from the heroic exploits of Rin-Tin-Tin to the soul-stirring drama. The films, it was said, circulate through some 2000 customers, making it obvious that there are that many privately-owned projecting machines in the city.

"The films we rent," said one of the librarians, "are for the most part to persons who don't like to take their children to the theaters. For example, our most popular reels are the Rin-Tin-Tin, the "Felix the Cat," and all the Charlie Chaplins, new and old.

"The films, reduced from the standard 35 millimeter to 16 millimeter are a year and a half old to two years. The cost of obtaining more recent pictures to rent at the price we do would be too great."

C. E. Marshall, office manager of another company, has 1500 to 1800 reels in his renting library, but most of them deal with educational subjects such as the operation of industrial plants. Comedies or dramas, he said, are rented for the most part only as a sort of dessert to the substantial bill of fare. He doesn't anticipate any increased appetite for education on the part of the film going public.

TREATY SOUGHT IN LOCAL CONFERENCE

Final efforts to effect an agreement in the threatened theater strike in Los Angeles are to be made at a conference representatives of the Theater Managers' Association will have Friday, with representatives of the musicians,' motion-picture machine operators' and stage hands' unions.

The managers, according to Harold B. Franklin, chief spokesman, have submitted a compromise agreement and are awaiting a reply from the unions. If the unions do not agree to the compromise, according to Franklin, the managers are "prepared for any eventualities."

Some of the managers understand the present two-year contracts with the unions expire tonight, while others understand that they expire next Tuesday. In either event, it was declared, the threatened union strike, if the managers do not meet the union demands of more pay and less work, will not be ordered until Tuesday of Wednesday.

The theater men here yesterday said the union trouble that resulted in a closing of Chicago theaters Monday has not as yet reflected itself here and that the local difficulty still stands strictly on a local basis. The Chicago trouble, according to news dispatches, grew out of demands made by the unions on Orpheum theaters there. Local Orpheum officials said the Los Angeles house still is unaffected by sympathetic union tactics.

The man leading local theater interests in the negotiations is Harold B. Franklin, who came here about two months ago from the East to take charge of West Coast Theaters, Inc., on the Coast following the recent Paramount Famous Players Lasky deal. He formerly was with that organization in New York.

RAINS DELAY WORLD FLYERS

Continued from First Page)

occasion they slowed down because of the fog to make certain of their bearings. When informed that severe thunderstorms prevailed over Bulgaria they decided to stay for the night at Belgrade and start for Constantinople early tmorrow morning.

A motorboat conveyed the flyers from the airdrome to the city, where they paid a visit to the American Legation and were entertained at dinner by the Jugo-Slav Aero Club.

IDEAL WEATHER PREVAILS AS MEN MAKE START

MUNICH (Germany) Aug. 30. (AP) Favored by ideal flying conditions, the American airmen, William S. Brock and Edward F. Schlee, took off in the monoplane, Pride of Detroit, at 6:25 o'clock this morning in continuance of their flight around the world. The plane carried about 240 gallons of benzine.

There was a clear sky as the Pride of Detroit roared aloft and no wind was reported to a height of 6000 meters (about 19,685 feet.)

MADE SHORT STAY

Brock and Schlee said good-by to Munich after a stay of less than fifteen hours, they having landed here from Croydon, Eng., at 4:05 o'clock yesterday afternoon on the second lap of their globe-circling tour.

Not more than half a dozen persons had collected at the Overweisenfeld airdrome to see the plane hop off on the southerly course toward Turkey. Maj. Hailer, chief officer of the Lufthansa, the German Aerial League, was there with officials of the airdrome and two newspaper reporters.

No time was lost after the American airmen arrived on the field in getting the plane off the ground. Before taking their places in the cockpit Schlee and Brock voiced their confidence that they would make the day's objective before sundown.

NOT MUCH BAGGAGE

Both men made a very good impression during their brief stay in the Bavarian capital. They expressed their great appreciation of the air maps presented to them by the Lufthansa.

On arriving at the airdrome from their hotel, Schlee was asked about his baggage. He smiled and said: "Here's my baggage," exhibiting a cigar case, pocket comb and razor.

Today's start was made in fine style, and the airmen circled the field thrice before heading eastward into the rays of the rising sun.

The dinner given in their honor last night by Charles B. Curtis, the American Consul, was a semiprivate affair, attended by Councilor Oselka, representing the Bavarian Ministry of Trade, also Maj. Hailer, local director of the Lufthansa, or German Aerial League, and Munich's traffic chief, Herr Konrad, all of whom spoke in flattering terms of the Americans' daring.

Schlee, given his choice of dishes, asked for pork with sauerkraut, which request, according to the Germans present, proved that he had regular Bavarian blood in his veins. Both Brock and Schlee confessed to being tired after their day of air travel, and retired early.

France Expelts Soviet Writer

PARIS, Aug. 30. (AP)—The Minister of Interior has issued an expulsion order against Jules Broune, Paris correspondent of the Soviet News Agency, Tass.

The order is based on the charge that Broune sent to his headquarters exaggerated reports of last week's Sacco-Vanzetti manifestations.

Mystery Shock Hits Vancouver

VANCOUVER (B. C.) Aug. 30. (AP)—Accompanied by a plainly audible rumble a shock of mysterious origin shook houses and other buildings, rattled windows, dishes and furniture in the greater Vancouver area last night. The rumble was of short duration and investigation failed to reveal its cause.

Many citizens telephoned police headquarters to ascertain if an explosion had occurred. No damage was reported.

Residents are reported to have rushed to the street in some parts of the city. Downtown office buildings also felt the vibration, which apparently was of purely local character.

NEW WATTERSON CHARGES

Additional Accusations Impend Against Brother Called to Appear Before Bank Chief Today

SAN FRANCISCO, Aug. 30. (Exclusive)—Already under indictment in Inyo county on forty-four felony charges in connection with the wreck of five Owens Valley banks, W. W. and Mark G. Watterson, brothers, may face new charges by the State Banking Department, it is learned today. If filed, the impending accusations will center around the alleged falsification of bank statements, according to Will G. Wood, State Superintendent of Banks.

That the charges are contemplated is indicated both in a statement by Mr. Wood and in the fact that the two accused men are scheduled for a conference with the bank superintendent in this city tomorrow.

NEW DISCOVERIES

Mr. Wood did not reveal definitely why the Wattersons have been summoned, but it is understood he intends to take them to task for what is declared to be new discoveries of false returns.

In this connection Mr. Wood stated: "Additional counts against the Wattersons have developed since the filing of the original charges. Among them this department has satisfied itself that the December 31, 1926 statement of the Inyo county bank was not a true report of the condition of that institution. We are in possession of information which leads us to the belief that several additional counts of defalcation on the part of the Wattersons will be added to the charges that have been already filed by Atty. Hosston of Inyo county in the original complaints."

BANK STATEMENTS

The matter of the bank statement of December 31, 1926, which the banking department says is false, is in addition to a similar charge regarding the Inyo county bank statement of June 30, last. The charges in the forty-four felony counts filed in the county courts by Inyo county covers the first named statement.

In all, the Wattersons involved are accused of shortages in the two banks they are accused of having stolen and concealed or embezzled and misapplied enterprises which, it is charged, to the extent of $2,500,000.

FLYING NEW INSANITY CASE

NEW YORK, Aug. 30. (Special) Aviation is assuming prominence as a cause of insanity. In the report on statistics for June, just compiled in the County Clerk's office today flying, liquor and economic tendencies are listed as the "principal causes" of the majority of an unprecedented number of cases.

Decision Balks New Gum Trial

CHICAGO, Aug. 30. (AP)—A million-dollar legal battle between two national gum manufacturers was deadlocked today, when the United States Circuit Court of Appeals refused petitions of both for a rehearing of a case in which one company already has been awarded $1,000,000 on charges of unfair competition.

The L. P. Larson Company, plaintiff, sought to increase the $1,000,000 it had won, while the William Wrigley, Jr., company, attempted to nullify the previous decision.

Several months ago the Appellate Court approved a decision of Judge Wilkerson, which upheld the charges of the plaintiff, but cut the award to $1,000,000. Both companies filed petitions with the Circuit Court of Appeals, the plaintiff protesting the cut in the award, while the defendant complained that no award should have been given.

Fall Designs in Metal Beds
—a Revelation of Smartness

SO FAR REMOVED from the crude pipe and casting variety that it is difficult to distinguish the new metal beds from the finest figured wood models. The photographic reproduction of walnut and curly maple is so beautifully executed that it is almost unbelievable. The enamels of parchment, greens, black and red, green and ivory, combinations with dainty decorations—will fit into most any decorative scheme. They are being sought with increased demand for the better type of homes.

METAL BEDS as now made of smooth seamless metal, every joint welded, are unaffected by atmospheric conditions and are in full keeping with better types of furniture in design, finish and durability.

THERE are 800 of these new metal beds—more than 50 different designs and finishes—in full or twin size. A large portion designed especially for Barker Bros. A wide price range—$9.75 to $38.75.

Correct Springs and Mattress
—are very important units to complete any bed—select yours at Barker Bros.

"OWN MAKE" box springs and mattresses are built to individual requirements. They are the limit of luxury and nicety, still not high priced.

THE FAMOUS Rome De Luxe coil springs, for which Barker Bros. are headquarters, justly deserve the highest tribute of any coil type bed springs.

EARLY SESSION QUESTION OPEN

Coolidge Delays Decision on Convening Congress

Naming Envoys Will Await Return to Capital

Pleas for Columbia River Project Heard

RAPID CITY (S. D.) Aug. 30. (AP)—President Coolidge is holding an open mind on the convening of Congress, or at least the Senate, into special session a month ahead of the regular meeting-time in December.

Pending further conferences with Congressional leaders on his return to Washington, he is declared by recent visitors to be ready to listen to arguments for an early session.

Senator Jones of Washington, Republican whip of the Senate, declared today after a conference with Mr. Coolidge that he thinks the Chief Executive is sympathetic to a special session of the Senate.

An early meeting of the Senate was urged by Senator Jones in order to give the body an opportunity to discuss the contests against the seats of Senator Smith of Illinois, and Vare of Pennsylvania, both Republicans.

While he felt the President is interested in such a program, it is known that Mr. Coolidge wants to confer with Senator Curtis of Kansas, the Republican leader, before reaching a decision. Senator Curtis, who was unable to accept an invitation to come here this week, has announced opposition to a special session of Congress.

QUESTIONS TO WAIT

This question along with the problems of selecting Ambassadors to Mexico and Cuba and a new Governor-General of the Philippine Islands likely will await the return to Washington the last of next week of Mr. Coolidge.

The President will be at his desk again on Monday, September 12, probably leaving here on the night of Friday, September 9. One stop will be made—at Brookings, S. D., where he will dedicate the library of the State Agricultural College.

Senator Jones, who is chairman of the Senate Commerce Committee, did express disappointment today at the determination of Mr. Coolidge to put the government merchant fleet all in private hands.

"We must continue to operate the merchant marine," he said, "in order to defend our foreign commerce and serve us in the event of war.

BUSY DAY PUT IN

"I agree with the President that it would be good to get our merchant ships into private hands but private capital will not buy them and we must have a merchant marine."

It was a busy morning at the executive office today. Mr. Coolidge received delegates from Washington State urging development of the Columbia River basin reclamation project; from the Farmers' Equity Cooperative Creamery Association and representatives of the American Society of Agricultural Engineers.

Careful study of the Columbia River project was promised by the President, who realizes that it involves a cost of more than $100,000,000. While generally favoring such developments he prefers to have them await the accrual of the money from the reclamation funds. He will take this proposition up with Secretary Work.

FARM PROBLEM

O. B. Zimmerman, spokesman for the agricultural engineers, presented a report asking the government to give impetus to a study of the problem of transfer of surplus farm population to the industrial centers. The report which the President listened to attentively also suggested a study should be made to determine how greater production per worker and lowering of the cost of production may be brought about.

Greater research work by the government also was urged by Ole Hanson, general manager of the creamery association. He declared money will be spent better this way than in guaranteeing the "individual farmer a fixed sum on his present low production average which would in reality only be putting a premium on inefficiency."

Tomorrow the President plans to attend the dedication of Camp Coolidge, the South Dakota Boy Scout camp, which is about ten miles from the State Game Lodge. Thursday he will go to Newell and Wisland, S. D. He has decided against a trip to Bad Lands, a long stretch of peculiar rock formations in this part of the State. An all-day trip would be required and he feels time does not afford it.

BROKEN PLANE LANDS

Craft Minus Gear Brought Down Safely by Flyer

SAN ANTONIO (Tex.) Aug. 30. (AP) Lieut. L. E. Hunting landed an airplane without landing gear here today.

Hunting was flying low over the field at Fort Sam Houston when he was seen to go into a tail spin. The plane struck the ground, bounced into the air and continued to fly.

Realizing that his landing gear had been crushed, Lieut. Hunting headed for Kelly Field, several miles away, where there is more room for delicate landings. He stalled his plane and skidded along the ground, handling the controls so skillfully that the plane did not overturn or receive further damage.

One of the four Komodo dragons at the London zoo recently suffered from a sore mouth and tail, and four men were required to hold the huge reptile in order to treat it.

BABY'S EARNING MORE THAN DAD

But He Must Support Her in Any Case, Jurist in Chicago Decides

CHICAGO, Aug. 30. (AP)—The fact that a 4-year-old girl earns more money than her father is no excuse for his not supporting her, Judge Williams has decided.

He sent John Kurowski to jail for failing to pay $8 a week for little Lillian Kurowski's support.

"Why, she's a toe dancer and radio entertainer and makes more than I do," Kurowski argued.

But the court had spoken.

MEXICO ASKED TO BREAK SIEGE

Prompt Action Insisted on by Washington

Americans Believed Still Held by Reds

Miss Anderson's Slayers Reported Dispersed

WASHINGTON, Aug. 30. (Exclusive) Emphatic demands that prompt steps be taken to rescue the American and British citizens believed to be still besieged by armed radicals at Etzatlan, about forty miles from Guadalajara, were made to the Mexican Foreign Office today by the American Charge d'Affaires in Mexico City.

Instructions to insist upon immediate action were telegraphed to the Charge by acting Secretary of State Castle following receipt of a dispatch from Joseph C. Satterthwaite, American Vice-Consul at Guadalajara, reporting that, in spite of promises made by the Calles government last Friday, "no troops have arrived, nor is any other visible protection being given."

VIOLENCE FEARED

"Armed radicals still control camps, issuing threats," according to Vice-Consul Satterthwaite's dispatch, which continued, "although tension less at present, situation is serious as work is stopped and we see nothing to prevent more violence."

The dispatch adds that employees arriving directly from the mines at Etzatlan, which are operated by the Amparo Mining Company, an American firm, assert that the agitators of the outbreak against Americans are led by Siquieros, a known radical.

DISPATCH SENT MONDAY

It was again pointed out in the department that the Vice-Consul's dispatch was sent yesterday morning and that it is possible that the troops have arrived, as asserted in the press statement, since the dispatch was sent.

John Windsor Ives, Vice-Consul at Mazatlan, reported to the State Department that the chief of military operations of the State of Nayarit is personally directing the activities of 300 troops against bandits in the vicinity of Acaponeta, and that he has information that the band charged with the murder of Miss Florence Anderson a few days ago has been dispersed.

PRESIDENT OF TURKEY ON STUMP

Election of Deputies He Has Picked Urged in Plea Voiced to Nation

CONSTANTINOPLE, Aug. 30. (AP)—"To complete our gigantic task of recreating Turkey, we are not going to allow any differences of opinion among our beloved countrymen," declares an election campaign manifesto published today by President Mustapha Kemal Pasha. This is his first public utterance since his arrival at Constantinople from Angora. The manifesto continues:

"Elect my deputies and give me another four years' chance to heap new benefits on Turkey, which will insure her a great and shining future."

With this is published a list of candidates for the National Assembly chosen by the President himself, which eliminates all members of the defunct opposition party. The manifesto praises Kemal's party, declares there have been four years of achievement, and promises continued peaceful foreign relations and intensified development of national resources, with profits shared by all.

Army and Pathe to Film Canyon

WASHINGTON, Aug. 30. (AP)—War Department approval of plans for a joint Army-Pathe Company exploration of the Grand Canyon of the Colorado, which will be reported by radio while in progress, was announced today at the department. The personnel and portable equipment for radio transmission from the party which will traverse the length of the canyon, will be provided by the Signal Corps.

The plan calls for continuous communication between the expedition in the canyon and a receiving party passing along the canyon rim, which will in turn transmit by radio to the Oakland station of the General Electric Company for broadcasting through a chain of stations.

The taking of moving and still pictures and collection of scientific specimens is the object of the trip.

RECEIVERS NAMED

Jenny Wren Stores Hope to Keep Out of Bankruptcy

SAN FRANCISCO, Aug. 30. (AP)—Federal Judge Bourquin appointed Nelson E. Jones and W. L. Harrison receivers for the Jenny Wren Stores, Inc., today after the Challenge Creamery and Butter Company filed a petition asserting that the grocery concern owes it in excess of $5000.

Attorney Timothy Healy, representing the Jenny Wren concern, declared it is hoped to prevent the organization from going into bankruptcy and that the receivers will find a way to pay the debts, estimated to aggregate $350,000.

More than 1200 stockholders, most of them residents of the San Francisco Bay district, controlled the Jenny Wren chain of stores through the president, E. W. Trapp, until the latter withdrew following charges of mismanagement.

CONTRACT LET FOR CROSSING AT GALIVAN

SACRAMENTO, Aug. 30. (AP)—An award by B. B. Meek, director of the Department of Public Works, of a contract for an overhead crossing over the Santa Fe Railroad near Galivan, Orange county, was announced today at the division of highways headquarters. The contract went to Hewitt-Miller-Shirley, Inc., Los Angeles, on a bid of $38,977, against an engineer's estimate of $29,995. The project is a co-operative one between the State and the railroad company.

LIFE SAVED BY FILM PHOTO

Picture of Jack Holt Stops Bullet as Boy Fires Gun by Accident

HONOLULU, Aug. 30. (AP)—A picture of Jack Holt, screen player, saved the life of Obed Mansfield, 7 years of age. Obed shot himself while playing with a pistol. At the hospital it was found that a much-folded newspaper picture of Holt had kept the bullet from piercing the boy's heart.

ENGINEER OF STATE GIVEN COUNTY JOB

Bailey Quits His Place to Accept More Remunerative Orange District Post

SACRAMENTO, Aug. 30. (AP)—Paul Bailey, State Engineer and past director of the Department of Public Works, resigned today to accept a position as chief engineer for the Orange County Flood Control District. Though the time that the resignation is to become effective is left open, it is understood Bailey has requested Director of Public Works Meek to be relieved of his duties on October 1.

In announcing Bailey's resignation Meek said he has not decided on a successor.

Bailey was offered the Southern California post by the Orange county Board of Supervisors several weeks ago. It pays a salary of $12,000 per year, as against a salary of $5000 for the position of State Engineer.

In his new capacity, Bailey will direct the construction of a huge water project involving an ultimate expenditure of $10,000,000.

Meek announced the State-wide water-recources survey, authorized by the State Legislature in 1921, and which has been carried on since that time, mainly under the direction of Bailey, will continue uninterrupted.

Bailey, he said, will be available for such consultation as may be desired.

AT LEAST FOUR DIE IN BOAT BLAST

Eight Badly Burned as Boiler of Vessel on Lake Nicaragua Explodes

MANAGUA (Nicaragua) Aug. 30. (AP) Four men were killed and eight badly burned when a boiler on the steamer Nicaro exploded late Sunday night as the vessel approached the island El Parde en route to Granada on Lake Nicaragua, in the central part of the country.

Several hours later, it became known today, eighteen survivors were taken off the vessel by the schooner Angela and taken to Granada.

The authorities have not yet checked the passenger list of the Nicaro, but as the steamer is the second largest vessel navigating Lake Nicaragua it is believed that a number of persons, besides the four known to have been killed, lost their lives.

Collector Sued for Seized Bonds

SAN FRANCISCO, Aug. 30. (AP)—The Canadian-Mexican Shipping Company, Ltd., of Vancouver, B. C., filed suit in the United States District Court here today for recovery of $105,000 in bonds from John P. McLaughlin, Collector of Internal Revenue for the port of San Francisco.

The suit asserts that the bonds were seized by McLaughlin April 1, 1925, after they were posted by a Maryland insurance company as bail for the defendants in the Quadra and Cold Harbor rum-runner cases. The seizure occurred simultaneously with issuance of a lien against the properties of the Consolidated Exporters' Corporation, Ltd., of Vancouver, B. C., for unpaid income taxes.

The Canadian-Mexican Company declares the bonds belong to it and not to the Consolidated Exporters.

REPORT IN FIRE QUIZ

Barring Children from Cinema Urged By Dominion Board

QUEBEC, Aug. 30. (AP)—Children under 16 years of age should not be permitted to motion-picture theaters on any account, although the cinema generally speaking is not immoral, Judge Lewis Boyer, president of the royal commission appointed to investigate the Laurier Palace Theater fire January 9, last, in which seventy-eight children lost their lives, reports today.

The report of the commission was presented at the meeting of the Quebec Cabinet and follows a comprehensive inquiry into the moral aspects of present-day motion pictures.

The commission reports that there is no criminal or civil responsibility on the part of anyone as far as the disastrous fire is concerned. The large loss of life in the Montreal theater fire was caused by panic resulting from the negligence of some unidentified person, the commission finds.

BIDS ON ELEVATORS

Proposals on Lifts in New State Library Building Opened

SACRAMENTO, Aug. 30. (AP)—Bids have just been opened by State Architect McDougall for four elevators in the new State library and courts building which now is nearing completion here. Two of the lifts will be passenger elevators operating from the main hall and the others freight and book lifts operating in the library stack room.

The Pacific Elevator and Equipment Company of San Francisco as low bidder with an offer of $33,793, with the Spencer Elevator Company of San Francisco second with an offer of $34,947.

All the proposals, four in number, have been taken under advisement by McDougall and B. B. Meek, director of public works.

CHAMBERLAIN OFF TO GENEVA

Says Lord Cecil Resignation Not Necessary

Act Held Irreparable Loss by League Officials

Journalists' Expulsion Up Before Press Meet

LONDON, Aug. 30. (AP)—Sir Austen Chamberlain, the Foreign Secretary, left for Geneva this morning, accompanied by other members of the British delegation to the forthcoming League of Nations meetings. Sir Austen is suffering from an inflammation of the eyes, caused by dust.

Voicing regret that Lord Cecil will not be present at Geneva because of his resignation as Chancellor of the Duchy of Lancaster, the Foreign Secretary remarked: "I don't think his absence was entirely necessary." (Lord Cecil resigned owing to his disagreement with the British government's policy toward the disarmament question.)

IRREPARABLE LOSS SEEN IN RESIGNATION

GENEVA, Aug. 30. (AP)—Viscount Cecil's resignation as British envoy to the League of Nations created a veritable sensation in League circles. The opinion was generally expressed today that his withdrawal will be an irreparable loss unless he launches into a campaign for the submission of more political problems to the League and in general fights for recognition and development of the League as a big clearinghouse for international affairs.

EXPULSION OF PRESS CORRESPONDENTS TAKEN UP

GENEVA, Aug. 30. (AP)—Instances of the expulsion of foreign journalists from countries where they have been exercising their professions led today to the adoption by the International Press Conference here of a resolution urging that measures of expulsion or withdrawal of permits to stay in a country for reasons connected with the profession should not be taken without obtaining the opinion of a committee of journalists.

The conference requested the League of Nations to make representations to all governments to the end that this method of procedure be adopted.

NEW WATER PROJECTS

Applications Placed on File With State Authorities

SACRAMENTO, Aug. 30. (AP)—James A. Hubbard, Anderson, and W. C. Blagrave, French Gulch, today applied to the State Division of Water Rights for 125 cubic feet and 9600 acre feet of the flow of Clear Creek, Shasta county, for a $380,000 irrigation and domestic water project. The irrigation project, comprising 9600 acres, would be situated near Schilling.

R. W. Pepin of Portland, Or., also filed an application with the division for fifty cubic feet of the flow of Jones Creek, Del Norte county, for placer mining operations near Crescent City. Pepin will spend $30,000 in developing his project.

LEADER IN DRY UNION RETIRES

Corresponding Secretary of W.C.T.U. Steps Down

San Francisco Woman Will Take Her Place

All Other Chiefs Re-elected at National Session

MINNEAPOLIS, Aug. 30. (AP)—Retirement, after nineteen years' service, of its 72-year-old corresponding secretary, prevented the National Women's Christian Temperance Union today from re-electing all its officers for a year of unprecedented "anti-wet" activities.

Announcing, in the words of President Coolidge, that "I do not choose to run for re-election," Mrs. Frances P. Parks of Evanston, Ill., formally retired from office, one of the most important in the organization.

Her successor, elected unanimously, is Mrs. Anna Marden Deyo of San Francisco, president of the California W.C.T.U. and a pioneer in the national movement.

RECORD SERVICE

Mrs. Parks has been an active worker in the union for forty years and held office longer than any other woman in the history of the national organization.

The other officers re-elected are: Mrs. Ella A. Boole, Brooklyn, president; Mrs. Ida Wise Smith, Des Moines, Iowa, vice-president; Mrs. Sarah Hoge, Lincoln, Va., recording secretary; Mrs. Nelle G. Burger, Springfield, Mo., assistant recording secretary, and Mrs. Margaret C. Munns, Evanston, Ill., treasurer.

Milk drinking has increased 27 per cent and ice cream consumption also has gained since prohibition went into effect, said Miss Ephs A. Marshall, Chicago, in an address before the convention.

There has been a decided decrease in the number of persons discharged from positions because of drunkenness, according to Miss Marshall, who is director of the W.C.T.U. department of economics.

RESULTS TRACED

"One consequence of prohibition," Miss Marshall declared, "is the increasing number of workers building or buying homes. Prohibition has had a big part in the steady swell in the monthly average of contracts awarded in the United States.

"The most significant fact of our present-day prosperity is the increased purchasing power for the comforts and luxuries among the great masses of the people of which such phenomenal figures as the ownership of 30,000,000 passenger cars, as the assets in building and loan associations and similar indexes are but samples. That comes from the increased purchasing power, available by the abolition of the saloon. This is an almost inescapable conclusion."

RAIL CHIEF ADMITS HIS LUCK

"I'm Just a Plain Guy Who Has Had Some Good Breaks," Says James F. Gorman, Veteran of Fifty Years and Known as a Bad Egg

CHICAGO, Aug. 30. (Exclusive)—"I'm just common clay," said James F. Gorman, president of the Chicago, Rock Island and Pacific Railway system today, who is celebrating his fiftieth anniversary as a railroad man and had been asked the secrets of his success.

"There is no use holding up a front," he continued. "I'm just a plain guy who has had some good breaks. When I was reading the numbers off cars I thought reading the numbers off cars was the most interesting thing in the world. That was my job and I thought it was a great job."

"And now you are a railroad president!"

"Now, being a railroad president," he admitted, "is the most interesting thing in the world," and he locked at his interviewer out of a pair of steady blue eyes that must have discovered many inefficient employees.

"I'm supposed to be a bad egg," he continued. "I have to keep up a front. It won't do for me to be saying I like to make friends with everybody, or that I want everybody to think of me as a pretty good fellow who would do them a good turn and expect them to do him a good turn. I'm supposed to be a tough guy."

But his army of associates and employees says the "hard-guy" stuff is all on the surface for disciplinary purposes and that underneath this thin veneer the old skipper isn't a bad egg at all.

Range Stock Bidding Sluggish

SALT LAKE CITY, Aug. 30. (AP)—Bidding on range stock Rambouillet rams was sluggish today as the annual sale of the National Wool Growers' Association entered its second day. Hampshire's replaced the Rambouillets at 1 o'clock and bidding was predicted to become a little more brisk, similar to the opening day.

Several hundred Hampshires were to pass through the auction ring this afternoon. Suffolks, Cotswolds and Lincolns will succeed the Hampshires and then cross-breds will be offered. King Brothers' Company, Laramie, Wyo., were among the larger buyers this morning. The all-time record price was hung up late yesterday when John K. Madsen, Mt. Pleasant, Utah, paid $2000 for a 9-months-old Rambouillet ram. The animal, I-Ham, came from the bands of A. R. Cox, Woodland, Cal.

STORK EXPECTED BY BELGIAN PRINCESS

STOCKHOLM, Aug. 30. (AP)—A visit of the royal stork to the home of Crown Prince Leopold of Belgium is expected to occur early in October, according to intimations received from Brussels by friends and relatives of Crown Princess Astrid here. (Prince Leopold and Princess Astrid of Sweden were married in November of last year.)

RUSSIANS SENTENCE POLE TO DIE AS SPY

VITEBSK (Russia) Aug. 30. (AP)—Vitold Ulkevitch, asserted Polish spy, was sentenced to death by the District Court here today on a charge of military espionage in behalf of the Polish Intelligence Service.

LEGION MAY START BOOM OF PERSHING

Move to Launch General as Republican Nominee Scheduled at Paris Meet

WASHINGTON, Aug. 30. (Exclusive) Launching of a Presidential boom for Gen. Pershing is scheduled in connection with the American Legion convention in Paris next month.

Reports reaching political leaders indicate that the stage is being set for a demonstration for the former commander of the A.E.F., which will be turned into a full-fledged movement for his nomination as the Republican Presidential standard-bearer in 1928.

Gen. Pershing will go to Paris on the Leviathan as the guest of the American Legion. In his immediate party will be a number of persons prominent not only in the affairs of the Legion, but also influential in Republican ranks. Other leading Legionnaires will be on board and there will be plenty of opportunity for perfecting the details of the boom which will be brought to a head during the convention in Paris.

KING AFRAID OF SPANKING, TOO

Mickey Has Woes Same as Any Other Boy

Princess Mother Wishes to Rear Him Unspoiled

Child Has No Conception of His High Dignity

SINAIA (Rumania) Aug. 30. (AP)—Michael, the boy King of Rumania, knows how it feels to be spanked, and he has as much dread of being sent to bed without supper as any ordinary youngster.

Except on formal occasions he is addressed by all who know him as "Mickey," for, his mother says, he has no real conception of the meaning of "Your Majesty."

"Until he has grown up, I think its just as well if he doesn't know the significance of 'Your Majesty.' The Princess Mother Helen remarked to the correspondent of the Associated Press.

"I want him to be just as natural, unaffected and unspoiled as an ordinary American boy. Everybody still calls him 'baby' or 'Mickey.' That is how all the children in my family were brought up, and that's how I shall rear Mickey.

SPANKING THREAT

"That is why I selected for him the same, sweet simple unassuming English nurse who reared me from babyhood."

While the Princess mother was talking with the correspondent on the lawn of the summer palace here, "mischievous Mickey" began pulling his pet dog's tail.

"If you do that again, Mickey, I'll give you a good smack," his mother told him.

The boy was back at his mischief again after a few moments of quiet, and only ceased when his mother threatened to send him to bed without his supper.

Leaving his dog the little King raced over to a tree where his brown Shetland pony was scratching its nose against the bark. Mickey got on the saddle and was soon lost to sight in the woods, a groom following him on horseback. At this point the correspondent asked Princess Helen:

NOT TO BE SPOILED

"Having been the daughter of a king and the descendant of kings, how does it seem to be the mother of a king?"

"I feel just as any other mother does who has a son to rear and who wishes him to make a mark for himself in the world," the golden-haired, sad-eyed Princess said, laughing a little.

"'Baby' is now King, but I don't want the knowledge of that fact to spoil him. I want him to be just a simple, modest, sweet boy, a credit to his country and his family. You knew his grandfather, King Constantine. He was a perfect gentleman in everything he said and did. If Mickey turns out as good a king as his grandfather I shall be happy."

AERIAL EXPRESS ERA WELCOMED

NEW YORK, Aug. 30. (AP)—Inauguration on Thursday of a country-wide system of air express marks the passage of aviation from its present era of stunt stuff with its inevitable high cost of human life to the comparatively safe and sound basis of every-day commercial use, in the opinion of R. E. M. Cowie, president of the American Railway Express Company.

Mr. Cowie, who personally is responsible for his company's air auxiliary to the regular air railway service, sees a perfect analogy between present conditions in the airplane industry and the development of the automobile from the early stunt stage to its present position as a sturdy and safe ally of commerce.

Mr. Cowie said that no one can tell now to what specific uses the air express will be put by American industry, but he is confident that the demand for it will be immediate and lasting.

Wales Will Live in Historic Home

LONDON, Aug. 30. (AP)—The Prince of Wales will go into residence at Marlborough House soon after his return from Canada.

Marlborough House, an almost square, stolid red brick building, was built by Sir Christopher Wren more than 200 years ago for the first Duke of Marlborough. Later it became the residence successively of various members of the royal family, and finally was acquired by the nation as a residence for Kind Edward VII, then Prince of Wales.

The present Prince of Wales will use actually only a small portion of the house. His suite will be on the first floor, which looks out on two acres of garden.

Queen Alexandra's budoir and bedroom will remain exactly as they were in her lifetime, as well as the four state rooms with their pictures and statuary.

PAIR REUNITED

Californians Who Grew Up Together Wed in New York

NEW YORK, Aug. 30. (Exclusive)—Miss Madena Parker Stewart of Santa Clara, Cal., landed here yesterday from the Panama-Pacific liner Venezuela after a thirty-day trip from San Francisco and a few hours later was married to Cecil Raney Benson, an engineer employed by the General Electric Company of Schenectady, N. Y.

The ceremony took place at the Church of the Transfiguration and marked another step in the romance which began when both persons were small children in California. Both were born in Santa Clara twenty-three years ago.

ADE'S KID PICNIC SUCCESS

Hundred Uninvited Ones Come and Ask-Me-Another Game Reveals Ice Cream Favorite Food

BROOK (Ind.) Aug. 30. (Exclusive)—George Ade, widely known humorist, invited 500 children to a picnic on his estate and 600 came, so it may be set down that the party was a success. The youngsters began arriving early at Hazelden, the beautiful Ade estate, and little time was wasted in collecting tickets of admission, or asking questions when a child appeared without one. Instead the time was devoted to filling more lunch baskets.

One novelty of the show this year was a list of questions submitted to each of the little guests. The first question was what the child wanted to be when he or she grew up. The answers indicated a wild desire to be locomotive engineers, Lindberghs, school-teachers, stengoraphers, trained nurses, circus performers, policemen, doctors and a scattering of soldiers and sailors.

On the question as to a preference in the matter of food, ice cream won by miles, although fried chicken and candy made a brave showing.

Strangely enough, a majority of the children admitted that older people knew more than children. On the proposition of returning to school, half were against it and half favored resuming studies.

There was a big upset in the choice of favorite motion-picture heroes. Fred Thomson came out ahead, with Tom Mix and Tom Meighan trailing. Betty Bronson, Clara Bow, Lois Wilson, Gloria Swanson, Colleen Moore and Mary Pickford ran about even.

On the final question: "What would you do with a million dollars?"—the voting was scattered. Many wanted clothes, speedy roadsters, airplanes, homes for father and mother, college education, farms, dogs, ponies, bicycles, fur coats, wrist watches and, of course, unlimited tickets to film theaters.

Chicago Mayor's Itinerary Mapped

CHICAGO, Aug. 30. (AP)—The itinerary of a crusade through the major cities of the West with its object the awakening of public sentiment to the necessity of harnessing the Mississippi River to establish permanent flood control, was announced tonight by Mayor Thompson, leader of the Chicago Flood Control Conference.

Leaving Chicago September 6 addresses have been scheduled at Minneapolis, September 7; Omaha, September 8; Denver, September 9; Cheyenne, September 10; San Francisco, September 12; Los Angeles, September 16; Albuquerque, N. M., September 17; Topeka, Kan., and Kansas City, Mo., September 19.

SAWTELLE VETERAN KILLS SELF IN RENO

RENO, Aug. 30. (AP)—Allen M. Bradshaw, Spanish-American War Veteran, spending a furlough from the Soldiers' Home at Sawtelle, Cal., on a ranch near Reno, made an attempt to cut his wrists yesterday and was placed in a detention cell in the County Jail. Shortly before midnight his body was found in the cell hanging from a belt which he had taken from his waist.

CHANGE IN RAIL RATE OPPOSED

California Interests File Protest Against Florida Tariff Cancellation

SAN FRANCISCO, Aug. 30. (AP)—Protest against the proposal of Florida railroads to cancel through rates from the Pacific Coast to various Florida points was filed with the Interstate Commerce Commission today by the San Francisco Chamber of Commerce.

Contending that California shippers have built up a substantial business in Florida due to the through rates, the protest asserts much of this business would be destroyed by higher rates that would result from the Florida roads' proposed action.

Oregon and Washington interests would be similarly affected, the San Francisco body claims. The rates involved were established by the United States railroad administration in 1918. An attempt by the Florida roads in 1924 to have the through rates canceled failed to win approval of the commission.

Other California concerns supporting the San Francisco Chamber are the California Growers and Shippers' Protective League, Sacramento Chamber of Commerce, California Bean Dealers' Association, California Canners' League, California Dried Fruit Association, Fresno Traffic Association and Associated Jobbers of Los Angeles.

ESPEE ASKS TO JUNK BRANCH NEAR VENTURA

WASHINGTON, Aug. 30. (AP)—Authority to abandon its one and one-half mile Beetor branch in Ventura county, California, was asked of the Interstate Commerce Commission today by the Southern Pacific Company. The only traffic on the line is said to have been furnished by the American Sugar Beet Company, which has requested its abandonment to make way for an irrigation ditch.

DENTIST DIES AFTER FAST OF FORTY DAYS

CANON CITY (Colo.) Aug. 30. (AP)—Dr. G. H. Kellenberger, 67 years of age, dentist, died here today after keeping a fast of forty consecutive days. The dentist decided to stop eating when he realized recovery from an extended illness was impossible.

GOODRICH HEAD DIES IN EUROPE

B. G. Work Had Long Been Ill of Heart Disease

Rose from Clerk to Chief of Rubber Company

Made It One of Largest in United States

AKRON (O.) Aug. 30. (AP)—B. G. Work, president of the B. F. Goodrich Tire and Rubber Company, is dead in St. Marks, Switzerland, said word received at the company office here today from its New York representative. Death is attributed to heart disease, from which Mr. Work had been ill some time.

Mr. Work was a native of New York State, having been born there in 1868. His father, Alanson Work, one of the original incorporators of the B. F. Goodrich company, moved his family to Akron in 1880.

After completing his studies in Williston Seminary, East Hampton, Mass., and Yale University, Work began practical training in the Goodrich plant, starting as a clerk. He climbed step by step to the superintendency, a position he held for twelve years, advancing to the vice-presidency and later succeeding Col. George T. Perkins as president of the Goodrich company in 1907.

Under his leadership the Goodrich became one of the largest industrial enterprises in the country.

Mr. Work leaves his only son, Bertram Work, Jr., and two brothers, L. Gerald S. and Fred W. Work of Akron.

Strike Killing Jury Faces Quiz

SAN FRANCISCO, Aug. 30. (AP)—A grand jury investigation into circumstances relating to the jury disagreement in the third trial of Gus Macsen and George Peace, accused of the murder of a mounion carpenter, C. W. Campbell, was ordered yesterday by Superior Judge Conlan.

The investigation was based on the action of several of the jurors, who had reported to Judge Conlan that two alternate jurymen had solicited an acquittal vote before the regular jurors retired to deliberate. The jury was discharged after deliberating thirty-five hours without being able to change the 11-to-1 standing which prevented an agreement.

PROFESSOR KILLED BY SHEEP HERDER

TAOS (N. M.) Aug. 30. (AP)—Russell P. Dewsins, 30 years of age, professor of languages at the Terrill Boys' School at Dallas, Tex., was shot from behind and killed Sunday at Red River by Jose Cruz, Mexican sheep herder. Henry Moburg, friend of Dewsins, was shot, but not seriously injured. Mrs. Dewsins, who accompanied the men, escaped unharmed. The sheep herder was captured and is in jail here.

Fields Easily Outclasses Gans in Olympic Go

SPORTS
The Los Angeles Times

WEDNESDAY MORNING, AUGUST 31, 1927.

HELEN WILLS WINS NATIONAL TENNIS CROWN

NEGRO BATTLER DROPS VERDICT

Fields is Given Wide Edge in Eight of Ten Rounds

Gans Loses Wild Slugfest to Herman Auerbach

Gans Beats Pimenthal in Special Ring Event

BY PAUL LOWRY

Ruby Fields fought back-alley style with refined trimmings against Joe Gans at the Olympic last night and when the returns were all in the black boy was nowhere at the finish. He won two rounds, while Fields was winning eight.

The result was a vindication of the judgment of the gamblers, who established Fields as a favorite over the Ethiopian, but the manner of the victor's triumph was something of a surprise. It was close-quarter shooting all the way with no long-range boxing.

Joe beat Gans the way in which Gans can be beaten, and he must be given credit for his smart ring work, although the bout was nothing but sensational because of Gans's continual holding.

Fields stayed on top of Gans, carried him at every turn, kept a hand either in his face or stomach most of the time and tossed in a occasional right-cross for good measure.

BLOWS TURNED OFF

Gans never permitted the black boy to get set for his dangerous right-hand punches, and the majority of Gans's smashes went slipping by Fields's head, were caught on his shoulder or were turned by a tap of the glove.

Fields stopped some dirty left and right-hand volleys in the fourth and fifth rounds—the two rounds won by Gans—but the other rounds went to Fields because he made Gans look bad.

Giants Send Cubs on Downward Path

DEMPSEY AGAIN FAILS TO WORK

Ex-Champ Makes Aides Toil as Fans Raise Howl

Jack to Perfect Defense for Tunney's Left, Claim

Shade Says Comeback King Will Dodge Southpaws

CHICAGO, Aug. 30. (AP)—Jack Dempsey indulged in another day of idleness today, his second day in a row away from the boxing gloves. He had expected to crawl into the ring with his sparring partner, but Manager Flynn, at the last minute, ordered Dempsey to suspend operations, after deciding that Dempsey's seven-mile hike on the roads today was sufficient.

JACK DEMPSEY.

Along about 2:30 o'clock, after Dempsey had taken his daily nap, he looked out of the window and saw about 2500 people outside the gates of Lincoln Fields muttering and murmuring because they could not pay their $1.10 to see him box.

Dempsey knew they were disappointed because the newspapers said he would go into action this afternoon, so he motioned the gate-keepers to let everybody in free and sent seven sparring partners out to provide the glove entertainment.

Dempsey appeared on the balcony of the clubhouse to watch the boxing.

While Dempsey was going his seven miles on the road this morning with Dave Shade and Jerry Luvadis, he was talking about the Tunney fight continually, according to Shade. He would talk a while, run a bit, walk fast for a spell, then step and duck and weave as he will

CHICAGO DROPS THIRD IN ROW

Lose 7-to-3 Contest When Hurlers Falter

New York Fast Overtaking League Leaders

Belated Windy City Rally Stopped by Chucker

NEW YORK, Aug. 30. (AP)—Defeating the league-leading Chicago Cubs by 7-to-3 for a clean sweep of a three-game series, the fast-traveling New York Giants today advanced to within two and a half games of first place. The victory was their seventh straight and their twenty-second in the last twenty-eight games. Only the Pirates, who did it twice, have been able to beat the Giants in their present home stand of fourteen games.

Burleigh Grimes

A home run by Leslie Mann, substitute outfielder, on the first ball pitched, sent the Giants away to a fast start today. Jones, who started in the box for the leaders, was wild and ineffective. Three more runs were scored in the second frame on three bases on balls, Jones's wild throw and a single base hit. The Cubs were unable to hit in the pinches and threw away scoring chances by poor base running. A late Chicago rally in the ninth was checked by Fitzsimmons, who relieved Burleigh Grimes. Chicago used four pitchers. Score:

DEFEATS BETTY NUTHALL IN DECISIVE FASHION

Californian Turns Back Youthful British Challenger in Two Sets; Flashing Battle

BY ALAN GOULD
Sports Editor, Associated Press

FOREST HILLS (N. Y.) Aug. 30. (AP)—Helen Wills, 21-year-old California girl with the "poker face" and fiery strokes, again is the tennis queen of America.

In a title match packed with thrills and color, Miss Wills turned back the plucky challenge of "Beaming Betty" Nuthall, 18-year-old English star, and carried off the national women's singles championship for the fourth time in five years.

BETTY NUTHALL.

The scores were 6-1, 6-4, decisive enough to leave no doubt of the American girl's superiority but likewise revealing the story of a final rally in which blonde and blue-eyed Betty staged a stirring rally before accepting defeat.

ALMOST DEUCE

Overwhelmed in the first set, seemingly put to rout by the withering fire that came from Miss Wills's flashing racket, Miss Nuthall fought back brilliantly, matching drive for drive in a spurt that fell only one game short of deucing the second set.

It was a spectacular magnificent rally by which the English girl pulled up from a count of 1-4 to take three out of four games from the hardest hitter that women's tennis has ever developed. It exhibited Betty as a campaigner with resources far above the average for her years and the determination of a fighter that refuses to know when he's "licked." It aroused to tremendous enthusiasm a gallery of 8000 fans whose sympathies seemed with the English girl in spite of an evident desire also to see the Californian regain the throne so rightfully hers.

This was the drama of a match otherwise one-sided but it did not last long. The result was inevitable from the outset. It was the case of an experienced, resourceful star with entirely too much power for a younger, more aggressive but less seasoned opponent. This power checked Betty's dash and settled the question of women's supremacy for 1927.

By her triumph, Miss Wills completed a campaign of victory here and

NET STARS WIN OUT IN COURT PLAY

Davis Cup Hopes Gather Early Round Matches in Doubles Play-off

BROOKLINE (Mass.) Aug. 30. (AP)—America's 1927 "Big Four" in tennis were undisturbed by first-round competition opening the forty-sixth annual doubles championship tournament at the Longwood Cricket Club here today.

JOHNNY DOEG.

William T. Tilden II, and his partner this year, Francis T. Hunter of New Rochelle, N. Y., in about a half-hour of easy play eliminated the intermountain champions of Salt Lake City, Carl Pierce and Lee Buttle, 6-0, 6-1, 6-1.

Soon after this match the other Davis Cup pair, Richard N. Williams of Philadelphia and William Johnston, San Francisco, took the courts to win from John Rubsell and H. Coggeshall, Missouri Valley champions, of Kansas City in straight sets, 6-4, 6-2, 6-4.

The other American teams, seeded third and fourth, respectively, also won without exertion. Lucien Williams of Chicago and John Hennessey, Indianapolis, United States clay-court title-holder, went four sets of indifferent tennis in winning from J. G. Shields and T. O. Ryall, Pacific Northwest champions, 3-6, 6-3, 6-2, 6-2.

The Davis Cup alternates, John Doeg, Santa Monica, Cal., paired with George M. Lott, Jr., Chicago,

RABBIT PUNCHES

BY PAUL LOWRY

THE so-called warm-up fight Bud Taylor is taking at Culver City tomorrow night gives the natives of that bustling city a swell chance to see a real champion in action. But hasn't fought since he emerged from a frantic ten rounds of biting with Tony Canzoneri, still safe in possession of his bantamweight title, at Chicago, nearly two months ago. He is stepping out against Midget Smith tonight to prepare himself for that return engagement with Joey Sangor at the Olympic, September 12.

And if what some of the boys say is true, Bud has quite an argument on his hands in this Midget person. You might call it a warm-up fight with Mr. Taylor having a hot time, whisper some of the boys along the rialto. Personally, I don't know a

Slattery Wins Rosenbloom Go

HARTFORD (Ct.) Aug. 30. (AP)—Jimmy Slattery of Buffalo tonight won the referee's decision over Maxey Rosenbloom of New York in a ten-round fight designated as a light-heavyweight world championship fight by the National Boxing Association which does not recognize Mike McTigue, whom the New York Boxing Commission selected for the title vacated by Jack Delaney.

In the opinion of newspaper men Slattery won eight rounds and Rosenbloom two. Slattery weighed 169 1-2; Rosenbloom, 159 1-2.

Joe Sachlocker, Pacific Coast welterweight, knocked out Freddy Ullman of New York in the first round of an eight-round bout.

CHUCK WIGGINS PROVIDES TUNNEY WITH EXCITEMENT

BY WESTBROOK PEGLER

SPECULATOR (N. Y.) Aug. 30.—Chuck Wiggins, the late sparring partner, materialized in Speculator overnight, about thirty-six hours overdue, and this afternoon gave Gene Tunney the first two rounds of genuine fist fighting that he has experienced since he began training here last June. Having fought Tunney twice when they were on a more or less equal footing professionally, Wiggins had no such whispering reverence for the master as the other sparring partners have evinced and he signalized his debut by tearing into Tunney with great abandon. It is true that after the first round he abandoned much of his abandon as Tunney was bumping him around the middle where Wiggins deposits large quantities of ale if and whenever available.

GENE TUNNEY

But, even so, he made Tunney miss a number of right crosses to the head and also made the master look much less masterful, particularly on two occasions when Gene went backward to the ropes and seeing no other way out, simply turned his back and ran. Also, there was one instant in the merrymaking when Tunney, leading a left from the hips, left his chin uncovered and stopped a smart right chop therewith.

Before these two rounds Tunney

(Continued on Page 2, Column 6)

LOCKHART SETS RECORD

ALTOONA (Pa.) Aug. 30. (AP)—Frank Lockhart of Los Angeles, established a new track record for rear-wheel driven automobiles at the Altoona Speedway today when he turned in a lap at 135.5 miles an hour to qualify for the 200-mile championship event here Labor Day.

Lockhart's mark was eight-tenths of a mile below the record for all cars of 136.6 miles an hour established by Leon Duray in trials for the June race of this year.

Pete De Paolo, 1925 speedway champion and two-time winner at Altoona, made two unsuccessful efforts to qualify his car at the prescribed speed of 125 miles an hour. He will be given another opportunity to pass the mark tomorrow.

STARS SILENCE BELLS

Hollywood Captures Sixth-Place Series Opener, 10 to 4; Both Sides Hit Ball Hard

BY BOB RAY

Base hits rang out with a vengeance yesterday at Wrigley Field, but the Mission Bells didn't—Oscar Vitt's Hollywood Stars capturing the opener of the series for sixth place by a convincing 10-to-4 score.

The Bells outhit the Sheiks, 13 to 12, but weren't able to make them good for so many runs, even though most of them were bunched. At that, they did succeed in knocking Dick McCabe off the mound in the fifth inning, but their efforts against the slants of "Arizona Bill" Murphy during the last four rounds were practically nil.

BILL MURPHY.

Hollywood's task was made comparatively easy because of the wildness of the Mission hurlers. A couple of Bell errors were also obligingly tossed in in the second when the Stars scored four runs and took a lead that was never headed. Herman Pillette started on the mound for the Bells and was succeeded by Lasley, Eckert and Bryan, only Eckert being effective and he was lifted for a pinch-hitter after hurling less than two innings.

Big Ed Rose, who looks like major-league timber, did his best to make the Missions win, slamming out a home run, double and a single. Rose's homer was of the freak variety, the ball hitting in the right-field corner and bouncing over the screen into the box seats. Chuck Gooch got three hits for the Vittmen, all of them singles.

Rose's homer started the scoring

George Young Tops List of Favorites

TORONTO (Ont.) Aug. 30. (AP)—Unless weather conditions moderate considerably, swimmers in the twenty - one - mile swimming marathon to be conducted here tomorrow for prizes totaling $50,000 will encounter difficulty from cold water. Late today a strong breeze from the southwest was whipping Lake Ontario. For two days rain has fallen steadily. Tonight the sky was still overcast.

The marathon course, a seven-mile triangle, has been laid out and a cable enclosing the entire triangle will be stretched early tomorrow morning. Officials have decided definitely to start the swimmers off at 8:30 a.m., Eastern Daylight-Saving Time.

Official numbers have been drawn by 260 swimmers. At one time there were 422 contestants entered, but medical examinations and last-minute withdrawals cut down the field considerably.

Premier G. U. Ferguson will act as official starter.

DAVIS PLAYERS TAKE MATCHES

Continued from First Page)

waded through the northwestern champions of St. Paul, Minn., W. S. Neeal and Robert Shay, 6-1, 6-2, 9-7.

Tilden and Hunter went into play showing the style of tennis that has brought them honors this year that have not been equaled for many seasons by a doubles team. Winners of the English championship at Wimbledon, the Seabright tourney, Southampton honors and the Casino tournament at Newport, R. I., last week, they have an impressive record.

The women's doubles tournament will open tomorrow. Summary:

Helen Rose of Santa Monica, Cal., and George M. Lott, Jr., of Chicago, defeated W. B. Neeal and E. Shay, both of St. Paul, 6-1, 6-1, 9-7.

Lucien Williams of Chicago and John Hennessey of Indianapolis, defeated J. C. Shields and T. G. Krall, both of Tacoma, Wash., 8-6, 6-4, 6-4.

John Van Ryn and Kennedy Appel, East Orange, N. J., defeated Howe Bancroft of San Francisco and Alexander Weiner of Philadelphia, 6-4, 6-4, 6-2.

William T. Tilden, II, Philadelphia, and Francis T. Hunter, New Rochelle, N. Y., defeated Earl Cochell and Lee Bond of Salt Lake City, 6-2, 6-1, 6-1.

Lionel Ogden of Santa Monica, Cal., and Clyde(sic) Holmes of San Francisco, defeated Wilmer Allison of Fort Worth, Tex., and John Burt of Dallas, 6-4, 6-2, 6-3.

L. Norris Williams of Philadelphia and William Johnston of San Francisco defeated John Strachan of Chappelhall, both of Kansas City, 6-4, 6-2, 6-4.

A. C. Wasters and C. E. Granger, both of New Orleans, won by default from R. Lindsay and Commander C. C. Gill, U. S. Navy, by default.

Henri Cochet and Jacques Brugnon, France, won from Ben Gurchakoff and Marvel Crain, both of Los Angeles, by default.

Jean Washer of Belgium and Frank Shields of New York defeated G. P. Gardner, Jr., and Carl Gould, both of Boston, 6-4, 7-5, 6-4.

Berkeley Bell of Austin, Tex., and James Quist, Dallas, defeated W. S. Hood, Jr., and H. Timmons, both of Denton, 6-3, 6-4, 6-4.

Lewis White of Austin, Tex., and Louis Thalheimer of Dallas defeated H. Rhodes and Alan Wilder, both of Hartford, Ct. 2-6, 6-3, 6-4, 6-4.

Jess Rowlen and Ross La Costa, both of Fresno, defeated Albert and Arnold Wood, both of Boston, 7-5, 6-1, 6-1.

James Davies and Gerald Stratford, both of San Francisco, defeated Telge Tate and Ryrel Mill, Jr., 6-2, 6-2, 6-2.

Lt. William M. Ingraham, both of Providence, R. I., defeated John Strachan of Philadelphia and Ramon Cesar of New York, 6-1, 6-4, 6-4.

T. W. Niles and W. M. Washburn, both of Boston, defeated M. I. Johnson and J. R. Perez, both of Boston, 3-6, 6-4, 6-2, 6-4.

STARS CAPTURE OPENER, 10 TO 4

Continued from First Page)

in the second and the Stars came right back with four in their half. Mickey Finn's error on McCabe's roller after two were out paved the way for the Hollywood rally. Gooch singled and Lee walked to fill the bases. Schulyler's sharp hit to right scored McCabe and Gooch, and then Babe Twombly doubled to right, bringing in Lee and McNulty. Gillespie's error made it easy for McNulty to score and sent Twombly to third. Heath rolled out to end the inning.

The Bells bunched five hits, including a double, in the fifth, but could only score two runs. Murphy came to McCabe's rescue with two on and two out, purposely walked McDaniel to fill the bases, and got rid of Rodda on a force play to end the session.

Whitney, Pillette and Swanson began the fifth with singles, the third hit scoring Whitney. Gillespie lined to Kerr who tossed to Lee, doubling Pillette. 'Tis well for the Vittmen that that double play occurred or the Bells might still be batting. Swanson stole second and scored when Finn singled to left. Rose's double off the bleacher screen followed, but Finn was held at third. Whereupon Murphy entered the box and purposely walked McDaniel, Lee and Kerr turned Rodda's roller into the third out.

The Stars got two in their half on Heath's single, Kerr's double, an intended walk to Agnew, and Gooch's single to center. There were two out when Gooch punched out his run-producing base-knock.

BELLS PICK UP ONE

Slade, Whitney and Jones, batting for Pillette, opened the sixth with successive singles to fill the bases, but only one run resulted. After Swanson fanned, Gillespie hit a sacrifice fly that scored Slade. Finn forced Jones on a nice assist by Gooch to Kerr.

Lasley's wildness gave the Stars a run in the sixth without a hit. McNulty walked, stole second, and took third on Twombly's infield out. Heath was hit by a pitched ball and Frederick walked, filling the bases. Kerr's sacrifice fly brought McNulty home. After Lasley had walked Agnew to again fill the bases, Eckert was sent in to pitch, which he did—striking out Murphy.

Hollywood's final three runs came in the eighth when Bryan purposely walked Agnew to fill the bases to get at Murphy, who tripled to center, scoring three runners. Score:

CARDINALS BOW TO ROBIN NINE

Dazzy Vance Scores Victory Over St. Louis

Pittsburgh Splits Double With Quakers

Boston Defeats Cincinnati in Long Tilt

BROOKLYN (N. Y.) Aug. 30. (AP)—Dazzy Vance and his Brooklyn Robin teammates handed the St. Louis Cardinals a 5-to-3 beating today that shoved them back to third place in the league. Vance fanned eight men with his fast ball and allowed but six scattered hits. The speed-ball king also helped to win his own ball game by getting a single and a double in four times up, driving in one run and scoring twice.

Bill Sherdel, Cardinal slow-ball artist, was touched for thirteen hits in less than eight innings.

Two Brooklyn errors made the game comparatively close. Score:

Base on balls—Off Vance, 1; Sherdel, 1; Struck out—By Vance, 6; Sherdel, 1; H. Bell, 1. Hit by pitcher—Butler by H. Bell. Winning pitcher—Sherdel. (2 in (none out in 9th.) H. Bell, none in 1. Losing pitcher—Sherdel. Umpires — Wilson, Quigley and Pfirman. Time of game—2h. 13m.

PIRATES SPLIT

PHILADELPHIA, Aug. 30. (AP)—The Phillies held Pittsburgh to an even break in a double-header today, winning the first game by a 3-2 score in ten innings and dropping the second, 12-6. Hub Pruett outpitched Kremer in the opener and gained the verdict when his teammates clubbed two runs over in the tenth after the Pirates had scored a run in their half of the inning. A pinch double by Jack Scott and singles by Spalding, Wrightstone and Leach scored the winning tallies.

"Moon" Harris starred in the second game by hitting three singles and a double and driving in six of the Pirates' runs. He hit a double that scored three runs in the seventh inning and broke up a 6-6 tie. Score:

BRAVES TRIUMPH

BOSTON, Aug. 30. (AP)—Hugh McQuillan had the better of Pete Donohue in a pitchers' battle that went eleven innings today and Boston defeated Cincinnati, 2 to 1. The former Giant star held the Reds to four scattered hits and up to the ninth the visitors had obtained only one safe blow. Donohue was hit hard but was strong in the pinches. The winning run came when Richbourg with the bases filled, sent a single over Kelly's head in the eleventh. Ed Brown, who was sent into the game late, raised his total of successive games played to 540. Score:

KUHNS BEATS NELSON

ALLENTOWN (Pa.) Aug. 30. (AP)—Joe Kuhns, Reading (Pa.) lightweight, won a decision over Frankie Nelson of Wilmington, Del., in a ten-round bout here tonight.

OBSERVATIONS

BY THE UNNOCENT BYSTANDER, BILL HENRY

WE HAVEN'T any idea how George Young has been behaving himself since the day not so long ago, when he captured the Spearmint Sprint across Mr. Wrigley's channel from Catalina, but if George is anything like the boy he was then, he'll leave the rest of those competitors so far in the rear it will look as though they are competing in another event. On the form showed out here Young looks like the best of the lot with the chesty Mr. Summers of Alameda next best. The majority of the marathon swimmers are a lot of deluded old ladies and gentlemen who like to get their pictures in the paper but can't swim for sour apples. Most of the early day English Channel swimmers were just human life buoys who floated around until friendly currents cast them up on the opposite shore and Brother Young can give them 500 yards headstart and beat them in a mile race.

• • •

Someone has already pointed out the similarity in the cases of Betty Nuthall and Helen Wills. The English girl who reached the finals of the national tournament, only to lose, while only 16 years of age is just repeating the story of Helen Wills who five years ago at the age of 16 also reached the finals of the tournament only to lose in the final round. Miss Nuthall, however, is no more likely to be discouraged than was Miss Wills and there seems little reason to doubt that the young English girl will be one of the champions a few years hence.

• • •

That long awaited drive on the part of the first division teams in the National league, seems to have started and the Chicago Cubs are being cruelly victimized. So far they have managed to hang on to the lead which they so carefully built up at the midseason period and, to tell the truth, McCarthy's men have shown no signs of cracking. The thing that has beaten them is a superior team, in the majority of cases, and it is no disgrace to lose to that kind of an opponent. Mebbe the Cubs will take a bracer and hold that precious lead but it looks bad now.

• • •

Our old college chum Willis Ritchie appears to be doing better on his comeback attempt than anybody thought possible. Willie always did take good care of himself and he was a smart boy besides. He leaped into fame overnight in Los Angeles when he substituted for Ad Wolgast more than fifteen years ago against the great Freddie Welsh and made an astonishing showing against the master boxer who was then at the height of his glory. He accepted the bout on forty-eight hours' notice and was thought of as a sort of a set-up. But Willie fooled 'em and later won the title and many predicted he would after this first big fight.

PORTLAND WALLOPS SEATTLE CLUB, 5-2

SEATTLE, Aug. 30. (AP)—Elmer Ponder, Portland hurler, held the Seattle Indians to four hits while his team-mates batted their way to a 5-to-2 victory in the fastest game played here this season. The nine innings were finished in an hour and thirteen minutes. Elmer Smith cinched the day for the Beavers when he hit for the circuit in the fifth with Chalmers Cissell on base. The Tribe did its scoring in the third inning, when Ponder allowed three hits. The only other time he was touched for a bingle was in the ninth. Score:

ANGELS ROMP ON SEALS

Cunningham Twirls 12-to-2 Victory Over Former Training Mates; Mishkin Hits Homer

SAN FRANCISCO, Aug. 30.—Bruce Cunningham, a Berkeley youngster who tried out with the Seals at Boyes Springs two years ago but didn't impress Messrs Strub, Graham and Putnam, tossed a few at his former spring teammates in an Angel uniform today and walked off with a 12-to-2 victory. Consequently, Messrs Strub, Graham and Putnam are not speaking for publication tonight.

Cunningham had an easy time. His fellow-toilers spotted him seven markers in the first inning and from then on he breezed along like a yacht under full sail and a tail wind.

The Great Mails started for the Seals and his wildness was his undoing. He walked Cox in the first inning and Kahn bunted Cox to second. Suhr threw Staley out and Mails seemed to be out of trouble, but he lost control again, walked Jahn and then went from bad to worse by hitting Hood, filling the bases.

That brought up Weis, a left-handed hitter, and he doubled to left to drive in two runs. Mails was high up in the air by that time, so he walked Brasil, another left-handed hitter. Sandberg singled to center, scoring two more and then Mails was lifted.

Bob Geary went to work and young Cunningham greeted him with a home run that was good for three runs. That blow wrecked the game. The ball was a high fly that Doul could have caught easily on a larger field, but it fell into the bleachers out of his reach.

Bob Geary was hit freely until he was relieved at the end of the fifth to let Johnson bat for him. Syd Martin pitched the last four rounds and he did well. He was nicked for two runs, but as compared to Mails and Geary, he looked fine.

Solly Mishkin drove a ball over the right-field wall in the second to give the Seals their first run. A single by Johnson, a hit by Mulligan and an infield out, accounted for the other run in the fifth. The score:

LOS ANGELES	AB	R	H	O	A	SAN FRANCISCO	AB	R	H	O	A

HELEN REGAINS NATIONAL TITLE

Conquers Betty Nuthall in Straight Sets

California Net Star Again Tops Rankings

British Team Wins Doubles Trophy Once More

Continued from First Page)

abroad that leaves no question of her place at the top of women's amateur banks for this year.

In an unbroken streak, she won the highest honors of British tennis at Wimbledon and regained the American title she was forced to default last year after an operation for appendicitis.

LOSES DOUBLES

Miss Nuthall lost her second bid for an American championship when she and her partner, Joan Fry, were defeated in the doubles final. The title went overseas to Britain, anyway, for the victors were Mrs. Kitty McKane Godfree and Miss E. H. Harvey. They won by scores of 6-1, 4-6, 6-4, in an all-English final that took the doubles cup overseas for the second time in five seasons.

It took Miss Wills only thirty minutes to down her youthful foe in the singles battle but it was a picturesque tussle between two contrasting personalities, and an interesting duel of tennis while it lasted. The result seemed regarded as a foregone conclusion, a view that was strengthened as Miss Wills reeled off five games in a row in the opening set with the loss of only 6 points.

Against such a withering fire as the American ace directed at the baseline, Miss Nuthall seemed helpless. Any other player but "Beaming Betty" might have been discouraged.

Instead of wilting, Betty rallied. Her first success was a "break" through Miss Wills' service in the second game of the final set. She paid dearly for this by dropping the next three games in a row as Miss Wills appeared to have victory in her grasp. Betty again pierced the powerful delivery of the American, in the sixth game, then won her unorthodox underhand service at love.

The gallery at this point was cheering Miss Nuthall wildly and its enthusiasm was only temporarily checked as Miss Wills made her own service good and assumed a lead of 5

Southland to Have Edge on Dove Season

The dove season is to open tomorrow morning throughout the state of California and should all the sportsmen who have been seeking birds around local sporting goods stores and at the Fish and Game commission, be out on the opening day, doves are in for some tough going.

That the game is plentiful seems to be a foregone conclusion of the many hunters assembled in town, declares Pete Peterson, hunting authority at the R. H. Dyas Company. For several years no shooting ordinances have been put down in Los Angeles county just at the start of the hunting season. This law kept many hunters away and gave the birds a chance to multiply. There is no law against hunting this year but there is a law which is being strictly enforced—no smoking!

The season this year will be open in the Southern California zone during all of September and October, but in all districts of the state the season will be open only during the month of September.

Walton Hubbard Jr.'s Tempe III of Newport Yacht Club Wins International Race

LEADERS TRAIL NEWPORT SLOOP

Hubbard Sails Brilliantly to Beat Colleen

With Last Year's Champ for Second Place

Boat Proves Superior in Windward Work

NARRAGANSETT (R. I.) Aug. 30. (AP)—Tempe climbed to the front in the international championship race of the Newport Star-Class Yacht Racing association here this afternoon, when Walton Hubbard Jr.'s Tempe III, the Newport Harbor entry, sailed a superb race, easily leading on the windward legs of the course and finished eighteen seconds ahead of the Central Long Island entry boat Colleen, and a minute and seven seconds ahead of the Newport boat, Rhody of the Narragansett fleet.

The Gravesend Bay boat Ben Ami finished fourth, leading the champion, Ace, from the Western Long Island Sound fleet by forty-five seconds.

There was a stiff southerly blowing all over the course was a two-knot-to-the-mile head right into the teeth of it and a run back, and reefed.

The start was at 2:15. All the boats crossed on the starboard tack, the wind as soon as they were headed over toward the west end of the bay, Tempe, Colleen, Ben Machree and Hoku were for the lead. For a while, Tempe's race, but when they got to the westward for the mark, Colleen had their bows and rounded the first with Colleen following. Rhody outran, however, and rounded the mark, but fell back to third on the next beat, and couldn't make up the run. The summary:

Yacht	Elapsed time	Points
Newport Harbor	1:54:17	17
Colleen, L.I.S.	1:54:35	14
Narragansett Bay	1:55:24	13
Gravesend Bay	1:56:42	12
Queens, L.I.S.	1:57:45	11
Newport Harbor	1:58:02	10
Gravesend Bay	1:59:25	11
Queens	1:59:53	8
Narragansett Bay	1:59:55	7
Hampton Islands	2:00:17	9
Staten Island Boat	2:00:17	6
Miami Coast	2:00:19	5
New Orleans	2:00:19	4
Newport Harbor	2:01:10	6
Lake Michigan	2:01:14	3
Delaware River	2:01:14	2
Eastern S.C.R.	2:04:00	2
Hampton Roads Whitehaven	2:04:00	2

Ben Machree finished first with Colleen leading on the second beat, with Rhody outpointing following. Rhody outran, however, and rounded the mark, but fell back to third on the next beat, and couldn't make up the run. The summary:

YOURS TRULY

Rogers Hornsby *Ty Cobb*

Dear Ty:

When I first broke into the big league and was wondering about how long a player would stick to the game if he liked it, I heard an old ball player repeating what he had heard Clarke Griffith say.

"A ball player never retires," is the way Griff put it, "until somebody cuts the uniform off his back." I guess that's the answer.

I've often thought about that since and I don't believe there was ever one ball player in a thousand who quit the game voluntarily.

I don't know when I'm going to quit—hadn't even thought of it. Of course, I haven't been in the game as long as some of you fellows, but I have noticed that the really good players are the ones who stick a long time. That's because they love the game. If they didn't love the old game they wouldn't be good.

Why, do you know, that old Hans Wagner is playing ball right now in a little league out in the Middle West? They've tried to put him in business and all that sort of thing but old Hans says he simply can't keep away from a chance to crash that old apple. They tell me that he is slow on his feet but that the old boy can still hit 'em.

I know that a lot of people have the idea that we professional players are out there every afternoon just to make a living, but how much money do you think it would take to keep some of us out of this fight for the pennant in the National League right now?

We had a four-day lay-off last week and I never saw such a lot of impatient fellows in my life. They were just as eager to get going as you and I were when we looked forward to the weekly game in our little home towns.

And, believe me, Ty, when this outfit of ours starts, it goes somewhere nowadays. The gang has got the notion that it has a real chance to win and you would enjoy seeing them fight for every point. From what I hear the Cubs are getting scared.

If that Detroit outfit wasn't so far behind they would cause a lot of trouble right now too. It took a lot of team spirit for them to win thirteen straight.

The luck that has held to the Cubs all season has sort of backfired lately and the Giants are beginning to get their share. We've got the best ball club in the league, make no mistake about that, and with an even break of luck we are likely to knock the whole first division for a loop. Had you noticed that the boys in the dugouts have stopped talking about how the Yanks and Cubs would stack up in a world's series? There is a feeling throughout our league that something big and sensational is likely to happen any minute. It's the kind of a finish that you would love. Honestly the mornings now seem like two or three days while waiting for the battles to begin.

How could a man think about retiring with that sort of fighting spirit to spur him on? To make one of our fellows quit now you would have to blast.

Just watch our smoke from now on.

Yours truly,

Rogers Hornsby

LOWRY'S RABBIT PUNCHES

Continued from First Page)

thing about Midget except what Don Hutchinson told me—that he licked Lew Paluso, Spug Meyers, Billy Wallace and Tommy Cello. Midget is said to be a sort of a light-lightweight, but if he has really licked the guys Don says he has, Bud will either be in rare shape for Sangor or recovering from the evening's festivities with Midget. At any rate the boy promoters at Culver City—Jimmy Murray and Harry Likely—stand a very good chance to make a little dough tonight, which in the long run is what counts.

* *

When the new Sunset Fields golf course is officially opened for public play some of the long-distance clouters of the fair community are going to be treated to quite a surprise. Greens on 400 to 475-yard holes which the boys are accustomed to reach with a couple of ordinary shots are going to be without the pole, so to speak. This is probably due to the fact that the course is built on peat land and there is very little roll to the ball.

The new course promises to be very popular because of its proximity to the business and residential centers in the west end of the city and because Bill, Bell has laid out an intriguing eighteen-hole lure. He has taken every advantage of the natural contour of the land, of the trees on the course, and even made a replica of one of the famous Troon (Scotland) holes out of a quarry that was on the property before the Messrs. Daugherty, Heath, et al, leased the property for a fifteen-year stretch. Altogether, it is a very enjoyable course and in fine condition considering the brevity of its existence.

* *

Bill Wrigley's water derby at Toronto today will be watched with more than ordinary interest in this city. Partly because Bill staged his first derby in Southern California waters, but mostly because of Byron Summers and Bert Rovere, who are claimed by this district.

Rovere is a restaurateur of this city, and Summers hails from Alameda, but occasionally lives with a sister in Glendale. Rovere made a splendid showing in the first Wrigley marathon with very little training while Summers later beat Young's time by something like four hours across the channel.

URGE DEMPSEY TO USE TOWEL

CHICAGO, Aug. 30. (AP)—Jack Dempsey was asked today to return a favor and second Eddie Anderson, the Wyoming cowboy, in his ten-round bout here Friday night with Tony Canzoneri. Bill Duffy, Anderson's manager, was in Jack's corner, when the former champion knocked out Jack Sharkey, and is anxious to assist also in the Tunney fight, Dempsey did not indicate his decision.

NEGRO BATTLER DROPS VERDICT

Continued from First Page)

bad by crowding him, and Gans gradually lost steam as the fight wore on.

It was Fields's first fight since he became a 140-pounder, and his victory establishes him as a worthy foeman for Mushy Callahan, the junior welterweight king. One of the few defeats suffered by Callahan since he became a main eventer was at the hands of Gans a little over a year ago.

Fields weighed 140 1-2 pounds last night, while Gans scaled at 137 1-2 pounds. The house was comfortably filled. Frank Holborrow refereed the main event.

AUERBACH BEST SLUGGER

Herman Auerbach captured the semi-wind-up from Freddy Mack in six rounds after a roundhouse walloping contest in which Mack kissed the canvas with the back of his pants three times, but otherwise was still there at the finish, although somewhat the worse for wear.

Benny Chavez gave Joe Pimenthal a body beating and walked off with a six-round verdict in the special event. Sandy Garrison, a likely-looking boy, cleaned Bert McCoy by a technical knockout in the third round, and Young Terry did the same thing to Gerald Rooney in the same number of rounds.

BERGERE SUES FOR HUGE DAMAGE SUM

Cliff Bergere, well-known auto race driver, through his attorney Jack Stykal, yesterday filed suit for $15,000 damages against Ed Muller, another pilot, for failure to deliver a Miller racing car. Bergere declares he contracted to buy the car, and that Muller agreed to the terms, by telegram, but later sold it to another party. Bergere claims the lack of a suitable vehicle cost him $15,000 in prize money which he would have won, and is suing for that amount.

SUNSET FIELDS GOLF COURSE OPEN FRIDAY

The Sunset Fields public golf links, located at the intersection of West Vernon avenue and Angeles Mesa Drive, will be open for general play from Friday, September 2, on. Although two medal play events have been scheduled over the week-end these tournaments will not in any way interfere with general play.

Taylor Plans to Scale Big for Smith Go

Only about three pounds will separate Bud Taylor, bantamweight champion of the world, and Midget Smith, Salt Lake City featherweight, when they tangle in their scheduled ten-round encounter at Culver City tomorrow night. Taylor, it was reported at the Manhattan Gymnasium yesterday, will scale about 126 for the mill, while Smith is already down to the 126 he is required to make.

Bud Taylor

The featherweight class is no novelty to Taylor, whose best fights have always been against the boys who scaled around the 126-pound notch. Few bantamweights care to mingle with the toughest pusher the 118-pound ranks have known in a decade or more, and the Hoosier boy has been forced to do battle most of the time against the top-notch featherweights.

Smith, too, has been compelled to go out of his class since his arrival in Southern California. All his battles have been against lightweights and he is hailing the chance to meet Taylor at the featherweight limit with much glee.

Jimmy Fox and Manuel Martinez are down for the six-round semi-wind-up of Jimmy Murray's card.

WILLIAMS GETS NEW ARBITER

SAN FRANCISCO, Aug. 30. (AP)—Harry Williams, president of the Pacific Coast League, announced today he had telegraphed Umpire Paul Genshlea of the Utah-Idaho League to report to him at the close of the latter circuit's season, Labor Day. Williams said he had received fine reports on Genshlea's work in the Class C league and that he would be used in the Coast League during the last month of the season. The Coast League head sent Genshlea, a young Sacramento arbiter, to the Utah-Idaho circuit this spring for development.

Cochrane Takes on Hagenlacher

CHICAGO, Aug. 30. (AP)—Walker Cochrane, world's baseline billiard champion, agreed today to defend his title against Eric Hagenlacher, German challenger, here September 29, 30 and October 1. Three blocks of 500 points each will be played. Jake Schaefer will play the winner within sixty days.

DI VODI WHIPS ROSEN

NEW YORK, Aug. 30. (AP)—Andy Di Vodi, Brooklyn junior welterweight, won a decision in ten rounds tonight from Charlie Rosen of New York.

Britt Gorman Made Favorite for Legion Go

Britt Gorman, one of the heavy favorites to win the Hollywood American Legion Stadium flyweight tournament, has been made public choice over Johnny McCoy of El Paso in the main event at the stadium Friday night.

Before Gorman arrived in this city he was touted very highly by boxing men, who knew what the boy could do. Britt came to California to get a fight with Fidel La Barba, but the little Italian champion retired before the bout could be made. Gorman figures to be a big card at Hollywood. He is fast and clever and a very nifty looking kid in action.

Commissioner Seth Strelinger is taking a keen interest in the tournament. Strelinger is at the stadium to see the fighters weigh in and pass medical inspection. If the boys fail to make 112 pounds they are automatically eliminated, but not barred from fighting.

Tom Gallery slipped one over on the New York promoters by signing up all the good flyweights in the country. Those not signed have been beaten by boys that are in the Hollywood tournament. If Newsboy Brown doesn't want to take a chance with the rest of the little fellows all is okay, as Willie Davies beat Brown just two months ago. If Brown is to be a contender or claimant for La Barba's title, he must beat Willie Davies.

Tom Patrick stands a good chance of beating Harry Huncan, the Canadian middleweight, who is making his first appearance in this city in more than a year.

Laswell Drops Handball Tilt to Young Star

Harry Le Boube, 19-year-old handball sensation from Caltech, kicked the dope bucket for the well-known goal yesterday when he handed Maynard Laswell, retired, undefeated handball champion of 1924, 1925, 1926, his first defeat in the round robin being staged at the Los Angeles Athletic Club.

The collegian copped the opening game by the score of 21-8, but Laswell stepped out and copped the second game, 21-15. In this game, Laswell injured his shoulder and Le Goube romped home the winner in the third and deciding game by the lop-sided score of 21-5.

The round robin is being staged to pick opponents for George Nelson, handball singles champion for 1927, who is slated to arrive in Los Angeles Monday morning for a series of exhibition matches against the handball stars of the Mercury Club.

DADO TO BOX RILEY

SAN FRANCISCO, Aug. 30. (AP)—Speed Dado, young Filipino flash whom many critics consider the best flyweight to come from the islands since Pancho Villa, meets Roy Riley, Oklahoma City, in a ten-round main event at National Hall tomorrow night.

PALMOLIVE AFTER SHAVING TALC 25c
(Full-sized tin)

Both For 35c

An Amazing Shaving Cream
with 5 Unique features

Palmolive Shaving Cream, as you doubtless know, is a unique creation—the result of 60 years' study by the makers of the world's most popular toilet soap, Palmolive.

1. Multiplies itself in lather 250 times.
2. Softens the beard in one minute.
3. Maintains its creamy fullness for 10 minutes on the face.
4. Strong bubbles hold the hairs erect for cutting.
5. Fine after-effects due to palm and olive oil content.

Palmolive After Shaving Talc
to give "that well-groomed look"

Thousands of men find Palmolive After Shaving Talc a powder that is kind to the skin . . . that increases the benefits of the naturally soothing oils of Palmolive Shaving Cream.

It takes away that after-shave shine—avoids that "powdered" look. Not an ordinary talc. But one that matches the excellence of Palmolive Shaving Cream; that combats skin roughness and leaves the skin both smooth and fresh.

Another Remarkable VALUE Offer to Win New Friends for 2 Palmolive Products

Go Today to any dealer listed below—buy a tube of Palmolive Shaving Cream at 35c and get a tin of Palmolive After Shaving Talc FREE. Don't Delay. Dealers' stocks are limited.

WE make this offer because multitudes who use Palmolive Shaving Cream may not have tried Palmolive After Shaving Talc. . . .

And because other multitudes who use Palmolive After Shaving Talc may never have tried Palmolive Shaving Cream.

To bring these men together, to give to each the shaving joys the other knows, we make this remarkable TWO-FOR-ONE offer. But for a few days only.

Today, go into any store listed here and buy a tube of Palmolive Shaving Cream at 35c and get a regular 25c tin of Palmolive After Shaving Talc with it—both for the 35c, two for the price of one.

There are only two ways to get either of these famous products. The first is to buy them at their full prices—25c for the talc, 35c for the shaving cream—the other is to take advantage of this big 2-for-1 offer, while it lasts.

Step into any of the stores listed and get yours NOW. Each dealer has an allotment. When that is exhausted he sells each article at its full price again. So do not delay. You may be disappointed if you do.

WHITE HOUSE JOB NEARS END

Ready for Occupancy When Coolidge Returns

Outside Evidence of Great Renovation

Wood and Nails May Be Sold as Souvenirs

WASHINGTON, Aug. 30. (Exclusive)—The task of making the White House ready for Presidents nears the end.

Just a President who went away has returned to the capital of the official roof. Some, of course, did not get back from pilgrimages, but that is something again.

Since Gen. Grant's tenure has no President been able to share the excitement of Mr. Coolidge. When he comes home from the West he will return to the "safety" of a White House roof.

Painters and decorators remain at work, but the end is in sight. Another, unless attic has been transformed into a modern third-floor apartment. Steel girders and fireproof construction have supplanted the rotted wooden beams and joists which had done duty since

FITTS LAUDS COUNCIL PLAN

SACRAMENTO, Aug. 30. (AP)—Lieut. Gov. Fitts today is enthusiastic in his praise of the Governor's Council plan which was inaugurated yesterday as part of the governmental reorganization plan worked out by Gov. Young.

Fitts, who acted as chief executive while Gov. Young attended the Colorado River conference in Denver, sat in at the first council session and was invited to participate in future meetings.

"I regard the council plan," said Fitts, "as one of the most progressive and forward steps taken in the reorganization of the State government.

"Undoubtedly the bringing together of department directors in monthly sessions with the Governor will result in much good and will greatly increase the efficient operation of the government to the benefit of the taxpayers."

was planned by army engineers to a nicety and carried out by a construction company to official commendation.

The entire interior must be repaired. The exterior is acquiring its biennial coat of white. The whole will be ready in a fortnight. There is no prospect that the President and Mrs. Coolidge will have to return to the Patterson mansion, facing Dupont Circle, although White House police continue on guard there. Not always does the government get things done on time.

Oddly enough, the man who has directed the restoration of the White House as a safe abode for the first time since the Grant administration is a descendant of the famous general—Col. U. S. Grant III, officer in charge of public buildings and parks.

There is little discernible from Pennsylvania avenue to impress the bystander with what has been achieved. The contour of "the President's house" has not been altered materially. The interior changes effected ordinarily would not be revealed. Photographs and descriptions of the private quarters of the President and his family are barred. As he is exposed so much to public gaze the tradition is that the nation's chief must be permitted privacy in his residential section at the White House.

In this case an exception may be made later and photographs taken of the new arrangement of the White House interior. Decision must await the return of the Coolidges.

Not only have the construction difficulties been overcome in rapid order, but the cost will be within the limits set by Congress. Many problems which surveys, made in advance of the lifting the old roof, could not disclose have been overcome. It will not be necessary, however, to return to Capitol Hill for more money.

PLUMBING ANTIQUE

Contrary to a popular notion, the White House has borne resemblance to an Old World castle more than an American mansion. For many years its plumbing was medieval. Its rooms and wide corridors were draughty. The deaths of at least two Presidents were attributed to its bad location. It was on the edge of the river until the swamps were drained and the land filled, so that lovely parks now compensate for the former tolerance of malarial muck, where mosquitoes bold rendezvous and brought forth and reared their families to thrive on chiefs of the nation.

It bears today closer resemblance to a decent residence than ever in its history.

Until 1902, when President Roosevelt took residence at No. 23 Jackson Place, on the west side of the Lafayette Park quadrangle, during renovation of lower floors of the White House, there were no rooms on the third floor. There was not even a stairway. There was merely a barren attic. That was what had been intended by the original constructors, and that was what it had remained for a century.

The Roosevelt alterations led to the opening of a stairway to the attic and some servants' quarters were put in. Under the new changes a floor of modern quarters, with baths, has been devised. A wide corridor runs the length of the structure with suites on either side. Some may be reserved for the accommodation of guests should emergency tax the guest rooms on the second floor.

Storage, linen and other rooms have been provided. The new construction has afforded some semblance of the refinements of the conventional American house.

On the third floor, on the outside of the roof, along the south side of the building and over the south portico, there is a rather large flat area, paved with tiles, surrounded by a balustrade, that can be used as a promenade. From this place one may get a very beautiful view of the parks of the White House and of the Potomac in the distance.

THOSE IRON NAILS

A strange tale went abroad during the reconstruction work on the executive mansion, as it is called in official terminology. This was to the effect that some of the workmen were engaged in the lucrative side line to their more professional pursuits of selling old nails from the White House to souvenir hunters at the rate of three nails for a dollar. The story was looked into by Col. Grant and also by the contractor. Neither was able to find any evidence of such traffic.

"If this was a mere newspaper yarn, it was a pretty good story," according to the man who has had active charge of the work, Maj. J. C. Mehaffey. "We received a number of letters at this office including dollar bills and asking for three of the nails. Many of the old nails were hand-made wrought iron.

We also have had a tremendous number of letters from people in all parts of the country asking for pieces of the original wood from the old roof testifying to the widespread interest of Americans everywhere in the White House."

RIGHT TO SELL GIVEN

To satisfy himself as to his rights in this connection Col. Grant wrote to Atty.-Gen. Sargent, requesting his opinion as to the legality of complying with these requests.

In his reply the Attorney General held that since the wood was the property of the government no government officials has any right to give government property away without specific authority from Congress. He also said that if the wood was surplus property not needed, the only way it could be disposed of was by sale.

Col. Grant is intrigued by the idea the Attorney General has suggested. If the American people, in sufficient numbers, desire pieces of White House wood he may offer it for sale. The idea would not be to sell the entire amount to any one person but rather to obtain as wide a distribution as possible.

The somewhat inexplicable demand for souvenirs of this sort has resulted in so many requests for White House wood and nails as to necessitate a form letter to be sent to seekers of such trophies.

SECOND VICTIM DIES IN AIRPLANE CRASH

PITTSBURGH, Aug. 30. (AP)—Injured when an antiquated airplane crashed at Bettis Field, McKeesport, Sunday, Clifford Burnsworth, student pilot, died in a hospital today. James T. Clawson, street-car conductor and airman, who was piloting the plane at the time, was killed instantly.

NAVY FLYER CONVICTED AS STUNTER

Lieut. Williamson Found Guilty by Court-Martial of Endangering Lives

WASHINGTON, Aug. 30. (Exclusive)—Lieut. Thomas B. Williamson, aviator attached to the Hampton Roads naval air base, was found guilty by a court-martial today of violating low-flying regulations and menacing human life while "stunting" over a Washington residential district several weeks ago. The punishment fixed by the court-martial will not be announced until the finding has been approved by Secretary of the Navy Wilbur.

Meanwhile, Lieut. Williamson announced, a brief to be prepared by his father, Attorney Thomas Williamson and Capt. Field Harris, of the Marine Corps, the young aviator's service counsel, will be submitted to the Judge Advocate General of the Navy who will review the case.

The court's finding was that only two of the six specifications filed against Lieut. Williamson under a general charge of "conduct to the prejudice of good order and discipline" had been proved by the prosecution.

Poor Writing Proves Costly

SACRAMENTO, Aug. 30. (Exclusive)—The high cost of illegible hand writing is causing Frank G. Snook, chief of the State Division of Motor Vehicles, considerable worry. During the last six months Snook reported today, careless handwriting and improper addresses cost the division $9000.

Of this sum approximately $2300 was spent in postage in an effort to get motor vehicle license plates to persons who had given incorrect addresses.

The division records show that in the six months 11,129 sets of plates were returned unclaimed and the State was able to find owners for only 4840 of these careless motorists.

Hunt Narrows in Matricide Case

CHICAGO, Aug. 30. (Exclusive)—Search for Harry Hill, the 22-year-old Streator (Ill.) youth who is charged with the murder of his mother, centered today near Athens, Ill.

A hand working near the farm owned by Mrs. Elma Hill which, since her death, supposedly is inherited by the fugitive son, told La Salle county officials that he had seen Harry there last Sunday. This information came to State's Attorney Hansen shortly after he had been told of a telephonic conversation between Dr. H. C. Hill, father of Harry and divorced husband of the slain woman, and his brother at Athens.

Clubman Denies Guilt in Death

SEATTLE, Aug. 30. (AP)—Pleas of not guilty were entered in Superior Court here today by F. Creigh Nelson, wealthy clubman, and Amory F. Bell, his former yacht captain, to charges of manslaughter in connection with the drowning of Miss Violet Maude Payne, dancer.

In the same court, Mrs. Maurie McKevitt, alias Mrs. Hazel Vallejo King, entered a plea of not guilty to a charge of forgery. She asserts she is related to prominent California families.

Two Appointed for Drug Parley

SACRAMENTO, Aug. 30. (AP)—Lieut.-Gov. Fitts today announces the appointment of Senators Young, Los Gatos, and Christian, Haywards, as the Senate members of a legislative committee to confer with the Oregon and Washington narcotic commissions on the narcotic drug evil on the Pacific Coast.

The Senators will work with Assemblyman Lenehan of San Francisco and one other Assemblyman to be appointed by Speaker Levey, and one citizen to be named by Gov. Young.

YOUNG ACTS TO BOOST CANNED PEACH SALES

SACRAMENTO, Aug. 30. (Exclusive) Gov. Young today instructed George H. Hecke, Director of Agriculture, to put the State Division of Markets to work on a study of means to stimulate the public demand for California canned peaches. The Governor believes the market for canned peaches can be extended to the benefit of the growers, canners and the State as a whole. Hecke informed him that Wells Sherman, chief of the division of markets, has given thought to increasing the market for canned peaches. The importance of this work particularly to the grower, has been stressed during the recent price war between the growers and canners.

SENATOR REED CALLS VOTE FUND MEETING

KANSAS CITY, Aug. 30. (AP)—Senator Reed of Missouri, chairman of the special Senate committee investigating campaign expenditures, has called a meeting of the committee for September 7 at Chicago, it was announced at his office here today. William S. Vare, Senator-elect from Pennsylvania, and William B. Wilson, Democrat defeated by Vare, have been notified to be present, Hicklin Yates, Senator Reed's secretary, said.

OGDEN ARMOUR LAID IN GRAVE

Great and Humble Gather to Pay Final Respects

Songs Packer Loved Played at Funeral Services

Body Rests Beside Mother in Chicago Cemetery

CHICAGO, Aug. 30. (AP)—While the massive organ in the fashionable Fourth Presbyterian Church pealed forth the plaintive strains of "There's A Long, Long Trail A-Winding," the great and the humble rubbed shoulders here today at the funeral of J. Ogden Armour.

The socially great, the politically prominent, and men and women from "back of the yards," whom the packer had helped during his life-time, mingled with employees of the packing concern for whom one-fourth of the Michigan-avenue Church was reserved.

ANOTHER SONG

Ten years ago the packer, who died recently in London, expressed the wish that music be played at his funeral and always had admired that "Long, Long Trail" and today his wish was not forgotten. In accordance with another desire, "Beautiful Isle of Somewhere" was sung.

In the absence of Rev. John Timothy Stone, pastor of the church, the services, simple in character, were conducted by Rev. Cornelius Steffens, assistant pastor, and by Dr. Johnston Meyers of Emmanuel Baptist Church, a friend of the Armour family.

WORK HALTED

The industries which Mr. Armour developed throughout the world halted operations during the service.

Burial was in Graceland Cemetery beside his mother, who died three weeks ago.

Among the honorary pall bearers were Vice-President Dawes; Myron T. Herrick, Ambassador to France; James J. Davis, Secretary of Labor; Theodore Roosevelt, Jr.; Frank O. Lowden, former Governor of Illinois; Admiral W. A. Moffett, Senator Charles S. Deneen and Senator James A. Reed.

MAYOR STRIKES FOR MORE PAY

Welsh City Executive Heaps Scorn on Paltry $750 Yearly Salary

ABERYSTWYTH (Wales) Aug. 30. (AP)—J. D. William, the Mayor of this Welsh town of 10,000 inhabitants, has gone on strike for an increase in salary.

"The paltry 150 pounds ($750) you allow me already has been spent, and another 150 pounds besides," Mr. Williams told the town Council. "If anybody wants to see my accounts I have them. They will find more than 300 pounds spent, and that's putting it in plain English."

The Mayor of Torquay, he said, where there is a population of 41,000, receives a salary of 2000 pounds. He thinks the salary should be 500 pounds at least.

AUTHOR'S PROPERTY DISCUSSED

Wife on Stand in First Day of Harry Leon Wilson Divorce Case

SALINAS (Kan.) Aug. 30. (AP)—Mrs. Helen Cooke Wilson, who is suing her author-husband, Harry Leon Wilson, for a divorce and property settlement, occupied the stand during most of the first day's hearing of the case before Superior Judge Treat here today.

Most of the session today was devoted to a discussion of the property settlement, Wilson having announced previously that he will not contest the divorce suit.

Mrs. Wilson asks one-half of the community property.

CHINA EXPLORER REPORTED SLAIN

Dr. Filchner of Germany and Staff Massacred

Party Killed by Natives of Western Szechuan

American and Englishman Also in Expedition

NEW YORK, Aug. 30. (AP)—The New York World says Dr. Wilhelm Filchner, former staff officer of the imperial German army and noted explorer, and all of the members of an expedition he was leading have been reported massacred by natives of the western part of Szechuan Province, China.

The World's wireless station today picked up a German transocean wireless press message to the effect that a British resident of Sikkim, in the northern part of India, just south of Tibet, had reported that Filchner and his party had been killed.

This report said the explorer's party included an American, V. O. Spyner of the Assembly of Gold Mission, and an Englishman named Watkinson, of the China-Inland mission. It was said they were crossing the wild and mountainous central part of China bound for India, and before entering Szechuan Province were warned by missionaries that it would be perilous to continue their journey. They were said to have disregarded these warnings.

Szechuan Province is just east of Tibet, where Filchner first won fame as an explorer by risking his life among the "devil worshipers" and penetrating forbidden regions. Most of his fame grew out of his leadership of German South Polar expeditions prior to the outbreak of the World War.

DANCING TEACHER FOUND MURDERED

EUREKA, Aug. 30. (AP)—The body of Dalton Burgess, 20 years of age, dancing instructor and taxi driver, was found in a street here today with a bullet hole through the head. Apparently he had been robbed and murdered.

HOME FIELD TO GREET HERO

Santa Monica Will Welcome Goebel Friday and Dinner Will Honor Pair in Hollywood

By a "Times" Staff Correspondent

SANTA MONICA, Aug. 30. (Exclusive)—Maj. Art Goebel and Lieut. William Davis, U.S.N., winners of the Dole flight to Hawaii, will fly to Goebel's home port, Clover Field, Friday from San Francisco. A committee of prominent Santa Monica residents and a large delegation of well-wishers from the bay district will be on hand to greet the flyers.

Maj. Goebel and Lieut. Davis are expected to land at Clover Field some time late Friday afternoon.

Cal Chandler and Eugene Inge, who are in charge of the general reception committee, left yesterday to greet the flight winners as they step off the steamship in San Francisco tomorrow.

MAYOR ON COMMITTEE

Santa Monica residents regard Maj. Goebel "as one of the family," because he has done most of his flying from Clover Field. On the official reception committee for this city are Mayor Michel, City Commissioners Frank Helton and John Morton, Otto Fehling, president of the Chamber of Commerce; M. C. McKenney, secretary of the chamber and Lieut. Walter K. Burgess, commander of Clover Field, who will be accompanied by a staff of officers, all of whom know the Hawaiian flyer personally.

Goebel will take off in his airplane, Woolaroc, from Bayside Island at 8 o'clock Friday morning on his home-coming flight. A radio broadcasting instrument will be aboard the ship and his messages while en route will be broadcast by local stations. Several escort planes, piloted by the former stunt-flyer's comrades, will meet the Woolaroc near Newhall and fly with it the rest of the trip.

DINNER PLANNED

Present plans call for the aviator and his navigator being tendered a welcome-home dinner at the Hollywood Cafe, where a number of addresses of congratulations and greetings will be delivered. Roger K. Adams, president of the Hollywood Aero Club, will preside as toastmaster at the dinner, which is scheduled to start at 6:30 p.m. Goebel is there to be presented with a silver loving cup by his fellow-members of the club.

After the dinner, there is to be a public reception at the El Patio Ballroom, Third and Vermont streets. Members, guests and officers of the Army Reserve Corps are to attend this affair as well as actors, executives and writers of the film colony. The reception is to begin about 9:30 o'clock.

CRUISERS LEAVE ON RETURN SEARCH

HONOLULU, Aug. 30. (AP)—The cruiser Omaha and six destroyers sailed for the Pacific Coast today from Pearl Harbor and will resume their search en route for the lost Dole flyers. The ships will search the drift waters from the great circle route until they come within 200 miles of San Francisco when they will turn south for San Diego.

Navy officers said today they believe the lost flyers are dead, but that there is a possibility of finding some of the wreckage of their planes giving a clew to their fate.

REDS PENURIOUS IN SACCO FIGHT

Life Battle Costs $350,000 and They Give $6000

Another $1000 Sent from Russia "Never Seen"

Where Most of Funds Came from Kept Secret

NEW YORK, Aug. 30. (AP)—The seven-year vain struggle to save Sacco and Vanzetti from death in the electric chair entailed expenditures totaling more than $350,000, Aldino Felicani, treasurer and founder of the Boston Defense Committee, announced here tonight.

Of this amount less than $6000 was contributed by Communists throughout the country, Felicani said, with the New York Sacco-Vanzetti emergency committee sending a total of $300 for the defense of the men.

Felicani accused all radical groups except the Socialists of using Sacco-Vanzetti agitation as propaganda to further their own individual politics. The Socialists, he said, contributed loyally to the defense fund.

Reports that Communists in the United States raised $500,000 in the interest of the men were branded as false by the founder of the defense committee. The Third Internationale at Moscow is said to have sent $1000, but the money never was received, Felicani declared.

The Boston defense committee's future program includes plans to provide for the future of Mrs. Sacco and her two children.

The death masks of Sacco and Vanzetti which have been on display here will remain for another day, and then be returned to Boston.

Under present plans, Felicani disclosed, half of the ashes of each man will be taken to Italy in separate urns and the remainder will rest in Malden, Mass., the former home of Sacco and the present residence of Gov. Fuller.

CONTEST OF BEAUTIES

Boxing Bathing Beauties Stop Short of Riot After Referee Falls

Then came the police!

But that, of course, was later. The police were an anticlimax to an esthetic evening of boxing on Wilmette Beach, a suburb of Chicago. Boxing, with its rules and padded gloves and its bally swank of bells that ring every time somebody gets hit, and its quaint old custom of having the referee do sums when one of the contestants sits down, may be all right for men. They may think it is virile and all that.

But it is no game for a woman. Woman is a gentle creature who wants action. The hand that rocks the cradle socks the world.

Two young women, one in a red bathing suit and one in a green bathing suit, took part in the boxing exhibition. They wore large pillowy gloves and save for the fact that the costume of the beach is somewhat scantier than that of the ring, they conformed to all the rules of the local Boxing Commission.

They smiled as they faced each other in a ring hastily marked on the wet sand and they posed arm in arm under the beach lights. A crowd of 500 persons (which the sporting experts estimated at 38,000) clustered about. Some one rang a bell. The startled pair inquired of the referee what to do next and then did it.

They hugged, necked, shimmied, pushed and clinched for one twenty-second round. The round was even. The battling bathing suits were led back to their corners and revived with pop and good advice.

They returned for another round in which honors were even. And so for a third and fourth.

In the fifth the red bathing suit became careless and turned around in midring to tell her seconds a joke. With no care for the rules of sportsmanship the green bathing suit swung from the ankles and the whole beach heard what happened to the red bathing suit's nose.

"You can't do that," declared the red. "And, anyway, you're too fat."

"No hitting in the conversation," advised the referee.

"I am, am I?" inquired the green. And she swung again, cutting off a rebuke with a clout to the jaw in between two syllables. Then somebody was down. It was the referee who had stepped in the way of the red. The green was crouched forward, instinctively protecting her face from a massage of boxing gloves, and the red was weeping bitterly.

"Take these things off," she demanded as she attempted vainly to do a bit of scratching through the pillow.

"You can't fight in these things. Oh, why did I ever let anybody cramp my style with things like this?"

She was still waiting for an answer to this question when somebody carried her off and the police arrived to find out what it was all about. That's the trouble with prize fights—the fighting.—[Chicago News.

AMERICAN WOMAN ATTORNEY

An American woman attorney will try cases in Paris, Athens and London while on a "vacation."

She is Miss Grace H. Brown of Detroit, who plans to sail to Europe soon to carry out her legal plans.

In Paris, Miss Brown will represent an Armenian claiming $500,000 from the Turkish government for land he alleges was confiscated. She has been retained in an immigration case in Athens and an involved estate will claim her attention in the London courts.

Miss Brown has received introductory letters to the foreign courts from Secretary of State Frank B. Kellogg.—[Exchange.

NOTAS TELEGRAFICAS

El Ministro de lo Interior Habla Sobre la Conservación del Petróleo

BUFFALO (N. Y.) Agosto 30.—El señor Work, ministro de lo Interior, dijo hoy, en discurso pronunciado ante el departamento de leyes mineras de la Asociación del Foro Norteamericano, que el gobierno federal debería pedirle al próximo congreso una legislación adecuada para conservar los recursos petroleros de la nación.

Con el fin de conseguir "unidad de pensamiento, de acción y de legislación, en bien de una producción y un consumo económicos de nuestro principal recurso natural," propuso el ministro de lo Interior la constitución de una comisión de tres abogados de relieve, tres ingenieros petroleros, y tres representantes del gobierno, para que redacten un proyecto de ley, que deberá presentar al decimoséptimo congreso el Negociado de Conservación del Petróleo Federal. La legislación debe tender a proteger los depósitos de petróleo de la nación contra el desplifarro en la producción y al público contra futuros precios crecidos de los productos del petróleo.

El General Summerall Recomienda Estemos Preparados para la Guerra

DETROIT, Agosto 30.—En alocución que pronunció hoy ante el vigésimo nono campamento castrense de los Veteranos de la Guerra Española, el general Charles P. Summerall, jefe de estado mayor del ejército, presentó argumentos en pro de una razonable preparación militar y de un pie de paz susceptible de rápida y eficaz expansión en caso de guerra.

Hizo hincapié el orador de la confusión y la desorganización consecutivas a la declaración de las guerras española y mundial, y dijo que este último conflicto les había enseñado a los norteamericanos que no pueden improvisarse un momento los implementos y las fuerzas de defensa; que el hombre que carga el rifle necesita apoyarse en bases mucho más firmes que sus solos patriotismo y valor.

Muchacha Sudafricana que Viaja 15,000 Millas para que la Operen

FILADELFIA, Agosto 30.—La señorita Florence D'Villers, agraciada joven de Pretoria (Sudáfrica,) ha sido dada de baja hoy en el Hospital de Jefferson, enteramente ,restablecida, y poseedora de un record: el de haber viajado mayor distancia que nadie para someterse a una operación en la clínica broncoscópica de Jackson. Un brochecito de bronce para papeles, que se le metió dentro de un pulmón hace diecisiete meses, fue el origen de su viaje de 15,000 millas hasta esta ciudad, donde ha sido operado con éxito. La señorita D'Villers va a casarse pronto en su ciudad natal, a la cual regresará dentro de poco.

Se Suicida un Veterano de la Guerra Española

RENO (Nevada) Agosto 30.—Allen M. Bradshaw, veterano de la guerra hispano-yanqui, y asilado en el Hogar del Soldado de Sawtalle, Cal., se hallaba con licencia pasando una temporada en un rancho cercano a Reno. Ayer atentó contra su vida cortándose las muñecas; pero fue prevenida la tentativa a tiempo, y encerrado el veterano en una celda de la cárcel del condado. Su decisión de morir, sin embargo, era tan firme, que poco antes de la media noche fue hallado su cadáver en la celda, colgado de un cinturón que el viejo soldado se quitó del talle para ahorcarse.

Los Rusos Sentencian a Muerte a Otro Espía Polaco

VITEBSK (Rusia) Agosto 30.—Vitold Ulkevitch, presunto espía polaco, ha sido sentenciado a muerte aquí hoy por el Tribunal de Distrito, que lo juzgó del delito de espionaje militar, como agente del Servicio de Información Polaco.

NOTAS LOCALES

La Iglesia Católica Trabaja por la Asimilación de los Mejicanos

Las jefas de la Hermandad de la Doctrina Cristiana, que es una organización de mujeres católicas para desarrollar el carácter, ha compilado datos estadísticos que serán presentados a la Conferencia Nacional de Caridades Católicas, con el fin de probar que no tiene razón de ser el temor expresado por algunos, de que la California del Sur no puede absorber su creciente población mejicana. Esta información fue proporcionada ayer por la señora George Nicholson, presidente de la hermandad de esta ciudad.

"Las colaboradoras de nuestra sociedad," dijo la señora Nicholson, "opinan unánimemente que es posible, y muy posible, la asimilación de los inmigrantes mejicanos por medio del trabajo educativo entre las mamás y los niños.

"La hermandad de la Doctrina Cristiana, en su labor de bienestar social, establece cada año contacto con unos 25,000 mejicanos. Si bien es cierto que los padres se expresan en lengua extranjera, los hijos demuestran de mil maneras que su preferencia está por la inglesa. Los muchachos tienen los mismos temas de conversación que la mayoría de los chicos norteamericanos: el baseball, la natación, los deportes, los automóviles, etc."

Accidentes de Tráfico el Día de Ayer

Max Berkowitz, de 21 años de edad, habitante en el 6128 del bulevar de Wilshire, montaba una motocicleta, y fue a chocar con ella contra un camión, en la esquina del citado bulevar y la calle de Irolo. Una hora después expiraba el infortunado motociclista en la Casa de Socorro. Según el parte de la policía, el camión iba guiado por James Renick, que habita en el 6601 del bulevar de Lankershim.

La señora Nora F. Newman, de 53 años, con domicilio en la calle Cuarenta, Este, 950, sufre la fractura de la cadera izquierda y numerosas graves contusiones, a consecuencia de haber sido atropellada por un tranvía del Ferrocarril de Los Angeles, en la esquina de las avenidas de Vernon y Santa Fe, según informes de la policía. Recibió la atropellada tratamiento de urgencia en la Casa de Socorro, y de allí fue trasladada luego al Hospital General.

SARDONIC LAUGH

A sardonic laugh is a forced, artificial, sneering, mocking laugh. The word "sardonic" is derived from Sardinia, an island in the Mediterranean. It was said by the ancients that a plant grew in Sardinia which screwed up the face of a person who ate it and made him appear to laugh when he had no such feelings. According to another version of the myth, those who ate of the Sardinian plant died laughing.—[Pathfinder.

MANY CARRIERS NEW TO HARBOR

August to Mark Inaugural of Several Services

Twenty-five Freighters Due in Offshore Trade

Gain in West-Coast European Commerce Revealed

Twenty-five off-shore cargo carriers, on their maiden visits to Los Angeles Harbor, are due at the port during August. This fleet of newcomers, totaling approximately 88,000 net tons, will also mark the establishment of several new foreign services to the Pacific Coast.

Continued developments in the coast's European trade is noted in the list of new arrivals; fourteen of the total of twenty-five vessels being on the berth or en route from North Europe or United Kingdom ports.

Antwerp leads the list in ports of departure, with five ships en route here; including the British steamer Wearpool, in Flood Brothers new service, the Norwegian tank motorship Belhor, the Spanish tank steamer Arnus, the British tanker Scottish Minstrel, and the Flood Brothers steamer Ornus.

Other European arrivals during August will include the new Hamburg-American liner Albert Voegler from Hamburg; the British tramp Binnonburn from Shields, the new Donaldson liner Madavia from the Clyde, the Bank liner tanker Inverglass from Swansea, the British tramps King Alfred and King Bleddyn from Montreal and Nordenham.

Oriental arrivals will include the new Alabama Maru in the around-the-world service of Osaka Shoshen Kaisha, the German tramp steamer Karpfanger from Yokohama and the Shell tanker Argonauta from Kobe.

Other new visitors will be the Norwegian motorship Heina, latest acquisition of the Latin-America Line fleet, from Chile; the Norwegian motorship Bronnoy, of the California-Australasian trade of the General Steamship Corporation, the British steamer City of Eastbourne in the around-the-world freight service of Ellerman's Wilson Line, the tank steamer E. R. Kemp from Norfolk, the new Nelson steamer Chambles from Norfolk, the British tramp, Falls City, from Barry; the Shepard & Morse freighter Maltran from New York and the Norwegian tank steamer Meline from Boston, under Standard Oil charter.

EXTRA DAY FOR FISH ON MENU ADVOCATED

Observance of two fish days a week instead of one is advocated by W. Clifford Smith, new Southern California deputy for the State Fish Exchange.

While Smith doesn't insist on emulating the English Tudor days, who passed a law and supported it for 100 years requiring fish eating two days a week, he points out it was the foundation of the English fish industry.

"Incidentally, they were healthier for it," he added, arguing many benefits from sea food. One of them is iodine, the enemy of goiters. The principal one cited, however, is in connection with the family pocketbook.

Smith shows little partiality among the thirty-odd varieties of the finnied tribe available for Southern California tables, pointing out that 20 to 40 cents would buy portions for most families. But the beef-eating habit was strong in the Middle West and has been brought bodily to Southern California, he declared.

"Folks down here, and I've long been one of them, do not eat nearly the amount of fish, as a matter of fact, they consume in San Francisco. Is it possible they don't know how to cook them?"

Smith has volumes of letters from Southland health and medical authorities mentioning his two-fish-days-a-week movement and he shortly will appear before Parent-Teacher associations and other bodies to further the movement. Incidentally, the State recently imposed maximum prices on catches in the fish of their benefit not only of consumers but fishermen and dealers alike. Stability of prices is said already to have demonstrated its advantages in increased consumption, and the State regulations has been unopposed during the ten days it has been in effect here.

A special order of the Japanese government has been issued in order that a swift mail-carrying liner may swerve from her usual course to give faster service to Los Angeles.

The N.Y.K. liner Tenyo Maru, 22,000-ton steamer specially subsidized by the Japanese government to carry mails to California from the Orient, will leave from this port on its return trip in September. Officials of the line discovered they had no large tonnage boat leaving here during September and, due to the increasing passenger traffic, such a sailing was necessary. Wires were sent to the Tokio office which negotiated with the Japanese government for special permission to have the subsidized ocean greyhound make her return from this port.

Customs collections at the Los Angeles Harbor branch will reach $25,000 for the month expiring tonight, a gain of almost 75 per cent over August of last year. They cover only tonnage tax, and entrance and clearance fees, and do not include duties in imports, which Collector Schwaebe will reveal tomorrow.

The Japanese motor liner La Plata Maru is due at daylight today on her second trip westward around the world for the Osaka Shoshen Kaisha, to drop and pick up passengers and freight. She is one of three new motorships recently added to the round-the-world service, the new craft belting the globe in about four months.

The yacht Sultana of John B. Mills Organization, Inc., will be converted from a coal to an oil burner at the yards of the Los Angeles Shipbuilding and Drydock Corporation, without any award of bids. Bids were called and tendered last week, but never acted on. The conversion already is under way, along with overhaul and other repairs. The yards also are nearing completion of a seventy-two-foot purse seiner for H. Bradich of San Pedro. The hull is being built by the yards at a cost of $12,000, in which will be installed 150-horsepower Union Diesel motors, supplied by Bradich.

"Let Bobbie, not George, do it," is the maxim aboard the Cities Service tanker Halo, and, of course, the hound-dog does it. Ten minutes before a change of watch, Bobbie stations himself on the bridge and when eight bells sound he drives the quartermaster off. He also supervises the filling of fresh water tanks, and the minute they overflow dashes wildly to the wheelhouse and lets the officer on watch know. Capt. S. A. Simmons, who is relieving the dog's master, Capt. W. Melander, this trip, says Bobbie is smarter than lots of sailors. He wandered aboard a year ago, none knows whence.

Struthers & Barry is the latest name mentioned as possible Pacific Coast agent for Bethlehem Steel's new Calmar Steamship Company, which will enter twelve ships in the intercoastal freight service next month. The rumor is based on the close personal friendship between Harry Struthers and the senior member of Moore & McCormick of New York, new general agents for the line. Struthers & Barry operated a trans-Pacific freight fleet for the Shipping Board until the latter merged the fleet with that operated by Swayne & Hoyt. Since then they have limited their activities to four Shipping Board tankers plying trans-Pacific, coastwise and intercoastal.

"Not without being sued for breach of promise."—[Boston Transcript.

AIR MAIL SCHEDULE

Now in effect: Universal postage rate of 10 cents per half ounce anywhere in the United States or Canada applies on all letters sent via Air Mail.

Transcontinental air mail service to and from Southern California is operated in both directions daily, leaving Air Mail Airport (Los Angeles) at 7:25 a.m. Pacific Time and arriving at Hadley Field (New Brunswick, N. J.) at 5 p.m. Eastern Standard Time the second day. Arrival at the New York City postoffice is one hour later.

Westbound departure from Hadley Field is at 12:15 p.m. Eastern Standard Time, with arrival at Los Angeles at 5:29 p.m. Pacific Time, the second day.

The Los Angeles daily closing for air mail is 6:30 a.m. at Arcade Station and at 7:45 a.m. or a little later at the air mail letter boxes painted red, white and blue, and located in various parts of the city.

Items for the Air Mail are restricted to not more than fifty (50) pounds in weight and to not more than eighty-four (84) inches in length and girth combined.

PACIFIC COAST ROUTE

Collection: Five mails at all air mail boxes not later than 2 p.m. and at the Arcade Station postoffice not later than 5:30 p.m.

The route will be operated on the following schedule: Northbound, leave Los Angeles, 12:45 a.m.; arrive at Bakersfield 1:45 a.m.; Fresno, 3:30 a.m.; San Francisco, 6:00 a.m.; Seattle, 2 p.m. Southbound, leave Seattle, 11 p.m.; Portland, 7 a.m.; San Francisco, 1:15 p.m.; Fresno, 3:15 p.m.; Bakersfield, 4:40 p.m. Arrive Los Angeles, 6:15 p.m.

SUN'S ARMY IN WILD RETREAT

Chinese Press Says Peking Troops Badly Routed

Three Thousand Killed in Few Days' Fighting

Horde of Prisoners Taken to Shanghai

[Copyright, 1927, by the Chicago Tribune]

SHANGHAI, Aug. 30. (Exclusive)—A dispatch received by the Chinese newspaper, Shun Pao, from Nanking tonight, says the northern (Peking government) army of Marshal Sun Chuan-Fang is retreating all along the line from the Nationalist troops. The northerners are going toward Shantung, relieving the pressure on Nanking, the Nationalist capital.

Several thousand northern troops which crossed the Yangtse River near Nanking are still holding out, but they are surrounded by southern forces and are expected to surrender soon.

Marshal Sun's retirement is due to his fear of being cut off by Nationalist troops from Hankow, which are advancing northward through Anhwei Province and menacing Sun's line of communication—the Tien Tsin-Pukow Railway.

More than 6000 prisoners of war and several hundred wounded northern soldiers were brought to Shanghai last night by the Nationalist troops as a result of the heavy fighting along the Yangtse, which resulted in the overwhelming victory for the Nationalist forces.

The fighting started last Friday morning when Marshal Sun, aiming at the recapture of Shanghai, ferried nearly 20,000 troops across the Yangtse under cover of a fog and established a position at the town of Lungtan, about 150 miles north of Shanghai. The Nationalists launched a heavy attack immediately.

The Nationalists say more than 3000 northern soldiers were killed or wounded in three days of fighting. Six thousand northerners were taken prisoners. The remainder of the northerners escaped across the Yangtse or were scattered through the mountains adjacent to Chinkiang.

The Nationalist hero in the fighting is Gen. Pai Tsung-Chi, 30-year-old subordinate of Gen. Chiang Kai-Shek, who resigned recently as generalissimo of the Nationalist armies.

MISSIONARIES SAIL FOR CHINA POSTS

SAN FRANCISCO, Aug. 30. (Exclusive)—Evidencing the belief that the worst of civil war conditions in China have passed, twenty-seven missionaries and members of their families sailed for the Orient today on the N.Y.K. liner Siberia Maru. Several of the religious workers are bound directly for China. Others are going first to stations in Japan and Korea, to enter China later of advisable.

Rev. C. H. Gillette of Los Angeles, one of those returning to Japan, expressed the opinion that the missionary movement in the Orient soon will be back to normal.

"The American board of commissioners of foreign missions of the Congregational church expects to have every man back at his post this winter," he declared. Dr. Gillette is accompanied by his wife and child.

FIVE BIDS RECEIVED FOR RAZING WALLS

CONFERENCE PLANNED SOON REGARDING NEW CHICO COLLEGE BUILDING

SACRAMENTO, Aug. 30. (AP)—Five bids were received by State Architect McDougall here today for razing the walls of the Chico State Teachers' College administration building, which was destroyed by fire two weeks ago. The bidders, none of whom offered anything for the salvage, are: Lamb & Bobbick, Sacramento, $4750; Floyd Hann, Chico, $6500; B. H. Steffen Company, Chico, $7261; J. J. O'Connor, Sacramento, $7500, and William J. Shalz, Chico, $10,000.

All the proposals have been taken under advisement and the award will be made later.

Alexander R. Heron, director of finance, and B. B. Meek, director of public works, whose departments will supervise construction of a new college building, today announced a conference will be held with officials of the college and other State officers, probably next week, relative to financing a new building. Meek declared he is opposed to erecting a temporary building, believing it would be in the interests of economy to defer any building until adequate funds could be provided, if such funds cannot be procured at this time. There is some money available now, having been appropriated for college improvements, but it has not been determined whether this will be sufficient, or whether added funds can be obtained from the other State accounts.

In the meantime preparations have been made at Chico for holding the college classes in an old public school building when the fall term opens next month.

CITY SPONSORS OLDEN DANCES

HILLSBORO (Or.) Aug. 30. (AP)—The old-fashioned dances—the germaine, the schottische, the polka, reel, minuet, square dance and the waltz—have been considered deliberately by the City Council of this town, and have officially been declared desirable, and as a result of this decision the city has entered into a contract with an old-time dance orchestra to furnish music over a period of one year for old-fashioned dances sponsored by the city.

Hillsboro, as far as City Manager Reiter knows, is the first city in America officially to indorse return to the steps of a generation or two ago.

WATER HITCH-HIKER ARRIVES IN CHICAGO

CHICAGO, Aug. 30. (AP)—Grammar Hind, 62 years of age, who believes he is America's first water hitch-hiker, moved on down toward the Mississippi today. Hind, in a queer craft that is neither rowboat nor canoe, and yet suggestive of both, is making his way from Muskegon, Mich., to the gulf by "hitching rides" from other watercraft. The Coast Guard gave him a "hitch" yesterday from Michigan City, Ind., to Chicago.

CLOUDS FROWN ON FOUR FLYERS

But Sir John Carling Plane May Start Today

Royal Windsor Waiting for Bright Skies

Courtney's Ship Disabled; Wind Halts Old Glory

LONDON (Ont.) Aug. 30. (AP)—Tomorrow morning the London-to-London flyers, Capt. Terrance Tully and Lieut. James Medcalf, plan to make a second attempt at a trans-Atlantic flight in their Stinson Detroiter monoplane, the Sir John Carling.

WINDSOR HALTS FLIGHT FOR FAVORABLE WEATHER

WINDSOR (Ont.) Aug. 30. (AP)—Bad weather conditions over the Eastern Atlantic are likely to hold the Royal Windsor at her field at Walkerville for another twenty-four hours. Sir Frederick Stupart, Toronto weather observer, in a telephone conversation with Justus Miller, secretary of the local flight committee, advised further delay in the start for England on the Windsor-to-Windsor flight.

COURTNEY REPAIRS PLANE; FLIGHT START DOUBTED

SOUTHAMPTON (Eng.) Aug. 30. (AP)—At least another week must elapse before Capt. F. T. Courtney's Dornier-Wal flying boat is in readiness to take to the air, as it was discovered today that the rear propeller was broken and that the rear engine must be dismantled. After consultation with two experts of the Dornier company, Capt. Courtney decided to make structural alterations to the undercarriage, as well as lighten the tail.

It was freely predicted around the Calshot airdrome today that the Whale would not get off for New York this year.

OLD GLORY FAILS TO START BECAUSE OF WIND

ROOSEVELT FIELD (N. Y.) Aug. 30. (AP)—For the third time thousands gathered at this flying field today to witness the take-off for Rome of the monoplane Old Glory and for the third time they were disappointed. Until almost 7 o'clock this evening hope was entertained by Lloyd Bertaud and James D. Hill, the pilots, that the wind might veer to the west. Twice before preparations have been made to leave and proved of no avail. One other time the wind direction was the obstacle and the first attempt was balked by a burned-out wheel bearing.

OHIO MAN VICTIM OF MASKED FLOGGERS

AKRON (O.) Aug. 30. (AP)—Alfred Harris, 55 years of age, staggered into the County Jail today and reported he had been lashed with knotted ropes by a band of eight masked men, who seized him in the workshop in the rear of his home and took him to a secluded spot in a highway.

A MADE FOR PREPAREDNESS

Summerall Addresses ish War Veterans

Parade of 20,000 Cheered by Detroit

Against Reds Asked; Gets Next Meet

...OIT, Aug. 30. (AP)—Under banners and past solid lines ...ing spectators, veterans of ...ish-American War some ...ving, marched today to the ... of "A Hot Time in the Old ...ghts" and "Dolly Gray."

... a line of mounted police- ...ded the chief of staff and ...mmerall and then the forty- ...partments, each preceded by ...national colors and a band ... and drum corps.

...men wore their campaign hats, ...en shirts and khaki trousers.

...ments were addressed by ... Charles P. Summerall, ...f of Staff, who declared ...d States must have reason- ...y preparedness and a peace- ...blishment capable of rapid ... in case of war.

...O FRONTIER' WANTED

...the resolutions adopted to- ...included one demanding the ...ion by the United States of ...frontiers equal to those of ...country in the world, one ...the erection of a veterans' ...building in Washington, ...and one advocating the use ...measures against violence by

...delegates accepted unanimous- ...invitation of the President of ...Gen. Gerardo Machado, pre- ...by Cayetano De Quesada, to ...their 1928 encampment in

...During the confusion and dis- ...ions which followed the ...ions of the Spanish and World ..., Summerall said that the ...ership had taught Americans ...ssons that (1) implements and ... of defense cannot be im- ...on the moment; that the ...ern rifle must be backed ...more than his own individ- ...ation and courage."

...AGGRESSION INVITED

...the National Defense Act, de- ...to obtain an adequate peace- ...army establishment, "is not ...in any means," Gen. Sum- ...said, "but we are ever moving ...destruction." The act is "no ...of hostility or aggression," ...said. "It is what the title ...implies—an act to promote the ...national defense. It serves to ward ...off wars, war, for, with na- ...tions with humankind, only the ...name aggression."

...is a busy citizenry. Our peo- ...ple seems further from their ...duties, with the business of ...government in the mind, prone ...to pay little attention to further ...duties and probabilities," he ...said. "Upon the never-ceasing ...work of patriotic organizations of ...former service men, such as the ...Veterans of Foreign Wars, depends for ...a large part the nation's safety."

...VETERANS ON GUARD

...Summerall said the war veterans of the ...country have an important role to sup- ...port national defense measures "with ...the added maturity of a generation ...of men, without personal experience ...of war, in less peace to realize its ...true importance."

...Resolution asking the United Span- ...ish War Veterans to petition Con- ...gress for enactment of legislation ...whereby enlisted men may become ...officers of the Navy with full pay was ...passed for presentation today to ...the encampment. The move to initi- ...ate such legislation is directed by ...Lieut. William McKinley Camp, U.S. ...N., of Chicago.

...Capt. J. Riley, commander of the ...Navy, declared that although en- ...listed men of the Navy may rise as ...high as a lieutenancy, they are barred ...from receiving the pay and rank by ...the ruling of the Comptroller of the ...Navy. The camp asks that the ...military committee of the U. S. ...Senate give the matter priority con- ...sideration in Washington.

ew Veterans' Bond Sale Set

...CRAMENTO, Aug. 30. (AP)—Sale ...$1,000,000 block of the $20,000,- ...00 veterans' welfare bonds voted ...November to meet the applica- ...tions of former service men for loans ...with which to purchase homes and ...was agreed upon today at a ...meeting of the Veterans' Welfare Fi- ...nance Board. The sale will be held ...in March.

...The block now offered is the third ...from the total issue, two previ- ...ous sales having been held, when ...sums of $2,500,000 and $3,000,000 ...were disposed of. These sales raised ...funds permitting the veterans' board ...to loan money on several hundred ...applications that had been approved ...but up for want of money.

...The finance board is composed of ...Governor John Quinn, former na- ...tional commander of the American ...Legion; Alexander B. Heron, director ...of finance; State Controller Riley and ...Treasurer Johnson.

ANAHEIM NATIONAL PASSES TO VAUGHN

...ANAHEIM, Aug. 30. (Exclusive)— ...Joseph Vaughn, formerly vice-president ...and cashier of the First National ...Bank of Fullerton, is today president of ...the First National Bank in Anaheim, ...having purchased the stock held by ...Frank Dolan, president. David ...Stine, active vice-president of the ...Anaheim bank, will retire from his ...position, although he will continue ...to assist in the bank. His place ...will be taken by E. H. Stowell of ...Los Angeles. Vaughn is widely ...known on the Pacific Coast and was ...one of the leaders in Northern Cali- ...fornia in branch banking. The ...Anaheim bank started with a capital ...stock and assets of $250,000 and ...has a capital of $75,000 and as- ...sets of $1,000,000.

RECLAMATION LEVY TEST SUIT STARTED

...SAN FRANCISCO, Aug. 30.(AP)—Suit ...to test the right of a reclamation ...district to levy assessment against a ...privately owned lands within the bor- ...ders of the district and compel pay- ...ment was filed with the State Su- ...preme Court today. Reclamation ...District 108, near Holt, in the San ...Joaquin River delta, seeks a writ ...of mandate to compel the East Bay ...Municipal Utility District to pay $107 ...per share of levee-construction

FINANCIAL

PIGGLY WIGGLY PROFITS MOUNT

Western Chain Grocery Makes Semiannual Report

Net Income Up 48 Per Cent on Similar 1926 Period

Sales Figures for Six Months $3,326,985 Higher

Net earnings of the Piggly Wiggly Western States Company for the first half of the current year were more than 48 per cent greater than in the corresponding period of last year and amounted to approximately 82 per cent of the total net profits of the corporation for the entire year of 1926, the best year, financially, in the history of the company.

According to the company's semi-annual report issued yesterday by A. C. Jones, president, net profits for the six months ended June 30, last, after all charges, but before Federal taxes, amounted to $143,343.06, as compared with $96,597.62 in the corresponding period of last year, an increase of $46,645.44, or more than 48 per cent.

This is equivalent to $2.05 a share on the 70,000 shares of outstanding class "A" stock, or at the annual rate of $4.10 a share, as against $1.38 a share earned in the first six months of last year, and $2.47 a share earned for the twelve months of 1926.

Sales of the Piggly Wiggly Western States Company for the first six months of this year amounted to $6,502,697.93, an increase of $3,326,-985.80, or approximately 105 per cent over the aggregate sales of $3,175,-712.24 in the first half of last year.

During the first half of the current year the company opened forty-eight new stores, as against fifteen new stores opened in the first six months of 1926, an increase of twenty-three, or 153 per cent. At June 30, last, the company was operating a total of 161 units. The company's expansion program for the remainder of the year does not call for many additional stores.

"The most remarkable feature about the growth of the Piggly Wiggly Western States Company's business," Mr. Jones said, "is that, with the elimination of the sales of all stores opened within twelve months, the volume of business being done each week shows approximately 10 per cent better than for the same week of the preceding year, which showing is considered remarkable at this time."

RESPONSIBLE PARTIES

On the blackboard a boy with a certain amount of artistic genius had drawn a lifelike caricature of a certain master.

Shortly after, to his horror, that master entered the room. Presently the portrait on the blackboard caught and held his attention. He looked at it in anger for a moment or two, and then faced the class.

"Who is responsible for this atrocity?" he asked in a voice of thunder.

The artist got slowly to his feet and coughed nervously.

"I strongly suspect his parents," he observed, and sat down.—[London Answers.

PROFIT OF STANDARD GAS GAINS

Earnings for Year Ended June 30, Last, Equal $5.01 a Share on Common

Net profits of the Standard Gas and Electric Company for the twelve months ended June 30, last, after all charges, including depreciation, but before preferred dividends, amounted to $9,821,871, as compared with $6,929,950 in the preceding twelve months, an increase of $3,891,921, or more than 56 per cent, according to the company's semiannual statement issued yesterday by H. M. Byllesby & Co., public utility management company.

This is equivalent after preferred dividends to $5.01 a share on the average amount of common shares outstanding during the period, numbering 1,238,969 shares, as against $4.49 earned in the preceding twelve months on the average of 718,856 shares of common outstanding in that period.

Gross revenues of the company, consisting of those actually received or in the process of collection, but not including the company's interest in the undistributed surplus earnings of the subsidiary and affiliated companies, amounted to $12,544,930 in the year ended June 30, last, as against $7,888,452 in the preceding twelve months, an increase of $4,656,-478, or 59 per cent.

Preferred dividends amounting to $3,614,572 were paid in the year just passed, as against $2,600,585 in the preceding year. After the payment of $4,021,476 in cash and $616,500 in stock on the common shares of the company, $1,589,323 was carried to surplus, as compared with $453,946 carried to surplus in the preceding year, after common dividends.

Cotton Weevil Increasing in Southern Belt

WASHINGTON, Aug. 30. (AP)—Activities of the boll weevil in Southern cotton fields were pictured today in a report by the Department of Agriculture which showed the pest multiplying in some of the cotton-growing areas.

Eastern Texas showed more boll weevil damage than usual on the basis of reports from fifty-nine counties. Western Arkansas reported heavier infestation than in any year since 1923, but the eastern part of the State was said to be apparently not so seriously affected proportionately. Mississippi reported that on the 20th inst. the weevils in that State broke all previous records with an average of 40 per cent of the squares punctured in the hill counties. Alabama reported great increases in the number of weevils in Central and Southern Alabama.

Some increase in infestation was seen in the vicinity of Florence, S. C., Clemson College on the 18th inst. reported light infestation in the lower and middle Piedmont sections and none reported in the extreme upper section of the State. North Carolina showed increasing damage throughout the cotton section.

Pasadena Bond Issue Floated

An issue of $360,000 city of Pasadena civic center 4½ per cent municipal improvement bonds was awarded yesterday to R. H. Moulton & Co. and the Security Company for a premium of $17,546. Other bidders were:

Detroit Company, $17,200; Anglo London Paris Company, $17,136; Anglo California Securities Company, $16,-408; Dean Witter & Co., $15,040; California Securities Company, $14,530; Heller, Bruce & Co., $14,239; Harris Trust and Savings Bank, $14,202; William R. Staats Company, $13,889; Drake, Riley & Thomas, $13,212; Bank of Italy, $12,888, and National City Company, $9612.

CASHIER RESIGNS

H. F. Verich of Fontana National to Take Needed Rest

FONTANA, Aug. 30. (Exclusive)—Announcement was made today of the resignation of H. F. Verich as cashier of the First National Bank of Fontana. Mr. Verich presented his resignation just before departing on his vacation, and while no reason was given for his action, it is said that his health has not been up to standard during the past few months. Following a long rest, it is reported that the former cashier will accept an offer of a banking concern in Arizona or the San Joaquin Valley.

The First National Bank here was opened on August 21, 1926, with deposits of $274,472.28, while the semi-annual statement for this year shows that the deposits had mounted to $645,000.34.

SCRAMBLE ON FOR BANKS

Bay City Institutions Reported Looking for Los Angeles Connections; Programs Laid

In Los Angeles banking circles there is a disposition to peer around the corner for the motives actuating some of the recent activities of large San Francisco banks. Something has galvanized at least three of the Bay City institutions into formulating plans that look suspiciously like the foundation for a State-wide program of expansion, and it is understood that the scramble is already on for the purchase of Los Angeles banks.

The Anglo London Paris National Bank of San Francisco is the latest to show an interest along these lines, if the signs are read correctly. The other two are the French-American Corporation, the holding company for the revamped United Bank and Trust Company, and the American Trust Company. Each of the three is supposed to be anxious to acquire, through their holding company, one of the strong Los Angeles banks.

SNAG STRUCK

When it comes to finding a seller in Los Angeles the expansion programs possibly take in a different aspect. Nearly every one of the large downtown banks has been offered fancy prices for control in the last year or so, either by competitors in California or by outside interests. But to date these propositions have not been seriously entertained. The controlling interests right now seem to think that their properties are too valuable to sell at this time; that if consolidation or sale is to be the ultimate end, the long pull will be the highest.

And then there is the question of the head office. The consolidation conversations that have been carried on between Los Angeles and San Francisco banks always strike a snag when this point comes up. Most of the large bankers realize that a union between banks of the two cities is desirable, but neither party cares to sacrifice the honor to the other of possessing the head office.

If anything in the way of State-wide expansion is carried out, the holding company, employing the chain system of banking, will necessarily be the medium. The McFadden bill prohibits Federal Reserve members from establishing or acquiring branches outside of the head-office city, although many bankers entertain the belief that the rise of the chain systems will ultimately impel a revision of this clause in the law. The alternative to the holding company plan is the relinquishment of Federal Reserve membership and operation under State charter.

IDEA CONTAGIOUS

What has inoculated the San Franciscans with the State-wide idea all of a sudden has not been explained. First, the French-American Corporation began to buy banks in San Jose, Fresno, Bakersfield and around the bay, and then the American Trust began to look afield. The Anglo & London announced yesterday an increase in its capital from $5,000,000 to $7,000,000, one-half of the increase going to the Consolidated Security Company. It is assumed that the Consolidated Securities Company will shape up as a vehicle similar to the Bancitaly Corporation.

Perhaps it was the immediate success from an earnings standpoint of the Bank of Italy State-wide set-up that prompted the rival San Francisco banks to sit up and take notice. Or it might have been the hint that the Giannini interests are actually behind the French-American Corporation that started the other two to looking around for ways and means to expand.

OIL SHARES STRONGER IN LOCAL MART

Standard, Pan American Western and Union Gain; Banks Lose Ground

Trading on the Los Angeles market yesterday was in smaller volume than on Monday and prices continued to move irregularly.

Bank shares were generally lower. Merchants' National receded 5 points on a single transaction to 400. Bank of Italy lost a point to 185½, and Bancitaly Corporation closed a fraction higher at 89½. First National rights sold off to 15 and closed 1-4 of a point net lower at 15 1-4, and the new stock declined 1 1-4 points to 83½.

Oil stocks were in better demand. Standard Oil of California and Union Oil of California each added 1-4 of a point to 83½ and 42 1-4, respectively. California Petroleum closed 1-4 of a point higher at 21½ and Pan American Western added ½ of a point to 20 3-4. Shell-Union lost a fraction to 26 1-8 and Richfield and Rio Grande were steady at 18 3-4 and 15½, respectively.

Southern California Edison common lost a fraction to 36 5-8, while the preferred issues were steady. San Joaquin prior preferred, selling ex-dividend $1.75, was off 1 3-4 points to 108 3-4. Los Angeles Investment was in active demand at 2.80.

Idaho Metals sold between 1.42½ and 1.45, closing firm at the latter to lead activity in the mines. Argentina Consolidated and Boundary Cone were steady at 35 and 3½, respectively.

Banker Quits Post Because of Ill Health

Because of ill health, T. A. Morrisey has resigned as vice-president of the Merchants' National Trust and Savings Bank, it was announced yesterday by E. J. Nolan, president Mr. Morrisey has been with the Merchants' organization for more than eighteen years, and has been regarded as one of the most capable of the younger bank executives in the financial district.

Upon the advice of his physician, he will leave immediately for an extended trip, and on returning will retire to his ranch near the city in an attempt to regain his health.

Mr. Nolan also announced the election of James A. Gibson and John R. Marble as directors of the bank. Mr. Gibson is a member of the law firm of Gibson, Dunn & Crutcher. Mr. Marble is a capitalist and is the son of the late Col. John M. C. Marble, who established the National Bank of California, later incorporated into the Merchants' National. The new director was a vice-president of the National Bank of California, and also was the head of the John M. C. Marble Company until he retired in 1917.

Earnings Shown for Motor Group

Combined net earnings of nineteen of the leading automobile and truck manufacturers for the six months ended June 30, last, showed an increase of 4.97 per cent over the same period of last year, according to figures compiled from published statements by Ernst & Ernst, accountants. Exclusive of General Motors, the composite figure was a decrease of 23.24 per cent. The figures for the first half of this year, with percentage decrease, are as follows:

	1927.	P.a. Dec.
American-La France Fire Engine Co., Inc.	$ 39,9246	104.68
Auburn Automobile Co.	805,809	54.34*a

HAY MARKETS STEADY

Better Demand and Light Receipts Reported Locally

Hay markets held about steady during the week ending the 27th inst. with continued light offerings resulting from unfavorable weather conditions in surplus areas, states the weekly hay market review of the United States Bureau of Agricultural Economics. Excellent pastures in most sections were restricting the demand for hay. Harvesting in some sections of the southeast was delayed by rains. Eastern timothy markets were rather draggy with supplies fully equal to trade needs.

Western alfalfa markets were more active and demand improved in most sections. The alfalfa market in the Yakima Valley was quotably unchanged, but inquiry was more active. Third cutting of alfalfa in this area is about half grown and cutting will begin about September 15. Heavy offerings of exceptionally good quality were reported in Sacramento from practically all alfalfa sections and prices were tending upward. A decidedly better tone was in evidence in the Los Angeles market as a result of light receipts and improved demand. Producers were storing crops and preparing to hold for higher prices.

Says Barnsdall Will Not Offer New Securities

Contrary to reports in the stock market, the Barnsdall Corporation has no intention of selling short-term bonds or engaging in other new financing, a telegram from New York stated yesterday, which quoted Matthew C. Brush, chairman of the board. The company, according to the message, has cash and quick assets sufficient to meet all current requirements.

Stock market reports have intimated that short-term financing would be undertaken to carry crude oil purchases and also to build new tankage in the Seminole field.

July earnings of Barnsdall amounted to $572,886 after all charges, compared to $533,289 in the same month of last year. The July earnings were equivalent to approximately 51 cents on the outstanding stock. President Reeser, according to the telegram, estimates that August net will exceed $750,000 and should continue at this rate for the remainder of the year on the basis of current prices. The annual earnings are estimated at about $4.45 a share.

The Clearinghouse

News of Spring Street

The Chase Securities Company and Blair & Co., Inc., who headed a nation-wide banking syndicate which placed $40,000,000 of government of Argentine Nations external sinking fund 6 per cent gold bonds on the market yesterday, announce that the books have been closed, the issue having been heavily oversubscribed.

Metzler Returns

Irving S. Metzler, president of Metzler & Co., has just returned from a camping trip spent in Inyo county. He asserted the Owens River Valley will always be a playground for the citizens of Los Angeles, many of whom are already making the lakes of that region their summer homes.

Return from Conference

Halcott B. Thomas, trust officer of the Citizens' Trust and Savings Bank, returned yesterday from a vacation trip, which included attendance at the fifth regional trust conference of the American Bankers' Association at Portland. Mr. Thomas found business improving in the Northwest. He stated that in Portland, new subdivisions have been placed on the market for the first time since 1912.

Bond House Moves

The California Company, Los Angeles investment dealers, announced the removal of its offices to enlarged quarters on the fifth floor of the Security Title Insurance Building. The new offices will contain approximately 3000 square feet of floor space and have been especially prepared for the California Company.

HUGE FUND URGED FOR PUBLICITY

Angeleno Tells Building and Loan Convention of Successful Trial

Building-loan associations of the United States should have a fund of at least $1,000,000 a year to carry on a consistent, nation-wide advertising campaign, A. A. Anderson, secretary of the Pacific Coast Building-Loan Association of Los Angeles, told delegates to the Pacific States Savings and Loan Conference in session in Portland, Or., yesterday. About 200 building-loan officials from the ten Western States are attending the annual meeting.

In his appeal for a national advertising campaign, Mr. Anderson cited the results of the first six months of the co-operative campaign now being carried on by the building-loan associations of Southern California at a monthly cost of $3000.

"According to data compiled from the State Commissioner's reports," Mr. Anderson said, "the building-loan associations in Los Angeles, where most of the advertising was done, showed an increase in assets during the first six months of the co-operative advertising campaign, October 30, 1926, to April 30, last, of $10,-948,587.66, or an increase of 89 per cent over the increase in assets for the six months' period immediately preceding the campaign, when the gain was $5,776,619.85."

Consistent use of newspaper space was recommended by the Los Angeles man as being the most effective and economical way to acquaint the public with the business and increase the size and prestige of the associations.

COTTON MARKET

NEW YORK, Aug. 30. (Exclusive) After the cotton market had made more new high records by advancing between 25 and 30 points from yesterday's closing in the early trading on a continuation of the speculative bull movement of the last few days, a violent break ranging from 80 to 110 points occurred from the top prices on a general profit-taking movement led by old trade and New Orleans bull interests.

The reason generally given for the break was that the government's boll-weevil report had either not been bullish enough from what had been expected or had been discounted. The real cause was that the market had been overbullied for present actual cotton-trade conditions, and what is known of the crop outlook as well as the prevailing supply conditions of the staple the world over.

The bull campaign had been to advance prices to the 25-cent level. Today's advance saw the market reach the basis of 23 5-8 to 23 7-8 cents for December to January contracts in this morning's further bulge. These prices were reached before the end of the first hour. They compared with 17¼ to 18 cents at this time last year and 21½ to 22 cents two years ago. The lowest prices on last season's bumper crop ranged from 11 7-8 to 12½ cents.

After the boll-weevil report came out, which was merely a general statement on their spread in different sections of the belt, few traders could make anything definite from it. When the heavy profit-taking sales came on the market prices dropped with greater rapidity than they had gone up in the speculative buying movement of yesterday and the further rise of this morning.

Another factor which helped along the break was the appearance of a crop estimate by a well-known firm here for 14,000,000 bales, figured from an average condition of 61.4 per cent.

This report is compiled to the 24th inst. Most of the local trade and southern bulls are expecting the next government crop report to make the yield under 13,000,000 bales, against 13,349,000 of the 6th inst. and the 18,000,000 record crop produced last year.

This coming report is due September 8 at 12 o'clock, our time, and will be figured to September 1.

In the break, December contracts went off to 22.70; January, 22.55; March, 22.88, and May, 22.60, 65 to 80 points below yesterday's closing prices. There was a good rally later on fresh support and covering of shorts.

The Liverpool market for futures went up 42 to 52 English points early in the day from their closing of yesterday and finished with a net advance of 40 to 50, against 20 to 40 due to have met our closing prices on yesterday's sharp rise. As the market there had closed before the boll-weevil report here was announced and our break in prices had occurred, there was a good deal of selling on arbitrage accounts for Liverpool houses in this market during the afternoon.

TRADE SURVEY ENCOURAGES

New York Reserve Bank Reports Wholesale and Retail Volume Holding Up to Earlier Levels

BY PAUL WILLARD GARRETT

[Copyright, 1927, by New York Evening Post, Inc.]

NEW YORK, Aug. 30.—The active pace of business at wholesale and retail established earlier in the year was maintained during July throughout the metropolitan district, according to tabulations on trade published today by the Federal Reserve Bank of New York.

This monthly survey shows that a large increase over last year. Sales of drug and 10-cent store chains also were larger than in July, 1926, while tobacco and shoe systems reported slight declines, and sales of candy chains showed little change."

Not the least significant observation to be made from the bank's figures is the continued tendency toward the operation of chain stores in smaller units. During July the number of stores increases 8.8 per cent thus restricting somewhat the volume of sales for each store.

Since the flow of wholesale trade is a barometer of underlying conditions, the 5.5 per cent increase during July of sales reported by the wholesale dealers provides perhaps the most encouraging sign in the bank's statement. Even the bank itself hastens to explain, however, that this gain represents primarily an increase in the sale of women's coats and suits. Since the volume of such sales in July, 1926, had been reduced by a strike, the new figures can scarcely be taken at their face value.

From the welter of statistics gathered by the Federal Reserve Bank may be seen not only the impressive advance in forward buying by department stores during July, but a sharp rise in wholesale sales during that month over the month previous. Here again, however, the improvement reflects large gains in a few lines.

retail trade as reflected in sales by the leading department stores for July fell 9.4 per cent from the year previous, but that month this year contained five Sundays. The bank has prepared a new chart on orders for merchandise reported by department stores at the end of each month. It indicates that, whereas forward buying during the spring season was even smaller this year than usual, "the July reports indicate that advance buying of fall merchandise has been of about the usual proportions."

From the bank's classification of department-store sales emerges the interesting fact that net sales of woolen goods jumped no less than 25 per cent over the sales for July, 1926, and that at the end of the month the stocks of woolen goods on hand were nearly 17 per cent under those of the year before.

With a 14.4 per cent gain during July over a year ago, sales reported by leading chain stores again reflected the extraordinary expansion in that business begun several years ago. For many months the chain stores have been able to report sales around 15 per cent larger than for the year before. The bank observes that "variety stores continued to show the most rapid rate of growth in total volume of business, and sales of grocery chains again showed

(Continued on Page 11, Col. 6)

Market Again Loses Grade Industrials

Steel Common and Can at New Lows

NEW YORK, Aug. 30. (AP)—Stock prices encountered increasing resistance in today's market, with few exceptions losing ground. Repeated efforts of bear traders to settle the general list broke abruptly on the announcement by the government that the boll weevil damage, which was lost as had been anticipated, and cotton prices declined 10 to 20 points.

High-grade industrials on the stock market, including United States Steel common, electric and American Can were the score or so issues to show high ground. Steel common, however, was unable to withstand offerings sometimes in the day settled back to 160 1-4 net loss, because the passing of the dividend on the new preferred stock, partially offset by the increase for the quarter.

Trading showed a decrease in volume, due, in part, to the expectations of a "consolidation" after the previous interrupted advance [illegible]

6%
backed by first mortgage security principal and interest guaranteed

A FULL 6% income, exempt from California Personal Property Taxes—diversified first mortgage security—principal and interest guaranteed by strong State supervised California company—such are the sound investment features offered by the Insured First Mortgage 6% Certificates of the IDEMNITY MORTGAGE INSURANCE COMPANY.

These Certificates represent participating ownership in a group of diversified first mortgages on improved California real estate deposited with the trustee. In each case the value of the security is at least twice the amount of the loan, as appraised by appraisers approved by the State Banking and Insurance Departments. Payment of principal and interest on each deposited lien is insured and guaranteed under the strict provisions of the California Mortgage Insurance Act.

Certificates are *automatically* a legal investment for California Savings Banks, Trust Funds, and Insurance Companies, and are eligible for deposit to secure the faithful performance of trusts.

NEW BOND ISSUES PENDING

Offerings of Several California Corporations Only Await Improvement in Market Conditions

With the bond market in more of a receptive mood, the next few weeks should witness new flotations for a number of California corporations, investment dealers believe. Several issues have been ready for offering for several weeks, but have been withheld by bankers awaiting revival of activity in the bond market.

Dillon, Read & Co., more than two months ago purchased an issue of $20,000,000 Bankitaly Mortgage Company first mortgage collateral 5½ per cent bonds, due June 15, 1947, but offering of the liens has been held up because of the recession in market activity. It is expected, however, that the issue will be marketed shortly.

The Bankitaly Mortgage Company has been formed by the National Bankitaly Company, all of whose capital stock is owned by the stockholders of the Bank of Italy National Trust and Savings Association. The Bankitaly Mortgage Company will have a paid-in capital and surplus of $2,100,000.

The proceeds of the coming issue will be applied toward the purchase from the Bank of Italy of a face amount of $20,000,000 first mortgages, thereby reducing the mortgage investments now owned by the bank to conform to the requirements of the National Bank Act under which the Bank of Italy has recently surrendered its State charter and become a national bank.

The bonds, it is understood, will be secured by deposit of an equal amount of first mortgages on real estate in cities located in California, such mortgages not exceeding 60 per cent of the appraised value of the real estate. The interest return on these mortgages is averaging at present approximately 6½ per cent.

◆ Application will be made shortly to the Railroad Commission by the Southern California Edison Company for authority to issue and sell approximately $35,000,000 of the company's 5 per cent refunding mortgage gold bonds, the proceeds of which will be used to retire the company's refunding mortgage gold bonds, series of 6's, due in 1943 and aggregating $26,500,000 in par value. The 6's have been called for redemption October 1 at $105 and accrued interest.

The Harris Trust and Savings Bank and E. H. Rollins and Sons, who in the past have handled the financing for the Edison company, are expected to head a syndicate to offer the new issue when permission is granted by the commission, probably early next month.

A banking group headed by E. H. Rollins and Sons is expected to offer in the near future an issue of $4,500,000 Union Rock Company first mortgage 6 per cent bonds. The proceeds, it is understood, will be used to refund securities of the company now outstanding. The company is one of the largest producers and distributors of rock, sand, gravel and other kindred products on the Pacific Coast.

Another California industrial corporation seeking a market for its securities is The Celite Company, miners of infusorial earth and manufacturers of "celite," a by-product universally used in many forms. The company is expected to offer next week through a banking group headed by the First Securities Company an issue of $1,750,000 of first mortgage 6½ per cent bonds.

THE INVESTOR

Warrants and Conversion Right Modify Prices of Paramount and Loew.

BY WILLIAM RUSSELL WHITE

[Copyright, 1927, by New York Evening Post, Inc.]

NEW YORK, Aug. 30.—Reference has been made from time to time in this column to convertible preferred stock and to bond issues with stock purchase warrants attached. Two securities illustrating these features may be described in greater detail.

The 8 per cent cumulative preferred stock of the Paramount Famous Lasky Corporation is convertible into the common stock at $107.32 a share. Of the $20,000,000 authorized, $7,745,000 is outstanding, on which the dividend requirements amount to slightly more than $600,000 a year. The company's record of earnings indicates this dividend is reasonably secure, so that at 120 or slightly below this price the investor is able to obtain a return of better than 6 per cent and at the same time speculate in the possibility of an advance in the common.

The common shares have recovered steadily since the break some weeks ago to a low point of 92.

An example of stock purchase warrants is provided by Loew's, Inc., 6 per cent debentures, issued last year. These had attached warrants entitling the holder to purchase on or before April 1, 1931, at $55 a share, common shares in the ratio of two and one-half shares for each $500 principal of debentures.

The warrants were detachable any time after September 30, 1926, and the debentures are traded in now with warrants as well as "ex" warrants. With the warrants attached they are quoted at about 104, while they sell "ex" warrants at slightly above 99, so that the warrant has a value of about $50 for each $1000 bond. As a result of the decline in the stock from above 63 to around 55, however, the purchase privilege is not immediately valuable. It offers possibilities, however, for the bonds may be purchased currently to yield somewhat less than 6 per cent and the warrants may become extremely valuable before they expire in 1931.

Debentures with the warrants attached would advance in price, of course, if the stock climbed again. The warrants might be sold separately or might be included with the bonds.

Securities of this type are subject to wide fluctuations as a rule, for they respond in a measure to movements of the common shares, into which they are convertible or which purchase warrants cover.

Paramount Famous Lasky preferred, for instance, has sold this year as high as 124 3-8, and as low as 114 7-8. This range is wider than usual for a preferred stock, although other preferred stocks that had conversion privileges moved over an even greater range. Loew's 6's sold this year as high as 103 7-8, and as low as 101, a range of almost 6 points, while the same issue without warrants ranged from 96 to 99 1-8.

Paramount Famous Lasky preferred is subject to retirement on sixty days' notice at 120 on any dividend date. The Loew's 6's are callable on thirty days' notice at 105 up to April 1, 1931, and at a gradually lower price thereafter.

Securities of New Apartment Offered Today

An issue of $750,000 Seventh-and-Normandie Building Corporation closed first mortgage 6½ per cent serial gold bonds, due 1928 to 1942, inclusive, will be offered in this market today by the California Securities Company at 100 and interest to yield 6½ per cent. The bonds are exempt from personal property tax in California, and application has been made for their certification as a legal investment for California savings banks and trust funds.

The issue will be secured by a closed first mortgage on land fronting 125 feet on Seventh street, by 220 feet on Normandie avenue, improved with a seven-story Class A apartment-hotel building now nearing completion. The total appraised value of the land, building and equipment is in excess of $1,800,000.

It is expected the building will be completed and open to the public on or about October 1.

IDENTITY SOUGHT IN DEATH

The social service department of the Los Angeles General Hospital is asking the aid of the public in identifying a man who died at the institution on Sunday, after having been hit by an automobile at Los Angeles street and the Plaza on Friday night. The man was of medium height, about 55 years of age, and had brown eyes, gray hair and moustache and was partially bald. The body is in charge of the Coroner.

960 Acres of High-Grade Residential Property Are Security for These

CONSERVATIVE 6½% BONDS

FOR investors who appreciate an ample margin of first mortgage security, with a liberal 6½% return, plus the protection of a highly successful and responsible management, we recommend LA CUMBRE ESTATES CORPORATION First (Closed) Mortgage 6½% Sinking Fund Gold Bonds, due 1938.

These bonds constitute a closed first mortgage on 960 acres of residential property, strategically located two miles west of Santa Barbara and largely improved with streets, roads, electricity and water facilities. The appraised physical value of land and improvements is $1,440,000, or approximately $3000 for each $1000 bond. Successful operation of the Company is assured through its ownership and management by an outstanding group of responsible business men.

UNIVERSITY TO AID CINEMA

Trojan President Announces Four-Year Course of Training for Motion-Picture Industry

What is believed to be the first and only organized course of technical training for the motion-picture industry is announced by President Von KleinSmid of the University of Southern California, to open with the 1927 fall semester on September 19th, next.

◆ University authorities have worked out the course during the past year in advisement with the Academy of Motion Picture Arts and Sciences, of which Douglas Fairbanks is president and Milton Sills, formerly a faculty member at the University of Chicago, is chairman of the college and university committee. The four-year course also has been indorsed by Will Hays, head of the organized motion-picture industry.

Leading to appropriate degrees, the new course of study will include courses in architecture and fine arts with major emphasis on architecture, the decorative arts and architectural engineering; science and technique of cinematography, with emphasis on physics and chemistry, and composition, literature and criticism, with emphasis on scenario and continuity writing.

ADMISSION REQUIREMENTS

Requirements for admission will be the same as for admission to the colleges of liberal arts and all other departments of the university, according to Dr. Von KleinSmid.

"While the virility of youth and the enthusiasm of devoted leaders of, and believers in, the mission of motion pictures, have carried the industry a long way, a surer foundation for its growth and development must be found in thorough preparation for its various lines of activity," states the Trojan president. "The industry is a complicated one which finds its origin in various sciences. What is now needed is distinctly organized courses in the adaptation of these sciences to the requirements of motion pictures. In addition to this, the best scholarly endeavor and artistic ability must be directed for the preparation of materials for the screen.

ACADEMY'S AID

"It is a matter of distinct encouragement and promises well for the motion-picture industry that the Academy of Motion Picture Arts and Sciences is working so seriously in co-operation with the University of Southern California, in making education and training the basis for their activities.

"That the first institution in the world to offer a regular four-year course looking to connection with the industry is located in Los Angeles, where more than 66 per cent of all motion pictures are produced, is a happy circumstance. Partial courses previously offered at various universities and colleges have proved inadequate to furnish to the motion-picture industry a sufficient number of candidates for the numerous and varied avenues of activity in the field."

WALL STREET PARAGRAPHS

[Copyright, 1927, by New York Evening Post, Inc.]

NEW YORK, Aug. 30.—Steel common was the undisputed leader and the outstanding feature of the day's market. The same confident and apparently powerful buying which has taken it forward spectacularly for several weeks, was behind the move, which lifted it to new record levels on a rise of more than 2 points. Strength in steel in face of unusual backwardness in other leaders, particularly General Motors, naturally was designed, according to some, to check any attempt at selling elsewhere. But the stock rose to new peaks, the Duponts were mentioned prominently and it was reported that these interests now hold close to 350,000 shares of the stock.

Employee Holders Benefit

Not in many years have steel employees seen their investment in the shares of the corporation appreciate with such alacrity as those who took advantage of the privilege of subscribing to the last 100,000-share allotment. Offered to employees at 122 a share early in June the stock at current prices shows purchasers under that plan a profit of 26 points at the top levels today.

General Motors Hesitates

Not the least in the way of feature was the failure of General Motors to make its customary daily new high record. It was the first session in almost a fortnight since that bell wether was unable to better its high record of the previous day. This apparent simmering down of speculation for the rise in motors had something of a sobering effect on speculative sentiment generally, a factor which was keenly reflected in narrow movements elsewhere. It was only logical to expect that a halt in the rise would come in due course, but there were a good many people who were commencing to realize that with current prices representing 375 or better for the stock prior to last year's stock dividend, even this immense corporation's earning power was being rapidly discounted.

Can at New High

Interests who have been sponsoring American Can marketwise and incidentally comprising the same group who were prominent in that stock at previous intervals continued to pilot that issue forward in face of the sagging tendency elsewhere. In spite of the strength in the stock there were many who questioned the basis for the rise, some frequently well-informed, holding that its current position hardly warranted highly bullish feeling.

Pierce-Arrow Supported

The decision of the board to omit the usual quarterly dividend of $2 due on Pierce-Arrow preferred, brought a fresh wave of selling into that stock. But after duplicating the low level of the year, strong support was extended. The action had been discounted by a steady decline from the year's high of 102½. Payments are cumulative, but there is still a total of 40 per cent in arrears due on the issue covering the period of suspension from May 31, 1921 to July, 1926, when payments discontinued today were resumed.

Atlantic Refining Slumps

Atlantic Refining slumped sharply following the appearance of its statement covering operating results for the first half year. It had been more or less generally accepted in financial circles up until now that Atlantic Refining because of its small producing activities, was in a position to fare better than most other oil companies in the present unfavorable situation. But for the six months a net loss of $1,477,419 was shown after charges, compared with net income equal to $5.09 a share for the common in the first half of 1926. This year, of course, there is a new deduction of $1,135,474 for intangible development costs.

JUDGE LAUDS PLAN FOR INDIAN PAGEANT

"The first payment on our debt to the Indians that also will be our own great opportunity," is the way Judge Schauer characterized the Indian ceremonials to be conducted at the Hollywood Bowl, starting September 12. Judge Schauer was one of several speakers at the judicial lunch held by the Artland Club in the Fine Arts Building yesterday. Princess Tsianta explained that the real religious rites of her people will be seen for the first time at the Bowl in September. Indian tribes from all over the United States are being brought to Los Angeles for this occasion.

CATTLE DEALER HELD IN THEFT OF COWS

Three cows, asserted to have been stolen last month, yesterday caused Al Murphy, cattle dealer, to be held to answer to the Superior Court for trial on a charge of theft. Testimony adduced by Dep. Dist.-Atty. Heinecke tended to show that the cows were stolen during Murphy's transactions with the Seaboard Acceptance Company. Municipal Judge Westover ordered the defendant's bail set at $3000.

OUTSTANDING among recent building bond offerings

Since 1893, Frick, Martin & Co. with its direct predecessors, has served Southern California Investors

We shall be pleased to furnish detailed circular descriptive of this attractive offering.

LOS ANGELES building bonds have long stood in high favor with conservative California investors, since they offer a high degree of security plus a liberal return. Among the outstanding building bond offerings of the last year, we believe, is the $1,350,000 issue of

Alexandria Hotel Realty Corporation

First Leasehold Mortgage Sinking Fund 6½% Gold Bonds, due 1947

Bonds constitute a 44% lien on the famous $3,284,000 Alexandria Hotel property, located at Fifth and Spring Streets, Los Angeles. Entire property has been leased to Eugene C. Eppley and Charles B. Hamilton for 26 years at a total net rental of nearly twice the full debt service. These men are highly successful hotel executives, whose holdings include 25 important hotels in the Middle West, California and Arizona.

NEW YORK CURB STOCKS

NEW YORK, Aug. 30.—(AP)—Trading in today's curb market was largely a specialty affair, several new high records being created in that group while the general list showed a somewhat reactionary appearance. Considerable shifting of speculative accounts was reported with sales showing a moderate increase in volume.

Oils held up fairly well in the face of adverse trade news and the publication of an extremely disappointing semiannual report by the Atlantic Refining Company. Standard Oil of Indiana crossed 75 to a new peak in heavy trading but canceled all its gain when the rest of the oils turned reactionary.

The widespread publicity given long-distance airplane flights continued to attract buying into Curtiss Airplane, which touched a new high at 35 as against a low of 19 earlier in the year. Celluloid common touched a new high on the formal approval of directors of the proposed merger with the Safety Celluloid Corporation, a subsidiary of the Celanese Corporation. Newmont Mining, Wesson Oil, International Cigar Machinery and Peoples Drug Stores also attained new peak prices. The further advance in Royal Baking Powder was attended by talk of a stock split-up.

Stutz Motors fell back more than a point, but Durant improved fractionally on a heavy turn-over. Johns Manville was again under selling pressure despite the optimistic statement on earnings and prospects by the president of the company.

The closing price is omitted when same as the em. and both low and close when same as the high.

Let 80 Companies Pay You This Income Averaging 7½%

Collateral Trustee Shares

of the

New England Investment Trust, Inc.

Liberty National Bank, in New York, Trustee

represent equal interests in listed stocks of:

American Tel. & Tel. — Westinghouse Elec.
General Motors — American Tobacco
Atchison R. R. — U. S. Steel Corp.
and 74 other leading American corporations.

All regular and extra dividends of the entire 80 companies are distributed to Collateral Trustee shareholders without deduction of any kind. That is why the yield has averaged over 7½%.

Free from Normal Federal Income Tax
Free from Inheritance Tax except in State of residence

Write for Circular FM-13 giving full details of this safe investment.

Liberty National Co.

Government—Municipal—Corporation Bonds

LOS ANGELES, CALIFORNIA
215 Van Nuys Bldg. — 7th and Spring Sts.
TR. 1374

A First Mortgage Public Utility Bond Yielding 6%

THE Company serves, without competition, gas and electricity to 84 prosperous and growing communities in five states.

Net earnings for the year ended July 31, 1927, were 2.16 times the annual bond interest requirements, and it is estimated that earnings will be substantially increased by recently completed improvements and extensions.

Investors seeking a sound, long-term investment yielding 6%, will find this offering exceptionally desirable.

NEW YORK BOND PRICES

NEW YORK, Aug. 30. (AP)—Although trading in the bond market as a whole went on at a slow pace today, there was rather heavy buying in a few outstanding issues which moved up into new high territory. Easy money was the foundation for firm prices in many instances at or just under the highest levels of the year.

Announcement that the $40,000,000 Argentine 6s had been quickly oversubscribed following ready absorption last week of two offerings of large size, created a comfortable feeling. Existing Argentine 6 per cent bonds moved in large amounts around 99 1-2, the offering prices of the new issue. Aside from firmness of some of the French issues, the government 7s duplicating their previous record high, little of interest transpired in the foreign group.

International Telephone 5 1-2s, changing hands in rather large volume, again led the convertible list, advancing nearly 2 points to 118 1-2, a new peak. Offerings at this point checked the rise and the price eased off to 117 1-2. Other convertibles were less active than in other recent sessions.

Burlington 4 1-2-A and Rock Island 4s were in the van of the railway division, selling readily around par and or 1-2 up, respectively. Reading 4s advanced to 101, the existing year's peak, but subsequently lost the gain.

United States government bonds were dealt in freely, but at little change in last quoted prices. Second, third and fourth Liberty 4 3-4s were the most active.

The quotations represent sales of bonds (in thousands of dollars) and the high, low and closing prices in the order given. To separate transactions, same is omitted where same as last, and both low and close when same as high.

PRICES HOLD UP UNDER ATTACK

(Continued from Tenth Page)

Except for a continuance of easy money rates with a plentiful supply of call funds at the 3 1-2 per cent rate, there was little in the day's news to encourage bullish enthusiasm.

Renewed weakness of the oil shares followed publication of the poor Atlantic Refining earnings report, which showed net loss of nearly $1,500,000 in the first half of 1927, as compared with a net income of nearly $3,230,000 in the same period of 1926. Atlantic Refining, which sold as high as 131 3-8 earlier in the year, reacted more than 3 points to 115 and then rallied a point. Houston broke from 131 to 123 1-4 and snapped back to 125 3-4.

Texas and Pacific Land Trust (old stock,) which was recently split up 100 for 1, sold at 2695, off 105 points from the previous sale.

United States Steel common moved up nearly 4 points to 148 3-8 and closed near the top on buying presumably influenced by reports that the Dupont interests had increased their holdings. Bullish activities also were quite pronounced in Colorado Fuel, General Asphalt, International Business Machines, Rossia Insurance and White Sewing Machine.

A bear attack against United States Cast Iron Pipe carried the price down to 190 1-2, but a run in of the shorts caused a quick rally to around the 200 level, the final quotation of 1926 representing a net loss of 1 5-8. Mackay Companies sold down nearly 4 points on a few transactions and selling pressure was again apparent against Pittsburgh Coal, Sterling Products and Vulcan Detinning.

With exception of Western Maryland, which advanced 4 1-2 points to 55, most of the rails were under pressure as a result of the publication of another batch of disappointing July earnings statements and the statement of Howard Elliott, chairman of the Northern Pacific, that current business was dull in the northwest territory, but that improvement was looked for in October. Texas and Pacific broke 5 points and Atchison, Chesapeake and Ohio, Rock Island and other recent leaders sold down a point or more.

Time money and commercial paper rates were unchanged.

Foreign exchanges held firm in quiet trading. Demand sterling ruled around $4.85 13-16 and French francs just under 3.92 cents. Some of the South American exchanges eased slightly on profit-taking.

LOS ANGELES MARKET

CATTLE—Around 600 cattle were held over from Monday, the majority of which were plain half fat kinds. This supply was augmented by around 200 head of fresh arrivals. Demand continued fairly broad and a good clearance was made with prices generally holding steady with Monday's close. A car of good 1235-pound California steers topped at $8.60. Other steer sales included a few lots of medium kind from $.50@9.00, with three loads of 840-pound Mexican steers at 7.65. A load of 850-pound steers went out for a turn from a near-by feed lot at 7.50 with a load of this 49-pound weights at 8.35.

Small lots and part loads of heifers, including good light southwestern, dished from 7.35@7.65 while the best cows topped at 7.00. The price spread of 6.00@7.00 took in the bulk of yesterday's the stock supply, mostly 6.50@7.00. Common kinds in a small way sold down to 5.25. Cutters moved largely from 4.00@4.75 with low cutters around 3.50. Bulls continued slow and weak, the majority medium to good kinds selling from 3.75@4.25.

CALVES—A firm undertone existed in yesterday's trading with a good clean-up being made of the moderate supply. Odd lots of calves and vealers sold for 11.00 and better. Two loads of plain 321 and 345-pound Arizonas cashed for 10.25 with one at 9.25 while small lots of plain and heavy calves turned from 7.50@9.00.

HOGS—Yesterday's estimated run had not arrived at a late hour and trading was confined to five loads of butchers held over from Monday and a few lots of local fed trucked-in kinds. Demand was scarce and trading was slow and draggy at uneven prices mostly steady at 25 cents lower. One load of 203-pound butchers topped at 12.50 while a load of 171-pound weights made 12.35. Two loads of 197 and 210-pound butchers went over for 12.00 as did a small lot of 215-pound local fed trucked-in butchers. A load of local fed butchers averaging 225 pounds realized 10.50. No packing sows were offered and the general run of these were quoted from 8.50@8.75.

SHEEP—None. Medium to choice wooled lambs were quoted from 11.50@13.00 with medium to choice wooled ewes from 5.25@6.75.

YESTERDAY'S QUOTATIONS

SLAUGHTER CATTLE AND CALVES—Steers, (1100 to 1300 pounds,) good, 8.10@8.60; (950 to 1100 pounds,) good, 8.00@8.50; (800 pounds up,) medium, 6.25@8.00; common, 4.25@6.25. Heifers (850 pounds down,) good, 7.25@8.00; common and medium, 5.75@7.25. Cows, good, 6.25@7.50; common and medium, 5.00@6.25; low cut and cutters, 3.00@5.00. Bulls, (yearlings excluded,) good (beef,) 5.00@6.50; cutter to medium, 4.50@5.00. Calves, (350 pounds down,) medium to choice, 8.50@11.25; cull and common, 4.50@8.50. Vealers, (milk fed,) good and choice, 10.25@12.25; medium, 9.00@10.25; culls and common, 5.50@8.00.

HOGS—Station weight (220 to 250 pounds,) medium to choice, 11.00@12.00; light weight (150 to 200 pounds,) medium to choice, 11.50@12.50. Light lights (130 to 160 pounds,) medium to choice, 11.50@12.50. Packing sows, rough and smooth, 8.00@9.25; slaughter pigs (90 to 130 pounds,) medium to choice, 11.00@12.00. (Subject to change and roasting pigs excluded in above quotations.)

SLAUGHTER SHEEP AND LAMBS—Lambs, (84 pounds down,) good and choice, 12.00@13.00; (92 pounds down,) medium, 11.00@12.00; (all weights,) culls and common, 8.50@11.25. Ewes, (wooled, 120 pounds down,) medium to choice, 5.25@6.75; (all weights,) culls and common, 3.00 @5.25.

OUTSIDE MARKETS

SOUTH SAN FRANCISCO, Aug. 30. (AP)—Hogs, receipts, 875; steady; two loads 175 to 190-pound Nebraskas, 12.50; load 245 pounds, 11.25; short load 220-pound packing sows, 9.50 or 50 lower.

Cattle, receipts, 250; ten cars California and Nevadas arriving now; steady. Late yesterday two loads 1400-pound Oregon steers, 9.50. Good cows steady; load 900-pound Californias, 6.65. Undergrades absent. Bulls none, quoted 6.00@6.25.

Calves, receipts, 65; steady at yesterday's 25 @50 cent decline; load 265-pound calves, 10.50; load 235-pound Arizona heifers, 9.50; short load 400 pound, 8.00.

Sheep, receipts, none; late yesterday, 2000. Steady, three decks sorted 72-pound Oregons, 12.50. Twelve decks, 74 to 80 pounds, 12.25@ 12.60; two decks 86 pounds, 12.15; two decks 76 to 80 pound good choice Californias, 10.75@ 10.90. Ewes absent, quoted 5.50@5.75.

CHICAGO, Aug. 30. (AP)—Hogs, 26,000; fairly active; fully steady; spots on desirable butchers, 200 to 260 pounds, strong to 10 cents higher; top, 10.75 paid for 180 to 210-pound weights; bulk good and choice 170 to 200-pound averages, 10.60@ 10.75; 220 to 250-pound, 10.00@10.60; 260 to 300-pound, 9.50@10.10; most packing sows, 8.15@ 8.50; pigs in wide range from 7.00@9.00.

Cattle, 13,000; fed steers steady to 25 cents lower; lower grade natives showing decline; trade uneven, slow; she stock weak; quick lower; bulls dull; vealers 25@50 cents higher; best fed steers, 14.35; kinds of value to sell at 13.00 downward coming in competition with a liberal supply of western grassers indicating about $500 head of western grassers; comparatively little done; yearlings steady at 14.00@14.50.

Sheep, 13,000; fat lambs active; mostly 25 cents higher than Monday; bulk of good native lambs, 12.50@13.50; lightly sorted at 13.00@13.35; few heavy buck lambs, 11.50@12.00; culls, 8.00@ 9.50; early sales of good to choice range lambs, 13.35; asking around 13.75 for choice westerns; strong weak to a shade lower; most good and choice destitable weights fat ewes, 5.50@6.50; few heavy ewes, 4.50@5.00.

KANSAS CITY, Aug. 30. (AP)—Hogs, 6000; very uneven; steady to 25 cents lower than Monday's average; light lights off most; strong weight butchers selling best; packing sows 10@25 cents higher; stock pigs weak to 25 cents lower; top, 10.75 on 210 to 250 pounds; bulk desirable 170 to 230 pounds, 10.40@10.65; 240 to 290 pounds, 9.85@10.40; 290 to 325 pounds, 9.35@9.75; light lights, 10.15@10.40; packing sows mostly 8.50@ 8.75; stock pigs, 9.50@10.20.

Cattle, 14,000; calves, 2000; desirable fed native steers and yearlings steady; westerns slow, weak; supply liberal; the stock opening slow, steady; generally bidding lower on fat cows; bulls unchanged; vealers and weighty slaughter drives weak to 50 cents lower; stockers and feeders steady; choice medium weight steers, 13.65; several loads 1200-pound light weight steers and yearlings, 13.90@13.25; bulk common to medium westerns, eligible to sell around 7.50@8.75; good and choice Kansas upward to 11.50 and above; veal top, 12.00; weighty calves, 8.50 down.

Sheep, 6000; lambs steady to 15 cents higher; sheep steady; top Colorado lambs, 13.40; others, 13.30; best natives, 12.65; mostly 12.25@12.60; top ewes, 6.75; others, 6.25.

DENVER, Aug. 30. (AP)—Cattle, 700, calves, 75; stock cows and heifers strong to 25 cents higher; several loads cows, 6.50@6.75; heifers, 7.40 down; all other classes steady; few mixed loads, 13.50; few heifers, 13.00; short fed steers, 13.50; grass heifers, 7.00@8.25; cows, 6.00 @7.00; medium bulls, 5.75@6.00; good veals, 12.00@12.50; two loads Wyoming feeder steers, 9.10; other stockers and feeders, 7.25@8.25.

Hogs, 1300; four loads direct to packers. Three loads billed through; bulk of run late in session; early sales drive-ins fully steady; early top, 11.00 on 180 to 225 pounds; $10 to 250 pounds, 10.50@10.90; butcher sows, 9.00@9.50; few stock pigs, 11.00.

Sheep, 400; fairly active; fat lambs strong to 10 cents higher; load of 75-pound Colorado lambs, 12.75; short deck to 70-pound Coloradas, 12.50; odd lots of native lambs, 12.00; few 134 to 136-pound fat ewes, 5.00.

SOUTH ST. PAUL, Aug. 30. (AP)—Cattle, 1600; opening slow; undertone weak on killing classes; she stock showing most pressure; one load grain fed, 14.00; bulk grassers, 8.00@9.25; she stock largely 5.50@7.50; cutters, 4.25@4.75; bulls unchanged; stockers and feeders active, steady; calves, 1400; vealers, quality considered, 25 cents or more higher; bulk, 12.00@13.00.

Hogs, 25500; steady to strong; spots slightly higher; top, 10.35; butchers scarce, mostly 9.90 @10.00; bulk packing sows, 8.25; pigs, 8.50.

Sheep, 1000; fat lambs mostly 25 cents higher; bulk, 12.00@13.00; lambs averaging upward of 95 pounds about steady; mostly 11.00; sheep unchanged.

OMAHA, Aug. 30. (AP)—Hogs, 11,300; light hogs steady to 10 cents higher; butchers and packing grades slow, mostly 10@15 cents lower; 160 to 200-pound lights, 10.10@10.80; top, 10.85; bulk, 310 to 350-pound butchers, 9.60@10.00; bulk 250 to 290-pound averages, 9.75@9.90; bulk 200 to 275-pound weights, 9.75@9.85; packing sows, 8.15@8.50.

Cattle, 6200; fed steers and yearlings slow, steady; spots stronger on better grades; she stock steady; bulls weak; veals steady; heavy calves weak to 50 cents lower; stockers and feeders steady; fed steers and yearlings, 11.00@13.00; yearlings, 12.35; medium weights, 1144 pounds, 13.75; grass heifers, 7.50@8.75; grass cows, 6.00 @7.25; bulk all custers, 4.50@5.00; medium bulls, 6.50@6.75; practical top veals, 11.00; few up to 12.00 to independents; stockers and feeders, 8.25 @9.50.

Sheep, 22,000; lambs active, mostly 15@25 cents higher; bulk fat range lambs, 13.00@13.25; top, 13.35; natives, 12.50@12.75; sheep strong to 25 cents lower; ewes tops, 6.50; feeders steady; bulk feeding lambs, 13.00@13.40; top, 13.50; one year breeding ewes, 8.00@8.75.

ST. JOSEPH (Mo.) Aug. 30. (AP)—Hogs, 3500, steady to 15 cents lower; top, 10.60; bulk 150 to 240 pounds, 10.30@10.60; bulk 240 to 320 pounds, 9.90@10.15; packing sows, 25 cents higher; majority 8.25@8.50.

Cattle, 7500; calves, 500; fed steers and yearlings scarce, steady; choice 1150 pounds, 13.25; other grain fed down 7.00; late trains dealgrass steer trade; early undertone weak; fat she stock steady; bulk grass cows, 6.75@6.75; fed cows up to 8.50; bulk vealers, 4.25@5.25; short fed heifers, 10.50 down; bulls, 150@25 cents lower; bulk medium grades, 5.50; vealers steady to weak; top, 12.50; stockers and feeders slow.

Sheep, 5000; fat lambs strong; top rangers, 13.50; bulk of natives, 12.00@12.50; fat ewes steady to 25 cents lower; top, 6.50; feeding lambs strong to 25 cents higher; top, 13.25.

PORTLAND, Aug. 30. (AP)—Cattle steady; receipts, 250.

Hogs steady; receipts, 100.

Sheep steady; receipts, 300.

NAVAL STORES

SAVANNAH (Ga.) Aug. 30. (AP)—Turpentine steady, 50½@51; sales, 800; receipts, 1344; shipments, 107; stock, 27,876.

Rosin firm; sales, 2300; receipts, 9401; shipments, 274; stock, 122,587.

Quote: B, D, E, F, G, H, 8.80@8.85; I, 8.80@8.90; K, 8.80@8.95; M, 8.85@8.95; N, 8.15 @9.15; WG, 9.60@9.75; WW, X, 11.50.

WOOL MARKET

BOSTON, Aug. 30. (AP)—Wool trading has not developed to any extent this week. Buyers for the large mills, however, are keeping in close touch with the market. The second day of the sale at Sidney, Australia, was reported by private cables as unchanged from the previous day. The strength shown in Australia is regarded by the trade here as encouraging for domestic wools.

FAIR WARNING

"Rastus, does yoh still love me?"

"Lawd, Mandy, dat's de most thing I do."

"Well, den, black man, keep away from dat yaller gal I been sein' yoh with, or Ah is goin' to shoh ventilate yoh affections."—[Pathfinder.

BUTTER AND EGGS

...continuing deeper, the well will be plugged back and another test made at the 6460-foot point. It is said that the Magenheimer and the McKeons did not intend to put the well on production at 6460 feet, anyhow, but merely to test the formation before going deeper. It is considered possible that a superabundance of mud may have sealed off the oil sand, and prevented a good showing during the recent test, and the hole will have to be carefully washed if the deeper drilling does not prove effective.

Gets Big Well

The Shell Company's Taylor No. 19 well in the Ventura-avenue field at Ventura is producing at the rate of 1620 barrels a day, according to official reports. This well was completed on Sunday at more than 2000 barrels, and in addition to the output of oil is making about 2,500,000 cubic feet of wet gas. This is the third completion by the Shell Company in a period of a little more than a week, all of the wells being better than average producers.

Associated Well In

The Associated Oil Company has brought in its Lloyd No. 37 well in the Ventura-avenue field, it was officially reported yesterday, the production being about 600 barrels a day. Gravity of the oil is about 29 deg., and this may improve in a day or two, as the oil was still rather dirty last night. Lloyd No. 37 has been rather a jinx well of the Associated at Ventura, its completion requiring about eighteen months, and the solution of a fishing problem that tied the well up for about four months at one time.

Drilling Ahead

The Doheny interests are drilling ahead at about 705 feet in their new Hobson No. 1 in the Beaclif area of the Rincon district, seven miles west of Ventura, according to officials of the company. The eighteen-inch surface conductor string has been set at that point, it is said.

The Hobson lease is the one which the Dohenys acquired recently from the Chanslor-Canfield Midway Oil Company in a deal which aroused considerable speculation at the time it was made.

Will Deepen Well

The Standard Oil Company has resumed drilling in its wildcat well in the Camarillo district, following the failure of its recent combination water and production test, according to officials of the company. The Camarillo wildcat underwent a series of water shutting several weeks without showing anything to warrant the hope of production. Bottom is now at about 5522 feet.

The Standard's Camarillo test aroused considerable discussion among geologists when it was started, because of its location in an area where serpentine formations outcrop at the surface. The proximity of serpentine has always been regarded as precluding the possibility of oil, but apparently the Standard had other ideas, although the present well has not done much to disprove the accuracy of the old theory.

To Spud Saturday

The Monterey Park Petroleum Company will spud its wildcat well in the Monterey Park area next Saturday afternoon at 4 o'clock, it was reported yesterday by L. M. White, an official of the company. The company holds leases on approximately 150 acres, practically all of it within the townsite of Monterey Park, and quite a ceremony is planned when the first hole is made.

To Geologize Verdugo

The Crescenta Valley, located among the Verdugo Hills, is to be examined by the geologists' magnifying glass to determine its petroleum possibilities, according to reports from that area. At a meeting of leading citizens and land owners of the district on Monday night, a fund was begun to finance a geological survey of the entire valley.

Gets Big Lease

Charles W. Hanalip, a Los Angeles man, who is said to represent one of the principal Los Angeles oil operators, has completed negotiations for the lease of 1603 acres of the Santa Barbara National Forest, according to reports from Santa Barbara. The land is said to be near the Matthiesen ranch, north of the Tecolote Canyon country, where the Miley interests and the Transcontinental Oil Company are operating and producing. No information as to when the new lease will be drilled was available yesterday.

Starts New Well

The Union Oil Company is preparing to start a new well on its Callender lease in the Domingues field, according to official reports. Rig is up for Callender No. 20, which is not far from the Callender No. 17, the deep test of the field.

Callender No. 17 continues to have showings of good oil sand at 5184 feet.

Pantages, Seventh and Hill—Joe Bes.

PROPOSED TO LIFT FIGHT PICTURES BAN

SANTA ANA, Aug. 30.—Complying with the request of theater owners and boxing fans, City Attorney C. D. Swanner last night brought to the attention of the City Council the suggestion that an amendment be made to an ordinance prohibiting the presentation here of motion pictures of prize fights. It was pointed out by those in conference with the attorney that such pictures may be presented in other cities of the county and that by maintenance of the prohibitory ordinance fight fans here were forced to go to other places to see such pictures, while theater owners were being denied opportunity for presenting the films demanded by patrons. The City Attorney was directed to prepare an amendment permitting the exhibition of such films.

YOUTH CRUSHED IN PECULIAR ACCIDENT

VENTURA, Aug. 30.—Herbert Calmore, 16 years of age, was instantly killed in Santa Paula when he was crushed between the top of his father's truck and a rafter in the Calmore Garage as the father was backing his truck out of the garage last night. Young Calmore was standing on the back of the truck and was caught between the top and rafter before he could free himself. M. A. Calmore, his father, feeling the resistance of the body, stopped the machine and jumped out just in time to catch the body of the boy as he fell to the floor.

TONSORIALIST NOW AN ENTOMOLOGIST

GIANT FOREST, Aug. 30.—Conversion of a tonsorialist into a "bugeologist" was the recent experience of Roy Foster, Giant Forest barber. Foster assumed the role of an entomologist when he found a family of nearly 100,000 ladybugs in the Big Tree grove here. He transported the ladybugs to his elm trees at his home near Exeter to aid in extermination of the elm-leaf beetle, at which process ladybugs are declared to be particularly adept.

NEW PLAYGROUND

OLINDA, Aug. 30.—Children of Olinda have been provided with a new playground, swings, teeter-totters, trapeze bars and other devices for the amusement of the children being provided. The playground was installed by the Chanslor Canfield-Midway Oil Company.

THE WEATHER

[Official Report]

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Aug. 30.—[Reported by H. B. Hersey, Meteorologist.] At 8 o'clock a.m. the barometer registered 29.98; at 5 p.m., 29.94. Thermometer for the corresponding hours showed 63 deg. and 76 deg. Relative humidity, 5 a.m., 79 per cent; 5 p.m., 43 per cent. Wind, 5 a.m., northwest, velocity 2 miles; 5 p.m., west, velocity 7 miles. Temperatures, highest, 84 deg.; lowest, 62 deg. Rainfall for season, trace; normal to date, none; last season to date, trace. Barometer reduced to sea level.

WEATHER CONDITIONS. — Aug. 30: Light showers have occurred during the past twenty-four hours in the lake region and North Atlantic States and in Tennessee and in Montana, Washington and Oregon. Moderate temperature is reported over practically the whole country this morning. In Southern California fair weather prevailed yesterday and last night, with moderate temperatures, and it was clear this morning at nearly all stations. Fair weather will continue in this vicinity Wednesday, with moderate temperature. Lower humidity may be expected, increasing the fire hazard considerably.

SUN, MOON AND TIDES.—Los Angeles, Aug. 31: Sun rises 5:20 a.m., sets 6:21 p.m. Moon rises 9:39 a.m., sets 9:38 p.m. Los Angeles Harbor, Aug. 31: High tides, 11:36 a.m. and 11:20 p.m.; low tides, 5:11 a.m. and 5:36 p.m.

LOCAL TEMPERATURES.—Aug. 30: Minimum and maximum temperatures from Southern California points, reported yesterday to the Los Angeles office of the U. S. Weather Bureau, were as follows:

Stations	Max.	Min.
Los Angeles Harbor	75	59
Mt. Wilson	72	57
Newport, Harbor	72	59
Pasadena	86	54
Pomona	92	53
Porterville	86	54
Rancho Santa Fe	77	57
Redlands	87	53
Riverside	90	51
San Bernardino	89	54
Santa Ana	84	57
Santa Barbara	78	52

LOCAL FORECAST

For Los Angeles and vicinity: Fair and moderately warm Wednesday and probably Thursday.

STATE FORECAST

SAN FRANCISCO, Aug. 30.—Weather forecast: San Francisco and vicinity: Fair; moderate temperature; moderate westerly winds.

Northern California: Fair; somewhat warmer in the interior; increasing fire hazard; moderate northwest winds along the coast.

Sacramento and San Joaquin valleys: Fair and somewhat warmer; gentle variable winds.

Santa Clara Valley: Fair; moderate temperature; moderate northwest winds.

Southern California: Fair; moderate temperature; high fire hazard in the mountains; gentle westerly winds.

ARIZONA FORECAST

PHOENIX (Ariz.) Aug. 30.—Forecast for Arizona: Wednesday and Thursday, fair; little change in temperature.

COLORADO RIVER

YUMA (Ariz.) Aug. 30. — [Exclusive Dispatch from the U. S. Reclamation Service.] Gauge height Colorado River, 17.3 feet. Discharge, Tuesday, 9400 cubic feet.

GENTRY. William B. Gentry.
Remains at the chapel of Ivy H. Overholtzer. Services at the grave in Forest Lawn Cemetery today at 2 p.m.

GRAHAM. At 4522 South Van Ness avenue, Mrs. Margaret K. Graham, aged 74 years, beloved mother of Miss Ethel and Melville Graham and Mrs. Clara Tully of Los Angeles, Mrs. W. J. Lawby of Toronto, Can.
Remains at the chapel of W. A. Brown, 1815 South Flower street. Notice of funeral later.

GRESSON. In Glendale, August 29, 1927, Lewis A. Gresson, aged 62 years, loving husband of Lulu and father of Clifford A. Gresson and Mrs. Gladys M. Hart; brother of S. D. Gresson.
Funeral services today at 1 p.m. at the Little Church of the Flowers, Forest Lawn Cemetery. L. G. Sowers Co., Glendale, directors.

GUASTI. August 28, Rosendo Guasti, beloved husband of Louise and father of Rosendo Guasti, Jr.
Funeral today at 9 a.m. from his late residence, 2202 West Adams street. Solemn requiem high mass at St. Vincent's Church at 10 a.m. Cunningham & O'Connor, directors.

HUFF. August 29, Jessie Cecelia Huff.
Funeral services Thursday, September 1, at 11 a.m., from Pierce Brothers' chapel.

NANCE. Lee Nance, Jr.
Remains at the chapel of W. A. Brown. Interment, Denver, Colo.

NEWSTRUM. Ada Treese, aged 53 years, beloved wife of Peter Newstrum and loving mother of Harold Wallerstedt.
Remains at The White Company, 644 West Washington street.

O'NEILL. August 30, Hugh J. O'Neill, aged 72 years.
Funeral Thursday, September 1, at 8:30 a.m. from the residence, 1628 Virginia Road. Requiem mass at St. Paul's Church at 9 a.m. Interment, Calvary. Cunningham & O'Connor, directors.

PARK. Ella G., August 29, mother of Clarence and Eugene Park and Gladys McLeaut.
Funeral Friday, September 2, at 2 p.m., from chapel of A. C. Pillsbach, Burbank. Interment, Evergreen Cemetery.

PUNTENNEY. August 30, John R. Puntenney, loving son of Dr. and Mrs. G. A. Puntenney; brother of Claire, George and Mac Puntenney.
Remains at Pierce Brothers. Notice of funeral later.

DEATHS

With Funeral Announcements.

REAMER. Edward E. Reamer, late of 1061 West Thirty-fourth street, beloved husband of Isabel Reamer and father of Le Roy Reamer.
Services will be held Thursday at 1 p.m. from the Los Angeles Crematory chapel, under direction of the Boyce Mortuary, 842 South Figueroa street.

REEVE. At 606 East Randolph, Glendale, August 29, Judge Sidney N. Reeve, beloved husband of Mary Whitney Reeve; father of Sidney, Jr., and Mary Virginia Reeve; brother of Mrs. William H. Bullen.
Funeral services at Brosse Brothers' chapel, 825 Figueroa, Wednesday at 3 p.m.

RYAN. Henderson Ryan, member of Fremont Camp, W.O.W.
Remains at the chapel of Graham & Isbell.

SIGURDSON. August 29, Gudrun Sigurdson.
Funeral services Thursday, September 1, at 1 p.m., from Pierce Brothers' chapel.

THOMAS. Private funeral services for Sarah Elizabeth Thomas, Thursday, September 1, at 10 a.m., from Pierce Brothers' chapel.

THOMSON. August 30, at 1040 South Hobart Boulevard, Florence Elizabeth, wife of William R. Thomson.
Remains at Brosse Brothers, 825 Figueroa.

VAN BUREN. John Van Buren.
Remains at the chapel of Ivy H. Overholtzer.

VILLA. John Villa.
Remains at chapel of Gus Alvarez & Moore.

WEBER. August 30, at 5116 Norton avenue, Hattie Mary Weber, aged 58 years, loving mother of Hattie Mae and Irene A. Weber.
Remains at chapel of Gates, Crane & Hall. Funeral notice later.

WHEAT. August 29, 1927, William Henry, beloved son of George J. and Ethel Wheat, aged 4 years.
Services Thursday, September 1, at 10 a.m., at the chapel of Hemlington Park Undertaking Co., 248 South Bertlle avenue.

YOUNG. Louis Young.
Remains at chapel of Gus Alvarez & Moore.

ZIEGLER. At 650 West Montecito, Sierra Madre, Cal., Louis B. Ziegler, aged 62 years, a pioneer of Los Angeles, beloved husband of Mrs. Laura B. Ziegler; father of Miss Ruth L. and Louis B. Ziegler, Jr., of Sierra Madre; brother of Mrs. J. G. Madison, Charles, William and Harry Ziegler, of Los Angeles; Leander Ziegler and Mrs. Laura Samples of Pittsburg, Pa.
Funeral services today at 2 p.m. from the chapel of W. A. Brown, 1815 South Flower street.

LODGE NOTICE

Clarence F. Smith Lodge, No. 852, F. & A. M. (Ex-Service Men.) Meets every Wednesday evening at 1308 Orchard avenue, corner of Pico street. All visiting brethren welcome.

SOUTH AFRICAN BUYS GLENDALE PROPERTY

GLENDALE, Aug. 30.—Long-range buying of Glendale real estate is exemplified in the receipt of a draft for £178 from Dr. Joseph Edward Denhart of Johannesburg, South Africa, who has sent the money as the first payment on a lot of Marion and Corona drives in Glendale heights. Dr. Denhart is a son of J. L. Denhart, a salesman in the employ of W. P. Hope, real estate dealer, at Palmer, and Adams streets, and the father has been boosting Glendale realty in his letters to his son, who has made his home and practiced his profession in South Africa for the past twelve years. Dr. Denhart expects to return to the United States within a year and may make his home in Glendale.

CHURCH BUILDING AT ANAHEIM PURCHASED

ANAHEIM, Aug. 30.—Sale of the property of the First Presbyterian Church at Cypress and Claudina streets, Anaheim, to the Nazarene Church was announced today. The First Presbyterian Church plans the erection of a new brick edifice on its property at West Broadway and Clementine streets. The sale has been in process of negotiation for some time. The property sold includes the two lots and the church building. The new Presbyterian location has been owned for several years. The Anaheim Presbyterian Church is the oldest Protestant church in Orange county and the second oldest in Southern California being established in 1854.

TREBLE DAMAGES DEMANDED IN SUIT

VISALIA, Aug. 30.—Treble damages in the sum of $139,000 are asked in a suit filed in the Tulare County Superior Court here by Mrs. Anna M. Key, who contends that she lost possession of her ranch in the southern section of the county during a brief absence in July, when Harry H. Devenney, et al. took possession. Loss of rentals, profits and leases of the land in question is also counted as grounds for action. The actual damage sought amounts to $53,000, but the plaintiff contends that the law provides for treble damages in her case.

ORCHARD TRADED

PORTERVILLE, Aug. 30.—E. B. Sprague, prominent rancher of the Zante district, north of Porterville, has traded his orchard property, known as one of the show deciduous fruit groves of the district, for farm land in Illinois. Willis Peck of San Francisco, the new owner, will arrive here early in September to assume control of the place. The Sprague family will establish residence in Riverside, where they lived before coming here seventeen years ago

news of the MIDDLE WEST

ST. LOUIS, Aug. 30. (Exclusive)—Miss Alice Chapman is visiting her parents, Mr. and Mrs. Benjamin O. Chapman, Jr., of 58 Kingsbury Place, and her sister Miss Jacquelin, at Del Monte, Cal.

Former Gov. and Mrs. Frederick D. Gardner of 4508 West Pine Boulevard, and their daughter, Miss Janet, who are spending the summer in European travel, now are in England. Miss Gardner will be a debutante this season and will be formally presented to society at a dinner dance at the Bogy Club the evening of December 27.

Mrs. Ella Meikle Dake, 62 years of age, mother of Mrs. Floyd R. Bates of Kirkwood, died in the American Hospital at Paris. Mrs. Dake left St. Louis July 2 with Mrs. Marr Wagner of the Forest Park Hotel for a European trip.

A collection of thirteen Chinese album paintings, executed from 600 to almost 1000 years ago, before the Manchus from the North conquered China, is being shown at the Art Museum this month as part of the permanent collection. The paintings have been acquired painstakingly during the last six years, and represent the art of the Sung and Yuan dynasties, the period roughly from 960 to 1279 A.D.

OMAHA

OMAHA, Aug. 30. (Exclusive)—The manufacture of corn flakes in the only plant for the purpose west of Michigan will be begun in Omaha before January 1, following signing of construction contracts calling for an expenditure of $60,000 with Parsons Construction Company by the Miller Cereal Mills.

The new plant will convert the Nebraska corn into the finished product without a long two-way railroad haul that hitherto has been necessary. The Omaha plants for some time has handled the first step in flake making, that of converting the corn into grits, and then selling these to the eastern makers of flakes.

STAR HEAT METER INSTALLED

Instrument So Delicate That Smithsonian Scientist Walks Up Mt. Wilson Carrying It to Avoid Jars of Automobile Trip

PASADENA, Aug. 30.—A new instrument for the measurement of the heat of stars, so delicate that Dr. Charles G. Abbott, acting secretary of the Smithsonian Institution, carefully walked with it from the foot of Mt. Wilson to the top to keep it from being jarred by the automobile trip, has been installed at the Carnegie Solar Observatory. The instrument is a radiometer and with it Dr. Abbott will continue experiments he began in 1920. He also will make observations.

A elaborate compilation of data on variations of the sun's heat over a long period of years is being made by the Smithsonian Institution of Washington in the belief that sufficient information on this line will prove of great value in making weather predictions and in making adjustments to favorable radio receptivity. Dr. Abbott said.

During the period of these observations, relations between the weather conditions and radio and heat of the sun have been noted, and as more information is gathered, it is expected further relations, hitherto unnoticed, will be made.

So far, the intensity of the sun's energy appears to move in eleven year cycles of sun-spot activity. Minor cycles which appear to occur about every twenty-five months and twenty days also have been observed. If these continue year after year the earth phenomena related to them can be positively predicted.

"We are not certain, of course, that these cycles will continue, but nobody will ever know until somebody collects the data," Dr. Abbott said. "That is what the Smithsonian Institution is doing."

Largely through Dr. Abbott's efforts, new solar observatories carrying on this work have been established near the Los Angeles county park at Big Pines, in the nitrate desert of Chile and in the desert region of Southwest Africa.

Dr. Abbott has another interesting device on the mountain, a solar cooker, which collects the rays of the sun to such a degree that it can be used to bake bread. Scientists are hopeful that some day the principle of this device may be elaborated so that power can be generated from the heat of the deserts and turned to commercial purposes.

They're Ready for New City Tasks

FEMININITY ENTERS COUNCIL

Flock of New Secretaries Go on Jobs Tomorrow to Help Keep District Tape Untangled

Fifty the two lone men secretaries to the City Council! They will be marooned in a sea of fair femininity when the Council's staff of fifteen private secretaries, one for each Councilman, officially take up their duties tomorrow.

Councilman Foster selected S. L. Fuller as his secretary and Councilman Sanborn chose Jess G. Crain. The rest of the Councilmen will have women for private secretaries. And so while the rest of the secretaries are getting acquainted and talking over the latest shadow permanent waves and the thin velvet for fall gowns, the two men secretaries will be in a lonesome forlorn minority and can only retire to a corner and talk over baseball scores and whether or not Dempsey can come back.

TRY TO GET POINTERS

During the past week many of the secretaries have been attending Council sessions to learn their jobs and to discover the difference between resolutions and ordinances, and what plausible excuse the angry taxpayer can be given when he calls on his Councilman to find out why his street has not been paved.

The plan of each Councilman having a secretary was determined upon by the new Council after a few days in office. The Councilmen found that they could not spend the day attending Council sessions and committee meetings and keep their offices locked with the constituents awaiting outside in the cold. So the Council voted itself a flock of secretaries to keep the home fires burning and the political fences repaired while the Councilmen attend to their duties elsewhere in the City Hall.

PERSONNEL OF SECRETARIES

The ordinance authorizing the employment of the secretaries takes effect tomorrow and from that date on the names of the secretaries will be attached to the City Council pay roll. The names of the secretaries and the Councilmen for whom they will write letters and answer telephone calls are as follows:

Florence Kelly, Councilman Hughes; Marjorie M. Bowers, Councilman Martin; Virginia Roche, Councilman Webster; Grace Townsend, Councilman Randall; Bernice Hendry, Councilman Ingram; Florence Donley, Councilman Colden; Helen Ferguson, Councilman Alber; Alice C. Lansing, Councilman Shaw; F. Shirley Wilson, Councilman Davis; Blanche Snyder, Councilman Rice-Wray; Jessie Newhan, President Bonelli; Councilman Jacobson and Councilman Hall have not appointed their secretaries to date. The men secretaries are S. L. Fuller for Councilman Foster and Jess G. Crain for Councilman Sanborn.

CITY PUBLICITY HELD LEGAL

Stephens Rules Council Has Authority to Allow All-Year Club $100,000 Fund

City Attorney Stephens, in an opinion filed with the City Council yesterday, ruled that there is authority under the law for the Council to appropriate $100,000 to advertise Los Angeles in the East, as recommended by the All-Year Club.

Officers and directors of the All-Year Club appeared before the Council's Finance Committee last week and urged the appropriation to the club's advertising fund. They pointed out that the county government made appropriations last year and said that the Supervisors believe that the appropriations are returned to Los Angeles many times in the increased number of tourists, new residents and home owners, additional property valuation and more business and prosperity for the city.

NOW IN COMMITTEE

The committee asked the City Attorney for a ruling as to whether or not an appropriation of this kind would be legal, and to this the City Attorney replied yesterday that the use of public funds for advertising a municipality is authorized in a law adopted by the last Legislature. The City Attorney said that it will be necessary for the city to make a contract with the All-Year Club to do this advertising.

The Council's Finances Committee probably will consider next Tuesday afternoon the matter of making this appropriation.

LOBBYING FUND FOR BOULDER DAM ASKED

The Boulder Dam Association, through President John L. Bacon, yesterday asked the City Council for an appropriation of $15,000 to be used in lobbying in Washington for Boulder Dam legislation by Congress.

The word lobbying was not used in the letter, but it said that the money is to be used for "reasonable and proper work in behalf of such Boulder Dam legislation both before and during the coming session of Congress."

The letter declared that the construction of Boulder Dam is "essential to the growth and prosperity of Southern California" and that the Boulder Dam Association is raising a fund to further legislation in Congress providing for the construction of the dam.

The Los Angeles Water and Power

(Continued on Page 2, Colur... 4)

TRAFFIC BUREAU OPEN IN MONTH

Council Appropriates $1625 for Filing System

New Office to Make Easier Payment of Fines

Will Be Located at Spring and Temple Streets

The City Council yesterday started under way the establishment of the Traffic Violations Bureau, as recommended by the Traffic Commission, at which persons arrested for traffic violations may appear, pay the fine fixed for the offense with which they are charged, and that will end the matter. The bureau will eliminate the requirement that traffic offenders appear in court, except in serious cases or where the person arrested disputes the ruling of the police officer and demands a trial.

The Council yesterday appropriated $1625 for a filing system for the Traffic Violations Bureau. It will be located on the first floor of the International Building at Temple and Spring streets. The bureau is expected to be in operation October 1, next, and will be a part of the traffic-complaint department of the City Prosecutor's office.

LIKE OTHER BUREAUS

The plan of the Traffic Violation Bureau was worked out by the Traffic Commission after conferences with city prosecutors, judges of the courts and other officials, and will be similar to bureaus of this kind which have functioned successfully for several years in Detroit, Kansas City and Chicago.

The Traffic Commission in pointing out the advantages of the motoring public and to the courts and enforcing officers of the bureau, said:

OPERATION EXPLAINED

In order to improve present conditions, it was suggested that there be established a traffic violations bureau. This bureau would be an integral part of the traffic complaint department of the City Prosecutor's office. Violators of city traffic regulations would be served with a complaint slip on the reverse of which would be printed the penalty for each offense. Upon receipt of the arrest slip the offender would sign an agreement to appear within thirty-six hours before the traffic violations bureau. Failure to appear would result in a warrant being issued. It will be noted that no bail would be required at the time of the arrest. Upon appearance in person or through a representative, the offender would pay the stipulated amount, receive a receipt, and depart. Fourth offenses and demand for trial would be taken care of in the courtroom adjacent to the bureau, as they are at the present time.

The advantages of the bureau are: The public is saved time and money; nominal fines will discourage the attempts to fix tickets; while individuals will in general pay smaller fines, the total volume of income from this class of penalties will be increased; the judge will have an opportunity to give real consideration to serious offenses; an accurate record will be kept of all offenders, making it possible to bring pressure to bear upon the malicious driver.

Hundreds Will Attend Wilbur Luncheon Today

More than 300 persons are expected to attend a luncheon given by the Chamber of Commerce at the Biltmore at noon today in honor of Secretary of the Navy Wilbur. George Eastman, vice-president of the organization, will act as toastmaster in the absence of President McGarry.

Other guests who have been invited include Vice-Admiral John F. McClain, Lieut.-Gov. Pitts, Representatives Crail and Evans, former Representative Fredericks, Senator Shortridge, members of the City Council and the Board of Supervisors, and members of Secretary Wilbur's family.

Filipino Will Address Club

Pablo Manlapit, leader of the Filipino workers in Hawaii, is to be the principal speaker at a meeting of the Filipino Club of Southern California at 114 South Spring street September 11, next. He will describe the political struggle which finally led to the strike of 1924 and his imprisonment and recent release.

The club is in process of organization, a membership of 1000 being set as a goal before adoption of a constitution and selection of headquarters. There are said to be some 30,000 Filipinos in this State, of whom about 7000 live in Los Angeles county, and the leaders in this movement are attempting to unite them into an organization. It is planned to lease a two-story building for temporary headquarters.

Peeping Leads to Trial Order

Testimony offered by Adam Cox of 612 Crocker street yesterday resulted in Municipal Judge Westover holding Pedro Moreno, 24 years of age, to trial in the Superior Court on an attempted burglary charge.

Cox accused Moreno of peeping through the keyhole of his apartment on the night of the 25th inst. When Cox questioned him, Moreno attacked him with a knife, the witness said. Cox cornered the man and held him until police arrived. The defendant was held in lieu of $2000 bail.

WATER GOES TO FAMILIES NEAR PERIL

Blanchard Canyon Area Afforded Relief by City When Lone Well Dries Up

Forty-five families residing in the Blanchard Canyon district in the foothills near Tujunga, who faced a water famine because of the failure of a shallow well upon which they depended for their supply, were saved from the possibility of having to abandon their homes yesterday when Los Angeles officials came to their relief and obtained promises of temporary aid from an adjoining water district.

Since purchasing their homes in Blanchard Canyon, the families have obtained water from a well maintained by the real-estate company which sold them the property. Within the last few weeks the water has dwindled gradually.

Appeals to the State Railroad Commission, which directs the operation of such public utilities, proved futile because it was found the real-estate firm was financially unable to develop additional wells or obtain new water rights.

The community was annexed to the city of Los Angeles less than four months ago, so residents of the Canyon district finally appealed to city officials.

Yesterday M. S. Siegel, supervising inspector for the city health department; F. H. Van Hoesser, hydraulic engineer for the Railroad Commission, and George L. Metcalf, water engineer for the Los Angeles Board of Public Utilities, visited the district to outline a relief program.

After releases of the water rights were obtained from the firm which controled the Blanchard Canyon water district, the Haynes Canyon Water Company, operating on adjoining property, promised to install a special pipe line and pumps to provide an emergency water supply. The pumps will be necessary because the

RIVERSIDE BOY WINS AIR MEET

Score of Youngsters Fly Miniature Planes at Park Armory Tournament

Jot it down on the band of your hat that "Bill" Atwood of 1496 Lime street, Riverside, is the Lindbergh of miniature aviation, because, when "Bill" gathered up his vest pocket aircraft after the miniature aircraft tournament at the Exposition Park Armory yesterday afternoon, one could hardly see him for the blue ribbons and other trophies he had won.

The tournament program, which was an elimination affair for the national contest, of which Orville Wright is chairman, embraced five events, each of which was divided into three classes. Distance and duration of flight were considered, as were also the construction of the planes and general "airmanship" of the entrants.

More than a score of youngsters were entered and competition was decidedly keen until Atwood came along. He quickly garnered in the blue ribbons for duration and distance in the senior glider event, then settled down to make an afternoon of it. One after another of the ribbons found its way to the youth's chest, then came the weight-lifting event, in which the miniature planes were required to carry additional loads. One or two took off, barely c'eared the floor, and came to rest.

With a confident grin on his face, Atwood advanced with his "freighter," paused in the midst of an admiring circle and deposited five pocket knives of goodly size in the tiny cockpit of his craft. A moment later the signal was given and the plane flew several feet with a load that must have more than trebled its own weight.

Other winners were Nicholas Koelow, winner of first honors in the

(Continued on Page 2, Column 4)

BETTER BAIL PLAN DEVISED

County Counsel Inaugurates System to Keep Check on Bond Forfeiture Cases

Closing loopholes described as having existed in the Los Angeles court system of bail bond forfeitures, County Counsel Everett W. Mattoon yesterday announced that he has inaugurated a new plan which will enable his office to keep informed regarding all cases where a defendant fails to appear in court and thus frustrate efforts to avoid payment of the bond by the surety company involved.

Under the former method the County Counsel was never notified in such a case until the court ordered the bond forfeited and even then, the records show, notice was not always sent out.

According to the new schedule, the clerk of the Criminal Court record department will advise the County Counsel immediately when a defendant released on bond fails to appear in court at the prescribed time. A record of the case will be made and placed in a special file. Then a deputy will be assigned to follow it through to see whether the man is produced in court before the time limit expires and, if not, will start immediate legal action to forfeit the bond.

NOTICES IN TRIPLICATE

As a further precaution to prevent bond forfeitures being overlooked, the clerk of the Criminal Court records has been instructed hereafter to send out bond-forfeiture notices in triplicate form. One will be sent to the District Attorney's office, one to the County Auditor and one to the County Counsel.

Each of the department heads will keep a record of the cases involved and at the end of six months will make an audit to determine the exact status of the cases. If any discrepancies are found when the re-

UTILITIES BOARD RAPS CAR PLAN

One-Man Operation Held Impractical

Will Present Views to Rail Commission

Airline Route Franchise Extension Granted

The Board of Public Utilities and Transportation yesterday went on record as opposing the further extension of the operation of one-man street cars. In a motion introduced by Commissioner Thomas H. Walsh and seconded by Commissioner George Marcell, the board declared the use of the one-man car is impractical from the standpoint of traffic.

The attitude of the board will be contained in a resolution to be formally drafted and presented to the State Railroad Commission, which has been considering the proposal of one-man cars for the Los Angeles Railway Company.

Fred F. Ball, engineer for the Board of Public Utilities, reported to the board yesterday that he has made a thorough survey of the use of one-man operated cars in San Diego. The one-man cars there have been practical to a large extent because of the absence of traffic conditions such as prevail in Los Angeles.

In a special hearing yesterday afternoon, the board recommended a ten-year extension of the franchise held by the Pacific Electric and Southern Pacific railways along Exposition Boulevard, known as the Airline Route. A number of residents in the neighborhood had protested the extension of the franchise on the ground that the freight cars along the route are a serious obstacle to traffic movement. The board ruled that the use of the tracks for freight is necessary to the life of a number of important industries located along the right of way.

LEGION OPPOSES ONE-MAN CAR PLAN

In a resolution requesting the County Interpost Council of the American Legion to launch a thorough investigation of the one-man car and double-fare zone project now under consideration by the State Railroad Commission for the Los Angeles Railway Company, Inglewood Post No. 188 of the Legion, it was announced yesterday, has joined the growing list of organizations actively opposing the plan.

That determined action to bring out the sentiment of all veteran posts in Los Angeles may result is freely predicted by American Legion officials, based upon the assertion that many Legionnaires have invested the $3000 loans granted them by the State in residential property in outlying districts. These would be seriously affected, it was pointed out, by a 10-cent fare zone through the business district.

Following the lead of the Los Angeles Traffic Commission and the Los Angeles Development League in opposing the project, meetings of various units of the Affiliated Improvement Associations are being held in all parts of the city, it was announced yesterday, and resolutions have been sent to the Railroad Commission from sessions of the Victory Park Assessment Association, the Taxpayers' Protective Improvement Association of the Thirteenth District, and citizens' mass meetings held in Angelus Mesa school and Westwood school condemning the Mott proposition.

Postal Clerk's Widow Aided by Group Insurance

Concrete evidence of the possible benefit to be derived from group life insurance, fast becoming popular among employees of large business firms throughout the country, recently was demonstrated when officials of the United National Association of Postoffice Clerks presented the family of Joseph G. Borrego, postoffice clerk, accidentally shot and killed on the 13th inst., with a $2000 insurance check.

Left practically penniless and without a provider with the death of Borrego, the widow and five small children were facing an uncertain future until the payment of the money. The postoffice clerks' association inaugurated group insurance about four months ago and at the time of his death Borrego had been called upon to make only two payments.

PAVING PETITONED FOR

The paving of Wendell Place from McArthur street to Shields Drive has been petitioned for by property owners in a communication received by the City Council.

NORMAL WEATHER RECORD MAINTAINED IN SOUTHLAND

A perfectly normal quarter-year weather period in Los Angeles will pass into United States Weather Bureau records tonight with the end of August.

To the warm-blooded citizen who swears that this year's June, July and August have been unusually warm, and to the equally positive cold-blooded citizen who swears that the period has been unusually cool, the government figures give warning against perjury. They show that the three-months' average temperature is normal, neither hotter nor cooler than usual.

For more than half a century local temperatures have been recorded and the government standard figures show the normal or average temperature for June, July and August combined, is 69 deg. That is exactly the average for June, July and August combined this year.

In the last ten years only twice has the average for the three months been below normal. These instances were in 1924 and 1923, when the falling off was but 1 deg. In the same ten years, only four times have the three months combined, been warmer than normal, in 1925, 1922, 1919 and 1918, when the averages were off but 1 deg., the other way. In the other four of the ten years, they were normal. These figures, taken from official records, show a remarkable uniformity of weather conditions as to temperatures taken in quarter-year midsummer periods.

Here is a table showing average temperatures taken from official government reports for the period:

Month	Normal Temperature Average	1927 Temperature Average
June	68	68
July	70	72
August	71	70
Combined average	69	69

Here is a table showing the average per month for the last ten years:

Year	June	July	Aug.
1927	68	72	70
1926	69	70	71
1925	68	70	72
1924	67	72	72
1923	69	69	69
1922	68	70	72
1921	68	70	71
1920	69	71	71
1919	68	70	72
1918	70	70	72

The Lancer

by Harry Carr

PHOTOGRAPHS of the Prince of Wales and our own Vice-President at the International Peace Bridge show His Highness in a straw lid and Mr. Dawes in a "topper."

By the same token the news comes that the London tailors are in despair because the British youth not only rebels at stovepipe hats, but at any hats at all. And that the dress suit is rapidly becoming a memory.

Hotels which formerly would admit no one except in evening dress now greet them in golf pants.

FREAK FASHIONS

Which is important and symptomatic.

A generation of young people have grown up since the war who do not do things because other people always have done them.

It will be a good thing if they get rid of dress suits. A more foolish-looking garment never was devised.

The only attractive evening clothes I have ever seen are the dinner jackets worn by the officers of our Marine Corps.

HOW AUTHORS WRITE

I am interested in the methods of authors.

You hear a lot about them dictating their immortal works to stenographers.

But most of the good ones stick to the good old right fist with a pencil or a pen.

Booth Tarkington has a big pen filled with sharpened pencils; and uses one after another. Rupert Hughes writes with a pen; and almost always at night. His working day begin after he comes home from a social shindig at midnight.

Peter B. Kyne slams his fiction out on an ancient typewriter—which his faithful secretary deciphers and copies out so somebody else can read it.

His editors complain that Samuel G. Blythe must use the first typewriter ever manufactured. They say they take his manuscript and divide the jumble of wrong-hit marks into what seem to be words of appropriate length.

ARCHEOLOGY

One of these days an archeologist is going to come out of the jungles of Central America with the great answer to the mystery of the ages.

No one could fail to believe that in those Mayan temples is the answer to the mystery of the origin of man—at least on this hemisphere.

HOW DID THEY KNOW?

For instance, how did those people know anything about elephants? Yet there are unmistakable pictures of elephants in their temple carvings. And this countless centuries before men were known to have crossed the seas.

WILD FRIENDS

Any man to whom wild canaries will come trustfully as they do to the custodian of Yosemite, who has one for a breakfast guest every morning, must be a fine character.

I know a man who has tamed a wild quail to the point where it perches on his typewriter as he writes.

There used to be a street-car conductor on the old Second-street line. Old residents will remember him as "Brownie." He was so gentle that when he went into the mountains as a last effort to recover his failing health the wild squirrels and birds would come

Murder Complaint Out Today in Slaying Over Toy

WIDOW TELLS TRAGIC STORY

Cold-Blooded Killing Laid to Christian on Stand

Woman Describes Shooting While on Car Ride

Leaves Today for East With Husband's Body

A complaint charging Thomas J. Christian with the murder of Walter F. Galloway, 37 years of age, of 3715 Barry avenue, Mar Vista, will be requested of the District Attorney's office today, Captain of Detectives Bean, head of the police homicide squad, announced last night.

Silent in the face of the accusations of Mrs. Madge Galloway, widow of the dead man, and the only eyewitness of the fatal shooting, Christian was led back to the City Jail yesterday afternoon from the inquest into Galloway's death held at the Culver City Funeral Parlors.

CORONER'S VERDICT

While a Coroner's jury found that Christian had killed Galloway there was no mention of intent in the verdict. The verdict read simply:

"Walter F. Galloway met death on the 29th inst. from a gunshot wound inflicted by one, Tom Christian."

Mr. and Mrs. H. K. Cassidy, neighbors of the Galloways in Mar Vista, and asserted friends of the Christians, followed Mrs. Galloway in testifying to the neighborhood strife which reached its climax in the fatal shooting of Galloway on the night of the 26th inst. They told of a fistic encounter between Galloway and Cassidy in front of the Christian home the night before the shooting. Mrs. Cassidy admitted lending a revolver to Christian, the gun with which Christian is said to have shot Galloway.

Christian is the only person now under arrest.

Mrs. Galloway stated she will leave today for Omaha, Neb., with the body of her husband.

WIDOW ACCUSES

In testifying before the Coroner's jury, Mrs. Galloway pointedly accused Christian of shooting her husband in cold blood. She told of how the quarrel between the two families had first arisen over a coop full of pigeons. After having at first been friends, Mrs. Galloway stated that Mrs. Christian warned her to stay on her own side of the dividing fence between the two homes. This strife became acute, she testified, after she found Mrs. Christian's daughter in possession of a little red wagon which had been given to her two children. She took the toy away from the Christian child, she said, and Mrs. Christian retaliated by taking a tricycle away from one of her children. Then they had a verbal argument, which ended, she said, in Mrs. Christian striking her in the face several times with a folded newspaper. This occurred the day before the shooting, she testified.

"The night after this," she testified, "Walt came home and put on his slippers and started to read. I told him after a while to go over with me to the golf links, where the children had been playing all day. We got in our car. When we got to the corner we saw Christian coming up the road.

MEETING DESCRIBED

"Walt said, 'There comes the man. Let's see what he's got to say.'

"Walt then said, 'Let's get this thing settled. I want to know now who is the boss, you or your wife, so we can settle this thing.'

"Christian then put his foot on the running board of the car and shouted, 'I'll show you who's boss.'

"Walt sank back of the steering wheel," Mrs. Galloway continued. "He was frightened when he saw the pistol in Christian's hand. He muttered, 'Don't shoot.'

"Christian stepped a little closer. He yelled, 'I'll show you who is boss. I'll show you whether I'll shoot or not. When I shoot, I shoot to kill.'

"Then he pulled the trigger. Walt fell back. I pulled him over to my side of the car and got under the steering wheel. Walt said, 'Drive honey, drive.' Then he fainted. I got him to the Culver City Hospital. My husband had no idea in the world of harming that man. He was struck down in cold blood."

TELLS OF SHOOTING

Cassidy added that he had known nothing of the shooting until Christian went over to his house and said, "I had to shoot that man."

Shortly after the shooting Christian surrendered himself at the Venice police station, according to the police. He admitted, they said, having shot Galloway, because "he was afraid Galloway would whip him as revenge for having been beaten by Cassidy the day before."

Throughout the inquest Mrs. Galloway display the evident strain to maintain her composure in telling of the details of her husband's death. Though on the verge, at times, of sobs, she concluded her testimony without breaking down.

Galloway died at the Culver City Hospital Monday morning, three days after he was shot.

FIGUEROA PAVING ORDERED

The paving of Figueroa street from College street to White Knoll Drive has been ordered by the City Council.

Slain Man and Bereaved Family

NEW BAKER SHOE STORE WILL OPEN

Thirteenth Establishment in Group to be Dedicated at Pasadena Tomorrow

Thirteenth in the C. H. Baker group, a new shoe store will be opened at 374 East Colorado street, Pasadena, tomorrow, in an elaborate building just completed there. Four stores of the chain are located in Los Angeles, an equal number in San Francisco, three in Portland, one in Hollywood and now one in Pasadena.

The new establishment will not be a branch, Charles H. Baker, head of the chain, announced yesterday, but will be a complete store in every way. It will be open until 9 o'clock tomorrow night in order to give all Pasadenans an opportunity to inspect the building. The opening will be celebrated by presenting each purchaser of a pair of shoes with free hosiery.

Mr. Baker, who, thirty years ago was employed in a local shoe store at a salary of $12 per week, will attend the opening of his new store, this being only the second at which he has been present as at the time of all the other openings he has been in the East on buying trips. He expects to go to the Pasadena store daily thereafter.

CYCLIST KILLED IN TRUCK CRASH

Rider Dies Short Time After Head-on Wreck

Two Women Also Injured in Traffic Mishaps

Train Demolishes Auto as Man Leaps Out

One man was hurt fatally, and another man and two women were injured seriously in traffic accidents yesterday.

Max Berkowitz, 21 years of age, of 6128 Wilshire Boulevard, drove his motorcycle head on into a truck at Irolo street and Wilshire Boulevard. An hour later he died at Receiving Hospital.

The truck, according to police, was driven by James Reniek of 6601 Lankershim Boulevard. He was not held.

Mrs. Nora F. Newman, 53, of 950 East Fortieth street, suffered a fractured right hip and numerous severe bruises when she was struck by a Los Angeles Street Railway car at Vernor and Santa Fe avenues, according to police. She was given emergency treatment at Receiving Hospital and then transferred to the General Hospital.

Mrs. Marie Hirvonen, 43, of 1829 South Seventh street, Alhambra, suffered a possible skull fracture when a driverless automobile coasting down a grade, according to police, crashed into the automobile in which she was riding with her son, Wayne. The accident occurred at Alhambra Road and Boca street. The runaway car, according to police, is registered to M. B. Donaldson of Wilmar, Cal., and had been parked on Boca street. Mrs. Hirvonen was taken to the General Hospital.

Portico Franco, 44, of 813 1-2 Cleveland avenue, suffered possible internal injuries and several fractured ribs when he was struck by a Los Angeles Street Railway car at Main and Ninth street, police reported. He was transferred from the Receiving Hospital to the California Hospital.

W. F. Brown of North Hollywood narrowly escaped death at 7:36 a.m. yesterday when the automobile he was driving was struck by a passenger train at Burbank Boulevard and Southern Pacific tracks in Burbank. The train was piloted by Engineer J. E. Stratton, who was driving engine No. 2246, the same one he was piloting when two men were killed last Saturday at Verdugo street crossing. Brown, whose car was without brakes, jumped just as the engine struck and saved his life. His small car was wrecked.

WHITTIER WOMAN VICTIM OF MACHINE

WHITTIER, Aug. 30. (Exclusive)—Mrs. M. L. Myer, 62 years of age, was killed today, when she was struck by an automobile near the corner of Washington and Philadelphia streets. Five years ago her son, Frank Myer, was killed in an automobile accident at Santa Fe Springs.

Mrs. Myer was in the street outside the pedestrian zone, it is said, and police attach no blame to C. B. Rosenberry of Whittier, driver of the car. Mrs. Myer's skull was fractured and she died on the way to the Murphy Memorial Hospital. Her body was sent to the White-Emerson undertaking rooms.

She leaves one daughter, Miss Mary Myer, a teacher in the local high school, who is in Arizona.

CITY PUBLICITY AID HELD LEGAL

(Continued from First Page)

er Commission heretofore has sent representatives to Washington to lobby for Boulder Dam legislation and paid their expenses, it was said, from revenues of the department. Whether or not the department will continue to do this in view of the decision of the Supreme Court in the case of W. W. Mines, as a taxpayer, compelling the commissioners to repay $15,000 from their own pockets to the city treasury for money illegally spent for power bond campaigning, is not known. The $15,000 was raised by a loan from a bank on a $15,000 note signed by Water and Power Commissioner John R. Haynes and other officials of the department and paid in to the city treasury. The hat is now being passed among Water and Power Department employees to pay off the note.

The Municipal League has a request before the Council that the city donate $15,000 from general funds to repay the contributors to the fund raised to pay off the debt to the city treasury occasioned by the illegal political expenditures of the Water and Power Commission.

RIVERSIDE BOY WINS AIR MEET

(Continued from First Page)

junior distance and duration event; Bob Holdeman, first junior in glider duration event; Edwin Ehrlich, second in senior duration and distance; Oliver Northrup, second in junior glider distance event, and James Munyon, third in junior distance glide.

Maj. C. C. Moseley, vice-president of the Western Air Express, was an interested observer at the tournament and invited several of the contestants out to visit the headquarters for the air mail planes plying between Los Angeles and Salt Lake City.

Almost every type of flying craft known was represented at the meet, power being supplied by ingeniously twisted rubber bands attached to the propellers. One of Atwood's planes is equipped with a clockwork motor. Yesterday's events were staged indoors, but this afternoon will find the juvenile flyers in the open at Exposition Park. The public is invited to witness the tournament.

WATER-FAMINE PERIL AVERTED

Continued from First Page)

water must be raised 800 feet above the highest reservoir in the Haynes Canyon area to reach the neighboring district, it is pointed out.

As soon as the emergency supply has been assured, steps will be taken to develop a permanent water source, according to Siegel, because the Haynes Canyon Water Company will be unable to supply both communities permanently.

WAS SHADOWED TO CATCH SWEETHEART

Hazel Norton

GIRL LEADS DETECTIVES TO FUGITIVE

Ray Woods Arrested for Murder After Fifty-Day Hunt Over Whole Nation

By patiently shadowing his pretty 22-year-old sweetheart, Miss Hazel Norton of 1120 South Grand avenue, Detective Lieutenants Lind and Sperry terminated a nation-wide search of fifty days for Ray Woods, wanted here for murder. This was revealed yesterday when Woods was arraigned before Municipal Judge Baird.

RAY WOODS

Woods, sought with Ora Bryan Butcher in connection with the murder of John Citron, alias John Lawrence, on July 7, last, at 3950½ South Grand avenue, was traced to San Bernardino by the detectives through a telegram to Miss Norton, requesting money.

Up to the time of his arrest, Woods had variously been reported in numerous cities of the Middle West and East, but always he had succeeded in covering up his tracks. Finally, the detectives began to shadow the sweetheart. On the 27th inst., the officers located their man in San Bernardino.

Lawrence was stabbed to death in his apartment during an asserted wild gin party, attended by Woods, Butcher, who still is at large; M. J. Cody, Mrs. Jewel Talmadge, 45 years of age, and her daughter, Lolita Miller, 23, according to the detectives.

Judge Baird set the preliminary hearing for September 12, but Dep. Dist.-Atty. Clarke intimated that the case will be brought to the attention of the grand jury before that date.

THE LANCER

(Continued from First Page)

right up to him and eat out of his hand.

THE QUAIL

Our little wild woods at Tujunga are alive with quail. They eat the grapes; but there are plenty of grapes.

Two guests came out. One was Miss Frances Marion. She loves wild things. She proved to have a most charming accomplishment; she can call to the quail in their own language—bring them right out of the chaparral.

The other was a man. He heard the quail and made the brilliant suggestion that he bring out his shotgun and kill them. He thereby subtracted himself from the guest list and from the list of my acquaintances. I never have been able to think of him since without contempt.

EARLY FALL

An early autumn must be coming. This morning a flock of big Mexican wood pigeons flew over the ranch on their way south. Usually they stop over for a few days—perching among the oaks. This morning they went straight over with a wild whistling of wings.

FALSE LIONS

Hollywood has lost another social lion, another Russian prince turning out to be a crook, born in Cincinnati.

This is a pity, because the fake royalties are so much more satisfactory as lions than the genuine article. The real ones usually are simple, unassuming gentlemen, who, like one of Doug Fairbanks's distinguished guests, like to get out and mow the front lawn.

The fakes strut in a manner absolutely satisfactory to each and all.

ANOTHER MARY KUHN

A woman giving her name as Mary Kuhn, arrested in a recent raid at the Rosetta Inn, is not the Mary Kuhn who lives at 4918 West Twentieth street, The Times was informed yesterday.

LOOKING AHEAD

An American girl has killed a bear with a rolling pin. Her fiance has received letters of sympathy from bachelors all over the world.—[London Opinion.

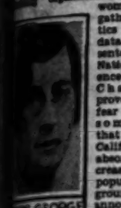
CHURCH AIDS IN AMERICANIZING

Confraternity Helps City to Absorb Mexicans

Contact Made With 25,000 Aliens Each Year

Parishes Conference to Be Told of Work Here



Members of the Confraternity of Christian Doctrine, a character-building organization of Catholic women, have gathered statistics and other data to be presented to the National Conference of Catholic Charities, to prove that the fear expressed in some quarters that Southern California cannot absorb its increasing Mexican population, is groundless. This announcement was made yesterday by Mrs. [illegible] Nicholson, chairman of the confraternity.

"The workers of our organization," Mrs. Nicholson, "are unanimous that the Americanization of Mexican children is possible, and easily made, through educational work among the mothers and children."

WIDE CONTACTS

The Confraternity of Christian Doctrine in its social welfare work for Mexicans contacts about 25,000 Mexicans every year. Although the parents speak a foreign tongue, the children spell and again show their aptness for English. The topics of conversation among the boys are the same as the average American boy, that is, baseball, swimming, boats, automobiles, etc.

The women in our immigrant districts eagerly welcome the opportunity offered them to meet their neighbors in the societies established for them at the centers of the Confraternity of Christian Doctrine in many districts of the city. There are six of these societies already organized.

AIDS ADJUSTMENT

The women have been able to plan for the good of their children and the community in which they live and through contact with their club they are given an influence that helps them to become better adjusted to their new land.

Their visiting in the homes of the immigrants also is an important part of the Confraternity of Christian Doctrine.

Many of the members of the Confraternity of Christian Doctrine, numbering more than 1000 in the diocese, attended the great opening meeting of the national conference of Catholic Charities at Loyola College last Sunday night.

PETITIONS FOR RECALL LOCKED UP

Safeguards Adopted in Mayor Outing Campaign Following Threats

The several petitions asking for an election to vote on the recall of Mayor Cryer are being placed in a safe deposit box as rapidly as they are filed, according to Mrs. Estelle Peterson, former City Planning Commissioner, who is in charge of the recall movement with headquarters at 321 South Hill street. She declared that she is doing this to protect petitions as some of the circulators have been threatened, and a number of petitions taken out of circulation have not been returned.

"In spite many obstacles thrown in our path," said Mrs. Holman, "the recall is going ahead and will be a success. We hope to file the petition with 50,000 signatures at the City Hall on September 13. All the circulators report that the petitions are being signed.

"I wish to make it clear that I am not in accord with Mayor Cryer, for I believe the people are as opposed to political machine as I am. I have no desire to put the city to a special election expense of $100,000, for if the recall election is not held we must drift along for another year, when the same political ring will elect its Mayor two years hence for a four-year term. A recall election will prevent six years of control of the city government by the same political machine that is now at the Mayor's office."

Mrs. Holman said that she has no doubt of the number of signatures required due to the fact that many have signed up the petitions as rapidly as they are received. Petition circulators and others connected with the movement, however, estimated the number of signatures already received as being in excess of 15,000. This number is far in excess of the requirement makes it necessary that the recall petition bear the signatures of 32,000 registered voters in order to be declared sufficient to call a special recall election. The petition is filed next month it is thought found to be sufficient the special election will be held before the first part of October.

Councilman to Wed on Friday

Councilman Foster of the Twelfth District yesterday received congratulations from his colleagues on his forthcoming marriage tomorrow to Miss Margaret O. Prester. Councilman Foster said that he hoped to be married without any advance publicity, but the new three-day-notice law has been in effect and broadcast the world.

It is said that the wedding will take place on Friday afternoon at the home of the bride's sister, Mrs. Ruth Hummel, in Hollywood. After a honeymoon motor trip, Dr. and Mrs. Foster will return to Los Angeles and make their home at 421 Rimpau street. Dr. Foster will resume his duties in the Council on Monday.

NAMED TO SPEAK

The New Synagogue in Los Angeles is the subject of an address to be given by Rabbi Herman Lissner this evening of the 22nd degree of B'nai B'rith. The fall activities of the Temple activities will be opened on the evening of the 9th inst., and the address will be given by the rabbi at that time.

LION WILL FLY ACROSS CONTINENT

Film Trademark Beast to Occupy Cage Aboard Airplane

"Leo" of the Picture Lot

A 350-pound lion is to be the sole passenger on a transcontinental nonstop airplane flight. The lion passenger is "Leo," the Metro-Goldwyn-Mayer trademark lion, and the announcement concerning the beast's airplane trip was made yesterday by Louis B. Mayer.

Mayer announced he already has closed a contract with the B. F. Mahoney Aircraft Corporation of San Diego to transport the lion from Los Angeles to New York in a ship which is to be the duplicate of Lindbergh's Spirit of St. Louis. Incidentally, the flight will mark the first nonstop air trip from California to New York. It has been tentatively scheduled for the middle of September.

The backers of the trip believe it will pioneer the way for the carrying of live stock by airplane. Those behind the idea are Mayer, B. F. Mahoney and Al G. Barnes, circus man and owner of the film lion.

The success of the flight is assured by Mahoney, constructor of Ryan planes at San Diego, according to word from that city. A specially constructed cage is to be built on the plane and the lion and the pilot will be the only ones in the ship when it starts.

NEW BAIL PLAN INAUGURATED

(Continued from First Page)

ports are compared, the error will be traced.

In the opinion of Deputy County Counsel Prichard in charge of all bail bond forfeiture collections, the new system will eliminate the oversight of forfeiture even though court clerks fail to send out the proper notices.

NO LENIENCY TO BE GIVEN

"In the past," County Counsel Mattoon said, "we have not taken action on forfeiting several bonds because we have received no notice to do so. This was not any fault of my department but nevertheless I am going to see that this obstacle is overcome. Heretofore when a man fails to appear in court at a stated time we will make a record of his case immediately and follow it through to the end."

As far as leniency is concerned, bail bond companies may expect none from the County Counsel's department, according to Mattoon.

"I am thoroughly aware of the laudable efforts made by many bail bond companies to return their clients to court for trial," he said. "Frequently they expend large sums of money which nearly equal the amount of the bond to apprehend the man who jumped his bond. But when the man is returned after the time limit for his surrender has expired, we have no recourse but to follow the provisions laid down by law and the bond must be forfeited."

ACTION TO BE TAKEN

Immediate action will be taken by the county counsel's department to bring suit to collect questionable bail bonds revealed by the present bail-bond and fixing investigation instituted by the county grand jury under the direction of Dep. Dist.-Atty. Murray, according to Deputy Prichard.

Complaints already are being prepared for civil suits to collect the asserted unforfeited bail in the cases of Elmore Holerman ($1500,) and William Fitzgerald ($1000,) Prichard said. Notices that these bonds should be forfeited have been sent to the county counsel since the grand jury began its investigation, it was revealed.

Prichard also said he has obtained a list of all the questionable cases of bail bond proceedings placed before the grand jury and intimated he will go over the list checking it with his records, filing suits to collect the bond when it appears that it has not been forfeited. In other cases where the forfeiture has been continued for extended periods, he said, suits may be filed to collect the bond which was not forfeited although the defendant had not been produced in court within the time limit prescribed by law.

PASADENA BAIL BOND OFFICE INVESTIGATED

PASADENA, Aug. 30. (Exclusive)—Tactics of Hy Pouker, who opened the only bail bond office in the city a few months ago, were being investigated today by City Directors Shupe, Monroe, Jenkins and Taylor, following receipt of a letter by the Board of City Directors from W. A. Scribner of Pasadena.

Scribner's letter says that when he was arrested recently on a misdemeanor charge, the desk sergeant at the police station refused to accept checks for bail from two of his friends, and that Pouker charged him $200 commission on a $1000 bail bond.

"I am writing this letter," he wrote, "in the hope that you as a board representing our city will not rest until the bail bond sharks and their constituents are ousted out of this city as undesirable characters."

PAVING ORDINANCE ADOPTED

The City Council has adopted the final ordinance for the paving of First street from Manhattan Place to Van Ness avenue.

FINAL RITES FOR GUASTI TO BE TODAY

Village He Founded Will Be Still as Vineyardist Goes to Last Rest

The little Italian village of Guasti, three miles east of Ontario, will be strangely quiet today. The small army of grape pickers has been called in from the vines and the tiny cottages will be closed. The followers of Secondo Guasti, founder of Guasti colony and owner of Guasti vineyards, the largest in the world, will come to Los Angeles to attend the funeral services for the man who was their friend and gave them whatever money could buy.

Secondo Guasti gave employment to many Italians. His workers brought their families. A cluster of homes sprang up in the sands east of Ontario. Other families came. Babies were born. Schooling was needed and Mr. Guasti had a schoolhouse built.

Religion was not overlooked, and two years ago he gave to the colony a Catholic church. The church is provided with equipment that came from Italy, most of it from Rome. The little church cost more than $50,000, but his people needed it and wanted it, and Secondo Guasti gave it to them.

The town of Guasti now has more than 400 persons in it, all engaged in the grape industry for the Italian Vineyard Company, of which Secondo Guasti was president.

Miles of narrow-gauge railroad track extend to all corners of the 5000-acre tract, over which a miniature train travels, carrying the grape crop to the railroad cars.

Secondo Guasti gained his fortune by hard work. He stood shoulder to shoulder with his workmen, cutting back the vines and gathering the crop.

Secondo Guasti, Jr., now is in charge of the great vineyard.

Services will be conducted at 9 o'clock this morning at the family residence, 3500 West Adams street, and an hour later at St. Vincent's Church, Adams and Figueroa streets, where mass will be said by Bishop John T. Cantwell. Interment will be in Calvary Cemetery.

Dance to Mark Club Inaugural

In honor of Monte Blue, president-elect of the 233 Club, and the other officers of the organization for the ensuing term, a grand inaugural ball will be given under the auspices of the organization at the Ambassador the evening of September 13, next.

The affair will be strictly invitational and limited in number to the members, who will each be allotted two tickets for two couples each.

POLICE AID IN SEARCH FOR MISSING PATIENT

Los Angeles police are aiding in a search for Paul G. Doyle, patient at the Marshal Manor Sanitarium, 1801 East Boulevard, Palms, who disappeared from the institution on the 17th inst., and has not been heard of since. According to relatives, Doyle is suffering from a nervous breakdown and is erratic. He is 47 years of age and at the time of his disappearance was wearing a light-brown suit, sailor straw hat, brown shoes and had in his possession a red sweater and a bathrobe. He is five feet eight inches in height and weighs 135 pounds.

GOLD STAR INSTALLATION

The Gold Star Mothers of America, Staff No. 2, will have a public installation of officers and a program Saturday at 2 p.m. at Disabled Veterans Hall, 246 South Hill street.

HUNTINGTON PARK'S FEUD TO BE AIRED

Former Mayor and Two Policemen Arrested in Recall Petition Row

Huntington Park's political feud found its way into the courts yesterday when Dep. Dist.-Atty. Fisher issued a complaint against Mayor M. A. Blanchard, C. A. Imus and James M. Taft, police officers.

Shortly after the complaint, which charges "resisting, obstructing and delaying an officer" in the performance of his duty, was issued, Deputy Sheriff King placed Blanchard and Taft under arrest and took them before Municipal Judge McConnell for arraignment. A search was started for Imus, who later was arrested and arraigned. Hearing was set for September 6.

It is charged that W. P. Mahood, deputy city clerk of Huntington Park, was engaged in rechecking recall petitions relating to the City Trustees when Imus and Taft, as police officers, entered the City Clerk's office and interfered with Mahood. It also was charged by Mahood that in a scuffle he received a broken ankle bone.

Girl Talks With Her Sweetheart in Philippines

A long-distance radio conversation took place yesterday when an enthusiastic young woman at 2823 East Sixth street sent and received messages from her sweetheart in the Philippines.

The station is operated by Ernest Oliver Knoch, who hears from the islands every day and who yesterday arranged for the code conversation between Miss Mildred Knorr of 3082 West Eleventh street, and Sergt. Howard Williams, who is stationed at Camp Nichols, P. I.

"My friends began talking when it was 6 a.m. in Los Angeles and 10 p.m. at Camp Nichols, and they talked for an hour and a half," said Mr. Knoch. "He told her he would be home in a few weeks and would fly down from San Francisco. Evidently she wants him to fly to her, but, in the light of recent events, she begged him not to fly, literally, in a plane. Of course the trip from San Francisco is not dangerous and he probably will not heed her advice."

BOY RELATES STORY OF BEING KIDNAPED

Telling a story of having been induced by a stranger to enter his car and of being drugged, Edwin Rabeneau, 14 years of age, was taken to the Sheriff's office yesterday by his father, E. P. Rabeneau, 350 California street. The boy said he had $1 given him by his father to buy groceries at Seville street and Florence avenue, and was on his way when the stranger asked him to help load some groceries. Then he said he was asked to get in the car and complied. The boy said the next thing he remembers is awaking in front of Angelus Temple several hours later and finding his grocery money gone. The boy gave a description of the man he says kidnaped him.

ACTION TAKEN ON PAVING

The final ordinance for the paving of Seventy-fourth street from Hoover street to Vermont avenue has been adopted by the City Council.

SOTO TRUCKING PROTESTED

Property owners yesterday asked the City Council to prohibit heavy trucking on Soto street.

COUNCIL BURIES JACOBSON JINX

Mrs. Grimes's Street Will Not be Paved

Contemplated Improvement Plan Dropped

Woman's Protest Conference Blamed for Arrest

Councilman Jacobson and Mrs. Callie Grimes need worry no more about Beagle street assessments, for the City Council yesterday instructed the City Attorney to present an ordinance abandoning the proceedings for the paving of Beagle street, and also Turquoise street and other streets in the district.

It was to discuss the Beagle-street assessments, Councilman Jacobson said, that he visited the home of Mrs. Grimes only to have his visit interrupted by raiding police officers who arrested the Councilman and the woman. Councilman Jacobson is scheduled to go to trial next Tuesday.

Mrs. Grimes, it is said, had originally visited the City Hall and protested to Councilman Jacobson against the proceedings, declaring that the assessments for the paving would be more than her property is worth. When the day for hearing formal protests arrived, a number of other property owners on Beagle street protested against the proceedings, with the result that the Council ordered them abandoned.

PARROT SCORED; SCHULER FLAYS KEYES

Demands that city officials who have been protecting criminals be ousted and boss rule done away with met strenuous applause last night when speakers urged the overthrow of the Parrot machine before some 500 people at a mass meeting held at Lincoln High School as a protest against what was termed the frame-up of Councilman Jacobson.

Outspoken charges were made against groups of police officers, the District Attorney and the city administration by Rev. Bob Schuler, pastor of Trinity Methodist Church, the principal speaker of the evening.

Mr. Schuler attacked Dist.-Atty. Keyes, declaring the time had come for him to be put out of office. Thomas F. Mercier, president of the Thirteenth Councilmanic District Improvement Association, which sponsored the meeting, was chairman.

Councilman Jacobson appeared on the platform toward the end of the meeting and spoke briefly.

"We have our case fully prepared and we're ready for trial," declared W. V. Anderson, chief defense counsel for Councilman Jacobson, yesterday. "I have nothing further to say until the case comes up."

Anderson admitted that he was tipped off that an attempt was being made to "frame" him in connection with the grand jury investigation of activities of Los Angeles bail-bond brokers. One of his enemies is reported to have made a trip to Folsom prison to interrogate an inmate in an attempt to get asserted evidence which could be used against Anderson in the investigation. The attempt will be made to discredit Anderson before he appears in the Jacobson case on September 6, it is charged.

A mass meeting which is scheduled for tomorrow night in Trinity Methodist Church is expected to bring together a large crowd of Jacobson supporters. Both Jacobson and his chief counsel are expected to speak at the meeting. The speeches will be broadcast.

LAST RITES TODAY FOR JUDGE REEVE

Superior and Appellate Court Jurists Will be Honorary Pallbearers

Funeral services for Superior Judge Sidney N. Reeve, veteran Los Angeles county jurist who died at his home in Glendale Monday night following a stroke of apoplexy, will be conducted from the Bresee Brothers funeral parlors, 855 South Figueroa street, at 3 p.m. today. Dr. Joseph P. Widney, uncle of Mrs. Reeve, will officiate, and interment is to be in Rosedale Cemetery.

Judge Frank R. Willis, Hubert T. Morrow, T. W. Robinson, M. J. McGarry, A. L. Bartlett, Joseph Ford, Judd Rush and Judge Louis Myers were appointed by the Los Angeles Bar Association to act as honorary pallbearers and W. W. Gibbs Jr., Leonard Slauson, Aubrey Austin, Lon Clarke, Ray McNally and Walter Butler will be active pallbearers.

All departments of the Superior Court will adjourn at noon, out of respect to the memory of Judge Reeve, and Presiding Judge Collier has designated Judges Hardy, Fleming and Stephens to draw a memorial for the minutes of the court. Department One, over which Judge Reeve presided, was adjourned at noon yesterday and Judge Pullen of Sacramento delivered a brief address on the life and accomplishments of the deceased.

The departed jurist, who had been in failing health for some time, was 50 years of age and had served on the Superior bench for more than thirteen years. He had handled many famous criminal cases during his term of service, among them the "Tuffy" Reid and Arthur Burch murder trials. After two full terms, Judge Reeve had served only one year of his third when he was called to a higher court.

BRIDGE EXPERT PLANS ANOTHER TALK SERIES

The scheduling of an additional series of bridge talks by Milton C. Work, during his visit here September 26 to 30, was announced yesterday by Barker Brothers. This was made necessary, it was said, because the advance seat sale for the afternoon series practically exhausted the capacity of the auditorium. The additional talks will be given in the morning. After his Los Angeles lecture, Work is scheduled to give one evening talk at the Coronado and one at the Montecito Country Club at Santa Barbara. He then will appear in San Francisco. Mrs. Work is accompanying her husband on his tour.

FLIES TO CHICAGO IN AIR-MAIL PLANE

[P. & A. photo]
Miss Ruby Mann

Trains were not fast enough for Miss Ruby Mann, Los Angeles school teacher, when she received word several days ago that her mother was ill in Jonesville, Mich. She obtained special permission to ride in a mail plane and it is believed that she is the first woman ever to fly from San Francisco to Chicago with United States mail.

Except for an electrical storm at Cheyenne, Wyo., which rather upset her for a brief period, Miss Mann rather prefers the serial form of travel, and if she could have an opportunity to accustom her nerves to the monotonous drone of the motors there would be nothing further to desire to make flying perfect.

The flight lasted twenty-one hours and cost Miss Mann approximately $200. She is a teacher at the John Muir Junior High School.

HIRSCH WILL FILED

Late Los Angeles Merchant Leaves $600,000 to Widow

A $600,000 estate was left by Eugene D. Hirsch, Los Angeles merchant, who died last July 18, it developed yesterday when his will was offered for probate by Attorneys Shaw and McDaniel in Judge Desmond's court.

The entire estate consists of personal property. Bequests of $1 each were made to four children and the residue of the estate was bequeathed to the widow, Florence Wile Hirsch, who lives at 494 South Irving Boulevard. Mrs. Hirsch was named executor without bond.

WILES SEEKS RELATIVES

Harry Wiles, O. H. E. Cottage P., Gallipolis, O., has asked the aid of The Times in locating three relatives in Los Angeles. Their names are Mrs. William A. Brown, Mrs. M. H. Brown and Joseph Laporte.

Because men neglect to make a Will, untold millions of dollars worth of property are distributed annually *not* as the deceased owners would have wished—but according to the state's inviolate code of succession.

A properly drawn Will—and this old, reliable trust institution named as your Executor and Trustee, will insure full justice to your chosen beneficiaries.

Ask for booklet.

LOS ANGELES (Loce Ahng hayl ais)

MEMBER OF THE ASSOCIATED PRESS
The Associated Press is exclusively entitled to the use for republication of all news credited to it or not otherwise credited in this paper and also all local news published here within.

The Times aims at all times to be accurate in every published statement of fact. Readers who discover any important inaccuracy or statement will confer a favor by calling attention of the Editorial Department to the error.

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.
—*Abraham Lincoln.*

INVARIABLY
As we gather it from the news, a love nest is a place where a lot of trouble is hatched out.

ACCOMPLISHMENTS
Many a good talker is known among his acquaintances as a pest, but no good listener ever was.

RUNNING BILLS
The fellow who thinks the world owes him a living usually does his best to owe the world for his living.

NOT THRIFTY
The young wife who won't darn her husband's socks probably doesn't give a darn for their future, either.

FROM A PINNACLE
It may take a man to do an effective job of high-batting, but the girls are right there at high-heeling each other.

AGAINST HUMAN NATURE
Nations may have to arm heavily in order to insure peace, but it doesn't work out that way among Kentucky feudists.

MANY CONVERTS
Among those who will wear their skirts longer are the girls just back from vacation who are so broke they'll have to wear theirs quite a little longer.

TWIN SAWS
It's very comforting to reflect that hope springs eternal in the human breast—but, after all, that's the main reason why there's a sucker born every minute.

MANY SYMPATHIZERS
Well, for that matter, in vacation time mighty few of us would choose to run for President. We care not who may make our country's laws if we may catch its fish.

LIABILITIES
An optimist is one who has an oversupply of anticipation about the things he thinks he is going to do. A pessimist is one who has a deficit in the participation of the things he thinks he could have done.

SOUNDS LIKE IT
According to the government sharps there is still quite a heavy percentage of illiteracy in certain sections of the country. One can tell that by glancing at the stuff that goes forth as popular songs. For one thing the illiterates do not hesitate to advertise themselves.

EGG BATTER
The mob of Oregon women who attacked a group of workingmen a few days ago, throwing stones and eggs, vituperating them with harsh language and then biting them, demonstrated how really up-to-date cannibals can be, for, whereas meat used to be eaten raw, the modern method is to pound thoroughly, dip in egg, grill and serve with sauce.

SCULPTURED BABIES!
"Make babies' faces over as soon as they are born" is the advice of an English woman who declares the race should be made more beautiful and claims that pug-nosed infants could have their features shaped into classic lines while the flesh is yet plastic. Hand-made features would probably take on a standardized form, and most parents, no doubt, would prefer the ugly duckling, just as the stork brought it, than have it ever so beautiful, but just like 2000 others.

PUTTING UP
A wealthy Japanese boy studying English in California declares that our language has no shadings or inflections to denote different meanings of the same word or phrase as, he claims, his own has. He says "You say you 'put up' at hotel; you 'put up' with poor servants; you 'put up' a good appearance; somebody is 'put up' to make a 'put-up' job; a political party 'puts up' funds for a man who is 'put up' for office and a housewife 'puts up' fruit." What he really means to say is that our vocal output is too standardized.

BOSS OF THE RANGE
Mussolini believes in Italian opera for Italy. At any rate, he has declared that the great singers will be expected to give their voices to their country as a matter of patriotism. The star warblers like Gigli, Schipa, Muzio, Ruffo, De Luca, Martinelli and the rest must offer themselves for the opera season in Rome and Milan regardless of the fact that they can garner $2000 a night on American contracts. A dictator who can order a flock of temperamental opera singers around and make them forget their money is a Caesar, indeed. But he argues that the birds who learned to warble in Italy should sing for their mothers without any particular care for the financial returns.

PORT POLITICS AND PORK
The vital importance of Los Angeles Harbor to the continued growth, development and prosperity of this city was strongly emphasized by Franklin B. Cole, general manager of the city harbor department, in his address to the Association of City Planners.

The total commerce of all kinds handled through the harbor during the fiscal year which ended on June 30 last, General Manager Cole pointed out, was approximately 25,500,000 tons, which was an increase of 1,500,000 tons over the preceding year. Steamship companies operating at the harbor are asking the city for additional berthing and wharf space. Plans for extensions of five docks are under way, and two new berths are being constructed. With the completion of the new Firestone and Goodrich tire plants, large quantities of raw rubber will begin arriving at the harbor from Africa and the Far East, and this will develop an expanding import trade from these sections of the world in other commodities.

Los Angeles Harbor is a world port. It is the city's greatest physicial asset today and, in its potential possibilities, for the future. It is big business, in which the people of Los Angeles are the stockholders who have provided millions of dollars of capital for the investment and who will reap the rewards. Los Angeles Harbor is bringing to Los Angeles the great factories with their pay rolls which spell prosperity.

It is obvious that the development and administration of the Los Angeles municipal port properties should be in the hands of able, successful men who are willing to give their time and the benefit of their business experience to port affairs. This great business of Los Angeles Harbor administration should not be in the hands of politicians, whose sole interest is to build up a political machine to perpetuate themselves and their friends in public office and attached to the city pay rolls, or of men who have private interests of their own to serve at the public's expense.

The present administration occasionally points to the phenomenal growth and prosperity of the harbor as evidence of the worth of the Parrot-Cryer stewardship. As a matter of fact the progress of our port has been in spite of its management and not because of it. That it should have accomplished so much under such handicaps is the best possible evidence of its intrinsic value and of the irresistible forces which are driving it forward in spite of the efforts of politicians and carpet-baggers to cripple and loot it.

Los Angeles Harbor has suffered from every known variety of wasteful mismanagement, if nothing worse. For more than six years it has been a political plum tree to be shaken for the rewarding of the faithful in the ranks of Boss Parrot's performers. Its scandals have filled more front-page space than all the rest of the city departments put together. Supposedly self-supporting, its operations are actually in the red so far as the city itself is concerned. Its big construction jobs have been made a handy pork-barrel for the exclusive use of a few favored contractors, headed by Emil Cykler.

The advent of such men as Mr. Cole in the management of the port is an indication of better things to come. But no real and lasting improvement can be expected until the blight of politics and pork is removed from the Harbor Commission itself.

STILL NO AIRPORT
Progress and procrastination are impossible partners. Los Angeles is known the world over as one of the most progressive of modern cities and for that reason delinquency in any respect is the more inexcusable.

Representative W. Frank James of Michigan, sometimes called the "Flying Congressman," remarked at a luncheon here that in the course of an airplane tour across the country he heard at every stop about the enterprise of Los Angeles and was surprised to find upon arriving that, almost alone in cities of its class, it has no municipal airport.

Aviation has made notable progress in this section through the enterprise and effort of private individuals and corporations devoted to the flying business, but as a city Los Angeles is far behind the procession. For what has been accomplished here in the way of aviation development private enterprise must be thanked.

Our citizens and taxpayers, however, are deeply interested in air transportation and ready to back adequate municipal development with their votes and taxes. There seems to be little reason for the long delays to which the choice of an airport site is being subjected.

"It appears," said Representative James, who is acting chairman of the Congressional Committee on Military Affairs, "that a delay of more than a year in making a purchase has resulted from a dispute over which of two sites should be selected. Buy them both, is my advice. You will need them before many years."

Whether or not Los Angeles will need them both—not at all an improbable prediction—it is certain that the city must have at least one site at a very early date in order that the proper improvements may be made and the city placed abreast of its reputation and its needs. There is no room for procrastination in the city's air program. There can be no reason strong enough to extend the delay. Los Angeles must have an open gateway into the air lanes at once.

AN UNCOMMON CAPITOL
Most unusual of all our State capitols, the one recently built by Nebraska at a cost of $10,000,000 is a blending of ancient and modern types of architecture, the Egyptian predominating. The main entrance is said to resemble an old Egyptian temple, while the Governor's suite is modeled after rooms in famous cathedrals and castles of southern Europe.

Nearly all our State capitols are of Graeco-Roman design, which is dignified without being severe. But modern architects of public buildings are going in for the Egyptian and ancient Spanish styles, simplifying them in a way that produces an exterior effect which has been criticised for its extreme severity. The setback style adopted by some of the designers of New York's big buildings is being imitated all over the country. It is simple, and as its walls are built up in great steps or buttresses, it is of great stability, and is calculated to endure the ravages of time.

Ruskin says that "all good architecture is expression of national life and character." However, it is rarely an original expression, often denoting little more than taste in selection of old designs or the blending of them in a harmonious whole.

One wonders if Nebraska's adoption of the Egyptian idea, with its massive proportions, will be followed by other States in future capitol building. More than likely we shall have a greater variety than that seen in the almost uniform Greek and Roman models of our present State capitols; but it is going to take a long time to effect the change.

UNIFIED BANKING
Forward-looking financiers have long dreamed a dream that America is moving toward a unified banking system. Rude awakenings, hope deferred, disappointments, have been their lot until the McFadden bill, adopted by the latest Congress, became the law of the land and its amendments to the National Bank Act made possible a combined jurisdiction of State and national banks.

The most outstanding example the country has yet had of the possibilities of the new law is now available here where the creation of the Los Angeles-First National Trust and Savings Bank through the consolidation of the Pacific-Southwest Trust and Savings Bank with the First National Bank marks a significant and progressive step in American banking.

The financial strength of a nation is founded in the savings of its people. The foundation of the economic development of the United States is agricultural; its fundamental financial need is financing for the development of the land and improvements. The national banking system, purely commercial, did not provide for either of these two essentials. American banking, therefore, was marked by the growth of the State banking systems, largely given over to accumulating savings deposits and lending them on long-term loans upon the land. State systems, in order to give a rounded service, added commercial banking functions and pioneered in the development of trust functions and trust banking while the national system lagged behind in both.

The first real step in the renaissance of the national banking system came in 1918, when the Phelan bill was passed, giving to national banks the right to assume fiduciary responsibilities, through trust departments under jurisdiction of the laws of the several States. The second step came in the passage of the McFadden bill, the outstanding features of which are three:

1. It recognizes and provides for savings departments and savings deposits in national banks.

2. It recognizes and provides for long-term financing upon the land and improvements thereof by permitting national banks to lend up to 50 per cent of their time deposits upon real estate.

3. It permits national banks to consolidate with State banks having branches and thereafter to operate those branches under the national law; and it permits national banks to establish de novo branches under the permission of the Comptroller of the Currency and within the city where the principal place of business is located.

Thus a financial chasm is bridged and the union of the State and national banking systems becomes possible. The National Bank Act is in itself archaic, having been passed in 1864, and although many times amended falls short of the standard of the laws of the more progressive States such as New York, Massachusetts, Pennsylvania, and California, but the foundation work has been done and the banking thought of the nation is moving in the right direction.

The Los Angeles-First National Trust and Savings Bank with its branches, has combined resources of approximately $300,000,000, and by reason of the consolidation, becomes a pioneer along the trail toward a unified banking system.

Horse Sense

A MARINE RESERVE
In a quiet but effective way the government is taking steps to add to the naval strength of the United States. Some see in the initial organization of the new Merchant Marine Reserve one of the ways in which an answer is being made to the so-called "challenge of Geneva," though this reserve was authorized by Congress long before the naval parley, but no appropriation was then authorized for putting it into effect.

The Merchant Marine Reserve is to be viewed in the same light as the citizens' military training camps, which are intended to provide a reservoir of trained men that can be drawn upon in case of emergency. It is thought well to have a reserve of partially trained naval officers and men as well as suitable auxiliary ships that can be utilized if necessary. There is nothing that smacks of war about this movement and there is no challenge in it to any nation.

Training stations will be established at various prominent navigation centers—San Francisco will be one—and attempts will be made to enlist the co-operation of ship owners and crews. The men will be given a course of instruction that will in a measure take the place of training on naval ships and fit them to act as petty officers if they should be needed for such purposes. Ships accepted will be entitled to fly a naval reserve flag. Congress is expected to authorize the construction of a number of additional naval vessels and it is well to provide for an increased personnel.

A CONSISTENT PHILOSOPHER
H. L. Mencken begins a long article with the phrase, "The ancient nonsense known as philosophy," to which he devotes a full column of his brand of philosophy, evidently to prove his point.

MERELY MONEY
A man who uses parsimony with his patrimony and acrimony in his matrimony is merely taking the shortest cut to alimony.

A NEW PERIL
By James J. Montague

I gloried in the great success
Achieved by Orville Wright,
I hailed with avid eagerness
The miracle of flight;
But this aerial C.O.D.
Which, I have understood,
Is to extend from sea to sea
May not be quite as good.

I do not care, where'er I am
To walk in fear and dread
Because beefsteak or a ham
Might drop upon my head,
Nor always stand upon my guard
With an uneasy ear
Lest there be tumbled in my yard
A stove or chiffonier.

Of sleep, which oft I woo in vain,
I'll wholly be bereft
When from a droning passing plane
The morning milk is left.
And when I hear from my retreat
A motor's hum aloof—
I'll be afraid a garden seat
May smash right through the roof.

I quite approve the great advance
That flight has made of late,
I hope, indeed, to soar to France
At quite an early date.
But though it's fine that man can fly
Like eagles, here and there,
I'd rather that the goods I buy
Should not be sent by air.

SUMMER PLAYGROUNDS

BY LANNIE HAYNES MARTIN

California, long known as a winter paradise, has become a summer playground for the East as well as the West. At Lake Arrowhead you will find Chicagoans and Cheyennese. At Coronado, New Yorkers and San Franciscans, and just as we became acquainted most readily on the common playground of childhood, so in the informality of summer sports human beings become really human and grow to know each other.

Can anything make for a more permanent friendship than the calm, patient hopefulness of the fishermen who sit all day, side by side, swapping bait and tobacco, and a few stories perhaps, each eager concerning his own hook and line, but each enthusiastic over the catch of the other?

"The skill of the rod is pleasing,
And each fish brings a smile,
But it's the comradeship of the angling
That makes the catch worth while!"

But those who ride, side by side, declare there is nothing which so strongly cements comradeship, as cantering leisurely on horseback, beneath the tall green pines, the roadbed strewn with red-brown pine needles, a jungle of fern skirting the roadway and glimpses of sky glinting through the interlacing tangle of the trees. Romance and poetry dwell in the heart of the forest and the friendships formed there are deeper and more enduring than those made at the card table or in the dance. The trees speak of integrity and there is no affectation in the bracing breezes which challenge and inspire.

But take two in a boat, afloat on a placid lake, the stars or the moon mirrored there, the distant sounds of the shore muffled and muted, the vast expanse of enfolding solitude lifting the consciousness up to a plane that lies above this mundane muddle we call life. All of these tend toward ideal comradeship, and there is always a peculiar tenderness in the memories that cling to the friendly hours spent gliding over the surface of smooth waters.

More aggressive youth swims, dives and competes in feats of aquaplaning. Codes of honor and a fine camaraderie spring up. Endurance is taught, courage is gained, self-reliance becomes a demonstrated principle. The shams of civilization are washed away. The friendships formed are clean and wholesome, and far different from the questionable attachments which are made in the dimly lighted, incense-perfumed haunts of the morbid, the maudlin, and the more than half-mad degenerate.

The tennis player must know fair play and the good golfer learns to take his defeats and disappointments gracefully. The camper who gets irritated and disagreeable at the mosquitoes, or who whines because of inconsequential inconveniences is called a "poor sport" and left behind, for nothing shows up real character as a summer spent outdoors.

And so it is that the summer playground of the world is teaching these little lessons of living. The mountains, majestic, stern. Spartan, and silent, give poise and peace. The unreceding sea, whose rhythmic tides visit the shore unceasingly, strengthens faith and gives a feeling of oneness with the universe. Man cannot come into close contact with nature without becoming more like nature's God, and when vacation days are over a hundred thousand Californians will go back to their homes, friendlier, kindlier, more tolerant, humanized beings.

LETTERS TO The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

The Episcopal Church

LOS ANGELES, Aug. 29.—[To the Editor of The Times:] While commending you for your timely and important church census in your Sunday's paper, which will cause, we may well hope, great searchings of heart among Christians generally, I should like to point out that the case, while bad enough, is not quite as bad as your figures would seem to indicate.

And for the following reasons: The basis on which you count the Roman Catholic total is its baptized membership, which includes children and adults, while that of the Protestant churches is the number of communicants, and so your figures are capable of an adjustment that would make a very large increase in the totals of the Protestant bodies.

Take as an example the strength of the Episcopal Church in the city of Los Angeles, the figures of which you give as 8331, which is the sum of its active communicants, while in fact its baptized membership on the 31st of December, 1925, the date from which you have drawn your figures, was exactly 14,595, or almost double, and this is rightly our strength, for, as in the case of the Roman Catholic basis, we recognize membership to include every baptized person, children and adults. On this same basis we should suppose the strength of the other Christian bodies will be found to be quite double the figures you have presented.

Again. The figures, so far as the Episcopal Church is concerned, refer to active communicants, and we may suppose that the same is true of other bodies of Christians. The actual communicants of the Episcopal Church in the city of Los Angeles at the end of 1926, as reported to convention—active and, for the time being, nonactive—numbered 10,806.

You are also, no doubt, quite right in assuming that a large number of church people in Los Angeles continue to claim membership in their eastern home churches, to what extent this is true it is impossible to determine exactly. It is a condition, however, that your census has made apparent ought not to continue, for all church members, wherever from, should identify themselves with the local church in the city where they now have their residence.

JOHN D. H. BROWNE,
Canon St. Paul's Cathedral.

Where Stands the Pedestrian?

LOS ANGELES, Aug. 29.—[To the Editor of The Times:] What legal right has the pedestrian to walk the streets of Los Angeles? And if in attempting to cross the street an automobile runs you down, kills you or only qualifies you for a few months in a hospital, what chance will you have in a damage suit?

To whom do the streets belong? Is the pedestrian to blame for getting in the way of a street car or is the chauffeur culpable for not being skilled in avoiding traffic?

These are but a few of the questions put to the lawyer. Who has the right of way? If the pedestrian has it (and the courts have said he has) let automobiles take notice and allow him to proceed. If the automobile has the right of way, then no pedestrian is safe in leaving the curb—but, like the town pump, must stay right where he is, "from morn till dewy eve."

In any event, crossing the streets of this finest and best-regulated of cities is a venture fraught with peril.

CLARA SHORTRIDGE FOLTZ.

Selig Park Zoo

LOS ANGELES, Aug. 27.—[To the Editor of The Times:] In all fairness I wish to answer a letter published in your issue of August 24, signed by Katherine C. Baum, Riverdale-on-the-Hudson, New York City.

In regard to dog in cage with lioness in Selig Park Zoo. This dog and lioness have been cage mates for over eleven years. When the lioness was a cub she lost her mate and was lonesome, the dog, then a mongrel pup, followed a zoo employee into the grounds and the two babies were attracted to each other.

When placed in the lioness's cage they played together and have been inseparable ever since.

This cage is eleven-foot front and twelve feet deep, and the dog is taken out for exercise every morning by an attendant. When animals are separated the dog cries and tries to get back to the cage and the lioness paces back and forward looking for the dog.

I have averaged two trips of inspection to this zoo since January 21 and have yet to see any instance of cruelty in their treatment of animals.

C. B. CRAIG,
Humane Officer.

INVITATION REFUSED

When John Cerrachi, an Italian sculptor, wrote to Hugh Williamson, one of North Carolina's notables, in the early days of America, requesting him to sit for his bust, "not on account of getting Mr. Williamson's influence in favor of the National Monument; this is a subject too worthy to be recognized; but merely on account of his distinguished character, that will produce honor to the artist," Williamson replied:

"Mr. Hugh Williamson is much obliged to Mr. Cerrachi for the honor intended him, and could not possibly suppose that Mr. Cerrachi had offered such a compliment by way of a bribe, for a man in his public station who could accept a bribe or betray a trust, ought never to have his likeness made except from a block of wood.

"Mr. Williamson in the meantime, cannot avail himself of Mr. Cerrachi's services, as he believes that posterity will not be solicitous to know what were the features of his face."
—[Exchange.

PEN POINTS

It won't do to call the [illegible] but they didn't invent [illegible]

Well, people would have [illegible] as lawless fifty years ago if there had been as many laws to break.

The Silver age has advantages, but it offers nothing to replace the horseshoe nail as an emergency pants button.

Parents think daughter is cultivating her voice, but to the neighbors it seems harrowing.

Butler thinks there are no great men now, but he hasn't heard of bush-league managers trying to sell pitchers to scouts.

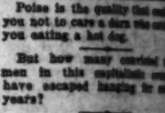
It will seem strange to have a fight in Chicago without the [illegible] cent bystander getting pardoned.

Americanism: "The marines have landed and are eating bananas."

One might as well be [illegible] about it. The best thing we can do during vacation was the first one at home.

There is comfort for all, at least those parts of America [illegible] Mencken don't know there is a Mencken.

Some of the A.E.F. boys will afford the trip to France, but perhaps they can find a wine [illegible] spot and stand in the [illegible] home.



Poise is the quality that enables you not to care a darn who eats you eating a hot dog.

But how many convicted of men in this [illegible] have escaped hanging for [illegible] years?

1920: "I'm engaged to [illegible]; I'm safe." 1900: "I'm married and safe." 1927: "The other has been fixed and now I'm safe."

Tidewater districts [illegible] but prohibition isn't effective, [illegible] has reported sea serpents this year.

Correct this sentence: "Oh well," chuckled the man [illegible] "here I am in the [illegible] and there isn't a towel in the [illegible]."

Everything has its [illegible] Even success [illegible] a string to it.

First impressions [illegible] ing now that there's [illegible] to impress.

When words fail to express a woman's contempt for a man he enjoys a moment's peace.

Even the pessimist may be disappointed to find [illegible] not so bad as he had [illegible]

Generally speaking it's the man who doesn't know what he's talking about who has the most to say.

The child raised in the lap of luxury might be more [illegible] it were more frequently spanked in the same place.

RIPPLING RHYMES by Bert Kenny
OLD JIM CORBETT

When scraps are [illegible] this land, to add to our [illegible] Jim Corbett comes, with [illegible] hand, to write some wise [illegible] tions. He ought to [illegible] as a seer with any [illegible] who gazes in a crystal [illegible] makes impressive [illegible] visits both the training [illegible] spects each rolling [illegible] wise and introspective [illegible] always picks a loser. [illegible] predicts that Jumping Joe [illegible] ly make a killing I bet it [illegible] back his foe with every [illegible] shifting. Elijah's mantle [illegible] fit Jim's wide and handsome [illegible] ders; the fire that kept the [illegible] ets lit in him but smoldered. smoulders. But though he [illegible] to miss his guess when [illegible] forecasting, he still [illegible] out distress, his honest [illegible] ing. So skillfully he [illegible] he gained the champion's [illegible] when there were giants to [illegible] with whom to box and [illegible] there were mighty few of [illegible] to lay his lusty wheels [illegible] Boston boy, the dusting [illegible] and Fitz, and Jeff, and [illegible] The great John L. had [illegible] that foemen feared to [illegible] we thought that fighter's [illegible] wrong who had the nerve [illegible] him. And Jim—he that [illegible] and fair, a gay and [illegible] —he had the nerve to [illegible] and back himself to [illegible] all the dead game sports [illegible] to contemplate his [illegible] John will massage the [illegible] surely is heart [illegible] sports all wagered as they [illegible] and after the disaster [illegible] trains for home—they [illegible] soaked the watch [illegible] Though as a sour Jim's [illegible] to what has that [illegible] made more mea take [illegible] Bill Muldoon has [illegible]

MARITAL CRAWFORD

We have developed champion players, champion [illegible] pion golfers, and a [illegible] champions. If some [illegible] only inject the spirit of [illegible] competition into the [illegible] undoubtedly develop [illegible] bands and wives. As [illegible] be risky, for the [illegible] ably turn professional [illegible]

It won't do to tell the youngsters, but they didn't invent immorality.

Well, people would have seemed as lawless fifty years ago if there had been as many laws to break.

The flivver age has advantages, but it offers nothing to replace the horseshoe nail as an emergency pants button.

Parents think daughter is cultivating her voice, but to the neighbors it seems harrowing.

Butler thinks there are no great men now, but he hasn't heard any bush-league managers trying to sell pitchers to scouts.

It will seem strange to have a fight in Chicago without the innocent bystander getting persisted.

Americanism: "The marines have landed and are eating bananas."

One might as well be honest about it. The best thing we saw during vacation was the front door at home.

There is comfort for all, and those parts of America scorned by Mencken don't know there is a Mencken.

Some of the A.E.F. boys can't afford the trip to France, but perhaps they can find a nice muddy spot and stand in the rain at home.

Poise is the quality that enables you not to care a darn who catches you eating a hot dog.

But how many convicted rich men in this capitalistic country have escaped hanging for seven years?

1890: "I'm engaged to him; now I'm safe." 1900: "I'm married now and safe." 1927: "The alimony has been fixed and now I'm safe."

Tidewater districts may say prohibition isn't effective, but nobody has reported sea serpents this year.

Correct this sentence: "Well, well," chuckled the man happily; "here I am in the bathtub and there isn't a towel in the room."

Everything has its drawbacks. Even success frequently has a string to it.

First impressions are more lasting now that there's so much more to impress.

When words fail to express a woman's contempt for a man he enjoys a moment's pause.

Even the pessimist may be disappointed to find that things are not so bad as he had supposed.

Generally speaking, it's the man who doesn't know what he's talking about who has the most to say.

The child raised in the lap of luxury might be more endurable if it were more frequently spanked in the same place.

RIPPLING RHYMES by Walt Mason

OLD JIM CORBETT

When scraps are scheduled in this land, to add to our affliction Jim Corbett comes, with pen in hand, to write some wise predictions. He ought to stack up as a seer with any prophet going who gazes in a crystal sphere and makes impressive showing. He visits both the training camps, inspects each toiling bruiser with wise and introspective lamps—and always picks a loser. When Jim predicts that Jumping Joe will surely make a killing I feel it safe to back his foe with every groat and shilling. Elijah's mantle doesn't fit Jim's wide and handsome shoulders; the fire that kept the prophets lit in him but smokes and smoulders. But though he sees wherever he's forecasting, he still upholds, without distress, his honors crushing. So skillfully he swung his heaving, he gained the champeo's honor when there were giants in the land with whom to box and quarrel. Oh, there were mighty men of brawn to lay his lusty whacks on, the Boston boy, the dauntless John, and Fitz, and Jeff, and Jackson. The great John L. had won so long that foemen feared to chase him; we thought that fighter's head was wrong who had the nerve to face him. And Jim—he then was young and fair, a gay and brash beginner—he had the nerve to do and dare and back himself as winner. Then all the dead game sports were not to contemplate his ending; "Old John will massacre the lad"—surely is heart rending." The sports all wagered as they talked, and after the disaster they took trains for home—they walked and soaked the watch and ward. Though as a seer Jim's not so wise, to what has that amounted? He made more men take exercise than Bill Muldoon has counted.

(Copyright, 1927, George Matthew Adams)

MARITAL CHAMPIONSHIPS

We have developed champion ball players, champion aviators, champion golfers, and a variety of other champions. If some genius could only inject the spirit of pairing off competition into the thing we might undoubtedly develop champion husbands and wives. At that, it would be risky, for the winners would probably turn professional.—[Life.

All Goods, Wherever Carried in Stock, Priced the Same at Both Stores

Seventh at Olive — Branch 215 So. Broadway

Coulter Dry Goods Co

FOUNDED IN 1878

Month-End Specials for Wednesday

Fur Trimmings—First Floor

Ombre Lapin, grey and tan, Specially Priced. 4-in., was $12.00 yd., now $8.00; 6-in., was $18, now .....$14 yd.

Thibetine, many shades, also black and white. 4-in., was $11.50, now $8.00 yd.; 6-in., was $17.50, now.....$12.00 yd.

Women's Hosiery—First Floor

Women's Silk Hose, odds and ends...½
—Odds and ends to close out at half price. Chiffon, all silk, lisle top, and service weight in the popular shades.

Women's Chiffon Hose $1.25
—A nationally advertised brand that were priced much higher. Many desirable colors among the lot.

Sportswear Section—Third Floor

—25 Jersey Suits—Sizes 14, 16, 18—Values to $27.50, ½ price.
—15 Two-pc. Wool and Silk Combination—Values to $39.50, ½ price.

Gray heads *young again!*
Color restored by feeding hair roots

Thousands have been delighted to find it is not necessary to use dye on gray hair. NOURISHINE, a scientific tonic which feeds and nourishes the hair roots, restores the exact original shade —naturally, safely, evenly, lastingly. Any original color, either black, brown, auburn or blonde, is restored with the one liquid. Positively NOT a dye—cannot injure hair. Easy and pleasant to apply as water. Nourishine also banishes dandruff, stops falling hair and promotes lustrous, youthful hair growth. Make your hair look young with Nourishine. $1.25 a bottle at leading drug and department stores.
(For shampooing use Nourishine acid-free Shampoo. 50 cents a bottle.)
Nourishine

SOCIETY

BY JUANA NEAL LEVY

Mr. and Mrs. Gilbert S. Wright of 237 North Van Ness avenue formally announce the engagement of their attractive daughter, Miss Elsie Wright, to Frederick Ford, son of Mr. and Mrs. William Ford of 834 South Lake street.

No date is set for the wedding, but it probably will take place in November.

Indian Fete

Among the delightful events of today will be the Indian fete which will be given this evening in the gardens of the home of Mrs. Frederick Kimball Stearns in Crescent Drive, Beverly Hills, the program of songs and dances being given entirely by Indian celebrities who are in Los Angeles this summer.

The special guest of honor will be Princess Tsianina, the Creek-Cherokee soprano of international fame, who is to give several solos and there also will be a group of his own compositions by Charles Wakefield Cadman.

The affair is particularly planned to increase the interest in the "so-called" vanishing race and to correct, if possible, the false notions, misrepresentations and incorrect information regarding the Indian, with which, since the days of Columbus, the public has been satiated, and to broadcast a truer and better understanding of the early inhabitants of the Far West, which is rapidly passing into posterity.

Delightful Affair

One of the loveliest affairs of the week was the supper dance with which Mr. and Mrs. James Rufus Martin of Arden Boulevard and their attractive young daughter, Miss Margaret Martin, entertained last evening in the supper room of the Biltmore in honor of Miss Doris Braly, daughter of Mr. and Mrs. Harold Hyde Braly of Muirfield Road, and her fiance, Felton Stow Hollister, whose wedding is to be one of the brilliant events of September 21. Miss Martin is to be one of the bridal entourage and the affair last evening was unique in its appointments.

The tabls at which the guests of honor were seated was centered with a replica of the house which is being builded for the bride, a Spanish bungalow which is to be the wedding gift of her maternal grandmother, Mrs. Peter Janss, and it was surrounded by a lovely garden of growing plants and shrubs, in exact carrying out of the grounds which will surround the house. The menus bearing the names of the betrothed carried out the bridal motif as did also all the appointments, and Burdenett had arranged a special program of music during the supper hour.

The guests included the bridal party, several visitors from out of town and a few close friends of the bride-elect, including Miss Braly, Mr. Hollister, Miss Dorothy Fulton, and her fiance, William Woods, Jr., Miss Betty Bettingen, Miss Deborah Bixby, Miss Polly Schoder, Mr. and Mrs. Philip Miles Chapman (Helen Thompson) Miss Louise Janss, Miss Vera Hennebergen, Miss Genevieve Hennebergen, Miss Kathleen Hayward of New York City, Miss Christine Schonhion of Bradford, Pa., Miss Rowena Thom, who has just returned from a trip abroad with her parents, Mr. and Mrs. Erskine Pembroke Thom, Mr. and Mrs. John Hyde Braly (Gertrude Cowles,) John Mage, Harold Hyde Braly, Jr., Jefferson McClung, Barton Jones, George Brock, William James, John McComb, Leonard Harbach, Jack Garland, Edward Harbach, Dick Wood and Miss Martin.

With Mr. and Mrs. Martin at an adjoining table were Mr. and Mrs. Harold Hyde Braly, Mr. and Mrs. John Milner, Dr. and Mrs. Isaac Hampshur Jones, Mr. and Mrs. Richard Jewett Schweppe, Mr. and Mrs. Hermann Janss, Mrs. William Wood, of New York, mother of the bridegroom, Dr. and Mrs. Edwin Janss, Mr. and Mrs. Harold Janss and Mr. and Mrs. Howard Schoder.

This afternoon Mrs. Robert Bundy and Mrs. Douglas Bundy are entertaining in Santa Monica with a luncheon in honor of Miss Braly, while the thirteenth of September Miss Betty Bettingen is planning a buffet supper party at her home in Pasadena in honor of Miss Braly and Mr. Hollister.

Gone North

Miss Gloria Gottschalk, the attractive subdeb daughter of Mr. and Mrs. Louis Gottschalk of 933 South Fedora street, left Monday for the north, where she will visit for ten days in San Francisco. After her return Miss Gottschalk will enter the University of Southern California as a sophomore.

Last year Miss Gottschalk was a freshman at the University of California at Los Angeles.

Home Again

Charming written invitations on gold scrolls are being issued by Mrs. Maurice De Mond of 2449 Commonwealth avenue for a home-coming welcome to Mrs. George Albert Ralphs, who has just returned after months of world touring, the affair to be a tea Tuesday afternoon September 6, from 2 to 4 o'clock in the Pavillion of Friendship (at the Breakfast Club) 3213 Riverside Drive.

From Extended Tour

Dr. Madison J. Keeney of 1202 South St. Andrews Place has just returned from a two months visit in the East, where he was the guest of his wife's parents, Col. and Mrs. Oliver S. Hershman at their summer home in Allenhurst, N. J.

Friends of Col. Hershman will be glad to know that he is rapidly recovering from a recent severe illness.

Miss Elda Belle Hershman has been passing the summer in Southern California with her sister, Mrs. Keeney, and has been enjoying the beaches and week-ends in the mountains and in September she will enter Mariborough School.

Wednesday, September 7, Mrs. Keeney is planning a bridge luncheon, preceded by swimming at Club Casa Del Mar, for a dozen friends.

Last week Miss Hershman had a swimming party and luncheon there for six of her young friends the occasion celebrating her birthday anniversary.

Engagement Announced

Saturday afternoon Mrs. W. H. Jordan, Jr., of 411 South Westmoreland avenue formally announced the engagement of her attractive daughter, Miss Margaret Jordan, to John Muir French of Oakland, the news being told at a bridge tea given at the Palace Hotel in San Francisco, most of the guests being members of Alpha Delta Pi sorority to which Miss Jordan belongs.

Little Jane Blair, 3-year-old cousin of the bride-elect, handed the betrothal cards to the guests as they entered.

No date has been set as yet for the wedding which, however, will most probably take place some time next year.

Miss Jordan is a senior at University of California in Berkeley while Mr. French, an alumnus of the University of California, is affiliated with the Sigma Phi Epsilon fraternity.

At Catalina

Mr. and Mrs. Fowler, Miss Muriel Fowler and Miss Maryjean Thatcher are passing the week at the St. Catherine's Hotel in Catalina.

Home From Trip

Miss Billie Hobush, who has been enjoying a delightful trip through the Yellowstone Park, Zion Canyon and Grand Canyon, has returned home.

Bridge Luncheon

Miss Mary Anderson of 704 North Camden Drive is entertaining Saturday afternoon with a luncheon and bridge party at her home in Beverly Hills.

Bridge Tea

Mrs. John Henry Richardson and Miss Mary Muriel Foster are entertaining this afternoon at the home of the former, 1353 South Adams street, Glendale, with a bridge party followed by tea.

HOUSEHOLD SUGGESTIONS

Less Tiring

If you have a great deal of machine stitching to do, put one foot forward and one at the back of the treadle and give the motion of walking. It is much less tiring.

Begon Stains!

Immerse the ink-stained handkerchief or blouse in milk immediately after the accident and the ink will almost always soak right out.

Did You Know

That "Java and Mocha" are no longer used to indicate the country from which the coffee is imported, but as trade names simply to signify the quality of the blend?

First Aid

If the kiddie should put a bean up his nose, put a small amount of pepper on his upper lip and he will sneeze it out. Never try to dig for it or you will only push it further into his nose.

The Home Journal

A notebook containing household data, such as curtain measurements, number of rolls of wall paper required for each room, etc., proves a joy when replacing necessities. It saves all that measuring and calculating.

White Stains

When white spots appear on the dining-room table, caused from hot plates, touch them up with a brush that has been dipped into spirits of nitre and directly afterward rub with a cloth moistened with sweet oil.

A Clean Blotter

When taking spots out of a garment with a cleaner that dries quickly, place a clean white blotter under the garment and clean on this. It will absorb both dirt and excess fluid and so prevent spreading further over the garment.

Freshly Tinted

When freshening baby's rompers with a coat of dye, an easy method is to use the soap variety of dye. Place the soap in your soap-shaker and shake thoroughly through the boiling water until it is the desired shade for the rompers. Then immerse the garments.

No Rust

If you have any steel articles packed away, put a lump of freshly burned lime in the drawer or case in which they are kept and it will prevent rusting.

Scorched White Goods

Rub lemon juice and salt on the scorched white material and hang in the sun until the stains disappear. This may have to be repeated to obtain perfect results.

Neater Patches

Should the lining of your coat show signs of wear under the arms, make neat silk dress shields to match your lining and sew carefully over the worn parts. It will not be nearly as obvious as a regular patch.

Examine it Before Cutting

Very frequently the tablecloth will wear out in such a manner that doilies may be cut from it, bringing a pattern in the center. A simple crocheted edge around these and you have dainty doilies for ordinary use.

BARBECUE AT NEW HACIENDA

Many Friends Entertained at Del Monte

[J. P. Graham Studios, Del Monte]

Eric Pedley, Mrs. Harry Hunt and Mrs. Eric Pedley

One of the interesting events of the season at Del Monte was the recent barbecue given by Mr. and Mrs. George Gordon Moore at their new hacienda. Many friends of the Moores from San Francisco, Los Angeles, Burlingame and Pebble Beach were guests, among them being Messrs. and Mmes. Harry Hunt, Eric Pedley, Lloyd Tevis, Harrison Godwin, Mmes. Bernard Ford, Byington Ford, Kenneth Monteagle, the Misses Maude Hill, Josephine Grang, Barbara Seamon, Ysabel Chase, Catherine Carton and Willie Tevis, Courtland Hill and John Ward.

YOUR BABY AND MINE

By Myrtle Meyer Eldred

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope, forwarded to this office, will bring a personal reply.

REAL MILEPOST IN BABY'S LIFE

For many years I have noted how often a mother discovers that at 7 months of age her hitherto well-regulated baby becomes irritable and sleepless at night, even though his habits before this have been exemplary.

There is a real reason for this in the case of the breast-fed baby. About this time the milk of the average nursing mother is lacking in minerals. Also, the baby's prenatal store of iron is nearly gone. He needs additional foods, his breast feedings no longer completely satisfying him.

The bottle-fed baby needs other foods also and his formula may need strengthening. So the baby wakens two or three times at night and refuses to go to sleep without a breast or bottle feeding. Thus he shows his dissatisfaction with his daytime rations.

The mother should make up her mind that times have changed and that she must waken to the necessity of more feeding.

For the breast-fed baby, cereal can be added to the diet, if it has not already been, giving one teaspoonful to start with, at the 10 and 6 o'clock nursing periods. Give the cereal first and finish with a breast feeding.

If this is insufficient to satisfy the baby give a complementary feeding after each nursing or after those nursings at which he refuses to remain satisfied for three or four hours. This should come directly after the nursing and not between nursings.

The mother may want to start the weaning process and if she does she can substitute a bottle feeding for a breast feeding. As soon as the breasts fail to receive regular stimulation they fail to secrete as much milk and so weaning begins.

The last feeding is usually the most unsatisfactory one so this should invariably be complemented by a bottle feeding, if the cereal does not do the trick.

Fruit juices, cod liver oil and vegetable soups are in order in the child's diet at this time, in addition to the cereal. But in speaking of this 7-months-old baby it has been taken for granted that he has had no other foods than breast milk.

BUDGET IDEA INSTALLED FOR PUPILS

Broadway Store Begins New Service for Boys and Girls of School Age

BY OLIVE GRAY

A new and helpful service has been installed by the Broadway Department Store. The Bureau of Individual Service is the center from which this new plan radiates. Here the school girl or boy may learn just how to plan the school wardrobe, whether the amount to be expended be large or small; whether confined to actual necessities, or expanded to the many luxuries desired by the youth of today.

The budget plan, proven so practical by many home-keepers, here is put in effect for students of every age and for teachers as well.

The budgets outlined are of two classes: one for those whose expenditures must be within the limits of actual necessity, one for those of medium means, one for those whose wishes and personal tastes are the only boundaries of the purse.

In each instance, practical service is considered, and lists comprise all items of wear from hosiery and shoes to millinery and accessories. Descriptive lists, with prices of each article, based upon actual stock, are furnished, together with total costs for each wardrobe.

Not only is the going-away school girl given attention, but the wee one who stays at home, may with assistance plan her own wardrobe, and in so doing learn values and receive instruction in good taste.

The first of the small child's wardrobes totals $30.75; the medium priced one for the small child runs to $38.15; the more extensive one goes to $55—each including every necessary article of apparel, ranged from plainly practical to more luxurious, according to the extent of the budget.

Budgets for older girls range according to grade and the amount allowed.

In these the more modest group is within the limit of $32.25; another comes to $40.50; one is completed at $51.75; while less restricted choice carries the figures to $100.

Also, there is suggested a teacher's clothes budget within $200.

The budget plan, here brought to perfection in the purchase of school clothes, is helpful not only in relation to the family finances, but teaches the growing youth, whether feminine or masculine—for there is also a budget or plan for boys—how to select garments which are appropriate to all occasions, and those best suited to the individual needs.

In other words, the budget plan, as here put in effect, under capable and experienced tuition, is an education in that phase of life, not only in school, but later which makes for success personally and financially.

Many of the items comprised within the lists suggested are offered at special prices, during the period previous to the opening of the autumn term, bringing such apparel well within the budgets suggested.

WEED-END TRIP SLATED TO Y.W.C.A. CAMP

A week-end trip to the Y.W.C.A. camp in the San Antonio Mountains, two miles beyond Camp Baldy, open to all business girls in Los Angeles, is being arranged by officials of the association for next Saturday and Sunday. The party will leave at the Pacific Electric station on Main street at 1 p.m. Saturday and return Monday night. Activities at the camp will include swimming, hiking, horseback riding, dancing, songs and stunts. The girls who plan to join in the excursion must register at 941 South Figueroa street by tomorrow evening.

CHEF WYMAN'S *Suggestions for* TOMORROW'S MENU

The free class and demonstration of food cookery conducted by Mrs. A. L. Wyman in the lecture room of the Southern California Manufacturers' Exhibit, 130 South Broadway, every Friday at 10 o'clock, has been discontinued until September 2nd.

Breakfast

Casaba Melon
Belgian Corn Fritters and Bacon
Toast Jam
Milk Coffee

Luncheon

Broiled Salmon Steak, Bearnaise Sauce
French Fried Potatoes
Apple Gems
Iced Buttermilk

Dinner

Cream of Potato
Radishes Young Onions
Braised Liver
Boiled Potatoes
Banana Salad
Lemon Meringue Pie
Coffee

BELGIAN CORN FRITTERS

One can of corn, two yolks of eggs beaten, one cupful sifted flour, two tablespoonfuls chopped parsley, two whites of eggs, beaten, one teaspoonful baking powder, one teaspoonful salt, bacon fat, one-third teaspoonful paprika.

Beat egg yolks, add corn and seasoning, sifted flour, and baking powder and last stiffly beaten whites. Fry golden brown in bacon fat, and serve with strips of fried bacon.

BROILED SALMON STEAK

Moisten slices of salmon with French dressing and let stand for one hour. Put in broiler and broil on both sides. Brush while cooking with one tablespoonful melted butter, using a little at a time. Cook twelve to fifteen minutes. Remove to hot platter. Season with salt, pepper and juice of one-half lemon and sprinkle with one tablespoonful chopped parsley. Serve with Bearnaise sauce.

BEARNAISE SAUCE

One-quarter cupful butter, four egg yolks, one-half teaspoonful salt, few grains cayenne, one tablespoonful tarragon vinegar, one-half teaspoonful onion juice, one tablespoonful chopped parsley.

Mix butter and beaten yolks together. Add salt and pepper and cook over hot (not boiling) water until thick, stirring constantly. Add vinegar and onion juice and cook twenty minutes, still stirring. Remove from fire and add parsley immediately.

APPLE GEMS

One and one-quarter cupfuls sifted milk, four tablespoonfuls sugar, two tablespoonfuls butter, one cupful yellow cornmeal, one cupful flour, two teaspoonfuls baking powder, one teaspoonful salt, one-half cupful apples chopped fine.

To the scalded milk add sugar and cornmeal. Add well beaten egg, flour, baking powder, salt. Add apples to dough and beat thoroughly. Drop into hot gem or muffin pans and bake in moderate oven (350 deg. F.) about five to thirty minutes.

BRAISED LIVER

Two cupfuls celery, cut in one-inch pieces, one and one-half pounds liver, unsliced, one teaspoonful salt, one-eighth teaspoonful pepper, two tablespoonfuls butter, one cupful boiling water, eight small onions, two tablespoonfuls flour, six slices bacon.

Put celery in bottom of a casserole or baking dish. Sprinkle liver with salt and pepper. Put it on top of celery and dot with bits of butter. Add the water and cover. Bake in a moderate oven (350 deg. F.) forty-five minutes. Remove liver and celery and transfer to a platter. Season onions, carrots and onions in a small amount of boiling salted water until tender and put them in the casserole. Add vegetable stock, thicken with flour mixed to a smooth paste with a little cold water, and pour over the liver. Cook fifteen minutes longer. Serve hot with crisp bacon.

Mrs. Wyman does not wish to trespass upon the time of anyone who attends by the publication of these recipes. They are copyrighted as PRACTICAL RECIPE PUBLICATIONS. [All rights to reproduction reserved to A. L. Wyman.]

HEALTH and DIET ADVICE

By Dr Frank McCoy

Dr. McCoy will answer questions on health and diet, addressed to him, care of this paper. Letters stamped, addressed, envelope for reply.

WHY SO MUCH SPINACH?

Health writers and dietitians usually disagree with each other on almost every subject of importance in dietetics. Vegetarians think that meat is a source of all our infirmities, while the doctor who is obsessed with bug-phobia warns us against eating uncooked vegetables. And yet, there seems to be at least one vegetable that all agree is good, and useful to everyone. Cooked spinach is prescribed by every health authority—dietetian, physician, chiropperator, naturopath—and even my Christian Science friends seem to have acquired the habit of eating plenty of it.

Spinach is one of the oldest of our green vegetables, and was freely used even in the days of the Medes in Persia. Long before organic chemists discovered that spinach contains a large amount of iron, this green vegetable was used for its healthgiving properties.

The French call spinach "belly broom" because of its value as roughage, but they also call it "death of the butter," because of the custom of adding a large amount of butter to spinach while it is cooking. Spinach does provide an excellent roughage, but does not contain much cellulose and, therefore, is not really scratchy or rough to the intestines. Even the most primitive people realize that it is advisable to use large quantities of bulky green vegetables to fill up the alimentary canal and assist in the peristaltic action of the stomach and intestines.

Only a few centuries ago it was discovered that spinach contains more iron than any of the other green vegetables, with the exception of lettuce and sorrel. It is also rich in sodium and calcium and is, therefore, an excellent blood builder. These valuable minerals are more easily available if the spinach is eaten uncooked, but considerable quantities of the organic minerals and vegetable salts are retained if the spinach is not cooked for too long a time. The best method of preparation is by steam or boiling for five or ten minutes.

It is unwise to use condiments for seasoning, but most people will enjoy creamed spinach made by mincing the spinach fine and adding a small amount of warm cream and seasoning with a little salt as desired.

Spinach should be always well washed in running water to remove any sand or poison spray which the gardner may have used.

Try using spinach as a salad vegetable, keeping it on ice after it is washed, and serving when crisp and cold.

Spinach never produces flatulence and, therefore, may be used in unlimited quantities by everyone, and is especially to be recommended for those inclined to excessive gas formation.

QUESTIONS AND ANSWERS

Question: Anna E. asks: "Will you be kind enough to tell me what would be the correct treatment for a young man about 30 years of age who has a great deal of albumin? The company doctor advised him to go to bed."

Answer: The going to bed treatment will be of little permanent use to a young man 30 years of age, who has such a serious disorder of metabolism as to have a great deal of albumin in the urine. He needs diet and exercise to correct the faulty metabolism which is responsible for his trouble. Keep him on his feet and fighting to get well, as this is his only hope.

Q.: Mrs. J. A. T. asks: "How are coddled eggs prepared?"

A.: Coddled eggs are prepared by pouring boiling water over one while in the shells, and allowing it to stand about eight minutes. Others break open the egg and have a jelly-like consistency, but at the same time, should be as well cooked that there is no suspicion of germs.

Q.: Mother writes: "I enjoy reading your articles from day to day and find them very helpful. But one thing I find many of them to be very crazy style of diets. It is so confusing and plain that I find them very frightening. My little girl, although going for hours during the day without a desire to urinate, wets the bed in a few minutes after she lies down for a nap or at night before she retires. We allow her to drink at the evening meal, thinking that this is causing her trouble."

A. My idea in writing my column is to give my readers such helpful information as will make them glad you appeared on their horizon. I try to make this a real health column which will be of practical benefit to the layman. Please send me your name and address so I can send you a special article which will tell you how to get rid of your kind of trouble.

Advertising Men Leave Stores to Enter New Field

Harry S. Carroll, publicity director of the Broadway Department Store, announced yesterday that he is resigning his connection there to enter a merchandising and sales service partnership with John M. Dee, who has been advertising and sales manager for Jacoby Brothers.

Mr. Carroll entered the department-store business in Dallas, Tex., beginning as a bundle wrapper and attaining the position of advertising manager. He was one of the organizers of the Advertising Club of Los Angeles and was at one time its president. He has also served as president of the Pacific Coast Advertising Association.

Mr. Kemp has been in the department-store business for twenty years, having held his present position for thirteen years. He is also vice-president of the Los Angeles Athletic Club and attended the international advertising convention in London three years ago.

Headquarters for the new firm have been established in the Van Nuys-Ferris Building, 756 South Broadway street.

ZIEGLER RITES TODAY

Funeral Services Arranged by Southland Business Men

Funeral services for [illegible] Ziegler, for many years a [illegible] man of Los Angeles, will be conducted today at 2 p.m. from the undertaking parlors of W. A. Hunsaker, 1815 South Flower street.

Mr. Ziegler, who was well known as a business man in Los Angeles, recently moved to Morro Bay, where he died last Sunday morning. He was born in Pennsylvania and was 70 years of age, coming here [illegible] Forty-five years he was a member of the firm of Ziegler & Co., meat dealers.

He leaves his widow, Mrs. Ruth Ziegler; a son, Louis Jr., and a daughter, Ruth I. Ziegler. Interment will be in Inglewood Cemetery.

SANITY QUIZ

Mother of Slain Baby Will Date Original

A hearing on the sanity of Mrs. [illegible] dead in a Main-street hotel a week before the Lunacy Commission on date of the hearing originally was denied.

Much of the testimony is expected to be from psychopathic experts. Mrs. Howard was sent to the psychopathic ward of the County Hospital [illegible], after an insanity complaint [illegible] sworn out by the District Attorney's office in an effort to determine her mental condition.

If the woman is proved sane a criminal complaint may be filed against her, according to Dep. Dist.-Atty. Dockweiler. According to a report by autopsy surgeons the baby was strangled to death. Mrs. Howard was arrested near Sierra Madre last night after she had wandered into the mountains for days. It was said that she accidentally rolled on the child in her sleep and caused its death.

May Denies New Market Rumor

Sam May, vice-president of the May Department Stores, yesterday denied the report that negotiations are under way or have been held for the sale of controlling interest to Dillon, Read & Co. He stated that the May brothers, who were left substantial holdings under the will of their father, the late David May, have no intention of selling an interest to the banking group.

Mr. May spoke of the desirability of the stock on the basis of its earning power, as it has been reported in the local markets that several banking houses were negotiating with the May brothers for control or a substantial interest.

One of ten lectures delivered in Los Angeles last year was entitled "How to be Happy."

Two big ...children fit sorrow, were ...per eye, and trickled down ...She wiped them away ...hand, and held her breath ...from falling but two others ...and then two more. The covers over her bosom trembled ominously.

"I've waited for you all winter, Clara," Mr. Perkins continued, a note of apology underlying the roughness of his voice. "We're not related to the Vanderbilts, you know! I owe everybody in town now, and it's ridiculous when you think that we might be getting a hundred and fifty a week. Spring's coming, and if I don't hustle there'll be nothing doing till fall. This girl'll do all right for the rest of the season, and you and me can go out together as soon as the parks close."

Still Mrs. Perkins said nothing.

"I wonder if we're going to get any dinner tonight! It's twenty minutes after six."

There was a long silence. The clock on the bureau ticked merrily, the odor of steak grew stronger, the "female basso" struck the preliminary bars of "The Rosary."

"I'm a terrible goose," Mrs. Perkins flung into the stillness; "but we've never been like other people in this business, Joe. Most of 'em change partners as if they was waltzing. Those Millers downstairs have been married three times apiece. I never wanted any other man, Joe, and you—"

"I never saw anybody else that made any great hit with me."

"When we got married I had some looks myself," said Mrs. Perkins. "The newspapers printed a lot of my pictures. I'm not as young as I used to be."

"You're no candidate for an old ladies' home—not yet!"

"I've faded out some," Mrs. Perkins went on. "It's hard work, doing the twice-a-day and a new town every week. I don't mind it, because we was together. It's terribly lonely unless you've somebody to turn to. That's how we got—got sentimental. Do you remember? You signed me to play Molly. 'You've got to have a pretty girl to play Molly,' you said to me, just like you said today. So we went out to Chicago and opened at the Haymarket. After that we went on the Orpheum Circuit."

"We got three hundred a week that first season," commented Mr. Perkins wistfully.

"We was together quite a lot—we had to be. Twice a day at the theater, and then there was the railway jumps, and often we had dinner and supper together. There wasn't anybody else for you to fall in love with Joe, and so—well, that was nine years ago. There's some difference in a woman between being 26 and being 35. Sickness don't help any, either. I can tell you. I didn't think I ever noticed it as much as I did today—when Miss Ross was sitting there by the bureau."

"A man don't have to get stuck on a girl just because they're acting together!" exclaimed Mr. Perkins.

"No," agreed the woman in the folding-bed. "He don't have to."

The raucous note of the dinner-bell clanged in the hall below. It was followed by the sound of many voices.

"Hello!" cried the "female basso." She had fairly run into the Millers. "You'll have to get a move on if you do your turn tonight!"

"Oh, it's only up the street," returned Mr. Miller.

Mr. Perkins put on his coat. He had taken it off to write. He wrote more easily in his shirt-sleeves.

"If Annie had only lived," said Mrs. Perkins, "she'd a been a lot of company for me, while you was away. She looked like you too. We'll be all broken up, won't we?—you on the road, and me here, and Annie lyin' way out there in Salt Lake. How time flies! It don't seem six months ago that we was holding hands in that little graveyard, and it's more than that many years. You called me a 'child-mother,' do you remember? You wouldn't call me a child now, I guess."

"You're a worse child than you ever was!" exclaimed Mr. Perkins. "And you're prettier too." He walked over to the folding-bed and pressed the thin hand lying on the coverlet. "You're prettier to me."

"Joe!" said Mrs. Perkins. "Joe!" She swallowed something hard in her throat. "Joe, you'll be late to dinner."

"I don't care," he replied. "I'm going to mail this postal-card first, anyway. It's to 'Iss Rose. She'd better look for another engagement, I guess. I'm going to do a monologue."

He went down the hall, singing the new song of the "female basso." "Where love is there's always spring," he sang, two full notes off the key.

Mrs. Perkins no longer held her breath. There was nothing to prevent her sobbing—now.

Two Drys Face Being Dismissed or Transferred

Two veteran agents of the Federal prohibition service in Los Angeles are to be either transferred or let out of the service, according to rumors prevalent at the Federal Building yesterday. The two are Charles Iverson and Henry Aiken, who have been in charge of enforcement work in Fresno for the past few months, and previous to that active in apprehending violators here.

Prohibition Administrator McReynolds's comment was that Iverson asked for a transfer to Chicago, and in the event he did not get it he may remain in Fresno. Maj. McReynolds denied the men had been ordered to hand in their resignations, and said the records of both are clear and praiseworthy.

More than a dozen agents recently were let out of the prohibition department by Maj. McReynolds, who stated that his action was necessary because of the lack of funds to pay them.

PLANS FOR CLEANING CULVERTS ANNOUNCED

City Engineer Shaw yesterday reported to the City Council that storm-water drainage culverts under the Southern Pacific Railroad tracks at the intersection of Van Nuys Boulevard will be cleaned by the maintenance division engineering department in order to have these culverts work efficiently during the coming rainy season. The Van Nuys Chamber of Commerce had requested improved drainage conditions.

TWO MORE JULIAN CASE SUITS FILED

Usury Actions Ask Treble Damages and Interest; Trial Next Week

With the District-Attorney's office putting the final touches to the case of the State against the fifty men indicted on pool-operating charges in the Julian Petroleum Corporation crash, receivers for the corporation yesterday filed two additional civil usury suits for a total of $33,320.

The suits, which seek the recovery of the interest paid plus treble damages as provided by law in usury cases, are aimed against Barney Morris and M. Ribstein. The suit against Morris asks for a total of $25,320, and that against Ribstein for $8000.

It is set forth in the suit that Morris, from August 4, 1926, to February 16, last, made four loans to the corporation on which he received usurious interest. Ribstein, it is charged, made a loan to the company of $20,000 on July 31, 1926, and got $22,000 in return.

Chief Deputy District-Attorney Davis, who is preparing the Julian prosecution, scheduled to start on September 6, next, with a group of eleven defendants, including S. C. Lewis, resigned and indicted head of the corporation, stated yesterday that he was busy amassing the evidence and completing the details for the trial, in view of Superior Judge Stephens's decision Monday upholding the validity of the indictments returned by the grand jury.

REPORT ON HEALTH INSPECTORS ADOPTED

The City Council yesterday adopted the report of its Health and Sanitation Committee recommending the employment of thirteen inspectors for health-department work in the parochial schools in Los Angeles.

NEWS OF THE CAFES

Natalie Kingston, First National film star, will be the guest of honor in Brandstatter's Hollywood Montmartre Cafe this evening, in celebration of Wampas Baby Star Night. Also, a new series of dancing contests being held under the auspices of the Robertson company and the Van Raalte Company will take place, with the feminine winner receiving a merchandise order for women's wearing apparel. Miss Kingston, who will entertain a party of film celebrities, will act as judge of the dancing contest and also will award the prize to the winning couple.

PREPARES FOR FAIR THRONG

The annual Orange County Fair will open at the fairgrounds, two and one-half miles from Santa Ana, next Monday and will run for six days, according to R. L. Bixby, manager of the Saint Anns Inn in Santa Ana.

In anticipation of large crowds of visitors to the fair, and also of Labor Day celebrants, Mr. Bixby has arranged for his regular table d'hote chicken dinner to be served in his inn on Sunday and Monday from noon until 8 p.m.

Also, a special fair luncheon will be served at noon on the days following Monday during the time the exposition will be held, with specially prepared evening meals on those days.

The Orange County Fair promises to be very interesting, including in its program a rodeo, horse show, sham battle, racing and Indian village, a number of beautiful feature exhibits, an auto show, an industrial exhibit, a farm-products exhibit, a dog, chicken and rabbit show and a joy zone.

FASHION SHOW AT COTTON CLUB

More than a score of beautiful mannequins, all winners of prizes in beauty contests, will be seen tomorrow evening in Sebastian's Cotton Club in a most comprehensive revue and fall fashion display.

The display will be under the direction of Joseph A. Eliason, producer of the recent Hollywood personality pageant.

In addition to the latest creations in women's wear for all occasions, more than $150,000 in furs will be exhibited. Dan Tobey will officiate as master of ceremonies.

GROTTO CHEF, OLD-TIMER

lights on the success attending the B and M Tamale Grotto, now located at 1604 North Highland avenue, is the fact, as recently announced by the cafe management, that for the past twenty years the same man has prepared their chili and tamales.

Although the Grotto is just nearing the end of its second year in Los Angeles, it originally started in Spokane, Wash., over a score of years ago, during which time it enjoyed a tremendous demand for its Mexican products. Since moving to Los Angeles, the Grotto has been favored with an ever-increasing patronage which bids fair to equal, if not, surpass, that which it formerly enjoyed in Spokane.

The furnishings of the unique cafe are restful and pleasant. Cocoanut trees are scattered here and there, and varicolored lights throw a soft glow over all.

Drain Relief Fund Refused

Despite the efforts of Councilmen Alber and Hughes to obtain immediate storm-drain relief for the district at Beverly Boulevard and Virgil avenue, the City Council yesterday declined to appropriate $30,000 from general funds for storm drains in that district.

The improvements will be a part of the Arroyo de la Sacatela storm-drain system, but litigation has delayed construction in the district, and at least six months will be required to start new proceedings. Councilmen Alber and Hughes asked for the appropriation now so that construction can be completed before the rainy season. The Council majority said that to finance district improvements from general funds will establish a dangerous precedent and is wrong in principle.

COUNCIL TURNS DOWN OVERTIME PAY ROLL

The City Council, in pursuance of its economy policy of eliminating overtime payments for city employees, yesterday refused to approve an overtime pay roll for sewer-maintenance employees. The Council turned down a report of its Personnel Committee, which recommended payment of time and one-half for employees of various departments required to work overtime. The Council has adopted the policy that employees who work overtime shall be compensated by time off.

TWO OFFICERS NAMED BY CONSULAR CORPS

Announcement was made yesterday of the election of Count L. S. De Besa and Adrian Hartog as secretary and treasurer, respectively, of the Consular Corps. The former is Vice-Consul of Peru and the latter Vice-Consul of the Netherlands here. C. E. Roberts, Costa Rican Consul, is dean of the corps and Charles Winsel, Vice-Consul of Belgium, is vice-dean.

The LAST WORD

By ALMA WHITAKER

MOTHERS AND MOTHERS

If some mothers spoil their children shamefully, there are also children who spoil their mothers. We all know about the children who, when given an inch, take an ell, which measures forty-five inches.

But we are less familiar with the mother who, when given a pound, takes a ton. Not because she is rare, but because her children are so dear that we feel she must be very, very dear to deserve it.

This kind of a mother always gets her own way. She will hint. If that fails, she will ask. If that fails she will sulk. And if that fails she will go to bed sick and weep miserably on her pillow and send for the doctor. When she gets her own way, her ailments are all cured and she is the sweetest old dear. The most important thing in that sort of a family is keeping mother a sweet old dear. Anything else is extremely uncomfortable for all concerned.

But the disturbing thing about these spoiled mothers is that they invariably have nice children. It takes nice children to keep that sort of mother sweet. And the nicer the children, the more surely outsiders feel that this mother must be the ideal mother.

Whereas, the mother who foolishly, foolishly, tries to let her children do everything they want, who waits upon them, pets them, shudders to deny, correct or punish them, and penalizes herself day in and day out to make things for them. Yet her intentions are affectionate and unselfish, and her very selflessness creates objectionable children.

The perfect mother has not yet been born. She must have such marvelous good judgment, she must be so wise, so well-balanced, so kind and loving, so industrious—and yet so just. She must be unselfish, and yet command affection and devotion from her children. She must give, give and yet know just when and how to deny. She must know how to treat every child as an individual, because what are good methods for one child may so easily be all wrong for another. She must have rules and exact discipline, and yet encourage initiative, enterprise, freedom of thought, responsibility. She must be pastor, teacher, doctor, nurse, guide, philosopher and friend all in one. She must be cheerful and gay, yet serious and critical. She must know when to praise and when to blame. She must never magnify faults or belittle achievement. She must know when to sympathize and console, and when to tease, when to laugh tears away. And she must always, always forgive.

The most any of us can do is to come as near to that ideal as possible—which is exactly what we do, this vast army of average mothers. It is usually rather our judgment than our hearts that is at fault. We, most of us, do the very best we know, against or with all the tremendous influences that come into our children's lives. If some of us are a trifle selfish at times, that can be good for the children, too—once in a way. The completely selfless devoted mother can often cause the most harm.

But the selfish, exacting, spoiled mother will ultimately achieve one of two things. If her children have strong characters they will ultimately scorn her and rebel. If they are weak characters, she will break their spirit and transform them into spineless underlings, kill every bit of initiative they ever had. No parent has a right to monopolize the lives of their children.

All of which profundity won't change a single mother. We shall go on being varied and peculiar and faulty to the end of time, and wonder where and how we failed.

To Keep that Schoolgirl Complexion

By VILMA BANKY

© 1927 Fanchon Beauty Features

Don't gamble with your skin. Use only a true complexion soap

SKIN cleanliness is the modern basis of beauty. The rule for that schoolgirl complexion is never to leave powder, make-up or rouge on your face over night.

Now beauty experts urge careful washing with soap and water, regularly, each night.

But be sure you use only a true complexion soap. Be sure it is a beauty soap, one made for that purpose and no other. For otherwise you risk much.

Palmolive Soap has changed the world's conception of what a beauty soap should be. Before its creation all soaps were adjudged too harsh for women's faces.

Made of true cosmetic oils, made solely for ONE purpose, to protect the skin, Palmolive is the most widely urged soap in the world today for complexion use. In Paris it is supplanting domestic soaps.

For true skin beauty, get Palmolive today. Cleanse the skin with its balmy olive and palm lather regularly, and particularly at bedtime every night.

Do that for one week. Note how much better your skin. Costs but 10c a cake. Take care that you get the genuine Palmolive. Green soaps represented as of olive and palm oils are not the same. They are but crude imitations. The Palmolive-Peet Co., Chicago, U. S. A.

HARVARD SCHOOL
AN ACCREDITED SCHOOL FOR BOYS
TWENTY-EIGHTH YEAR OPENS SEPTEMBER 20th—R.O.T.C. unit. Sixth to twelfth grades inclusive. Rt. Rev. Joseph H. Johnson, D.D., Bishop of the Episcopal Diocese of Los Angeles, President. For information address the Headmaster, 1861 S. Western Avenue, Los Angeles, Calif.

SOUTHWEST Military SCHOOL [Builder of Manly Boys]
Athletic work—Primary, Intermediate and High School courses. Music—Piano, violin, virginal and vocal instruments. Industries—Woodwork, wood finishing and pattern making, iron painting and forging; automobile and airplane engine; ignition and automotive electricity. Preparatory department. Cherry Blvd. and 21st St., Long Beach, Calif. Mail address, Lock Box 404. Tel. Long Beach 534-162.

PAGE MILITARY ACADEMY
A BIG SCHOOL FOR LITTLE BOYS.
The largest school of its class in America. Send for catalog.
1235 Cochran Ave. WHitney 1158.
ROBERT A. GIBBS, Headmaster
Not best because largest, but largest because best.

California Military Academy
For young boys, 1st to 9th grades. Open all year. We teach boys how to study. First, kindly discipline. Fine gymnasium. Well equipped playground. Manual training. Piano, band, dancing. Day pupils may remain until 6 and on Saturdays. 22nd year. E. William Hatch, 4001 Venice Blvd. (W. 18th.) Phone EM. 0825.

URBAN MILITARY ACADEMY
Satisfied parents year after year return their sons to this Great Outdoor School, because of outstanding leadership in WELL ROUNDED EDUCATION—24TH YEAR OPENS SEPT. 13. Enroll Now. 637 WILCOX ST. GL. 4197.

Dancing Schools

ERNEST BELCHER'S CELESTE SCHOOL of DANCING
Ballet, Character, Oriental, Grecian
634 W. 15th St. (Information on request) WEst. 9052
Branches in Santa Monica, Long Beach

CINDERELLA ROOF
PRIVATE INSTRUCTION DAILY.
OPEN-AIR COLONNADE STUDIO.
No Embarrassment—Expert Instructors.
Supervision of MR. JACK ASCH.
Tel. TRinity 0830 for Appointment.

POWER BUREAU AGAIN BLOCKED

Right to Build Steam Plant Denied by Court

Judge Refuses to Modify Previous Injunction

Declares City Charter Not Observed in Project

Another attempt on the part of the Bureau of Power and Light to obtain court authority to build a steam generating plant, in spite of the vote of the people at the June election, was frustrated yesterday by Superior Judge Tappaan when he refused to modify an injunction obtained by the Southern California Edison Company, suing as a taxpayer. Judge Tappaan held that the bureau had not complied with the city charter in budgeting the necessary funds. He set the injunction case for trial on its merits for October 3.

Chief Engineer Scattergood issued a statement declaring the right of the bureau to construct such a plant is not involved in Judge Tappaan's decision, which, he said, is based purely on technical grounds, relating to the form of budget. Both the charter and the budget form are new, he said, and have not been tested in the courts.

Judge Tappaan called attention to various court decisions declaring that charter limitations are very strictly construed and said it was apparent to him that the transfer of funds proposed to be made to construct the plant is directly prohibited by the city charter.

The Southern California Edison Company, in its suit, contends that such a plant can only be constructed from proceeds of a bond issue voted for the purpose and that the efforts of the Power Bureau to use current revenues for the building of such a plant are illegal. A temporary injunction was granted some time ago and the courts have denied several motions to have it modified.

The Edison company is seeking, in another action, to prevent the building of the plant on the ground that it is a violation of the city's contract with the Edison Company, which has several more years to run and in which the city agrees to buy from Edison all power needed and not produced by its own waterpower plants on the Aqueduct.

SUIT WON BY PHONE COMPANY

Decision Rendered in Tax Refund Action Against County Involving $71,000

An opinion of far-reaching importance in tax matters has been written by Judge Yankwich of the Superior Court in deciding the suit of the Southern California Telephone Company against the county of Los Angeles for a refund of $71,000 tax collected on the assessment of a recently constructed building, planned for occupance as an exchange.

The point at issue was whether the building at the time the assessment was made was actually in use as operative property. Under the tax law, all operative property of public utilities is subject to a tax by the State and exempt from county taxation.

The building in question, on the assessment date, was not in actual use as an exchange building. Nevertheless, the county levied a tax. The company argued that as the structure was manifestly intended for immediate operative use, it was operative property within the meaning of the tax law. With this view Judge Yankwich concurred.

The decision probably will be appealed. Large sums of county income over the State are involved each year in the same situation.

Complainant in Alienation Case Sued by Spouse

Dr. Charles H. Wake, who recently sued George W. Roach, oil operator, for $150,000, asserting alienation of the affections of Mrs. Catherine Wake, was made defendant in a suit for divorce filed yesterday by Mrs. Wake.

Mrs. Wake charged her husband had threatened to bring disgraceful charges against her in a divorce suit of his own unless she would aid him in his case against Roach.

In her divorce complaint she declared the allegations made by Wake in his suit for heart balm are false, and that Wake had deliberately thrown her into Roach's company. His method, she said was to take her over to Roach's home to listen to the latter's elaborate radio, and then excuse himself On her way home he would harry her with charges of misconduct, she charged.

Evidence Taken for Gas Merger

Evidence was heard yesterday by W. C. Fankhauser, financial expert of the State Railroad Commission, in the proposed consolidation of the Southern California Gas Company and the Midway Gas Company.

E. P. McAuliff, land expert of the commission, conducted the cross-examination in regard to land valuation, and Charles Grunsky, gas-electric engineer, examined the evidence on appraisals of equipment.

The matter now goes before the commission for consideration.

TRIAL FOR SUSPECT IN THEFT OF PURSE

Accused of the theft of a purse from the home of Mrs. Sophie Walker, 108 North Cummings street, Robert Emmett, alias Robert Wilson of 2119 South Grand avenue, yesterday was held to answer to the Superior Court by Municipal Judge Westover on a burglary charge. Emmett, is asserted to have thrown the purse into a parked automobile, where it was recovered following his arrest by police, who chased him several blocks. Judge Westover fixed Emmett's bail at $3000. Dep. Dist.-Atty. Heinecke prosecuted at the preliminary hearing.

DOG HAS FILM PERSONALITY

One of Few Suited to Act in Pictures

Gertrude Olmsted and Flash

DOGS have personality just the same as humans, but the reason there are so few dogs on the screen is because fewer dogs have personality than humans. It was personality that won stardom for the latest canine actor of the screen, "Flash," a police dog just signed by Metro-Goldwyn-Mayer. Harry Rapf, producer, who discovered Rin-Tin-Tin and Peter the Great, also discovered that Flash had screen personality.

Now he is the pet at the Culver City studio and yesterday was made an honorary police captain by Mayor Reve Houck of Culver City. Gertrude Olmsted, screen star, posed with Flash after he got his police badge.

Rapf says Flash is one of the most intelligent screen dogs he has ever seen. The dog was trained by George K. Spoor, Chicago brick contractor and police dog fancier. Flash can distinguish between large and small in similar objects, between right and left, and performs many tricks. He understands commands in German as well as in English.

SON OF PANAMA HEAD HERE

Roberto Chiari on Tour After Diplomatic Mission to Study Sugar Industry

Roberto Chiari, son of the President of the Panama republic, is spending a few days in Los Angeles at the Alexandria. He is making a circuit of the United States before returning to his own country. He came to Washington several weeks ago as a bearer of important communications to the Minister of Panama, having to do with the canal treaty between this country and the Central American republic. The exact nature of the mission he is not at liberty to explain.

Chiari's father has been President of Panama since 1924 and during that time the son has acted as aide-de-camp to his father. He was also aide for four months to Dr. B. Porras, who preceded his father. He says he has no political aspirations himself. On this trip through the United States he says he is learning many new things that will be most useful when his father's political life is over and they again take up active work in the family sugar business.

ROBERTO CHIARI

"I only wish that I could speak your language better," Chiari said, "so that I could really make you understand how wonderful this country is to me. Every day I learn something new and of practical value and I find the people I meet charming and hospitable."

Since leaving Washington Chiari has visited most of the large cities on the way to the West, and after a trip up the Coast he hopes to return to Los Angeles for a day or so to visit the motion-picture studios. On his way back to Chicago he will stop at the Grand Canyon and Yellowstone Park and will arrive in Chicago in time for the Dempsey-Tunney fight.

Chiari said he is very much pleased to have this visit in the United States and to know the people better, because of the high regard felt for Americans by the people of Panama. They have a great appreciation for all that the United States has done for them and for what American support means to them, he said, and they always welcome visitors from this country with enthusiasm.

Wife Balks at Washing Neck

William P. Hollman never grew up, to the extent of taking care of his own neck-washing, his young wife, Lois Hollman, complained to Judge Sproul yesterday.

Invited by her attorney, John J. Craig, to tell her troubles freely and openly to the judge, she said:

"If I wanted to hug him, I had to wash his neck first. His folks told me that as long as they had him, it was just one continual struggle to keep his neck respectable. I don't want to waste my young life wielding a wash rag."

Judge Sproul emancipated her from the wash rag by granting her a divorce.

OIL STOCK PROMOTER ARRAIGNED

J. W. Alford Appears as Local Office Prepares to Extradite Him

While deputy district attorneys yesterday were preparing extradition papers for J. W. Alford, indicted on eight counts of violating the Corporate Securities Act, the subject of their endeavor walked into the District Attorney's office and surrendered to Ben Cohn, chief investigator.

Alford had been arrested at Fort Worth, Tex., but furnished bail for his appearance here. He then came immediately to Los Angeles. It is charged that he sold various persons preorganization stock in the Panhandle Petroleum Company, Cimarron county, Oklahoma, without having a permit from the Corporation Commissioner.

Alford was arraigned before Superior Judge Bishop, where he furnished bail of $3500 for his future appearance, and was released.

DAHLIA SHOW QUEEN RACE STIRS WOMEN

BUENA PARK TO HAVE FIFTH FLOWER EVENT SOON; RECORD LIKELY

Who will be selected "queen of the dahlias" at Buena Park next Friday is the question interesting Orange county women as the fifth annual dahlia show of the Buena Park Woman's Club draws near. According to an announcement made yesterday by Mrs. Caryl Snyder, general chairman of the show, nearly 100 Orange county girls have entered the race for dahlia queen, or more than twice as many as in past years.

Due to the dahlia queen contest and the interest it has aroused among the hundreds of friends and admirers of the contestants in the county, the largest attendance in the history of the show is expected this year, Mrs. Snyder said. Those leading in the dahlia queen contest are Grace Burns, Santa Ana; Fern Fetters and Helen Page, Buena Park; Blenda Probst, Anaheim; Lillian Affachiner, Fullerton; Suzanne Kellogg, Yorba Linda, and Charlotte Bingham, Cypress.

LOVE POTION CASE IN COURT

Physician Accused of Attempt to Remove Inventor So He Might Pay Attentions to Wife

Weaving an ingenious chain of circumstances about the head of Dr. De Nelson Smith, accused of administering slow poison to Peter R. Gonsett, Judson yesterday sought to prove that Dr. Smith's ulterior motive was to steal the defendant's invention.

After expert witnesses had given technical testimony, tending to show that the pills administered to Gonsett, containing digitalis, mercuric salts and strychnine, prescribed by Dr. Smith, were more than sufficient to cause death if not administered intelligently, Judson placed Gonsett on the witness stand in an effort to prove that Dr. Smith was financially interested in the invention.

Gonsett, who recently perfected an automatic lighting system, charges Dr. Smith with giving him the poison that he might be free to receive the affections of Mrs. Gonsett, convinced that Dr. Smith was breaking up his home, the plaintiff installed a microphone, rigged one end into the garage and heard the asserted conversation of his wife and the physician, he testified.

Then, he stated, he had a chemical analysis made of pills given him by the physician. Rex E. Welch, police surgeon, and Dr. Paul E. Bowers offered technical testimony as State witnesses, seeking to prove the peril of the poisons.

With Mrs. Irene Gonsett, the wife, yet to go on the stand, Municipal Judge McConnell yesterday continued the preliminary hearing until this morning. Bail remained at $2500.

PARAMOUNT DIRECTORS SHIFTED

Von Sternberg Directs Jannings, Fleming Has "Abie;" Dorothy Gulliver Is Borrowed by Warners; Ben Lyon to Play "Harold Teen"

BY GRACE KINGSLEY

There was quite a lively running in and out of offices and slamming of doors yesterday at the Paramount studios, all the excitement being caused by an unexpected and swift change in directors and other officials connected with Emil Jannings's next picture.

EMIL JANNINGS

Josef von Sternberg, Mr. Schulberg revealed, will direct Emil Jannings's next starring vehicle, instead of Victor Fleming, who has been announced as Jannings's choice.

Anne Nichols, author of "Abie's Irish Rose," was responsible for the shift. Victor Fleming was to have directed the famous story of the Jewish boy and his Irish sweetheart following the next Jannings picture. Miss Nichols, however, wired that she will arrive in Hollywood the latter part of next week, several weeks sooner than she was expected. Thus plans to produce "Abie's Irish Rose" as a Paramount special with Fleming directing were advanced accordingly, and Mr. Schulberg was forced to find a new director for the Jannings film.

The coming one will be the second picture on which the European star and Von Sternberg have been associated for Paramount. Von Sternberg collaborated with Benjamin Glazer on the story for the Jannings picture just completed, titled "The Street of Sin," which was directed by Maurits Stiller, and which is declared to be Jannings's greatest picture to date. Von Sternberg's picture, "Underworld," is making a sensational success everywhere it is being shown.

Dorothy Gulliver With Warners

Even so refulgent a star as Rin-Tin-Tin has no cause to be ashamed of the human cast which has been gathered together for that illustrious canine's next picture for Warner Brothers, titled "Dog of the Regiment."

First and foremost Dorothy Gulliver, who has been starring for Universal in "The Collegians" series of pictures exploiting the youth of today, has been borrowed to play the feminine lead in the picture while Tom Gallery has been engaged for the masculine role opposite her. Miss Gulliver's work has lately attracted widespread attention, with the result the Warners borrowed her from Universal.

Gallery staged his film comeback with the Warners in Monte Blue's picture, "One Round Hogan," and there is a possibility he may sign on a long-term contract.

Ross Lederman, who has been an assistant director for Warner Brothers for several years, and who inaugurated several brilliant efficiency methods, has been elevated to the rank of director, and will assume his imaginative wish his production.

Charles R. Condon wrote the script for "Dog of the Regiment."

Rosemary Cooper with Griffith

That vividly expressive and very lovely young actress, Rosemary Cooper, has gone and got herself a job with United Artists and D. W. Griffith, which news will be most pleasing to her fans.

Rosemary Cooper

Miss Cooper is to play an important part in "Drums of Love," a role for which some fifteen other young actresses were tested.

The role comes to Miss Cooper at a time when it is most appreciated, following a streak of hard luck. Miss Cooper broke her ankle a few weeks ago and the very next day was offered two roles, neither of which she could accept. So that it was with offerings laid on the altar of the god Luck that she signed the contract yesterday.

Other members have also been added to the cast, including Eugenie Besserer, in a big role, and Sidney De Gray and Charles H. Mailes in other important ones.

Patsy Ruth Miller Busy

For the third time since she began free-lancing, back in March, Patsy Ruth Miller is going back to F.B.O. to make a picture.

Miss Miller yesterday signed to play the featured feminine role in F.B.O.'s "The Red Coats of Canada," a super-special to be released on their Gold Bond program, and a story of the north woods and the Canadian mounted police. Robert De Lacy will direct.

Ben Lyon Next Week

That much-traveled young man, Ben Lyon, will be in our midst about the middle of next week, according to reports from First National, to whom he is under contract. He will accompany Robert Kane, who is to produce his pictures in the West.

BEN LYON

There is every likelihood in the world, we hear, that Lyon will play the featured name part in "Harold Teen" when that picture is filmed from the comic-strip hero's doings.

Ruth Stonehouse Weds Soon

After October 1, Ruth Stonehouse will answer to the name of Mrs. Felix Hughes. On that date she will wed Hughes, who is the brother of Maj. Rupert Hughes, noted writer.

The pair will take a short wedding journey, after which they will take up their residence in Beverly Hills.

Charles Logue Refuses Cut

An alteration in his contract with Universal, involving a cut in salary, was refused yesterday by Charles Logue, who supervises general productions for the above-named company, according to word received by us yesterday from Logue's representative.

Logue had no plans to announce, but it is known that he has received offers from two other companies. Whether the matter will be patched up with Universal, or whether he will leave the concern, is to be settled within a few days.

Priscilla Dean in Vaudeville

Priscilla Dean is looking for a sketch with which to enter vaudeville, as she has two offers from the two biggest circuits. She has been playing in Columbia Pictures, but the company has not lately found a vehicle suited to her, wherefore she has been idle, and Miss Dean's pep simply won't allow her to be idle.

Los Angeles River Honored

You needn't laugh at the Los Angeles River any more. Not only has Mervyn LeRoy, First National director, discovered that it actually existed, but the stream has attained to the dignity of a location whereon scenes for a picture will be made. No, it isn't being used for desert stuff, either, but for some sea-inlet scenes in "No Place to Go."

By installing a sandy beach, backing the water up 100 yards or so and planting some South Sea palms in the dense underbrush bordering the river, a coral-island lagoon was created, on the edge of which Mary Astor, Lloyd Hughes and Virginia Lee Corbin are doing their stuff before the cameras.

SOUTHLAND VETERANS IN BEACH CAMP

Fortieth Annual Meeting of Association Opens and 600 Members Attend

By a "Times" Staff Correspondent

SANTA MONICA, Aug. 30.—Between 500 and 600 members of the Southern California Veterans' Association are attending the fortieth annual ten-day encampment, which opened at the Pacific Palisades last night.

A reception and short program were given and the delegates welcomed to the encampment by Dr. Oren B. Waite, executive vice-president of the Pacific Palisades Association. Dr. O. H. Monnett of Los Angeles, Commander of the encampment, responded to the welcome.

The annual flag-raising ceremony will be held tomorrow morning at 9 o'clock, with Judge Langley of Santa Monica presiding as the master of ceremonies. The "campfire" meeting will be tomorrow night.

The ten-day stay of the delegates at the encampment has been elaborately programed and special events of interest have been planned for each day.

Blaze in Brush at Mill Creek

A brush fire broke out late yesterday in Mill Creek, a branch of the Big Tujunga, about three miles north of Colby's ranch, but was reported practically under control last night.

The fire burned over twenty acres but was checked through the efforts of two score Forest Service men hurried to the scene in charge of Ranger Coulter.

ARSON LAID TO WOMAN

Complaint Filed Against Neighbor After Blaze in Garage

Charging that Mrs. Helen Steele, 40 years of age, of 1009 Crocker street, set fire to a garage, an arson complaint was issued yesterday against her. The complaint was issued by Dep. Dist.-Atty. Ham.

The garage, located at 1021 Crocker street, was owned by A. E. Mills. It is charged that the woman piled papers soaked with gasoline about the structure and set them afire.

Police officers who investigated reported that the woman had a quarrel with Roy Nickerson, an employe at the garage, and ascribed this as the cause of her asserted action. She is in the County Jail.

REICHER TAKES OATH

Assistant to State Attorney-General in Office

John D. Reicher, recently appointed assistant deputy Attorney-General by Atty.-Gen. U. S. Webb, was sworn in yesterday and will assume the duties of his new office at once.

Mr. Reicher is the son of W. L. Reicher, principal of the John C. Fremont High School. He is a graduate of Polytechnic High School here, and of Harvard law school, and has been connected with the Attorney-General's office for the past year.

MONKEY BRIDGES

It is often stated that monkeys sometimes cross streams by means of "monkey bridges." We doubt whether anybody has positive knowledge of monkeys forming a bridge by taking hold of each other in order to cross a stream. Monkeys do, however, hang on to one another from time to time and sometimes one will seize and climb up the tail of another. One will even sometimes draw another up. Dr. William M. Mann, director of the National Zoological Park, believes the story about monkeys making bridges was suggested by the maneuvers of the spider monkeys of South America. At any rate, it is usually spider monkeys that figure in the monkey-bridge stories. He thinks it may not be impossible that monkeys form such bridges. Dr. William T. Hornaday, the noted zoologist, who for thirty years was director of the New York Zoological Park, knows no one who ever saw a living monkey bridge and does not believe that such a bridge was ever made. Still he says it is dangerous to undertake to say what animals "never did" and what they "cannot do."—[Pathfinder.

INDIANS TO ENTERTAIN

When the Oklahoma State Society holds it fall picnic Saturday in Sycamore Grove Park, the program will be given by Indians from the home State. The Oklahoma contingent will occupy the entire left side of the picnic section and will have the grand stand and broadcaster for the program.

The date for the annual reunion for all those more than 70 years of age has been set for Saturday in Sycamore Grove Park. Jonathan Foulk, 110 years of age, will lead the procession with G. M. Cole of Pasadena, 101, next in order. The program will follow the basket dinner hour. Everyone more than 90 will be presented and the 89-year-olds will be called to the platform.

ENSEMBLE OF PIANISTS ATTRACTS

Tandler California Concert Draws Crowd; Miss Wells Wins Plaudits

BY ISABEL MORSE JONES

Adolf Tandler's "California Night" at the Bowl drew a crowd of several thousand last night. The twenty-four pianists were a primary attraction and their performance of numbers specially arranged in orchestral form was by far the most interesting entertainment of the varied program.

The list of pianists contained many well-known resident artists, whose precision, tone-coloring and various interpretative abilities were well blended. Mr. Tandler directed them with the baton. The clarity of phrasing and melody from so large a body of soloists was remarkable.

Coriean Wells is a singer with a future. After her performance of three coloratura arias in the Bowl last night, the question naturally arises, Where are the astute managers of concert and opera that they have not presented her in a way she deserves, before the public? Her voice is one of great beauty. Her tones are beautifully taken, she has a wide range and the bell-like quality of upper notes, which has made many a singer famous. Experience and opportunity are undoubtedly needed to round out her performances, but she has the prime requisites for success now.

Of Calmon Luboviski's rendition of the Lalo Symphonie Espagnole with Claire Mellonino at the piano augmented by the Little Symphony, there is little but disappointment to record. It was one of his bad performances. Only the sensuous beauty of his tone redeemed his playing from utter unworthiness.

Luboviski appears to have allowed success and freedom to still his self-criticism. He makes little attempt to keep his tempo variations within bounds, he spoils the shape of his phrases with an exaggerated rubato and last night he did not play even reasonably in tune.

Norma Gould's pupils appeared in the Nutcracker Suite by Tschaikowsky attired in many brilliant colors. Their youthful enthusiasm was quite charming.

A resident composer was heard with pleasure when Fredericksen's Suite "East of the Sun and West of the Moon" was played by the orchestra. It is a sweet musical fairy tale and brought applause for its composer.

"Sun-Up" Nears Final Curtain

Lucille La Verne is fast approaching the end of what has been a successful engagement in "Sun-Up" at the Egan Theater, where she will soon enter upon her sixteenth week.

"Sun-Up," as is generally known by this time, is a tale of elemental passions and is notable for the stark sincerity of its characterization. It is set in the hills of North Carolina, where if one is willing to accept the word of the Literary Digest in an issue dated the 13th inst., civilization has not yet penetrated, or is but slowly penetrating. The inhabitants are a hardy, lawless, slow-moving, almost inarticulate race. And Widow Cagle is one of them.

Lucas Remains a Second Week

Nick Lucas's crooning voice and melodious guitar are proving very popular as the headline attraction on the opening bill of the 1927-28 season at the Orpheum this week. So popular are they that "The Crooning Troubadour" will remain for another week as the headline attraction. For his second week, Lucas has announced that he will offer an entirely new repertoire of songs and record song hits. He will be surrounded by an entirely new bill of Orpheum Circuit features including Dainty Marie, the famous "Venus at Fifty" and her company.

DE LUXE THEATER IS LEASED FOR SCENICS

An important announcement made yesterday by West Coast Theaters, Inc., tells of the leasing of the De Luxe Theater on Alvarado street opposite Westlake Park to Alexander Hursh, president of the Pacific Development Company.

The theater is being redecorated and is to be rechristened the Romola, and will be devoted exclusively to travel pictures, featuring the slogan, "See American First."

The playhouse is scheduled to open tonight, with the scenic wonders of Arizona as the initial attraction, and many prominent personages have been invited for the premiere. Special musical features are to supplement the cinema program.

ALGERIAN TOWN MADE HABITABLE FOR STAR

Bebe Daniels went back to work Monday in the town of Oabi.

The Paramount star hasn't left the country, nor does she intend to for the time being. Oabi is a town in Algeria, but it's twin is at the Paramount studio, where Miss Daniels is starting her latest comedy, a story of desert love, titled "She's a Sheik."

Members of the supporting cast in the production are Richard Arlen, William Powell, Josephine Dunn, Walter Goss, Paul McAllister, Al Fremont, James Bradbury, Jr., and Bill Franey.

Clarence Badger is directing "She's a Sheik," which is an original story by John McDermott. Lloyd Corrigan is credited with the continuity.

MIDGET SIGNED FOR FILM, "BABY MINE"

Eugene Adams, less than thirty inches in height, will appear with Karl Dane, six feet four inches tall, in several hilarious sequences of the film version of "Baby Mine," which Lew Lipton is directing for Metro-Goldwyn-Mayer is the second co-starring vehicle of George K. Arthur and Dane.

Adams is one of the tiniest midgets in the United States and is famous the world over. Though he is in his twenties, Adams has to look up to see the top of a yardstick.

PLANS FOR HERSHOLT

Jean Hersholt, Universal star, is to be seen in a series of noted stage vehicles following his completion of the starring role in "Symphony," an original opus from the pen of Svend Gade, according to plans being formulated by Universal's executives.

"Necking" Treated as an Art

Allen Connor

Juvenile lead at the Belasco. There are, it seems, just ordinary "neckers" and "great neckers." The current stage hit is concerned principally with the latter kind.

STATE GETS "TRUDY" FILM

Gertrude Ederle, the first woman to swim the English Channel, has gone into pictures and has done herself proud, proving such a good camera subject that she is considering a new contract.

Trudy will make her screen debut in Bebe Daniels's latest Paramount production, "Swim, Girl, Swim," one of the special attractions booked for West Coast Greater Movie Season by Loew's State Theater, starting Friday.

"Swim, Girl, Swim," has been called Bebe Daniels's greatest screen comedy.

Clarence Badger directed "Swim, Girl, Swim," the adaptation of an original story by Lloyd Corrigan, who wrote most of Bebe Daniels's recent successes. In the supporting cast are Josephine Dunn, James Hall, William Austin and James Mack.

Aviation Night to Be Observed at Vine Street

Tonight at the Vine-street Theater, where the mirthful comedy, the "Wild Westcotts," is now playing, has been designated as aviation night, in honor of the great strides being made in aviation and the many history-making flights now in progress.

The thirty-two officers and fifty enlisted men that comprise the Four Hundred and Seventh-ninth Pursuit Squadron stationed at Clover Field, will be the guests of Henry Kolker and Arthur William Green, producers of "The Wild Westcotts." The Vine-street will have a "war-time" appearance as the men are to appear in full uniform.

By way of returning the compliment, Lieut. F. L. Hay of the squadron, will lead a five-ship formation over the Vine-street Theater at matinee time Thursday afternoon. In addition, Lieut. Hay, who is considered one of the best stunt flyers in the service, will perform several of his hair-raising tricks directly above the theater.

Cast Selected for Cohan Hit

The cast for George M. Cohan's "The Home Towners" has been chosen.

Frances Underwood, Robert McWade and Phil Tead, Landers Stevens, Cyril Gordon Weld, Hazel McConnell, Gloria Gordon, Thomas R. Mills, Edward Cassidy, Pearl Wyard, Douglas Lawrance and Burdell Jacobs comprise the dramatic personnel. Leslie Pearce has begun rehearsals.

"The Home Towners" opens September 12. "If I Was Rich," is the current attraction.

LUPINO LANE LACKS LADY LEAD IN LATEST

Lupino Lane is doing something different, making a comedy without a leading lady. As a matter of fact, the comedian is his own "leading lady" in this laugh-maker for Educational. He is showing his versatility by playing both roles. Even the villain, his brother, Wallace Lupino, appears throughout the comedy in skirts.

This comedy is said to offer the most amusing farce plot Lupino Lane has ever screened. Only at the beginning and end is his identity revealed. Lest it be feared that there are no feminine beauties in this Lupino Lane opus, the comedian divulges the news that he has twelve of the prettiest girls in comedies appearing in his support.

UNIVERSAL PRAISES "UNCLE TOM" ACTING

Reports from Universal City yesterday indicated great enthusiasm on the part of executives over the prospective hits of Margarita Fischer and Arthur Edmund Carew, who play the leads in "Uncle Tom's Cabin." Every effort is being made by Harry Pollard to edit the film in time to be in New York on September 16, and, though the picture was yesterday in more than thirty reels, it is stated that Pollard has determined just where the cuts are to be made to bring the huge film to footage. It is likely that Miss Fischer and Carew will attend the Gotham premiere.

"VIRGIN" PLAY MAY BECOME PHOTODRAMA

According to announcements made by Sydney Miller and Monte Carter, producers of "The Scarlet Virgin," Ramon Cerva's comedy drama at the Orange Grove, several Hollywood film producers have made offers for the screen rights to the play which is soon to close at the cozy little Grand-avenue theater.

Representatives of the Hollywood film concerns, it was said, have been studying the show almost nightly for the past two weeks in an effort to determine just how the cinema public might accept such a "daring" theme on the silver sheet.

Second Edition Is Rehearsed

The second edition of Will Morrissey's "Exposures" will go into rehearsal this morning at the Music Box Theater. Morrissey has sent out a call for fifty girls to report at the stage entrance and tryouts will be held for the chorus of the new show.

The success of the present show, for which no closing date has as yet been set, has persuaded Morrissey to remain in California, instead of returning to New York to produce a revue there, said to be his original intention.

Midgie Miller, who is costarred in the present attraction at the Music Box with Morrissey, will create and stage the dances for the coming production. Definite announcements as to the cast of principals will be made shortly, it was stated. Negotiations are said to be under way which, when consummated, will bring several stars to Los Angeles to appear in the forthcoming revue.

Tonight, a benefit performance will be given for the McKinley School for Boys, sponsored by the Kiwanis Club.

Alan Hale Does 'Moon' Version

Alan Hale, who directs and writes, as well as acts in the films, is going to do the initial screen version of "Moon Mullins," himself. Hale last week acquired rights to the famous Times comic strip, being read daily by 15,000,000 readers, and will make the initial adaptation of the laugh-able "Moon" in picture form.

While Hale has signed a new contract with the Cecil B. De Mille organization, he has purchased an interest in the Frank Willard comic strip for himself personally and the deal has no connection at the present time for studio affiliation. It is known that De Mille is grooming Hale for comedy stardom, with "The Blue Danube," in which Leatrice Joy is to make her next stellar appearance, as his histrionic successor to "Vanity" and "The Wreck of the Hesperus," shortly to be released.

Mercedes Will Head New Bill

Labor Day week, the second week of the new 1927-28 season at the Hillstreet Theater, will be one "replete with surprises." Mercedes, the mystic, will be assisted by Mlle. Stantons. Jean Adair, dramatic actress, will bring her little company in a skit entitled, "The Old Aristocrat," giving her an ideal opportunity for the type of work she excels in. Sidney Marion with Ottalie Corday will be seen in "Divertissements" of a different caliber.

Jean Barrios, just returned from the Antipodes, will be seen in a song and fashion revue. Slim Moore and his pal, George Charland, will offer a pot pourri of fun via the gymnastic route. Another Orpheum Circuit feature will augment the program.

Louise Fazenda and Clyde Cook will be featured on the screen in Warner Brothers "Simple Sis," directed by Herman Raymaker, with William Demarest, Myrna Loy and Billy Kent Schaefer in the cast.

HOLLYWOOD WILL BE SUBJECT OF DRAMAS

Hollywood, citadel of the films, is to be brought to the legitimate stage during the next twelve months through a series of three plays by Ralph Spence, playwright and title-writing expert, now in the cinema capital engaged in authorial labors.

The trio of plays is on the production schedule of James W. Elliott, who produced Spence's mystery drama, "The Gorilla," which scored here and abroad. The first of the series is completed and tentatively has been named "The Drug Store Cowboy." The others are to be called "The Pessimist" and "Hollywood."

JOLSON TO APPEAR ON STAGE HERE

Blackface Comedian Signs for Week at Metropolitan in September

Al Jolson has at last consented to appear on the stage of a motion-picture theater.

It was announced today by Harold B. Franklin, president of West Coast Theaters, that Jolson had signed a contract to appear for one week at the Metropolitan Theater, Los Angeles, starting September 5.

Jolson, for his one week's work, will receive the highest salary ever paid any artist for a similar engagement, it is said. The amount was not revealed by Franklin. The high salaries paid artists for personal appearances in motion-picture houses, or for that matter the salaries of all artists connected with motion pictures, have been so greatly discussed, that they have come to mean little with the public. The reason Franklin hesitates about announcing Jolson's salary for his one week's appearance at the Metropolitan, is, according to the story, that it is "so much higher than that ever paid anyone anywhere," that he feels it would not be believed.

It is known that the signing of Jolson brings considerable satisfaction to the "mammy" singer. For years he has wanted to play before the masses—those who could only afford the price charged for "the movies." Playing before the "small man and his family" was an impossibility for the black-face singer as long as he remained in the costly Broadway revues, where speculators fight for blocks of tickets for his shows. Paying $10 for a ticket to a Jolson revue on Broadway, from speculators, has not been uncommon during the past years since Jolson rose to his present height.

It is not known whether the singer expects to make a policy of appearing in motion-picture houses.

Arrangements for the signing of Jolson were made by Walter Meyers of the William Morris Agency, which agency has only recently established a Los Angeles office. The William Morris Agency has handled Paul Whiteman, John Philip Sousa, Harry Lauder, Sophie Tucker, Ted Lewis, Vincent Lopez and Ben Bernie.

Jolson will not appear in any other theater of any kind on the Coast but will, it is understood, return to New York soon after his engagement at the Metropolitan. His future plans will be made there.

Talent Sought for Prologue

Jack Laughlin, prologue producer, has interviewed no less than 2000 prospects during the last four weeks in seeking his talent for his stage presentation with "Loves of Carmen," which is to be the next film production at the Carthay Circle Theater, the management calculates. "Seventh Heaven" is now playing its eighteenth week at this house.

"Probably nowhere in the world is there as much available talent as there is right here in Los Angeles at the present time," says Laughlin. "Of course, the movies are responsible to a large extent, for they attract the best of the world's talent to our doors, and all cannot play in the pictures. This gives the producers a world of exceptional talent to select from."

Laughlin is making arrangements to import several artists from New York for his new production. He declares that he believes "Loves of carmen" lends itself to a "gorgeous" presentation even more than any picture with which he has been associated.

Film Cast Will Visit Morosco

The opening performance of "Seventh Heaven" at the Morosco Theater will be signalized by the presence of those who enacted the film version of the story, it is reported. The screen celebrities have been invited to be present Sunday evening.

Among the invited guests are Charles Farrell, Janet Gaynor, Dave Butler, Ben Bard, Frank Borzage, director, and others in the cinema cast.

There is widespread interest among thestergoers concerning the local production of Austin Strong's romance, according to Manager Schroeder.

This is the final week of "The Last of Mrs. Cheyney," Frederick Lonsdale's crook comedy.

The Morosco announces a special Labor Day matinee, Monday. This will be in addition to the regular Sunday-afternoon performance.

"Magic Flame" Proves Success

Ronald Colman and Vilma Banky in "The Magic Flame," the new Goldwyn production which is having its world premiere at the Million Dollar Theater, is said to be establishing new matinee attendance records at that house.

Mrs. Henry King, wife of the director of "The Magic Flame," was hostess to a party of fifteen friends at the Million Dollar last night. King is at present in New York.

"The Magic Flame" is the Million Dollar's second offering for West Coast Greater Movie Season. It was produced by Samuel Goldwyn for United Artists.

PLAY SHOP SPONSORS A PANTOMIME OPERA

"The Prodigal Son," a pantomime opera (introduced from the French,) will be presented at the Play Shop, 1635 Cordova street, this evening and the remaining three nights of this week.

The cast for the production includes Margaret Johnson, Edward Cavanah, Helen Johnson, Helen Boyd and Josephine Dillon Gable, the director of the performance.

Ignacio Del Castillo, who was formerly director of the Opera Nacional de Mexico, has been chosen as the musical conductor. Ralph Herman is the executive manager.

TOO FUNNY FOR WORDS

Although Charles Lamont, comedy director, does not subscribe to the view that pictures should be made entirely without subtitles, he has demonstrated his open-mindedness by making one: "The Half-Pint Hero," a fireman comedy starring Lupino Lane for Educational, which contains no reading matter except the introductions of the characters.

CHUCKLES from LIFE

Village Barber: Tommy, run over and tell the editor of the Bee that if he's done editin' the paper I'd like my scissors.

Bridge Post-Impressions

LEAD the fourth highest in your longest suit and subtract the cube root of eleven from pi times the radius squared. Define a surd; define two surds; define a half-dozen surds; what is their price, f.o.b., Detroit? If your partner bids one no trump, watch your step. Never take a divorce out in a major suit; not even in a minor one. Don't shoot until you see the whites of their aces. You must have tops, and three in support, or you are due for some wintry glances. Call out the trump. If it won't come, call out the Fire Department. Lead through weaknesses, but keep your powder dry. Two lines are parallel if no one pushes 'em apart. It is all right in most cases to start from the bottom and work up, not with a deck of cards. Learn how to keep score. You have no idea how much that helps. Never make a grand slam; the ladies will do that, conversationally and otherwise.

When you are sure that you know the game, remember Hiwell. He was supposed to know it, too.

Six of One

The president of the oil company was driving along the highway. "Ah," he mused, "I see that America is at last waking up to the need for beautifying its roads. Everywhere — everywhere those hideous, disfiguring ad signs are being taken down—and gas stations put in their places.

• • •

Out of Luck

"Don't you think that a man who'd hide behind a woman's petticoats is a contemptible coward?"

"Coward? He's an anachronism."

• • •

Curious

Caller: Does that dog bite?

Housewife: We just bought him, so I can't tell. Come in and see if he does.

• • •

The Plot Thickens

The popular novelist stirred in his sleep. "Why didn't they make twenty Commandments," he muttered, "instead of ten—for my characters to break?"

ART CLUB HOME OPENS TONIGHT

Winter Display Will Feature Formal Ceremonies

Collection Gathered Abroad by Aline Barnsdall

Exhibit to Remain for Month at Olive Hill Center

A notable contribution by Aline Barnsdall to poster art in America will go on display this evening when Hollyhocks, the magnificent new home that Miss Barnsdall has provided for the California Art Club, formally is taken over by the club this evening.

In her latest travels abroad Miss Barnsdall collected sixty-four outstanding specimens of English, Swiss, Spanish and other posters and brought them home for artists and advertisers to study in the hope that more beauty may be added to the posters that on our city streets are demanding more and more of the attention of the public. Many posters are in some instances by famous artists of note who turned their talents to poster work for the time and in other instances they are the best of the distinctive poster type thereof. Among the works are those of Spurrier, Taylor and Scott of England, Moser, Hurel and Hardy of Switzerland, McKnight Kauffer and others. Some of the work was developed under Wolfsberg of Vienna.

English railways are, in the opinion of Miss Barnsdall, in the lead in the art of the poster advertising. Germany seems to go to any magnificent or grotesque as the occasion seems to require. Other posters include themes having to do with shipbuilding, docks, aviation, sports, theaters, fairs, resorts, steamship lines and whatnot.

EXHIBIT IN GARDEN

The posters are exhibited on outdoor panels. Miss Barnsdall has had one of them in one of the unique features of the club rooms. Visitors are requested to vote on them as a matter of popular opinion may be obtained. Artists and advertising men are submitted on later occasions to the exhibit. It will be on view for a month.

Tonight's reception tonight is by invitation only, some 1500 or more having been sent invitations, E. H. Pinkham, president of the club, and Miss Barnsdall, club officials, and their wives will receive with the Hollywood Trio will furnish music and the galleries will be open to guests. Olla, water and sculptures by club members will be on exhibition. There will be an exhibit of art photography by some who are not members of the club.

CLUB TO RECEIVE

Whenever the club will receive visitors as can present personal cards the hours will be 2 to 6 p.m. and 8 to 10 p.m. Another invitation affair will take place, at which Lucien Gaud, Spanish violinist, will be heard. On Friday the club will receive a number of women's clubs and business men's organizations. Sunday club members will be open for themselves and personal friends from 3 to 5 p.m. Mrs. Ethel Peyser, executive secretary of the club, will be in charge of the reception.

Miss Barnsdall will leave Saturday for Europe, where she will spend the next year or two in travel. While abroad she will advance a number of ideas in mind for the development of Olive Hill into a more or less permanent center for Los Angeles. Her home at Hollywood Boulevard and Vermont avenue.

NOTES FOR GRAPE MAN CONDUCTED

Final Tribute Paid to Miss F. Pinkham by Many Friends at Services

Friends from all parts of Southern California, made during his forty-two years' residence in the State, filled the chapel of the W. Hollywood funeral parlors, 1815 South Vermont street, to pay a final tribute to Miss F. Pinkham, who passed away at her home, 607 St. Paul avenue, Oct. 22. The interment took place in Hollywood Cemetery.

Miss Pinkham formerly was prominently identified with the fruit and grape industry of Southern California, and even up to the time of her death maintained packing houses and a winery in the San Joaquin Valley. She also began an office in the Hellman Building. At the time of his death she was in years of age.

Miss Pinkham leaves his widow, Mrs. Ella Pinkham, and a son, J. R. Pinkham of Beverly Hills.

CHAUFFEUR FOR ACTRESS HELD

Del Rio's Driver Lands in Jail During Her Absence

Guillermo Costalis, chauffeur for Dolores Del Rio, cinema actress, was arrested and incarcerated in the County Jail yesterday on a charge of driving without permission a car belonging to the actress.

Costalis was arrested after investigation under Ben Cohn, chief of detectives in the District Attorney's office, found that driving the car while Miss Del Rio is on a trip to Honolulu.

The actress is said to be on the boat returning to this city. Messages were sent to determine the status of the case, and to ask if the chauffeur had authority to drive the car during the owner's absence.

COULDN'T BEAR HIS LOVE PATS

Wife Says Whisky Bottles Broken on Her Head as Caresses

Ida Kirk loved Boone Kirk, and she was willing to concede that he loved her, she told Judge Sproul yesterday. Nevertheless, she wanted a divorce.

"Judge, I loved him, but I couldn't stand his affectionate gestures," she related. "He would kiss me ardently one minute, and the next he would crash a whisky bottle over my head. It just fuckered me out."

She got a divorce.

GRADUATES WILL MARRY ON CAMPUS

Bovard Auditorium to be Scene of U.S.C. Couple's Wedding Ceremony

When Mildred Smith, June graduate of the University of Southern California, is married to Donald Henry Mugridge, who graduated as an honor student in the same class, she will have the distinction of being the first co-ed to be married on the campus of her alma mater. The wedding will be solemnized Sunday at 4 p.m. in Bovard Auditorium.

MILDRED SMITH

Not only will Miss Smith take her marriage vows in sight of classrooms where she and her husband received their higher education, but she will be carrying out the tradition of the pansy wreath. This is the wreath through which engaged co-eds step at an annual breakfast conducted each June. Miss Smith made known her intentions to marry Mr. Mugridge by this novel mode of announcement on June 3, last.

Romance awaited Miss Smith when she left for Los Angeles from Calcutta, India, where her father was pastor of Thoburn Church, to attend the local university, for there she met Mr. Mugridge. She and her brother, H. Jeffrey Smith, also an honor graduate and a close friend of Mr. Mugridge, were raised in India, but desired an education in their native State, California. Rev. Harold J. Smith and Mrs. Smith, parents of the bride, arrived recently from Calcutta to attend their daughter's wedding.

The college couple to be wedded have been noted throughout their four years of study here for their ability as students. Miss Smith was active in journalism and creative writing, while Mr. Mugridge devoted his time to the study of history. Yesterday he received an appointment for the coming semester as a teaching fellow in this subject at Southern California while he works for his master degree. He is amateur chess champion of Southern California and has played chess against sixteen opponents at one time.

Miss Smith is 21 years of age and Mr. Mugridge a year older. He is a nephew of the oldest living graduate of the University of Southern California, E. K. Currier, and lives at 1049 West Thirty-fifth street. Miss Smith resides at 926 West Thirty-fifth Place.

Grauman First to Double Gift in Chest Drive

Sid Grauman is first to announce publicly his intention this year to double the amount of his last year's subscription to the Los Angeles Community Chest, it was announced yesterday by chest officials. This money contribution, Grauman said, will be in addition to expenses he will bear in staging at Shrine Auditorium the Community Chest play "The Masque of Dedication."

Grauman's subscription during last year's Chest appeal was $3000. It will be $6000 this year, he stated. All persons who this year increase their contributions to the Chest budget will be entitled to honor membership in the Chest, it has been decided by the campaign committee.

"The Masque of Dedication" will be presented at Shrine Auditorium on Friday evening, October 28. Sixty persons, including stage and screen celebrities, will be in the cast.

WRITS ISSUED FOR PEAT FIRE

Three Plead Not Guilty to Nuisance Charge

Anita Baldwin Complaint Withdrawn by City

Owner of Land Takes Steps to Put Out Blaze

Growing out of the Baldwin Hills peat fire that has smoldered incessantly for the last four years and resulted in the serious burning of a score of persons, Chief Deputy City Prosecutor Concannon yesterday issued complaints charging maintaining a nuisance against R. E. Heath, Charles W. Cross and H. J. Dearborn.

The three defendants appeared before Municipal Judge Wilson during the day and pleaded not guilty. All demanded a jury trial and they were ordered to appear today before Judge Willis for setting of their cases.

Dearborn is representative of Miss Anita Baldwin, owner of the Baldwin Estate, where the peat-bed fire has been burning, while Cross and Heath represent the Sunset Fields Golf Club, whose property adjoins that of Miss Baldwin.

The complaint against Miss Baldwin was withdrawn Tuesday by the City Prosecutor when his chief investigator, Grove Vail, reported that steps have been taken to abate the nuisance.

Within the past week suits for $35,000 each were filed in the Superior Court by guardians of Dorothy Stamer, 7 years of age; Edmarine Turner, 14, and Bernardine, 16, all of whom were seriously burned about the hands and feet when they walked over the property, which is located near Jefferson street and Hauser Boulevard.

FILM EXTRA NEAR DEATH IN POISONING

Mrs. Billie Holloway in Hospital at Phoenix After Asserted Suicide Attempt

Mrs. Billie Holloway, 25 years of age, Hollywood motion-picture extra and at one time employed at the Hollywood Athletic Club as a manicurist, last night was reported to be confined to a hospital in Phoenix, Ariz., suffering from poisoning, which police assert was self-administered. Although her condition was regarded as serious, physicians predicted her recovery.

Charles Ogara, Los Angeles real-estate man, was questioned by Phoenix police regarding a visit, which Mrs. Holloway and her 7-year-old daughter paid to him at his hotel yesterday afternoon but was unable to furnish any clew to the reason for her attempted suicide. He is asserted to have told officers that he met Mrs. Holloway a week ago and had befriended her.

Mrs. Holloway left Los Angeles several months ago, presumably to go to her mother's home in Phoenix.

MISSISSIPPI VISITORS BID CITY ADIEU

Delegation Here to Boost Own Clime Learns Something About Southland

Members of the "Know Mississippi Better" party knew Los Angeles better when they left at 11 o'clock last night for Fresno on the next stage of their tour, which will take in twenty-five western cities. With no set program for yesterday, the 208 members of the party did as they wished, Catalina Island still the motion-picture studios coming in for most of the attention.

Those of the visitors who went to Catalina were met at the dock by William Wrigley, Jr., who extended the hospitality of the island and escorted them to Hotel St. Catherine for luncheon. This was followed by a tour of the submarine gardens and the island mines. First-hand information was given by the host on how engineering converted a "dry island" into a flourishing garden with young orchards planted throughout the interior.

Gov. Murphree, who is head of the party, and Representative Whittington, together with the winners of the "good-health" contest, visited the Paramount studios, where the Governor had his ten-gallon hat, presented by the El Paso Chamber of Commerce, autographed by Florence Vidor, a native Texan.

PUZZLING SIGN

A highway puzzle that has long troubled motorists was solved when Oakland boosters objected to official road signs showing San Francisco as only one mile west of Oakland. Four miles of salt water separate the two cities. Oaklanders were informed that since three miles of the trip are made by ferry, the official distance is given to accord with speedometer readings.

FEARFUL INSTRUCTIONS

LINDBERGH PLANS READY

Schedule for Southland Visit Already Complete; Additional Engagements Impossible

Col. Charles Lindbergh's program in Los Angeles on his arrival here on September 20, next, has been prepared by the Guggenheim Foundation which is directing his tour of the country and engagements other than those provided by this schedule cannot be considered by the executive committee in charge of the program here.

This statement was issued yesterday by W. G. Bonelli, president of the City Council and chairman of the Lindbergh executive committee in response to the numerous requests being made on that body to have the "lone eagle" attend various functions in his honor during his visit here. Bonelli emphasized the fact that the itinerary as outlined for the executive committee by Harry Guggenheim, sets forth that Col. Lindbergh will arrive here at 2 p.m. and that the entertainment program for him must cease by 9 p.m. to permit his receiving sufficient rest before proceeding to San Diego early the following morning.

"We are endeavoring to arrange our plans to conform with the Guggenheim schedule and in the limited time allowed us we are having enough difficulties in making these arrangements without considering requests that he be permitted to take part in some other program," Bonelli said.

PAUL KNAPP FACES LIFE FOR CRIMES

Confessed Desperado May be Released in 16 Years; Testifies at Wife's Trial

Paul Knapp, confessed desperado and highwayman, yesterday was sentenced by Judge Fricke of Superior Court to serve from sixteen years to life in Folsom penitentiary.

Knapp pleaded guilty to two counts of first-degree robbery, one of escaping from custody of an officer and another of committing a statutory offense against Miss Paula Drendall, motion-picture actress.

Judge Fricke ordered the sentences to run concurrently. Knapp also admitted a prior conviction on a charge of violating the Mann Act. Ten other felony counts against the defendant were put off the calendar on motion of the District Attorney.

Knapp later in the day appeared as a witness at the trial of his wife, Mrs. Josephine Knapp, his mother-in-law, Mrs. L. W. Murray, and J. Frank Bisbee, a bail bondsman, who are before Superior Judge Aggeler charged with aiding him to escape.

Mother Held on Charges Over Three Children

Mrs. Irene Butler, said to have once been the wife of William McElvan, so-called gypsy king throne aspirant, yesterday was held to answer by Judge Vicini of Juvenile Court to three counts of contributing to the delinquency of her three minor daughters.

Mrs. Butler is asserted to have permitted the girls, 14 to 18 years of age, to carry on clandestine relations with McElvan over a period of years. According to testimony adduced by Dep. Dist.-Atty. Florence Woodhead the oldest daughter is the mother of three children by McElvan while the second daughter is the mother of two. The third daughter admitted intimacies with McElvan, it was brought out.

Mrs. Butler is asserted to have perjury but was not apprehended until last week. Attaches of the court pronounce the case one of the most flagrant ever brought to the attention of juvenile authorities.

BALL GAME TO BE BROADCAST

KHJ to Put Wrigley Field Contests on Air

George Muse, Violinist, Gives Classic Selections

Scot Baritone and Spanish Serenaders at Studio

BY DR. RALPH L. POWER

The best announcement in radio circles for several weeks is the fact that KHJ will broadcast the ball games daily at 2:15 and Sundays at 1:30, direct from Wrigley Field.

The first game to be broadcast will be on the air promptly at 2:15 tomorrow, and the radio audiences will be assured of interesting broadcast in the field of baseball until the closing game on October 2.

No matter what time of day a radio station comes on the air, it is possible to build up a good-sized audience. The afternoon hours are of particular interest to the women, many of whom do not care to leave their homes and go to the park. Radio will bring the games right to the homes and all of the interesting side lights, descriptions of the affair play by play, amusing incidents happening on the field, bits of humor about the audience and everything that will make the ball game broadcast of continual interest will be on the air via KHJ.

The games will be given to the audience of the air through the courtesy of Mr. Wrigley, who is just as much a radio enthusiast as he is a ball fan.

VIOLINIST PLEASES

George Muse, violin soloist, gave his first KHJ concert on last night's broadcast with a pleasing recital featuring compositions of music from old masters. The program well demonstrated his mastery of the violin and the brilliance with which he interpreted violin literature.

A former pupil of Frederick Jackson and Franklin Booth, Mr. Muse has traveled all over this country and continental Europe in recitals.

Of more than passing interest was that part of the program introduced by Ina Stres in a continuity of poems, songs and stories of cowboy life. She has collected cowboy folk songs, ballads and melodies for the past five years, and has amassed a splendid collection which will soon be published under the title, "Songs of the Open Range." Her broadcast was a bright spot on the evening's entertainment feature.

SCOTCH BARITONE

Thomas Ferguson, Scottish baritone, sympathetically presented "Jean," by Burleigh, and "Invictus," by Huhn, and Werra Schuster, visiting soprano from Chicago, offered solo numbers by Del Riego, Tschaikowsky and others.

Blanca Flor with her Spanish Serenaders interspersed the broadcast hour vocal numbers with their snappy string music. This group will be heard at the forthcoming radio show when KHJ entertainers take part in the program.

On the children's hour Keith Kennedy gave an interesting radio chat about boomerangs. The city playground department harmonica band gave its usual Tuesday concert and Baby Jeanette James gave a dialogman and a Bond poem. Others on the juvenile hour included Marguerite Bringham, in popular songs; Betty Jane Uhl, child pianist, and Georgs Kerr, mandolin player.

Liquor Stock Owner Jailed

Domini Asenditti, 45 years of age, who described himself as a trustee of the Italian Mission, was taken into custody by Sergt. Simpson and Officers Brown and Halleck of the Georgia-street division vice squad last night and booked on a charge of Wright Act violation and possession of liquor-making apparatus. The officers found a still and about 1000 gallons of liquor in the cellar of the prisoner's home, 1617 Trinity street, they asserted.

Spray Gun Blast Maims Gardener

When a spray gun exploded in his hand, William Rodd, 40 years of age, a gardener, of 522 Marguerite street, narrowly escaped having his tongue torn out. The accident occurred at 3140 Sunset Boulevard. Rodd was engaged in spraying trees at the time. He was taken to the Receiving Hospital where it was found a sharp piece of the spray gun had cut through his right cheek and almost severed his tongue.

SARCASM

"Do you know," remarked young Simpson, "a fellow mistook me for a waiter, tonight? Of course, he apologized."

"Did the waiter accept it?" said his friend.—[Toronto Globe.

QUIZ ON IN NEW STAGE LINE CASE

Wire from Five Stranded Travelers Starts Inquiry by Authorities Here

Acting on receipt of a telegram from five angry passengers of a Los Angeles stage plying between here and New Orleans, stranded in a small Texas town, Deputy City Prosecutor Concannon yesterday instigated an investigation of the local office of the stage concern.

H. E. Finn, travel manager of the Lloyd's Travel Bureau, 308 South Hill street, was brought before Concannon for questioning. Frank Lloyd, the asserted stage line owner, believed to have left the city, is being sought, the prosecutor said.

Concannon stated that he will have Finn in his office today with the view of issuing a complaint against him for obtaining money under false pretenses. At the same time, Inspector Bassett of the Board of Public Utilities announced that warrants will be issued against owners of the stage line for operating busses without first obtaining a permit. Within the past two weeks three operators have been fined for such violations, Bassett said.

According to the telegram received here, the bus, contracting to take the passengers to New Orleans, broke down at McLean, Tex., and the driver refused to refund the money or continue the journey.

PRINCESS BOB GOES

The Queen of Spain has had her way again. Her second daughter, the Infanta Christina, is letting her hair grow to its full length.

It was bobbed in her childhood, but as the infanta approached her debut into society, made this year, her mother thought it would be more fitting if the daughter permitted her locks to grow.

The "battles royal" between mother and daughter still rage, not only in the royal family of Spain, but in other royal families of Europe. It is understood here among friends of the royal family that the Infanta Beatrice, the elder daughter of the King and Queen, will allow her hair to grow, if her sister princess finds that it is a success.—[Exchange.

New Hatcher at Hammond to Be Built This Fall

HAMMOND, Aug. 30.—Plans being under consideration for construction of a new and fully equipped fish hatchery, costing about $10,000 this fall, the old fish hatchery at Hammond operated by the State for the past eight years, has been permanently closed.

The local plant has been condemned for further use. The closing now marks one of the most successful seasons since the hatchery was established, according to Ed Clessen, in charge since 1920. More than 300,000 trout fry have been hatched at the plant and sent to stock streams of the mountain areas.

It is declared the new hatchery will be erected on the site of the present structure. Another location tried out last year proved unsuccessful.

The new hatchery will have a capacity of 1,500,000 fry at one time. Construction is expected to start this fall and the $10,000 has already been appropriated for the purpose. Clesson will again act as superintendent.

Santa Ana Gets Trio Who Failed to Enter Pleas

SANTA ANA, Aug. 30.—Three persons were arrested in Los Angeles by State Traffic Officer F. G. Yoder on charges of failure to appear in the Santa Ana Justice Court in answer to speed summons given them on the road. All three made bail for their appearance here at a later date.

Harry B. Cameron, 737 West Twenty-eighth street, Los Angeles, posted bail of $500 for his appearance here on September 6. He originally was arrested on a reckless-driving charge and gave Justice Morrison a check for $200 as his fine. The justice was unable to realize the cash on the check, it was said. R. E. Harrington, wanted here on a speed charge, which dates since last May, posted bail of $100, when he was arrested yesterday. He is to appear September 23 to answer to a charge of speeding on the Buena Park Road. Roy Schoenhut, 1145 Poinsettia street, Los Angeles, was wanted here several weeks ago on a speeding charge. He failed to appear, it was charged, and when arrested made bail of $250 for his appearance in Justice Morrison's court on September 12.

BANNING PLANNING TO GIVE SPEED EXHIBIT

BANNING, Aug. 31.—With the arrival here today of Harry Hooker, famous designer of racing cars, all spectators and visitors were admitted to the speedway here to see the famous "99" racing car, which is the fastest automobile in the world. Mr. Hooker has signed Bill Spence to drive the famous mount in the races to be held here Monday afternoon, Labor Day. The program is being staged by the Banning American Legion Post. Seven races are down for the afternoon, ranging from two to forty laps. One of the novel features will be a junk car race immediately after the main event. Arrangements are being made by the Legionnaires to welcome thousands of Southland's citizenry during the three-day celebration.

NEW JERSEY LUMBER DEALERS DUE TODAY

Returning home from their convention at Seattle, more than 100 members of the New Jersey delegation of the National Retail Lumber Dealers' Association will arrive in Los Angeles this morning at 9:30 o'clock on a special Southern Pacific train. The lumbers dealers' special will remain here until late tomorrow before continuing east.

CRANE TO BE HONORED

Many celebrities are expected at the Breakers Club tonight to honor Dr. Frank Crane, writer. Jack Laughlin will aid in the evening's entertainment. Sammy Cohen and Ted McNamara, film actors, will be hosts at the club tomorrow night at a dinner in honor of Will Rogers. Besides numerous players who will be present, practically all the employees of the studio will join the celebration.

WOMAN PASSES CENTURY MARK

Mrs. Alma Piatt, Monrovia, Celebrates Today

One of Two Survivors of "Hundred Club"

Last Friday Marked Passing of Third Member

MONROVIA, Aug. 30.—Looking backward over five-score years with a mind that is bright and clear, Mrs. Alma Piatt will celebrate her 100th birthday tomorrow at her little home, 718 South Canyon Boulevard, and it is expected to be the happiest of her lifetime through plans completed today by her friends.

Hundreds of birthday greetings and gifts are expected to pour into the residence of this cheery little woman from friends all over Southern California as the result of announcements broadcast personally through newspapers and over the radio by Monrovia Elks' Lodge 1427, which, for several years, has undertaken to lift worldly cares from the shoulders of this aged Monrovian.

Gifts of money or merchandise should be directed to Henry J. Weber, 252 North Ivy avenue, State chairman of the Elks' social and community welfare committee.

Millin G. Potts of Pasadena, president of the California State Elks' Association, and a large group of Pasadena lodge men will extend their greetings to the centenarian.

Mrs. Piatt's modest residence is expected to be a mecca for hundreds of friends who plan to visit her in person and extend birthday greetings. Mrs. Piatt and Jackson Smith of Duarte, who celebrated his 100th birthday on February 11, last, now comprise the "100 Club," the third member, Mrs. Maria De Jesus Marron, who was 100 years of age on February 20, last, having died last Friday.

ROAD DIRECTORS TO PLAN EXPENDITURES

SANTA BARBARA, Aug. 30.—Directors of the Maricopa joint road district, which plan a new road from Maricopa, Kern county, to Ventura and Santa Barbara, to relieve congestion over the Ridge Route and to afford the San Joaquin Valley another outlet to the sea, will meet in Ventura tomorrow to plan expenditures of more than $200,000 this year. Since State funds have become available for the work, together with funds pledged by the three counties involved, plans have rapidly been completed for the early undertaking of the work.

OWNER OF WOMAN'S CLOTHING SOUGHT

CALEXICO, Aug. 30.—Laundries in Southern California cities are being queried in an attempt to identify laundry mark 7850 on a woman's garment found on the banks of the Alamo River at Holtville yesterday. Persons searching for the body of Raymond Stewart drowned Saturday night, when his car missed the Holtville bridge yesterday, found garments of a woman of medium stature who evidently dressed well and Holtville police have been trying to unravel the mystery.

RIVER DYNAMITED IN SEARCH FOR BODY

CALEXICO, Aug. 30.—County and city authorities at Holtville are today dynamiting the deep holes in the Alamo River in an attempt to recover the body of Raymond Stewart, drowned Saturday night, when his car plunged off the embankment of the main highway into water twenty feet below.

WOMAN NEAR DEATH

SANTA BARBARA, Aug. 30.—Mrs. Rose Adair, 45 years of age, of Orcutt, is near death in a Santa Maria hospital following an accident early this morning on the State highway north of here, in which she was impaled upon a guard rail when the automobile driven by her son, Fred Adair, left the road. It was necessary to saw away the rail before the injured woman could be released.

TRAFFIC FATAL TO TWO

Woman Leaps From Overturning Car to Death and Child Crushed Under Truck in Street

FRESNO, Aug. 30.—Caught under a capsized motor car as she leaped from it to prevent injury when it overturned, Mrs. Hazel Atkinson, wife of a Clovis rancher, was instantly killed on Copper King Road near Academy today.

Mrs. Atkinson was on the way to visit her mother in Watts Valley, in a car driven by George Shannon, an employee of Mrs. Atkinson's mother, when the car became unmanageable on a steep grade and started to roll backward down the hill. Mrs. Atkinson leaped from the car just as it overturned, and was caught beneath it.

Shannon stayed with the vehicle in its roll down the grade and escaped unhurt except for superficial injuries. Mrs. Atkinson is survived by her husband and a small daughter.

CHILD CRUSHED

NEWPORT BEACH—Death claimed its third street accident victim in as many weeks at Newport Beach today, when Mary Loraine Eckart, 16-months-old daughter of Mr. and Mrs. Carl Eckart, owners of a service station at Fifteenth street and Central avenue, was run over by a bread truck driven by Nathan E. Tevens of Santa Ana.

The baby was playing in front of the big machine when the driver, unaware that the little girl was in front, started down Central avenue.

Broken and bruised, the body of the little girl was taken to the Newport Beach Hospital, where an inquest was conducted shortly after the accident. The Coroner's jury rendered a verdict of accidental death, testimony showing that Tevens had no knowledge that the baby was playing in front of his machine.

APPLESTILL CLEARED

REDLANDS—Charges of failing to stop and give aid when his car struck another were dismissed against Chief of Police C. H. Applestill by Justice C. G. Potter today on request of the District Attorney, when it was learned that Applestill was not driving the car.

Charges were placed against Herbert Applestill, son of the Chief, and his hearing continued until September 12, next, on the charge. Chief Applestill told the District Attorney he heard a holler, looked back and saw Mrs. Josephine Lewis's car on the road. He thought nothing had happened and did not tell his son to stop. At Banning his car was held up by officers and he was told that the car of Mrs. Lewis had been wrecked. Mrs. Lewis says that undoubtedly the Chief should have known he hit her car.

BEGS TIME TO THINK

REDLANDS—Brought from the San Bernardino County Hospital to the City Recorder's Court in Redlands to face a charge of reckless driving, Al Ogrey begged Judge C. G. Potter to give him more time to figure out how he managed to steer his car around a curve at forty-five miles an hour, crash into another car and crawl out of the wreckage alive after his own machine had turned over twice.

All this occurred at the junction of Brookside and West Citrus avenues, according to Patrolman John M. Stocker, who arrested the Mexican on a charge of reckless driving and who sent both Garcia and his companion, Philip Martinez, to the Redlands Hospital for first aid, after which they were taken to the County Hospital. Both sustained deep cuts and bruises.

Garcia's car crashed into an automobile owned and driven by R. G. Stanborough, which was badly damaged. Judge Potter gave the arrested man until 10 a.m. Wednesday to enter his plea of guilty or not guilty.

PASADENA GARBAGE HEAD DISCHARGED

PASADENA, Aug. 30.—Lawrence Williams was discharged from his position as head of the municipal garbage department today by Clayton R. Taylor, chairman of the Board of City Directors and acting City Manager. He was dismissed "for the good of the service" after he had refused to resign, Taylor said. Williams was appointed two years ago after the former Board of Directors, newly elected at that time, discharged his predecessor. William had been active in supporting the candidacies of four new members, who are now out of office. Considerable controversy raged at that time, and there has been friction in the department.

DR. DEAN NAMED HEAD OF NEW SEMINARY

PASADENA, Aug. 30.—Dr. John Marvin Dean, who recently resigned as pastor of the First Baptist Church of Pasadena, has been appointed president of the Western Baptist Theological Seminary, which will open at Portland, Or., October 1, it was announced here today. He is now pastor of the Hinson Memorial Baptist Church at Portland and will continue to hold this post in addition to the other.

WILBUR'S DAUGHTER TEACHER AT LINDSAY

LINDSAY, Aug. 30.—Miss Edna May Wilbur, daughter of Curtis Wilbur, Secretary of the Navy and the Pacific Coast representative in the Cabinet of President Coolidge, has accepted a position on the Lindsay High School staff as instructor in English. Miss Wilbur is a graduate of Stanford University and has also had fifteen months' study in Paris. She has taught in schools of the Pacific Coast for several years and is considered quite an addition to the local faculty.

SHIP GRAIN IN BULK

CORCORAN, Aug. 30.—Grain in bulk is for the first time being shipped from the west side of Tulare Lake bed, sacking being discarded. A large amount of grain harvested by Frank Blakeley and his sons was stored in corrugated iron bins on the Blakeley ranches and this is now being hauled here for shipment. This way of handling the grain is said to be much less expensive than putting the grain into sacks.

STOEHR PROMOTED

PASADENA, Aug. 30.—Deputy City Attorney Frederick G. Stoehr was promoted to the post of assistant City Attorney today by the Board of City Directors, on the recommendation of City Attorney McAllaster. He has been connected with the legal department of the city for the last three years.

Attempt to Be Made to Limit Grape Shipping

FRESNO, Aug. 30.—In an attempt to further regulate shipments of fresh grapes to eastern markets from California, Donald D. Conn, managing director of the California Vineyardists' Association, will confer at Lodi, Modesto and Fresno Friday and Saturday with growers and shipper members of the association's clearing-house, it was announced at the association headquarters here today.

Conn will hold a public meeting of growers and shippers at Lodi Friday morning to discuss regulatory measures for tokay and other shipments from the northern district. He will attend a clearinghouse meeting at Modesto Friday afternoon and a similar meeting here Saturday.

The clearing-house today reported satisfactory co-operation of both clearinghouse members and nonmember shippers in the plan of suspending Thompson and Malaga shipments from Sunday to Thursday, to prevent oversupply on the eastern markets, and to hold up prices in these varieties, which have been declining steadily for about two weeks.

Kern Budgets Are Adopted as Submitted

BAKERSFIELD, Aug. 30.—Without a single change, budgets as published by the Board of Supervisors in their tentative report were passed today. These budgets will call for an expenditure of $4,992,625.50 for county government this year, exclusive of school costs, representing an increase of approximately $858,731.27 over last year's governmental costs. From $1.35 as the tax rate for last year on outside property, it is estimated that this year's tax rate will leap to a figure between $1.37 and $1.40 on every $100 of valuation.

The budgets were approved over the vehement objection of Supervisor J. O. Hart, who said that he objected to putting up a $150,000 addition to the County Hospital this year, when the plant had cost almost $1,000,000 to construct and was only completed a year ago. He also objected to putting another addition at the Stony Brook Tuberculosis Hospital, pointing out that an addition was completed there last year at a cost of $50,000.

Bakersfield Boy Will Turn Pro as Sky Jumper

BAKERSFIELD, Aug. 30.—Eddie O'Neill, 17-year-old employee of the Bakersfield Californian, afternoon newspaper, who has gained fame as the youngest parachute jumper in the west, has announced that he plans to make parachute jumping his profession. His first "pay" jump will be made on Labor Day at Maricopa airport, when he will leap from Ross Peacock's new monoplane at an altitude of 5000 feet and fall 3000 feet before jerking the release ring that opens his silk-pack type parachute. Eddie is buying his own chute, a standard Irvin type that is used by the United States air service, and after his Maricopa leap and a few more practice jumps he will enter the national championship parachute jumping contests to be held during the national air races at Spokane, Wash., in December.

COTTON PICKING TWO WEEKS BEHIND TIME

CALEXICO, Aug. 30.—Cotton picking and ginning in the territory of 110,000 acres in Lower California is fully two weeks later than last year, according to reports today from the four large gins at Mexicali. A total of only 153 bales has been ginned to date this year, whereas on September 4, last year, the season's total was 1031 and the year before 799. Most of the cotton ginned this season is last year's productions and volunteer but the new crop that has come in is reported to be of a very good grade. In some localities it is complained the flowers are dropping off in considerable numbers due to heat that was excessive two weeks ago. Picking will begin between September 10 and 15 in all districts.

DISABLED VETERAN CLAIMED BY DEATH

ARMONA, Aug. 30.—The remains of John M. Lewis, one of the sad human derelicts of the late World War, were laid to rest this afternoon in the family plot in the old Grangeville Cemetery, north of here. He was a disabled veteran, who died in the United States Army Hospital at Denver, Colo. His widow, Mrs. Emma Lewis, and the 3-year-old son of the couple, accompanied the remains from Denver back to the old California home of the couple. Lewis served in the Quartermaster Corps of the Army during the war and his interment was with full military honors.

MORE PAVING FOR SAN FERNANDO ROAD

VAN NUYS, Aug. 30.—At last San Fernando Road, between San Fernando and Burbank, a distance of nearly eight miles, is "to be fixed up." Plans for the widening and paving have been completed and turned over to District Engineer L. O. Turner, who in turn has given them to the City Attorney for approval. The project calls for asphaltic concrete pavement, fifty-five to sixty-five feet in width. It is expected that the improvement will go to ordinance within the next week. There is hardly a highway in Southern California that daily carries more traffic than the stretch now under project.

TONG MEMBERS FACE RETRIAL

Santa Barbara Chinese Get Another Chance

Returned from Penitentiary for Second Hearing

Convicted Once on Charge of Attempted Murder

SANTA BARBARA, Aug. 30.—A drawn jury venire was issued in the Superior Court of Judge S. E. Crow this morning for the trial on September 20, of Mock Ming Fat, Quang Shick and Joe Chuck, on charges of assault with a deadly weapon with intent to commit murder.

The three Chinese were convicted here early this year of attempting to commit murder with a deadly weapon, and served six months in San Quentin penitentiary before being returned here recently for a new trial.

A tong war which blazed up here resulted in an attempt upon the life of Yee Moon, secretary of a rival tong, by the three Chinese.

The new trial was secured by Joe Ford, Los Angeles attorney, because the judge who heard the trial refused to instruct the jury that the Chinese might be found guilty of assault with a deadly weapon without being guilty of assault with intent to kill. The defense attorney claims that his clients shot to frighten Yee Moon from tong activities rather than to kill him.

The Chinese were said to be the first to be sent to the penitentiary in connection with the Coast-wide tong war then in progress.

THREE INJURED BY SPEED-BOAT FLAMES

VENICE, Aug. 30.—Three persons were seriously burned at midnight last night when flames burst from the motor of a speed boat just as the operator, Capt. Tom Montes, threw in the ignition switch. Mrs. Jean Lane, 32 years of age, of Venice, was burned in the legs, the flames consuming her stockings. Capt. Monlas and Eddie Barry, his assistant, were also burned. Others in the party which had chartered the boat escaped. Venice fire fighters put out the fire with chemicals. The boat was just preparing to leave the pier for a speed trip off Venice. All were treated at the Venice Emergency Hospital, and sent to their homes.

ARIZONA CLERGYMAN CALLED TO FONTANA

FONTANA, Aug. 30.—Selection of Rev. C. A. Foreman of the First Presbyterian Church of Douglas, Ariz., as pastor of the Community Church here was announced today by the board of elders. Rev. C. A. Foreman occupied the local pulpit last Sunday. He succeeds Rev. B. B. Knapp, who resigned late last spring.

Mr. Forman presided at the Douglas church for almost seven years, previous to which time he was pastor of the First Presbyterian Church of Covina. The new pastor with his wife and two daughters will establish their home here this week. His daughters are students at Occidental College.

MERCHANTS WARNED

HUNTINGTON PARK, Aug. 30.—Police Captain Edwin Porter has instructed the members of the police department to notify all merchants to be on the lookout for lead dollars. A local business man called at the station bringing with him a lead coin of this kind, stating that it had been passed on one of his clerks. The coin seems to be perfect in all respects with the exception that it was lighter in weight than the ordinary silver dollar.

BADGE SURRENDERED

HUNTINGTON PARK, Aug. 30.—John Priestly, local police officer, has joined the ranks of ex-city officials of the police department. Mr. Priestly returned from his vacation yesterday and reported for duty in the morning. He states that Chief Applestill of the police department instructed him to see Mayor Blanchard and Councilman Jack Wood before resuming his official position. The officer stated that he guessed they wanted his badge, so he turned it into the chief of the department.

VISALIA NOW ON AIRWAY

Airport There Accepted by Government and Placed Under Federal Regulations

VISALIA, Aug. 30.—Visalia Airport has been placed on the main valley airway, in place of the proposed intermediate field three miles west of here, according to official action at Washington yesterday, word of which has been wired to Department of Commerce inspectors here. Instructions were issued to Inspector Curtiss to proceed at once to Pixley and lease another site for the beacon there.

Four beacon sites and the intermediary field site between Earlimart and Fresno will be abandoned, and new beacon sites chosen in order that Visalia Airport may be on the main air lane.

This change in routing which will throw the air-mail ships into the Visalia Airport followed recommendations made recently by W. T. Miller, inspector for the Department of Commerce on the Pacific Coast. After inspecting the local field and learning development plans, Mr. Miller made the recommendation, Washington officials having already asked such action if he considered the local airport possible.

"In abandonment of the 160 acres three miles west of Goshen, the Visalia Airport comes under government regulation as the officially selected airport between Bakersfield and Fresno.

The local field has had ninety-one different airplanes on it in a period a bit over two months.

An emergency landing field has been chosen near Earlimart in keeping with the government policy of establishing such fields every thirty miles, with beacons every ten miles in between.

A beacon is to be erected at once by the government on the Visalia Airport and the Visalia Chamber of Commerce will install regulation lighting equipment of the government for the field.

The local Chamber of Commerce has devoted special attention to development of the Visalia Airport this year, and has entertained a number of army flyers in Visalia and Giant Forest.

Kansas Flood Trapped Woman From Inglewood

INGLEWOOD, Aug. 30.—Ten feet of water in the cellar and the likelihood of ten feet more, and a starvation diet of canned beans, warmed on an electric toaster, was the experience of Mrs. Octavia Manning of the Centinela Insurance Agency, just returned from an eastern trip. She went to visit for a day Mr. and Mrs. E. L. Watkins of Salina, Kan., and floods delayed her there for ten days.

As the gas plant was put out of business by the flood, the only means of cooking was by electric current, hence the toaster and an electric percolator were kept busy.

"I never wish to see a can of beans again, or eat another sandwich," declared Mrs. Manning today, with emphasis. She was accompanied on her trip by her 4-year-old son Robert, who actually grew fat on starvation fare, and who will still eat beans if he has the opportunity, which there won't be in his mother's menage for some time to come.

Screen Prince Defiant in Quiz on Nationality

"You can't prove where I was born and so what are you going to do about it?" is the substance of a challenge given the Federal immigration officials in Los Angeles yesterday by a man described as Harry Gerguison, recently acclaimed in Hollywood as Prince Michael Romanoff of Russia. Gerguson had been called before the immigration officials to explain his claims of Russian royal blood and his presence in the United States without a passport.

"I neither affirm nor deny that I am Prince Romanoff," Gerguson said.

Immigration officials, however, believe the self-styled prince is Harry Gerguson. At least that is what government records from New York show. The records also disclose that Gerguson is a native of Cincinnati.

Ex-Champion of Ring Suspected of Being Insane

Ad Wolgast, former lightweight prize ring champion and conqueror of Bat Nelson, known as one of the most durable fighters who ever stepped into a ring, was committed to the psychopathic ward of the General Hospital yesterday for observation. He will have a hearing tomorrow before Judge Lambert and the Lunacy Commission.

The commitment was issued on the application of Deputy Sheriff Doyle, who said he was informed by Wolgast's friends that Wolgast showed signs of becoming violent. The former boxer, they said, had been "punch goofy" for several years, a form of insanity sometimes brought on by much battering. Wolgast is 39 years of age. Since his retirement from the ring he has been a protege of Jack Doyle, boxing impresario.

LAS VAQUERITAS CLUB PLANS ENTERTAINMENT

Las Vaqueritas Club, feminine division of the Vaquero Club of Plummer Park, will have an entertainment and dance in the park hall a week from Saturday, Mrs. Rodman Robeson, president, announced yesterday. The second fiesta, barbecue and dance of the Vaqueros Sunday afternoon and evening were featured by a remarkable display of horsemanship and trick and fancy riding, performed by a group of Russians in Cossack costumes. Bertram E. Morse was master of ceremonies and Capt. Eugene R. Plummer acted as host. Similar affairs are to be conducted by the club on the last Sunday of each month, commencing at noon and lasting well into the evening.

HEAVY TRUCKING PROTESTED

George A. Anderson and other property owners yesterday asked the City Council to prohibit heavy trucking on Valley Brink Road.

ANCIENT HUT OF SEAWEED FOUND

Latest Archaeological Find on Santa Cruz Island

Framed of Manzanita Poles and Whalebone

Expedition Abandoned Because of Early Sandstorm

SANTA BARBARA, Aug. 30.—Discovery of a round hut, built of matted seaweed, on Santa Cruz Island, one of the best archaeological finds of the Central California Coast in some time, was announced today by David B. Rogers of the Santa Barbara Museum of Natural History, upon his return from his latest field of exploration.

Mr. Rogers and his expedition examined seven of the 100 or more village ruins on Santa Cruz Island and six of the twenty-seven on desolate Santa Rosa Island. The expedition had planned to continue its excavations until October, but sandstorms lasting day and night for the past week have forced the men to abandon further explorations until next spring.

Up to this time only vestiges of huts which housed the Chumash Indians, had been found along the coast here, but the hut discovered had sunk into the ground and so preserved the supporting poles of manzanita, whalebone rafters and roof of matted seaweed. Seaweed, Mr. Rogers said, will remain after wood and bone have rotted away.

During his stay on Santa Rosa Island Mr. Rogers was conducted eleven miles inland by a cowboy of the Vail ranch to inspect villages situated in the heart of the island, which is almost inaccessible because of the character of the land and the lack of trails. During his trip, he and his guide sighted a herd of elk on one of the plateaus and a wild hog, which was captured.

The villages on Santa Rosa, according to Mr. Rogers, probably never will be excavated and explored because the artifacts could not be brought out even on horseback.

The interior of the island, in his opinion, has never been penetrated, except by the Indians, who formerly lived on the island, and a few of the Vail ranch cowboys.

SANTA ANA RANCHER DESTROYS HIMSELF

SANTA ANA, Aug. 30.—Raymond Morgenson, 27 years of age, ranch employee, committed suicide this afternoon by shooting himself through the head with a rifle at his mother's home, 922 Highland street. Police who were called to the house found the body of the man lying on the floor beside an open trunk. In the trunk was a mackinaw coat saturated with blood, which caused them to believe, they said, that Morgenson had stuck his head in the trunk when he fired the fatal shot. That Morgenson had been despondent over ill health for some time was a reason given by his mother, Mrs. Johanna Morgensen. He came to Santa Ana several days ago from Arcadia, where he had been employed on a ranch, she said. The man's sister, Miss Nettie Morgensen, a Los Angeles schoolteacher, also was in the house at the time. Coroner C. D. Brown took charge of the body and it was removed to the Winbigler Mission funeral home.

LOVE LORN SPARED TIRESOME JOURNEY

SANTA BARBARA, Aug. 30.—The road of love is rocky and long, County Clerk D. F. Hunt made this pronouncement today when he announced that he is completing plans whereby couples residing in the northern part of the county, eighty miles away, may be spared the second trip to the county seat after filing their intentions of marriage here. Mr. Hunt's plan is to permit his deputies in Santa Maria, Lompoc and other northern towns to fill out the marriage license blank for filing here after the contracting parties have personally appeared at the County Clerk's office here. Although Dist.-Atty. Ward has given an oral opinion that such a step will be legal, Atty.-Gen. Webb so far has ruled against such procedure.

CAMP CASE MAY BE REHEARD IN FRESNO

HANFORD, Aug. 30.—Due to sensational affidavits filed by defense attorneys alleging great public sentiments against their clients, it now seems certain that the famous Lee Camp murder case, known as the "windmill murder," will not be tried for the second time in Kings county, for the Superior Court judge of this county yesterday filed a notice giving his consent that the case be tried before another judge.

The first trial was before Judge Vansante, and the second will be, unless a change of venue is allowed, which is being strongly fought for by counsel for Jennie Laura Brown, John H. Tipton and Fred Mills, convicted of the murder.

ADVENTISTS PLAN PURCHASE

Permanent Site for Annual Camp Meetings Sought by Denomination Near Los Angeles

GLENDALE, Aug. 30.—Purchase of a permanent site on which to hold the annual camp meetings of the Southern California Conference of the Seventh Day Adventists is planned by the leaders of the denomination, it was stated today by Elder O. W. Reaser, chairman of the camp meeting committee.

The site at Glendale, he said, was considered, but the cost was found to be prohibitive, and several other locations are now under consideration. Elder Reaser declined to state where the site would be located but he added that it would be within thirty miles of Los Angeles and that at least forty acres of land would be needed.

Receipts taken in by the business office of the conference during the camp meeting have reached the figure of $10,300, it was stated today by S. Donaldson, secretary-treasurer. Of this sum $9400 was paid for the rent of tents, night collections, $1100; offerings at Saturday's meetings, $2200, and $6600 from the cafeteria and delicatessen.

One of the interesting characters at the camp meeting is Mrs. Mary A. Cooper, who assisted her father, William Benjamin Fosen, in entertaining Gen. John C. Fremont when Fremont visited the Fosen ranch near the Santa Ynez Mission when he was in California.

All-Year-'Round Farming

Agricultural activities in Southern California have no closed season. Summer and Winter, Spring and Fall, crops are harvested, seed is sown, fields are cultivated. It is natural that Los Angeles county leads the world in agricultural output, with its neighboring counties close behind. Whenever a well-paying farm, ranch, orchard or truck garden in Southern California changes hands, it is usually through the real estate columns of Times Want Ads.

WANT-AD RATES

EFFECTIVE JANUARY 1, 1927.

Rates per line insertion, 24 consecutive times, 21c Daily, 21c Sunday; 7 consecutive times, 25c Daily, 25c Sunday; 3 to 6 consecutive times, 25c Daily, 30c Sunday; ONE TIME, 35c Daily, 40c Sunday.

SITUATIONS WANTED, 7 or more consecutive times, 14c Daily, 16c Sunday; 3 to 6 consecutive times, 21c Daily, 25c Sunday; ONE TIME, 35c Daily, 40c Sunday. Advertisements in "LOST AND FOUND," "PAINTING, DECORATING, CARPENTERING," "DRESSMAKING," "MILLINERY," "HAIRDRESSING," "BEAUTY PARLORS," "MASSAGE" and "NURSES" are not classified as Situation Wanted advertisements and will be charged for at the General Want-Ad Rates. 24c Daily and 40c Sunday.

HEADINGS OF SPECIAL INTEREST: "SOCIETY MEETINGS," "PERSONALS," "PRIVATE INSTRUCTIONS," "STOCKS AND BONDS," "TREES," "IMPROVEMENT BONDS," "MONEY TO LOAN," "DIAMONDS & JEWELRY," "PHYSICIANS," "MEDICAL," "SANATORIUMS & MASSAGE." 28 consecutive times, 25c Daily, 31c Sunday; 7 to 27 consecutive times, 30c Daily, 36c Sunday; 3 to 6 consecutive times, 35c Daily, 40c Sunday; ONE TIME, 45c Daily, 50c Sunday.

EMPLOYMENT AGENCIES, MOTION-PICTURE ADVERTISING etc., under any classification, 30 consecutive times, 25c Daily, 32c Sunday; 7 to 29 consecutive times, 27c Daily, 34c Sunday; 3 to 6 consecutive times, 30c Daily, 40c Sunday; ONE TIME, 40c Daily, 50c Sunday.

Advertisements on rate-holder raise on application.

All advertising from outside of Southern California:

40 times, 25c Daily, 40c Sunday; 7 times, 30c Daily, 45c Sunday; 3 times, 35c Daily, 50c Sunday; 1 time, 45c Daily, 60c Sunday.

MINIMUM CHARGE 3 LINES.

To estimate the cost of want ads count 5 average words per line. Words containing more than 6 letters should be counted two words.

Advertisers should retain receipts given by Times for payment of Want Ads, as no mistakes will be rectified without them.

Cancellation of advertisements before appearance cannot be guaranteed to take effect until after the advertisement has appeared once. Countermands must be received by 1:30 p.m. for daily issue and 6 p.m. Friday for Sunday issue.

Rates for display advertising will be furnished on request.

The Times will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one time.

The inadvertent omission or incorrect publication of advertising will be rectified only by cancellation of the charge made for the service rendered.

Friday, 9 p.m., is closing hour for the early issue of the following Sunday.
